The board of directors of the Company (the “**Board**”) wishes to inform the shareholders of the Company and potential investors that having assessed the currently available information, the Group is expected to record a consolidated net loss attributable to the shareholders of the Company for the six months ended 30 June 2024, with a range of RMB18,000,000 to RMB20,000,000. The Board believes that the Group's financial performance for the six months ended 30 June 2024 has been mainly affected by:

- (1) decrease in gross margin due to the decrease in product selling prices and the market competition; and
- (2) the Group's new production plant in Dalian City started operation in the fourth quarter of 2022 and the second phase production line has just begun to start operation in the second quarter of 2024. Its production lines are still under adjustment to achieve the targeted output and costs. It is not profitable yet and has a negative impact on the Group's overall gross profit margin. The Board expects that after the adjustments, the production lines of the Dalian plant will reach the planned production volume and costs, and its operating conditions will gradually improve, eventually becoming the growth point of the Group.

As the Company is still in the process of finalising the results of the Group for the six months ended 30 June 2024, the information contained in this announcement is a preliminary assessment by the Board with reference to the management accounts of the Group and the information currently available to the Company. Such information has not been audited or reviewed by the Company's auditor and/or the audit committee. Further details of the Group's performance will be disclosed when the Group's results for the six months ended 30 June 2024 are announced, which is expected to be before end of August 2024.
