As one of the twelve nationwide joint-stock commercial banks, CZBank officially commenced business on August 18, 2004, with its head office in Hangzhou, Zhejiang Province. CZBank is the 13th "A+H" listed bank in China. Since its opening, CZBank has always gained a toehold in Zhejiang and steadily developed its businesses worldwide, and has developed into a high-quality commercial bank with a solid foundation, strong profitability and prudent risk control.

Under the guidance of the vision of being "a first-class commercial bank", CZBank comprehensively establishes a five-word ecosystem, namely "integrity, simplicity, professionalism, cooperation and honesty", vigorously carries forward the "four dos spirit", exercises the three-word primer of "goodness, intelligence, and diligence", adheres to its twelve-word operation approach of "consolidating corporate foundation, adjusting corporate structure, controlling corporate risks, increasing corporate profitability", and practices financial services for good. It also sticks to intelligent operation, develops assets with low sensitivity to economic cycle as a ballast stone and implements the "321" operation strategy in a steadfast manner. Based on the main line of digital reform, CZBank has conducted a customer-oriented, comprehensive and coordinated reform in all aspects, while taking "deepening the development in Zhejiang" as its first priority, launching brand-new wealth management, and leveraging the simultaneous and comprehensive synergistic development of the five major business segments, namely great retail, great corporate, great investment banking, great asset management and great cross-border. CZBank has implemented the four major consolidations, namely, "customer foundation, talent foundation, system foundation and investment and research foundation", embarking on a new journey of high-quality development.

In the first half of 2024, CZBank's operating income was RMB35.295 billion, representing a period-on-period increase of 6.16%; net profit attributable to shareholders of the Bank was RMB7.999 billion, representing a period-on-period increase of 3.31%. As at the end of the reporting period, the total assets were RMB3.25 trillion, representing an increase of 3.27% as compared with that at the end of last year, of which total loans and advances to customers were RMB1.81 trillion, representing an increase of 5.59% as compared with that at the end of last year; the total liabilities were RMB3.05 trillion, representing an increase of 3.31% as compared with that at the end of last year; the total liabilities were RMB3.05 trillion, representing an increase of 3.31% as compared with that at the end of last year; the non-performing loan ratio was 1.43% and allowance to non-performing loans was 178.12%; the capital adequacy ratio was 12.86%, representing an increase of 0.67 percentage point as compared with that at the end of last year; the end of last year; the ord flast year; the ord flast year; the end of last year; the core tier-one capital adequacy ratio was 8.38%, representing an increase of 0.16 percentage point as compared with that at the end of last year.

As of the end of June 2024, CZBank has established 350 branch outlets in 22 provinces, autonomous regions, municipalities directly under the Central Government and the Hong Kong Special Administrative Region, effectively covering Zhejiang, where its headquarters are located, the Yangtze River Delta, Guangdong-Hong Kong-Macao Greater Bay Area, Bohai Rim, Economic Zone on the Western Coast of the Taiwan Straits and certain areas in the Midwestern China. In the "Top 1000 World Banks 2023" ranking by The Banker, U.K., we ranked 87th in terms of tier-one capital. China Chengxin International gave CZBank the highest AAA corporate credit rating among financial institutions.

# DEVELOPMENT STRATEGIES AND CORE COMPETITIVENESS

By adhering to the concepts of guided by Party building and intensifying cultural forces brings success, thoroughly keeping the philosophies of "financial services for good" and "intelligent operation" in mind, firmly implementing the "1314N" strategic system and comprehensively advancing the new journey of high-quality development, CZBank strives to develop itself as a demonstration enterprise in terms of high-quality development in finance.

### (I) DEVELOPMENT CONCEPTS

Ecosystem: Establish a five-word ecosystem, namely "integrity, simplicity, professionalism, cooperation and honesty".

Development: Practice the three-word primer of "goodness, intelligence and diligence" and make efforts on high-quality development.

Practice: Adhere to the keynote of strictness and develop the "four dos spirit" (do it, do good, do it well and do well in it).

### (II) STRATEGIC SYSTEM

The Bank is committed to implementing the 1314N strategic system:

**One general principle of development:** start a new journey of high-quality development with the vision of being "a first-class commercial bank".

**Three major goals:** first-class social influence with positive behavior, first-class professional competitiveness in the industry, and first-class corporate cohesion of common progress and prosperity.

**One operation approach:** comprehensively implement the twelve-word operation approach of "consolidating corporate foundation, adjusting corporate structure, controlling corporate risks and increasing corporate profitability".

**Four strategic focuses:** introduce systematic digital transformation, deepen comprehensive development in all aspects, seek synergetic development of all five segments and embark on a new journey of wealth management.

**Numerous strategic measures:** stick to intelligent operation, develop assets with low sensitivity to economic cycle as a ballast stone and build a first-class operation system for high-quality development; win the four major battles, namely minimizing risk, expanding revenue, stabilizing stock price and introducing strategic investment, promoting the high-quality development; and make the four major breakthroughs of customer foundation, talent foundation, system foundation, and investment and research foundation, consolidating the foundation for high-quality development.

## DEVELOPMENT STRATEGIES AND CORE COMPETITIVENESS

### (III)CORE COMPETITIVENESS

**Clear and specific strategic positioning.** The Company has always adhered to General Secretary Xi's 99-word important instruction to CZBank as a guideline, and has taken the vision of being "a first-class commercial bank" as general principle. We have clarified the 12-word operation approach of "consolidating corporate foundation, adjusting corporate structure, controlling corporate risks, increasing corporate profitability" and the four strategic focuses of "digital reformation, deepening development, five major segments, and wealth management" and practice the three-word primer of "goodness, intelligence and diligence". The implementation is clear with a remarkable operating result.

**Sound and organized corporate governance.** The Company strengthens the establishment of modern corporate systems in all aspects and has improved the corporate governance level continuously with better governance systems. The Board of Directors, the Supervisory Committee and General Meetings and its Senior Management with specified and definite duties and responsibilities have formed a corporate governance structure appropriate for the Company. A three-tier capital structure comprising central state capital, local state capital and private capital have been established with a more stable and diversified equity structure. Through standard information disclosure processes, we have improved the quality of information disclosure continuously.

**Unique regional advantage.** The headquarters of the Company is located in Zhejiang Province which boasts strong economic foundation, high market-oriented system and mechanism, sound legal and regulatory environment, outstanding industrial cluster advantage, and complete urban system. The operating strategy of the Company is in line with the resource advantage and development plan of Zhejiang Province, so "deepening the development in Zhejiang with services nationwide" naturally enjoys excellent regional advantage and external environment.

**Improving business system.** The Company has focused on the coordinated development of its five major business segments, namely great retail, great corporate, great investment banking, great asset management and great cross-border, providing customers with comprehensive, three-dimensional and systematic financial services to achieve the diversified operation, global layout, comprehensive services and high-quality development. In particular, its professional service ability in many fields such as supply chain finance, intelligent manufacturing services, science and innovation finance, and small and micro enterprise business has been highly recognized by the market and customers.

**Prudent and steady risk management.** Oriented with serving the real economy, the Company adheres to a prudent and healthy risk appetite and the principle of "small and diversified" in granting credit in an appropriate manner, builds an asset structure with low sensitive assets of economic cycle as ballast stone, implements a distinctive risk control officer assignment system, and continuously improves the risk management system to maintain stable quality of assets.

# DEVELOPMENT STRATEGIES AND CORE COMPETITIVENESS

**Financial technology with distinctive edges.** The Company has systematically initiated the digital reform, built the "185N" reform system architecture, launched the "Digital Intelligence CZBank" (數智浙 銀) brand and has taken the lead in exploring the deepened integration of the cutting-edge technologies with banking business, so as to build several major digital applications with CZBank identification and competitiveness in the industry.

Scientific and reasonable talent reserves. The Company strengthens the construction of its cadre team by comprehensively implementing the "123 Talent Plan" (123人才計劃) of CZBank. The management of the Company has broad strategic vision and extraordinary business management capability, as well as extensive experience in business operation, financial management, risk control and information technology. The employees of the Company are young, energetic, highly – educated with strong professional competence.

**Refreshed corporate culture.** The Company adheres to the cultural concept of "uprightness and goodness, and financing to all parties" and the entrepreneurial spirit of "seeing the action, seeing the heart, and seeing the future", takes the "awe, gratitude, integrity, responsibility" as shared value and the "CZBank Motto" (《浙銀行訓》), "CZBank Song" (《浙銀之歌》) and "CZBank Convention Version 2.0" (《浙 銀公約2.0版》) as a cultural consensus, takes "service culture, compliance culture, excellence culture and harmony culture" as basic cultural elements and implements the four key projects, namely culture rooting, culture nourishing, culture shaping and culture promotion, thus building the "four beams and eight pillars" of the Bank's corporate culture system as well as building the two cultural brands of "being the advocate and practitioner of happy life" and "being a bank popular among young people".

**Innovation-led concept of "financial services for good".** The Company fulfills the mission of "national priorities" in finance, reshaping financial logic based on social value. Led by the concept of financial services for good, the Company proactively supports the "financial consulting system", with the launch of CSGS and implements the trust project for "financial services for good". In addition, we practice the intra-county comprehensive financial ecological construction and acts as the "financial army" of the government, the "financial family doctor" of enterprises and the "financial consultant" of residents, exploring a new paradigm for Chinese-style modernization of financial services.

#### Notes:

- (1) Basic earnings per share attributable to shareholders of the Bank = Net profit attributable to shareholders of ordinary shares of the Bank (excluding net profit attributable to other equity instruments of the Bank) divided by weighted average number of ordinary shares outstanding. The Bank completed the A-share right issue and the H-share right issue on June and July 2023, respectively. As a result of the Right Issue, the earnings per share for the first half of 2022 have been recalculated.
- (2) Return on average total assets = Net profit divided by the average balance of total assets at the beginning and at the end of the period.
- (3) Return on average equity = Net profit attributable to shareholders of ordinary shares of the Bank (excluding net profit attributable to other equity instruments of the Bank) divided by average balance of equity attributable to shareholders of ordinary shares of the Bank at the beginning and at the end of the period (excluding other equity instruments).
- (4) Cost-to-income ratio = Operating expenses (excluding taxes and surcharges) divided by operating income.
- (5) Net assets per share attributable to shareholders of the Bank = (Equity attributable to shareholders of the Bank minus other equity instruments) divided by the total number of ordinary shares at the end of the period.
- (6) Since the 2023 annual report, the Bank has calculated the non-performing loan ratio and allowance to total loans in accordance with the Guidelines for the Calculation of Major Financial Indicators in China's Banking Industry (Yin Xie Fa [2023] No. 34) (《中國銀行業主要財務指標計算指引》(銀協發[2023]34號)) issued by the China Banking Association, where: Non-performing loan ratio = Balance of non-performing loans divided by total loans and advances to customers (excluding interest accrued).
- (7) Allowance to non-performing loans = Balance of the allowance for ECLs of loans divided by balance of non-performing loans; allowance to total loans = Balance of the allowance for ECLs of loans divided by total loans and advances to customers (excluding interest accrued). There is no difference between the indicator for the Group and the Bank. According to the Notice on the Regulatory Requirements on Adjusting Allowances for Loan Impairment Losses of Commercial Banks (Yin Jian Fa [2018] No. 7) 《關於調整商業銀行貸款損失準備監管要求的通知》(銀監發 [2018]7號)), the regulatory policy of differentiated dynamic adjustment of allowances was practiced for joint-stock banks. The regulatory standards for allowance to non-performing loans and allowance to total loans appropriate to the Group are 140% and 2.1%.
- (8) Since 1 January 2024, the Group calculates the capital adequacy indicators in accordance with the requirements under the Administrative Measures for the Capital of Commercial Banks (No. 4 Order [2023] of National Financial Regulatory Administration) (《商業銀行資本管理辦法》(國家金融監督管理總局令2023年第4號)).

<sup>\*</sup> Annualized return rate.

### EXPLANATION OF DIFFERENCES BETWEEN FINANCIAL STATEMENTS PREPARED UNDER DOMESTIC AND INTERNATIONAL ACCOUNTING POLICIES

The net profit attributable to shareholders of the Bank for the reporting period ended June 30, 2024 and the equity attributable to shareholders of the Bank as at the end of the reporting period presented in the financial statements prepared by the Group under the China Accounting Standards are the same with that presented in the financial statements prepared by the Group under the International Financial Reporting Standards.

### (I) ANALYSIS OF OVERALL OPERATION PERFORMANCE

During the reporting period, the Group earnestly implemented the decisions and deployments of the Central Committee of the Communist Party of China, the State Council and the Zhejiang Provincial Party Committee and Provincial Government. Under the guidance of the vision of being "a first-class commercial bank", the Group adhered to the twelve-word operation approach, practiced financial services for good, deeply promoted the four major strategic priorities, stuck to intelligent operation strategy, developed assets with low sensitivity to economic cycle as a ballast stone, implemented the "321" operation strategy in a steadfast manner, focused on the main line of digital reform, and conducted a customer-oriented, comprehensive and coordinated reform in all aspects, thereby advancing its high-quality development to a new stage.

**Steady increase of business scale.** Adhering to the fundamental purpose of providing financial services to the real economy. As at the end of the reporting period, total assets of the Group amounted to RMB3,246.610 billion, representing an increase of RMB102.731 billion or 3.27% as compared to that at the end of last year, of which total loans and advances to customers amounted to RMB1,812.163 billion, representing an increase of RMB95.923 billion or 5.59% as compared to that at the end of last year. Striving to enhance the stability of liabilities and improve the quality of liabilities. Total liabilities amounted to RMB3,052.236 billion, representing an increase of RMB97.934 billion or 3.31% as compared to that at the end of last year, of which customer deposits amounted to RMB1,938.479 billion, representing an increase of RMB69.820 billion or 3.74% as compared to that at the end of last year.

**Steady improvement in operating quality and profitability.** Firmly promoting 321 revenue expansion with comprehensive empowerment by intelligent operation. During the reporting period, operating income of the Group amounted to RMB35.295 billion, representing a period-on-period increase of RMB2.047 billion or 6.16%, of which net interest income amounted to RMB23.642 billion, representing a period-on-period decrease of RMB327 million or 1.36%, and net non-interest income amounted to RMB11.653 billion, representing a period-on-period increase of RMB2.374 billion or 25.58%. Net profit attributable to shareholders of the Bank amounted to RMB7.999 billion, representing a period-on-period increase of RMB256 million or 3.31%.

**Positive trend in asset quality.** Strengthening the management and control of financial risks and improving risk-resistance capacity. As at the end of the reporting period, the non-performing loan ratio was 1.43%, representing a decrease of 0.01 percentage point as compared to that at the end of last year; allowance to non-performing loan ratio was 178.12%, representing a decrease of 4.48 percentage points as compared to that at the end of last year; the allowance to total loans ratio was 2.54%, representing a decrease of 0.09 percentage point as compared to that at the end of last year.

**Slight increase of capital adequacy ratio.** Continuing to optimize the business structure and strengthen the management of capital adequacy. As at the end of the reporting period, the capital adequacy ratio of the Group amounted to 12.86%, representing an increase of 0.67 percentage point as compared with that at the end of last year. The tier-one capital adequacy ratio amounted to 9.68%, representing an increase of 0.16 percentage point as compared with that at the end of last year, and the core tier-one capital adequacy ratio amounted to 8.38%, representing an increase of 0.16 percentage point as compared with that at the end of last year.

### (II) ANALYSIS OF FINANCIAL STATEMENTS

#### 1. Analysis of Consolidated Statement of Profit or Loss

During the reporting period, the Group achieved a net profit attributable to shareholders of the Bank of RMB7.999 billion, representing an increase of 3.31% on a period-on-period basis; the return on average total assets was 0.52% and the return on average equity was 9.78%. Operating income was RMB35.295 billion, representing an increase of 6.16% on a period-on-period basis, including net interest income of RMB23.642 billion, representing a decrease of 1.36% on a period-on-period basis; net non-interest income of RMB11.653 billion, representing an increase of 25.58% on a period-on-period basis. Operating expenses were RMB10.627 billion, representing an increase of 1.0.07% on a period-on-period basis; cost-to-income ratio was 28.91%, representing an increase of 0.95 percentage point on a period-on-period basis. Provision for expected credit losses was RMB14.927 billion, representing an increase of 5.01% on a period-on-period basis. The income tax expense was RMB1.498 billion, representing an increase of 6.02% on a period-on-period basis.

#### (1) Net interest income

During the reporting period, net interest income was RMB23.642 billion, representing a decrease of RMB327 million or 1.36% on a period-on-period basis, accounting for 66.98% of operating income. Interest income was RMB56.890 billion, representing an increase of RMB2.773 billion or 5.12% on a period-on-period basis; interest expenses was RMB33.248 billion, representing an increase of RMB3.100 billion or 10.28% on a period-on-period basis.

During the reporting period, net interest spread was 1.61%, representing a decrease of 34 basis points on a period-on-period basis; and net interest margin was 1.82%, representing a decrease of 32 basis points on a period-on-period basis. The main reasons were as follows: the Group proactively responded to the national policy guidance to provide benefits for the real economy, and continued to promote the reduction of corporate financing costs, thus the yield on interest-earning assets decreased by 36 basis points on a period-on-period basis. In order to actively respond to operation challenges, the Group continued to cultivate the core capability to obtain low-cost liabilities and optimize the debt structure, thus the cost of interest-bearing liabilities decreased by 2 basis points on a period-on-period basis.

#### Notes:

- (1) Change in volume represents the average balance for the reporting period minus the average balance for the same period of last year, multiplied by the average yield or average interest-bearing rate for the same period of last year.
- (2) Change in interest rate represents the average yield or average interest-bearing rate for the reporting period minus the average yield or average interest-bearing rate for the same period of last year, multiplied by the average balance for the reporting period.
- (3) Net increase or decrease represents interest income (expenses) for the reporting period minus interest income (expenses) for the same period of last year.

#### (2) Interest income

#### Interest income from loans and advances to customers

Interest income from loans and advances to customers was RMB40.954 billion, representing an increase of RMB1.434 billion or 3.63% on a period-on-period basis, mainly due to the fact the Group adhered to the fundamental purpose of providing financial services to the real economy, and increased credit investment in key areas such as manufacturing and green finance. During the reporting period, the average balance of loans and advances to customers was RMB1.78 trillion, representing an increase of 10.58% on a period-on-period basis.

#### Interest income from investments

Interest income from investments was RMB13.261 billion, representing an increase of RMB1.120 billion or 9.22% on a period-on-period basis, mainly due to the increase in the average balance of investments of 27.62% on a period-on-period basis.

#### (3) Interest expenses

#### Interest expenses on customer deposits

Interest expenses on customer deposits amounted to RMB19.936 billion, representing an increase of RMB836 million or 4.38% on a period-on-period basis, primarily due to the steady growth of the Group's customer deposits, the active guidance to expand low-cost deposits, and the continuous decrease in the interest payment rate of deposits. As at the end of the reporting period, the average balance of customer deposits was RMB1.83 trillion, representing an increase of 6.58% on a period-on-period basis; the interest payment rate of deposits during the reporting period was 2.19%, representing a decrease of 5 basis points on a period-onperiod basis.

Operating expenses amounted to RMB10.627 billion, representing an increase of RMB972 million or 10.07% on a period-on-period basis, primarily due to that the Group increased its investments in strategic focuses and financial technology. It continued to improve the efficiency of the use of financial resources by enhancing the level of refined management and relying on digital transformation to reduce costs and increase efficiency.

#### Loans and advances to customers structure by business type

Corporate loans and advances

The Group strengthened the construction of basic corporate customer base, continued to deepen the corporate customer credit cooperation, optimized and strengthened talent bank, science and innovation finance, energy finance, vigorously promoted the supply chain finance scenario, introduced competitive credit products to customers, and promoted the growth of the corporate loan business. As at the end of the reporting period, total corporate loans and advances amounted to RMB1,192.870 billion, representing an increase of 5.73% as compared to that at the end of last year.

Personal loans and advances

Focusing on household debt scenarios, the Group expanded its consumer loans, card installments and mortgage, explored online digital scenarios to expand the coverage and improve the quality of personal customers, strengthened cross line collaboration and linkage, and promoted the growth of the personal loan business. As at the end of the reporting period, total personal loans and advances amounted to RMB501.362 billion, representing an increase of 5.18% as compared to that at the end of last year.

#### Financial investments

The Group made better use of capital and optimized the structure of its investment portfolio to ensure the security of liquidity, and maintained the overall stability of the scale of financial investments. As at the end of the reporting period, balance of financial investments amounted to RMB1,013.766 billion, representing an increase of 1.31% as compared to that at the end of last year.

#### 4. Distribution of loans and non-performing loans by geographic region

As at the end of the reporting period, the region where the Group incurred a relatively large volume of non-performing loans was the Yangtze River Delta Region. Based on a continuous tracking of the development trends in the macro economy and the industry, and taking into account economic characters of various regions, the Group continued to optimize the regional credit allocation to enhance the competitiveness of key regions, actively prevent regional risks and support regional development.

### (V) RISK MANAGEMENT

#### 1. Comprehensive risk management system

Adopting a "prudent and solid" risk appetite and adhering to the principle of "small and diversified" credit granting, under the guidance of the vision of being "a first-class commercial bank", the Company is committed to serving the real economy, following the concept of finance for good, and viewing scenario as the core. We keep improving investment and research capabilities, strengthening the credit-guidance, optimizing asset allocation, and strengthening customer bases. The Company also strengthens the risk prediction, enhances the risk management of the whole process and the risk control of key areas, consolidates credit foundation management, and improves post-loan monitoring system and mechanism. We also strictly control the risk of new business and accelerate the disposal of existing risk assets to maintain stable asset quality, deepen the application of financial technology to improve the digital risk control system, create an intelligent risk control system to continuously enhance the ability of forward-looking identification and control of risks. The Company endeavors to promote the transformation of risk control logic from gatekeeping to accompanying, aiming to enhance the ability to manage, guide and control risk management, thus safeguarding the high-quality development of the Bank as a whole.

The Board of Directors takes the ultimate responsibility for comprehensive risk management; the Supervisory Committee is responsible for supervision of comprehensive risk management; and the Senior Management is responsible for implementing comprehensive risk management. The Company establishes the position of chief risk officer. The Senior Management has established special committees including the Risk Management and Internal Control Committee, Asset and Liability Management Committee, Credit Review Committee, Asset Risk Classification Review Committee and Business Continuity Management Committee.

The Risk Management Department at our head office is the coordination department for comprehensive risk management and the leading executive department for management of the credit risk, market risk (excluding interest rate risk of banking book), country risk and information technology risk. The Asset and Liability Management Department at our head office is the leading executive department for management of the interest rate risk of banking book and liquidity risk. The Internal Control and Compliance and Legal Affairs Department at our head office is the leading executive department for operational risk and compliance risk management. The Publicity Department of the Party Committee is the leading executive department for reputational risk management. The Development and Planning Department at our head office is the leading executive department for strategic risk management.

The Company assigns risk monitoring officers to certain departments at our head office according to comprehensive risk management needs. Risk monitoring officers help leading officers of accrediting departments organize comprehensive risk management. They are independent of such departments in making business judgment and reporting on risk issues. The Company assigns to its branches risk monitoring officers, who help presidents of such branches organize comprehensive risk management with a focus on credit risk management, strengthen the supervision and evaluation of risk management of branches and are independent of such branches and directly report to our head office. They make business judgment and report on risk issues independently.

#### 2. Credit risk management

Credit risk refers to the risk of the Company suffering from losses due to defaults of debtors or counterparties or a decline in their credit. The Company's credit risk primarily lies in on- and off-balance sheet business, including loans, inter-bank lending, bond investments, bill acceptances, letters of credit, letters of guarantee and special purpose vehicle investments.

The objectives of our credit risk management are to control our credit risk within a reasonable range acceptable to us and maximize comprehensive benefits across the Bank denominated in local currency and adjusted with respect to risks.

The Company's credit risk management system consists of the Board of Directors, the Supervisory Committee, the Senior Management, the Risk Management and Internal Control Committee, the Credit Review Committee of the head office, the Credit Review Committee of the branches, the Credit Review Teams of sub-branches, the Risk Management Department of the head office and other credit risk control departments, Business Operation and Management Departments, Technology Management Department, Audit Department, branches, sub-branches and subsidiaries. The Senior Management is responsible for implementing and organizing the credit risk management as well as the formulation and implementation of systems and policies relating to credit risk management.

The Company formulates credit policies based on changes in external operating environment, internal operating and risk conditions. Such policies expressly set out guidance on certain aspects of our credit business, such as customer structure, industry structure, product structure, regional structure and key strategic areas. In addition, the Company adjusts its credit policies in due course based on a continuous tracking of the development trends in the macro economy and the industry. In the face of the complex and volatile economic environment at home and abroad, where opportunities and challenges coexist, the Company adheres to a "prudent and solid" risk appetite, insists on taking the real economy as the focus and growth point of the business of granting assets, and gives full play to the new competitive advantages of integrated synergies among the five business segments, namely, large retail, large corporations, large investment banks, large capital management and large cross-border business, and continues to push forward on the customer base, effectively applies the "CSGS", and consolidates the cornerstone of the credit business, takes the primary strategy of "deepening the development in Zhejiang", enhance the competitiveness of key regions. We insist on intelligent risk control, highlight precise credit risk identification and forward-looking prevention and resolution, strictly control new non-performing products, and comprehensively optimize the structure of credit assets.

The Bank classifies its credit assets in accordance with the criteria set forth in the "Measures for Classification of Financial Assets Risks of Commercial Banks" (《商業銀行金融資產風險分類辦法》), taking into account factors such as the debtor's ability to perform, financial condition, willingness to repay, and repayment record; the risk classification process of the Company's credit assets implements a five-tiered procedure of "initial classification, review, examination, deliberation, and approval".

#### (1) Credit risk management for corporate customers

The Company conducts a unified credit management of corporate customers, and determines maximum comprehensive credit lines and business credit lines for customers based on comprehensive evaluation of customers and according to certain standards and procedures.

The Company strictly complies with regulatory requirements and puts loans (including trade financing), bill acceptances and discounting, overdrafts, bond investments, special purpose vehicle investments, opening letters of credit, factoring, guarantees, loan commitments and other businesses where credit risks are essentially borne by the Company under our unified credit extension management. In the full coverage of various types of credit businesses, the Company continues to improve the credit risk limit indicator system, and reasonably determines limit indicators of single corporate customers and group customers.

The Company continuously enhances the construction of our credit system, formulates a unified credit quota management system for our corporate customers, intensifies our comprehensive management and unified control of the total credit quota amount of our corporate customers, improves standardized and normalized credit approval procedures, authorization system and position risk accountability mechanism, adjusts our credit policies in time and takes effective measures to prevent credit risks.

The Company further improves the concentration risk management, formulates the concentration risk management related systems, clarifies the responsibilities allocation and main methods of concentration risk management, and continues to promote the construction of concentration risk management.

The Company continuously enhances the management of credit risks related to financing platforms of local governments (defined in the Company's policy as state-owned enterprises in urban construction and public services categories; similarly hereinafter), strictly complies with various policies and regulatory requirements of the State Council and the Financial Administration on financing platforms of local governments, makes dynamic adjustments to credit strategies, and further optimizes the credit business structure of financing platforms to prevent credit risks that may arise from local governments' financing platforms; sets credit limits to local governments' financing platforms and enhances our monitoring and management on the credit risks. Focusing on high-risk areas and sensitive debts, the Group cooperated with local governments to implement the "one package solution" (一攬子化債方案) based on the existing assets, and promoted the implementation of local debt risk resolution.

The Company continuously enhances the management of real estate loan risks. The Company engages in real estate related credit business prudently, and adjusts our credit extension orientation for the real estate industry in a duly manner according to national policy and industrial operation situation. The Company sets credit limits for loans we grant to the customers in the real estate industry and adopts the name list system management in a dynamic manner, and continuously adjusts and optimizes the asset structure, as well as strengthens the monitoring and management of risks relating to existing loans.

#### (2) Credit risk management for small and micro enterprises

The Company conducts unified credit extension management for small and micro enterprise customers, and integrates all types of credit business of small and micro enterprise customers into our unified credit extension management. The Company actively explores a professionalized operating model, continuously improves our management system and further combs out and standardizes the procedures and requirements for credit extension to gradually cultivate a featured and standard credit extension model of the Company.

The Company continuously strengthens the management of credit risks of small and micro enterprise business. In conjunction with regional and business development, it has constructed a differentiated control mechanism, optimized the operating procedures of the credit business of small and micro enterprises, improved the risk control system in the three segments of pre-credit, credit and post-credit, and made use of the big data risk control model to identify, assess and classify the risks, while strengthening the risk management requirements and enhancing the proactivity of risk control, so as to continuously improve the credit risk management and control system for the credit business of small and micro enterprises.

#### (3) Credit risk management for retail customers

Based on different scenarios, the Company formulates differentiated entry standards, credit lines management and guarantee selection for different customer base, creating corresponding personal loan products to enhance risk-resistant capability. Combining traditional risk control experience, the Company establishes a risk model based on big data to enhance credit risk identification capability; and implements an intensive approval model across the Bank, standardizing and specializing the approval of personal loan business, thus ensuring the quality and efficiency of risk control. We have improved the post-credit management system and strengthened follow-up management, such as risk warning, risk monitoring, overdue collection, and non-performing disposal, so as to effectively addressed related risks.

The Company continues to optimize the whole process, i.e. pre-credit, credit, and postcredit, risk management system for credit card business, strengthen the comprehensiveness and systematicity of risk management, and actively use financial technology methods to continuously improve the assessment ability of credit card default risk. We will timely adjust and optimize risk control strategies based on the dynamic changes in the external economic situation and market environment, improving the accuracy of risk identification and the timeliness of early warning.

#### (4) Credit risk management for financial institution customers

The Company includes financial institution customers in unified credit management. The Company has formulated unified management measures and relevant operating procedures for the unified line of credit of financial institution customers, improved a series of systems and procedures for the investigation, examination and approval of unified credit extension to financial institution customers.

The Company's business with financial institution customers involving customer credit risk is covered in our unified credit extension management. When conducting business, the Company will draw up the customers' credit lines in accordance with relevant policies.

#### 3. Market risk management

Market risk refers to the risk of losses of on- and off-balance sheet business arising from unfavorable changes in market prices including interest rates, exchange rates, stock prices and commodity prices. Market risk can be divided into interest rate risk, exchange rate risk, stock risk and commodity risk. The term "market risk" in this section refers specifically to market risk other than interest rate risk of banking book (for the interest rate risk of banking book, please refer to the relevant content of "7. Interest rate risk management of banking book" below).

The objectives of our market risk management are to control our market risks within a reasonable range acceptable to us and maximize comprehensive benefits across the Bank denominated in local currency and adjusted with respect to risks.

The Company's market risk management system consists of the Board of Directors, the Supervisory Committee, Senior Management, Risk Management and Internal Control Committee, Risk Management Department, Capital Operation Center, Audit Department, other departments, as well as branches, subbranches and subsidiaries. The Senior Management is responsible for implementing and organizing the market risk management, overseeing the implementation of market risk appetite as well as formulating and carrying out relevant systems and policies for market risk management and establishing market risk management information system, so as to ensure the Company can effectively identify, measure, monitor and control a series of market risks borne by various businesses.

The market risk measurement methods adopted by the Company include duration analysis, foreign exchange exposure analysis, scenario analysis, sensitivity analysis, Value at Risk (VaR) measurement etc., and the measures taken by the Company to control market risks include, among others, limit management, hedging, reducing risk exposures etc. The Company has established a market risk management system pursuant to the relevant measures of the regulatory authority. The Company has formulated market risk management policies and procedures applicable to the nature, scale, complexity and risk features of its business and aligned such policies and procedures with its overall business development strategy, management capabilities, capital strength and overall risk level that can be borne by the Company.

The Company regularly updates and improves its market risk appetite and limit management system, continues to improve the market risk management systems and market risk measurement systems. The Company conducts market risk measurement, monitoring and routine management by using the independent market risk management platform. The Company values positions of our trading book on a daily basis, continuously monitors non-stop-loss limits and stop-loss limits, and regularly evaluates market risks through stress testing and other methods.

#### 4. Liquidity risk management

Liquidity risk refers to the risk of failure to obtain adequate funds in time at reasonable costs to repay debts when they are due, perform other payment obligations and meet other capital needs in the ordinary course of business. Factors affecting liquidity risks are divided into external factors and internal factors. External factors include domestic and foreign financial conditions, macroeconomic regulation policies, depth and width of developments of financial markets and the competition status of the banking industry. Internal factors include maturities of assets and liabilities, business structures, stability of deposits, and market financing capacity and various unexpected events, etc.

The objectives of our liquidity risk management are to ensure our liquidity needs can be satisfied in time at reasonable costs and to control our liquidity risks within a reasonable range acceptable to us.

The Company's liquidity risk management system consists of the Board of Directors, the Supervisory Committee, Senior Management, Risk Management and Internal Control Committee, Asset and Liability Management Committee, Risk Management Department, Planning and Finance Department, Asset and Liability Management Department, Capital Operation Center, Audit Department and other operation and management departments of the head office, as well as branches, sub-branches and subsidiaries. The Senior Management is responsible for implementing and organizing the liquidity risk management as well as the formulation and implementation of relevant systems and policies for liquidity risk management.

The Company managed the liquidity risk in a centralized manner. By establishing a scientific and complete liquidity risk management system, the Company can effectively identify, measure, monitor, control and report its liquidity risk, continuously strengthen liquidity risk management, and continue to improve the foresight and initiative of liquidity management. Specific measures for liquidity risk management include: paying close attention to both domestic and foreign macroeconomic situations and market liquidity changes, as well as adjusting our asset and liability management strategy in a timely manner; strengthening debt management, making flexible use of active debt instruments, broadening long-term sources of fund and continuously increasing the proportion of stable liabilities; driving the diversification of financing channels construction and actively expanding financing channels while maintaining good relations with major financing counterparts; strengthening the management of high quality liquid assets to ensure that the size of high quality liquid assets matches the potential financing needs of the whole bank, and enhance its ability to mitigate liquidity risk; strengthening the early-warning monitoring and management of liquidity, optimizing our emergency response program for liquidity risk and conducting emergency drills on a regular basis; conducting stress tests for liquidity risk on a quarterly basis, identifying weak links in the Company's liquidity risk management based on results of such tests, adjusting liquidity risk management strategies if necessary, and modifying our liquidity risk management measures in a timely manner to improve our liquidity risk management mechanism.

As at the end of the reporting period, the Company's total liquidity ratio of the local currencies and foreign currencies was 72.42%. Our liquidity coverage ratio was 170.13%, among which, high quality liquid assets amounted to RMB344.697 billion, and the net cash outflows over the next 30 days was RMB202.609 billion. The Company's net stable fund ratio was 113.13%, among which, stable fund available was RMB1,819.645 billion and stable fund required was RMB1,608.483 billion.

As at the end of the reporting period, the Group's total liquidity ratio of the local currencies and foreign currencies was 72.03%. Our liquidity coverage ratio was 165.78%, among which, the highquality liquid assets amounted to RMB344.697 billion, and the net cash outflows over the next 30 days was RMB207.918 billion. The relevant information on the net stable fund ratio of the Group in the last two quarters was set out below:

| Currency: combined of domestic and foreign currency |                |                       |                      |  |  |

Currency: combined of domestic and foreign currency

#### 5. Operational risk management

Operational risk refers to the risk of losses that may be incurred due to problematic internal procedures, personnel and information technology systems, as well as external events, including legal risks but excluding strategic risks and reputational risks. Types of incidents of losses due to operational risks that the Company may expose to mainly include seven categories, i.e. internal fraud incidents, external fraud incidents, employment systems and safety incidents at working places, incidents related to clients, products and business activities, damage to real property, incidents related to information technology system and incidents related to execution, closing and procedure management.

The Company's operational risk management system consists of the Board of Directors, the Supervisory Committee, Senior Management, Risk Management and Internal Control Committee, Risk Management Department, Internal Control and Compliance and Legal Affairs Department, Asset and Liability Management Department, Audit Department, other departments of the head office, as well as branches, sub-branches and subsidiaries. The Board of Directors takes the ultimate responsibility for operational risk management. The Senior Management is responsible for supervision of operational risk management. The Senior Management is responsible for implementing and organizing the Company's operational risk management as well as formulation and implementation of basic systems and policies of the Bank for operational risk management, and setting operational risk preferences and their transmission mechanisms.

The objectives of our operational risk management are to "control our operational risks within a reasonable range acceptable to us, enhance the ability to respond to internal and external events, ensure stable business operations and maximize comprehensive benefits of the Bank after risk adjustment". The Company has established an operational risk management system which was matched with our business nature, scale and complexity. The Company exercises a whole-process management of operational risks, and effectively identifies, evaluates, monitors, measures and controls/mitigates the operational risks by enhancing our internal control as an effective mean to operational risk management.

During the reporting period, the Company followed the management principles of "riskbased, full coverage, clearly defined duties, quick response and honest reporting", adjusted its management strategies and priorities in due time according to the operating strategy and management philosophy of the Company as well as changes in internal and external financial situations, to effectively identify, evaluate, monitor and control/mitigate operational risks. We actively implemented the requirements of the National Financial Regulatory Administration on operational risk management and operational risk capital measurement, increased the allocation of operational risk management resources, established a sound organizational structure for operational risk management; consolidated the operational risk management system, combed and optimized the process; improved digital management functions in key areas to ensure daily operation and maintenance of information systems, and enhanced the rigid control and service capabilities of these systems; actively prevented and mitigated legal risks, and carried out legal publicity and education; improved staff behavior management and launched various business training; strengthened safety and security management, and implemented safety and security work at important points by carrying out safety inspections to eliminate potential risks hazards in a timely manner. During the reporting period, the Company's operational risk management systems operated stably and the operational risk was generally under control.

#### 6. Country risk management

Country risk refers to the risk incurred due to any economic, political or social change and incident in a country or region which results in the borrowers or debtors in such country or region being unable or refusing to repay their debts or results in any losses to the business presence of the Company in such country or region or any other losses to the Company.

The objectives of our country risk management are to control our country risk within a reasonable range acceptable to us and maximize comprehensive benefits across the Bank denominated in local currency and adjusted with respect to risks.

The Company's country risk management system consists of the Board of Directors, the Supervisory Committee, Senior Management, Risk Management Department, Development and Planning Department, Planning and Finance Department, International Business Department, Capital Operation Center, Retail Credit Department, Credit Card (Consumer Finance) Department and other business operation and management departments of the head office, Technology Management Department and Audit Department, as well as branches, sub-branches and subsidiaries. The Senior Management is responsible for implementing and organizing the country risk management as well as the formulation and implementation of relevant systems and policies for country risk management.

The Company continuously advances the country risk management work pursuant to the relevant measures of the regulatory authority. The Company has formulated basic country risk management systems, quota management measures and schemes, clarified the organizational structure and division of responsibilities, limit framework, management mechanism, etc., with respect to country risk limit management, and set the index and threshold of country risk limits. We regularly assess and monitor the country risks and make provision for country risks.

#### 7. Interest rate risk management of banking book

Interest rate risk in the banking book refers to the risk of losses in the economic value and overall gain of the banking book arising from adverse changes in interest rate levels and term structure etc., mainly including gap risk, benchmark risk and option risk.

The objectives of our interest rate risk management of banking book are to control our interest rate risk of banking book within a reasonable range acceptable to us and reduce fluctuations in net interest income and economic value of banking book to maximize the comprehensive benefits across the Bank.

The Company's interest rate risk management system of banking book consists of the Board of Directors, the Supervisory Committee, Senior Management, Risk Management and Internal Control Committee, Asset and Liability Management Committee, Risk Management Department, Planning and Finance Department, Asset and Liability Management Department, Capital Operation Center, Audit Department and other operation and management departments of the head office, as well as branches, sub-branches and subsidiaries. The Senior Management is responsible for implementing the interest rate risk management of banking book, establishing the framework for interest rate risk management and the system for measurement of interest rate risk of banking book, and promoting the effective implementation of relevant systems and policies for interest rate risk management of banking book.

The Company measures and evaluates our interest rate risk of banking book mainly through gap analysis, sensitivity analysis, scenario simulation analysis, stress test etc., and formulates strategies for interest rate risk management of the banking book by taking into account factors such as the risk appetite and risk profile of the Bank, macroeconomic environment and the market changes. During the reporting period, the Company dynamically and flexibly adjusts the scale and term structure of assets and liabilities, and optimizes the term management plan of assets and liabilities based on the interest rate risk appetite target of banking book and internal operation management needs across the whole bank, combined with changes in the macroeconomic situation and monetary policy orientation. As at the end of the reporting period, the Company's interest rate risk in the banking book was generally under control.

#### 8. Reputational risk management

Reputational risk refers to the risk of negative evaluation of the Company by stakeholders, the public and the media as a result of the Company's behavior, the conduct of its employees or external events, thereby damaging the Company's brand value, adversely affecting the Company's normal operation and even affecting market stability and social stability.

Reputational risk management refers to the establishment of a whole-process reputational risk management system covering various processes such as prior assessment, risk monitoring, classification and evaluation, response and disposal, information reporting, assessment and accountability, and evaluation and conclusion, in order to achieve the objectives of reputational risk management and build up a good social image of the Company, which enables the realization of a closed loop of reputational risk management, and also contributes to promoting the daily management of reputational risk from the aspects of risk identification and inspection, emergency drills, joint mechanism, social supervision, accumulation of reputation capital, internal audit and interbank collaboration.

The objectives of our reputational risk management are to correctly handle news and public opinions on us, public relations and our relationships with customers, actively and effectively prevent reputational risks and respond to reputational events, so as to minimize the losses and negative impacts caused by such events on the Company, interested parties and the public. The Company has included reputational risk management in its corporate governance and comprehensive risk management system.

The Company's reputational risk management system consists of the Board of Directors, the Supervisory Committee, Senior Management, Risk Management and Internal Control Committee, General Executive Office, Publicity Department of the Party Committee, the Board Executive Office, Risk Management Department, other relevant departments of the head office, as well as branches, sub-branches and subsidiaries. The Senior Management is responsible for managing and organizing the reputational risk management across the Bank as well as the formulation and improvement of relevant systems and policies for reputational risk management of the Company.

During the reporting period, the Company took preventing and mitigating reputational risks as its first priority, focused on front-end research, evaluation, identification and investigation, improved internal institutional mechanisms and optimized emergency response processes. By actively conducting hidden danger identification, developing response plans, and strengthening monitoring and response, the Company has been able to properly handle various key hidden risks related to public opinions. Through all these efforts, the quality and effectiveness of reputational risk prevention and control have been remarkably improved, with the number of negative reports significantly reduced as compared to that of the previous reporting period. Meanwhile, keeping the mission of "national priorities" in mind, the Company continued to boost positive publicity systematically and innovatively, and issued continuous reports focusing on "enhancing the social value of finance", the intelligent operation strategy, performance highlights and service for the "five finances", contributing to the fact that the Company's brand image is deeply rooted in everyone's hearts and promoting "a positive narrative about the bright prospects of the Chinese economy" (中 國經濟光明論).

#### 9. Strategic risk management

Strategic risk refers to the risk arising from any improper operational strategy or change in the external business environments, including improper strategic design, inappropriate strategic implementation and inapplicable stated strategy as a result of changes in the internal and external environments.

The objective of our strategic risk management is to control our strategic risk within a reasonable range acceptable to us by continuously improving the strategic risk management system.

The Company's strategic risk management system consists of the Board of Directors, the Supervisory Committee, Senior Management, Risk Management and Internal Control Committee, Risk Management Department, Development and Planning Department, Audit Department, Financial Technology Department, other relevant departments of the head office, as well as domestic and foreign branches, sub-branches and subsidiaries.

Adhering to the principle of "clear responsibilities, proactive prevention, overall evaluation and timely adjustment", the Company constantly improves and refines the strategic risk management system suitable for the scale and features of its business, and has realized effective management of strategic risks. Main management measures include: guided by the thought of Socialism with Chinese Characteristics in the new era of Xi Jinping, fully implementing the spirit of the 20th CPC National Congress and the spirit of the Central Financial Work Conference, proactively practicing the political and people-oriented nature of the financial work, taking the vision of being "a firstclass commercial bank" as the leading role, anchoring on the "three first-class", carrying forward the "four dos spirit", constructing the "five-word ecosystem" and practicing the three-word primer of "goodness, intelligence and diligence". We will actively explore the innovation of "financial services for good" theory and practice, under the flag of finance for good, enhance the social value of finance, and lead a new industry trend; focus on and serve "five finances", follow the core big picture of party committee and government, take deepening the development in Zhejiang as its first priority, truly become a bank for Zhejiang, Zhejiang merchants and Zhejiang people; deepen intelligent operation, develop assets with low sensitivity to economic cycle as a ballast stone, implement the "321" operation strategy, promote the four fundamental major battles, continuously deepen digital reform, take scenario-based finance as the driver, and create distinctive competitiveness. In addition, we will set up a keynote of strictness with strict internal management, and standardize the relationship between banks and enterprises, and strengthen the management of work style, so as to comprehensively build the ecological soil for high-quality development.

#### 10. Compliance risk management

Compliance risk refers to the risk of legal sanctions, regulatory penalties, significant financial losses and reputational losses that may result from the failure to comply with laws, rules and standards.

The objectives of our compliance risk management are to establish a sound compliance risk management framework and promote the development of a comprehensive risk management system which enables us to operate in a lawful and compliant manner.

The Company's compliance risk management system consists of the Board of Directors, the Supervisory Committee, Senior Management, Risk Management and Internal Control Committee, Risk Management Department, Internal Control and Compliance and Legal Affairs Department, Audit Department, other relevant departments of the head office as well as branches, sub-branches and subsidiaries. The Senior Management is responsible for implementing and organizing the compliance risk management as well as the formulation and implementation of each basic system and policy for compliance risk management.

During the reporting period, the Company paid close attention to the changes in the economic and financial situation, conscientiously pursued various national policies and regulatory requirements, clarified the compliance management plan, solidly promoted the implementation of various internal control and compliance management initiatives to continuously improve its compliance risk management quality and effectiveness. Building a "compliance culture" with compliance operation as the bottom line, it launched the "Year of Compliance Image Enhancement" activities on a regular basis, established a compliance oath mechanism, continuously implemented the compliance commitment system, and strengthened the reporting of typical cases, so as to make proactive compliance, comprehensive compliance, and value-based compliance a consensus. It continued to improve the rules and regulations system, internalized external regulations, strengthened system implementation and supervision and evaluation, and created a new paradigm of intelligent system management. The Company strengthened internal supervision, inspection and problem rectification, and firmly promoted the grassroot management to effectively manage and control compliance risks. Adhering to technological empowerment, the Company has strengthened the information technology construction on compliance management with intensified efforts to enhance the level of compliance management intelligence. Adhering to the mission of "finance for good and peopleoriented consumer protection", the Group solidly promotes consumer protection on a wholeprocess basis.

#### 11. Large exposure administration

According to the Measures for the Administration of the Large Exposures of Commercial Banks (《商業銀行大額風險暴露管理辦法》) (No. 1 Order [2018] of Former CBIRC (原銀保監會 2018 年第 1 號令)), large exposure means the exposure of a commercial bank to a single client or a group of connected clients exceeding 2.5% of its net tier 1 capital. The Company has established a sound mechanism for the administration of large exposures, continued to improve the functions of the large exposure administration system, and commenced the measurement, monitoring and reporting of large exposures in an orderly manner. As of the end of the reporting period, all indicators of the Company's large exposures were in compliance with the regulatory limits.

#### 12. Information technology risk management

Information technology risk refers to any operational, legal and reputational risk arising from natural factors, human factors, technical bugs and management defects in connection with the application of information technologies by the Company.

The objectives of our information technology risk management are to control our information technology risk within a reasonable range acceptable to us, promote business innovation, enhance application level of information technology, and intensify core competence and sustainable development capability.

The Company's information technology risk management system consists of the Board of Directors, the Supervisory Committee, Senior Management, Chief Information Officer (CIO), cyber security leadership team, Risk Management and Internal Control Committee, digital reform promotion committee, data governance committee, information technology management committee, business continuity management committee, the Risk Management Department, Internal Control and Compliance and Legal Affairs Department, Technology Management Department, Audit Department, other relevant departments of the head office as well as branches, sub-branches and subsidiaries. The Senior Management is responsible for implementing and organizing the information technology risk management as well as organizing the formulation and implementation of relevant systems and policies for information technology risk management.

The Company has established a relatively well-organized information technology risk management mechanism and process system, and comprehensively formulated relevant system processes and implementation rules in accordance with the ISO20000, ISO22301, ISO27001 and ISO27701 management system and regulatory requirements; established relatively well-organized systems for business continuity management, information technology outsourcing risk management, network security management, data security management, information technology services management etc. and a relatively well-standardized information technology risk monitoring and assessment mechanism.

During the reporting period, the Company has continued to consolidate the "data + technology" digital infrastructure, focus on financial scenarios, strengthen data governance, and promote the indepth digitalization reform; continued to improve the network security, data security and customer information protection system, by relying on the "CZBank Network Security Innovation Workshop", strengthening innovation and talent cultivation and enhancing intelligent risk prevention and control of network security and data security as well as compliance governance; continued to carry out monitoring, assessment, measurement, control and reporting of the operational risks of important information systems, and plan for the construction of a new-generation digital intelligence operation and maintenance system, so as to strengthen the resilience of its scientific and technological operations; continued to improve the disaster preparedness system of "three centres in two cities" so as to enhance the dual-active availability and coverage of the disaster preparedness in the same city; continued to push forward the digital and online construction of emergency management, and conduct large-scale, long-term dual-center rotation operation of information system and complete batch cycle drills, so as to further enhance the capabilities of the important information system to recover quickly. During the reporting period, the system has operated stably without major information technology risks occurring.

#### 13. Anti-money laundering management

The Company has improved the money laundering risk management mechanism under the comprehensive risk management framework in accordance with the anti-money laundering laws and regulations, including the Anti-money Laundering Law of the People's Republic of China 《中華人民共和國反洗錢法》, the Administrative Measures for Anti-money Laundering and Counter-terrorist Financing of Financial Institutions in the Banking Sector《銀行業金融機構反洗錢和反恐怖融資管理辦法》) and the Guidelines for the Management of Money Laundering and Terrorist Financing Risks for Corporate Financial Institutions (for Trial Implementation) 《法人金融機構洗錢和恐怖融資風險管理指引(試行)》), so as to further solidify the foundation of anti-money laundering works and continuously improve the quality and effectiveness of anti-money laundering management.

During the reporting period, the Company has strictly complied with the laws and regulations on anti-money laundering, seriously fulfilled its legal obligations and social responsibilities in anti-money laundering; optimized the money laundering risk management policies and procedures and improved the anti-money laundering operational mechanism; strengthened customer money laundering risk management to enhance the effectiveness of customer identification; submitted the monitoring and reporting of large-amount transactions and suspicious transactions, improved monitoring model with respect to suspicious transaction; implemented "risk-based" management strategy to strengthen the monitoring and control of high-risk businesses and customers; pushed forward the construction of the new-generation anti-laundering system to enhance digital level; advanced in-depth anti-money laundering data governance to enhance data quality; provided business risk warnings to relevant departments, strengthened anti-money laundering supervision and inspection and risk investigation; and organized anti-money laundering publicity and training, and actively cooperated with anti-money laundering investigations and co-inspections to comply with all regulatory requirements in respect of anti-money laundering.

### (VI)BUSINESS SUMMARY

During the reporting period, centering on the twelve-word operation approach of "consolidating corporate foundation, adjusting corporate structure, controlling corporate risks, increasing corporate profitability", the Company has continued to practice the philosophy of "financial services for good" and make further achievements in financial technology innovation by focusing on digitalization reform. Meanwhile, by rendering wholehearted services for the real economy, the Company has further created and developed the new development pattern for the simultaneous and synergistic development of the five major business segments, namely "great retail, great corporate, great investment banking, great asset management, and great cross-border".

#### 1. Great Retail Segment

#### (1) Retail Business

During the reporting period, the Company adhered to intelligent management. With scenariobased operation as the core, it consolidated the foundation of the customer base, focused on building eight major customer bases such as the payroll agency customer base, the silverhaired customer base and the platform customer base, and simultaneously constructed and perfected the customer service system featuring different levels and categories. The Company built the ecology of the customer acquisition scenarios, pushed forward the cooperation of online platforms and cooperation with key enterprises, solidly advanced the cooperation channels in scenarios for purchasing vehicles, home decoration, etc., and actively established cooperation relationships with third-party platforms to provide customers with diversified service experiences through the combination of financial services and lifestyle services. The Company continued to strengthen digital construction, enhance digital operation and management capabilities, and empower institutions and personnel to improve customer service efficiency.

During the reporting period, the Company achieved significant infrastructure construction results of retail customer base. As at the end of the reporting period, the Company had a total of 30.7535 million retail customers, representing an increase of 14.84% from the beginning of the year.

#### (1) Individual deposits and loans business

During the reporting period, the Company made great efforts to expand the base of individual customers, actively broadened the sources of low-cost funds and continuously optimized the structure of individual deposits. As at the end of the reporting period, the Company's individual deposits balance was RMB299.934 billion, representing an increase of 11.28% from the beginning of the year. In particular, the balance of individual demand deposits was RMB62.470 billion, representing an increase of 19.30% from the beginning of the year, which exceeded the growth rate of individual deposits, so the deposit structure was significantly improved.

During the reporting period, the Company proactively implemented the requirements of the urban real estate financing coordination mechanism, supported the recovery of the real estate market and vigorously promoted the development of its mortgage business. As at the end of the reporting period, the Company's personal housing loan balance was RMB155.304 billion, representing an increase of 12.66% from the end of last year. The Company adhered to the "customer-oriented" service philosophy, continuously optimized and upgraded its retail credit products according to market demand, and streamlined the approval process. Insisting on leveraging scenario-based customer acquisition, the Company continuously enhanced the quality, efficiency and coverage of its retail loan services, thus maintaining a steady growth trend in its retail credit business.

As at the end of the reporting period, the Company's retail loans (including personal housing loans and personal consumer loans) amounted to RMB292.286 billion, representing an increase of 2.71% from the end of last year.

#### (2) Wealth management

During the reporting period, the Company increased the market-oriented talent acquisition, increased investment in strategic resources such as technological resources and management resources, and improved its market position to break the narrow positioning of wealth management being equivalent to product sales. The Company has formed a "three-in-one" synergy among investment, products and sales, and optimized the selection of "good companies, good teams and good products".

In the face of downward pressure on revenue, the Company was determined to accelerate the pace of product shelf and digital transformation. The key product categories introduced such as wealth management agency, standard bond trusts and asset management were widely praised for their stable yields and outstanding performance. The Company followed market opportunities closely and promoted product innovation. It has successfully issued innovative structured products and shelved overseas products such as US dollar wealth management, global credit bonds and high-yield bonds. Relying on the institute of wealth management, the Company has been actively promoting the construction of investment research infrastructure to strengthen the investment and research foundation and focus on major asset allocation. By integrating the cuttingedge visions of internal and external experts and focusing on changes in the economic situation and customers' needs, the Company has formed and expressed a full-system investment and research strategy and viewpoints from macro to micro and from major asset allocation to analysis of subcategories of products. The Company has established the 1+N radiation mechanism on specialized investment consultant empowerment and companion by region and insisted on expanding retail customer base with high-guality products and professional services, aiming to build up a wealth management brand with first-class influence.

The Company's wealth management agency business increased at a moderate rate. As at the end of the reporting period, the retained wealth agency business amounted to RMB192.641 billion, representing an increase of RMB22.094 billion or 12.95% from the beginning of the year. The retained standard bond trust products amounted to RMB74.249 billion, representing an increase of RMB10.477 billion or 16.43% from the beginning of the year. The retained wealth management agency sub-products amounted to RMB20.124 billion, representing an increase of RMB5.164 billion or 34.52% from the beginning of the year. The retained structured products amounted to RMB5.257 billion, representing an increase of RMB1.274 billion or 31.99% from the beginning of the year.

#### (3) Private banking

During the reporting period, by adhering to the philosophy of "passing of wealth and wisdom for sustainable development", the Company's private banking business provided three-dimensional financial services and featured value-added services for individuals and their family of private banking customers as well as their career development. The Company continuously promotes the construction of the six major systems including private banking customer base, products, rights and benefits, team, assessment and service. With the vision of building a first-class commercial bank, the Company has established a set of advanced private banking operation mode and built a leading digital intelligent private banking mode.

Through optimizing the management structure of the private banking business of the Company and strengthening professional training and qualification certification, the Company has created a private banking team with high guality and professional competency. We have improved the staff assessment and realized visual assessment of teams including private banking account managers, investment advisors and branch management teams with digital systems. At the same time, we have built a customer rights and benefits system of private banking "with distinctive features that is recognized by clients", based on the eight major themes of "food, clothing, housing, utilities, transportation, medical care, education, and entertainment". We fulfill the Company's service concept of "financial services for good" and improve the private banking service system through the 1+N financial consultant modes to empower financial service. Meanwhile, we have built a multi-strategy and full range of private banking products, including cash management, fixed income, equity and non-standard products, based on the clients' diversified needs of asset allocation in order to enhance the experience of private banking clients. Through the construction of six systems, namely customer base, products, rights and benefits, team, assessment and service, we have built an influential private banking brand of CZBank.

As at the end of the reporting period, the Company had 14,084 private banking customers, representing an increase of 15.55% as compared to the beginning of the year; the financial asset balance of the private banking customers amounted to RMB204.915 billion, representing an increase of 11.87% as compared to the beginning of the year.

#### (4) Credit card (consumer finance) business

During the reporting period, the Company proactively responded to the national policy of consumption stimulation to innovate products and services by focusing on the diversified financial needs of daily consumption scenarios of "clothing, food, housing and transportation". The Company issued the Yangtze River Delta theme card to facilitate the integrated development of the Yangtze River Delta Region; issued the "Red Salary" (  $\vec{m}$ ) card to enhance the suitability of the payroll agency clientele service; launched more than 20 promotional activities, such as purchase for coffee and milk tea at least RMB0.01, travel discounts, daily discounts on consumption, large-value full-rate discounts, full-rate discounts on installments, to enrich the benefits of customers' use of the card; launched the full-rate discounts on consumption and full-rate discounts on installments of "trade-in for new products" activities on the Jingdong platform to enhance financial services for trade-in scenario of consumer goods. The Company vigorously promoted the installment business of vehicle purchase, parking space, home decoration and home furnishing, and explored the installment business of weddings and other niche scenarios, so as to enrich the special installment products and create a differentiated competitive advantage.

As at the end of the reporting period, the Company had issued a total of 4,339.4 thousand credit cards, representing an increase of 111.0 thousand credit cards from the beginning of the year; balance of credit card (consumer finance) loans amounted to RMB32.256 billion, representing an increase of RMB1.720 billion from the beginning of the year. During the reporting period, the Company achieved income from the credit card (consumer finance) business of RMB885 million, representing a year-on-year increase of 15.03%.

#### (2) Small Enterprises Business

During the reporting period, the Company thoroughly implemented the spirit of the economic and financial work conference of the CPC Central Committee, conscientiously practiced the spirit of "being political, people-oriented and professional" in financial work, endeavored to carry out inclusive finance, comprehensively implemented digital and scenario-based business transformation, and provided high-quality financial services to small and micro enterprise market entities.

As at the end of the reporting period, the Company had 214 specialized institutions for small enterprises, with balance of small and micro enterprise loans under inclusive finance <sup>Note 1</sup> of RMB326.363 billion, representing an increase of RMB6.235 billion or 1.95% from the beginning of the year. Interest rates for newly issued small and micro enterprise loans under inclusive finance fell by 49 basis points year-on-year with a non-performing ratio of small and micro enterprise loans under inclusive finance of 1.35%.

**Consolidate the customer base and strive to improve the supply structure.** The Company intensified the development of inclusive small and micro businesses, strengthened the promotion and application of advantageous products, and improved the quality and efficiency of small and micro financial services. In the first half of the year, the number of customers of small and micro enterprise loans under inclusive finance continued to increase. As at the end of the reporting period, it reached 145.6 thousand, representing an increase of 5.8 thousand from the beginning of the year. Meanwhile, regulatory responsibilities have been completed in terms of important indicators such as credit loans, non-principal repayment renewals and inclusive agriculture-related loans.

Focus on key areas and vigorously promote scenario-based finance. Firstly, centering on "government cooperation, supply chain, small and micro industrial parks, equipment renewal" and other universal scenario-based finance, the Company served various target industries with respect to various scenarios and segments of production and operation of target customer base, so as to make financial products reach small and micro enterprises. Secondly, making key breakthroughs in the scenario of small and micro industrial parks, the Company promoted comprehensive financial service programs for small and micro industrial parks and increases medium- and long-term credit supply for small and micro manufacturing enterprises to support equipment renewal, technological transformation, green transformation and development, etc. As at the end of the reporting period, the Company has developed 2,237 park projects, with balance of mortgage loans to small and micro industrial parks and industrial real estates increasing by RMB10.204 billion from the beginning of the year to RMB77.521 billion. Thirdly, in combination with regional economic characteristics and resource endowment, the Company actively innovated and designed financial products and services that met the production and operation characteristics and capital needs of local small and micro market entities, and strengthened credit support for local advantageous or characteristic industries. The Company has launched 63 customized products such as common prosperity loans for Longyou pigs (能 遊生豬), Jiangshan intelligent manufacturing (江山智造) and Sanmen green crab (三門青蟹) in 26 counties in mountainous areas of Zhejiang Province. "CZBank's Common Prosperity Loan" (浙銀共富貸) products had balance of RMB12.242 billion, representing an increase of RMB904 million from the beginning of the year, and served 7,315 customers, representing an increase of 789 customers from the beginning of the year.

Note:

<sup>&</sup>lt;sup>1</sup> According to information on small and micro enterprise loans under inclusive finance from the Former CBIRC, the "small and micro enterprise loans under inclusive finance" and "loans" exclude the discounted and inter-bank discounted bills business.

Practice intelligent operation and speed up the construction of digital inclusion. Firstly, aiming at scientific and technological innovation, specialization, refinement, uniqueness and innovation, green and low-carbon development, as well as small and micro enterprises in the upstream and downstream of key industrial chain and supply chain, foreign trade, wholesale and retail, cultural tourism, transportation, logistics and other fields, the Company strengthened the analysis and application of operation cash flow and transaction data, so as to optimize service mode. Secondly, adhering to the "online + offline" model, the Company promoted the "1+1+N" comprehensive digital business product service system with "Shuke Loans" (數科貸), "Shuyi Loans" (數易貸) and "Digital Cooperation Projects" (數字化合作項目) as the core, and achieved comprehensive coverage of multiple scenarios and multiple types of customers, achieving preliminary results in digital transformation. Thirdly, deepening the cooperation with the Market Supervision and Administrative Bureau of Zheijang Province (浙江 省市場監管局), the Company promoted the use of "Shuyi Loans" (數易貸) and other products around the scenario of "market supervision + finance" for small and micro customer base, and increased financial support for individual businesses and individual workers, so as to improve the quality and efficiency of financial services.

#### 2. Great Corporate Segment

#### Corporate business

The Company strictly implements the decisions and deployments of the CPC Central Committee and the State Council, focuses on the "three first-class" target positioning and four strategic focuses, coordinates the relationship of "customer, talent, system, and investment research", increases support to the real economy, fully pushes forward the expansion of basic customer base, strives for high-quality development, and plays a key role of the great company segment in revenue growth and profit generation.

**Continuously optimize loan scale and structure.** As at the end of the reporting period, the Company maintained a steady development trend in its corporate business. It had RMB-dominated corporate assets on the balance sheet of RMB980.4 billion, representing an increase of RMB40.0 billion from the beginning of the year. It served industries with low sensitivity to economic cycle with balance of loans amounting to RMB199.71 billion, representing an increase of RMB20.03 billion from the beginning of the year.

Continue to improve capabilities to serve real customer base and promote the construction of the provincial base camp. Adhering to the orientation of finance serving the real economy, the Company deeply cultivated the manufacturing customer base and continuously promoted the high-quality development of the manufacturing industry. As at the end of the reporting period, the balance of the Bank's manufacturing loans amounted to RMB256.427 billion, representing an increase of 6.88% from the beginning of the year. At the same time, the Company fully implemented the strategy of "deepening the development in Zhejiang" (深耕浙江) to serve the construction of the provincial base camp. Actively contacting with the Economy and Information Technology Department of Zhejiang, the Zhejiang Provincial Development and Reform Commission and other departments, the Company promoted the implementation of major projects such as "one hundred billion yuan technological reforms" (千億技改) and "1,000 trillion-yuan projects" (千項萬 億). As at the end of the reporting period, the financing balance for major projects in the province exceeded RMB10 billion, outperforming the three-year (2022-2024) action target ahead of schedule.

**Continuously upgrade supply chain finance digitalization to create differentiated service advantages.** The Company continues to upgrade its supply chain digital intelligence of finance service by integrating supply chain finance services into the entire production and transaction landscape of the industrial chain, fully utilizing its professional capabilities and digital means, and creating a "whole chain, full landscape, all products" supply chain financial service solution through the four major innovations of process restructuring, credit innovation, technological empowerment, and service leapfrogging, to solve the financing difficulties of medium, small and micro enterprises in the upstream and downstream of the industrial chain, and facilitate the development of the industrial chain with high quality. At present, the Company has formed characteristic and differentiated supply chain finance solutions in nearly 30 industries, including power, energy, new energy vehicle, modern communications, aerospace and electronic information. As at the end of the reporting period, the Company served over 3,000 digital supply chain projects, serving over 55,000 upstream and downstream customers, of which 76% were small and micro enterprises under inclusive finance.

**Continue to practice technology finance, serve new quality productive forces, and deliver an outstanding performance on technology finance.** The Company explored a differentiated technology finance management system, and distributed more financial resources to technological innovation through dedicated organizational systems, professional personnel, exclusive product services, exclusive risk policies, special operation policies and specialized information systems. The Company iteratively launched "full-cycle, all-chain and all-around" comprehensive technology financial service schemes to meet diversified financial needs of enterprises at different growth stages, and achieved common development together with technological innovation enterprises through strong financial ecology. As at the end of the reporting period, the Company had served more than 15,000 technological innovation talent enterprises, with a financing balance of more than RMB260.0 billion; and served more than 3,400 high-level talents and more than 2,500 talent enterprises.

**Continuously improve the professional operation level and comprehensive service capability of energy finance.** The Company accelerated the layout of financial support for the new energy industry chain, expanded the key service scope of the industrial chain, and strengthened the support for key projects. Focusing on power production, power transmission and distribution, and power consumption, the Company comprehensively enhanced the competitive advantages of specialization, characterization and scenarios, and continuously explored the corporate financing demand under the deep integration of various segments of new energy and new quality productive force. As at the end of the reporting period, the Company had served more than 3,000 energy enterprises, with a financing balance of more than RMB120.0 billion, and established strategic cooperation with key customers such as State Grid.

#### 3. Great Investment Banking Segment

#### (1) Investment banking business

The investment banking business adhered to its essential principle of serving the real economy. Focusing on the parallel operation strategy of transaction investment banks and industrial investment banks, the Company integrated various financial instruments in the direct financing market and indirect financing market to meet the multi-level financing needs of customers. Leveraging the tools and means of "underwriting, investment, sales, transfer and collection" (承投銷轉撮) of transaction investment banks, the Company connected the market and customers to create value; the head office and branches of industrial investment banks faced customers directly and established trading scenarios to provide comprehensive and professional services for industrial customers.

During the reporting period, the Company used its investment banking products to serve 887 clients, including central state-owned enterprises and private enterprises, representing an increase of 14% over the same period last year. The investment banking realized FPA of RMB275.2 billion, remaining basically unchanged with the same period last year, including bond underwriting of RMB81.2 billion; contribution from the credit enhancement business of RMB2.1 billion, maintaining the first place in the market; as the first bank in the market to promote resale business in a systematic manner, the Company launched resale business of RMB72.8 billion, with a participating share of RMB9.3 billion, outperforming its peers in the market; credit assets turnover of RMB2.8 billion; and, in terms of asset building, major assets placement of RMB40.0 billion.

#### (2) Financial market business

During the reporting period, the Company proactively enhanced its effectiveness in serving the real economy, strengthened the customer service capability of its financial market business, and continued to strictly implement various risk management measures for its financial market business to ensure its steady development.

In local currency market, during the reporting period, the Company actively performed its market maker responsibilities by providing high-quality quotations and customer services for various products. The Company maintained a high degree of activity in various segments such as bonds and interest rate derivatives, and actively participated in market product innovation. In the first half of 2024, the Company increased its underwriting and investment efforts in special treasury bonds and municipal bonds, providing sufficient support for major project investment and achieving high-quality development. The underwriting volume of municipal government bonds increased by 22.64% year-on-year. The Company actively participated in Zhejiang bond underwriting, and accumulatively underwrote Zhejiang bonds of RMB17.06 billion, ranking first. The Company had outstanding influence in the inter-bank local currency market and won awards such as "Market Influential Institution of the Year" (年度市場影響力機構) (core dealer, money market dealer, issuer of interbank certificates of deposits, opening-up participating institution (bond)) and "Market Innovation Business Institution" (市場創新業務機構) from China Foreign Exchange Trading System (中國外匯交易中心).

In the foreign currency market, the Company insisted on providing high-quality quotations to the market, enhancing its capability in serving the real economy and helping customers improve their exchange rate risk management level. During the reporting period, the Company won a number of important institutional awards, including the "Member Award for Excellent Service Enterprise Exchange Rate Risk Management" (優秀服務企業匯率風險管理會員獎), "Excellent Foreign Currency Exchange Offering Quotation Bank" (優秀外幣拆借報價行), and "Excellent Foreign Currency Exchange Offering Member" (優秀外幣拆借會員).

In the area of precious metals business, during the reporting period, the Company ranked first among market-making banking categories in both gold and silver futures in the Shanghai Futures Exchange, and ranked second in the bidding market of the Shanghai Gold Exchange.

In respect of digitalization, during the reporting period, the Company continued to deepen its digitalization capability construction, with remarkable effect in supporting FICC's investment, research, delivery and sales businesses. Significant progresses have been made in its digital operation in terms of market research, market-making transactions, portfolio management, customer profile management and other fields.

#### (3) Financial institution business

Fully strengthen customer base. The Bank deepens the implementation of its operational concepts of "financial services for good" and intelligent operation, continuously promotes the establishment of a "customer-oriented" comprehensive service system, to improve the quality and expand the business of the integrated operation of key customer base.

Solidly promote interbank balance sheet business. The Bank enhances market research and judgment and improves its investment research capabilities in respect of standardized asset investment, to effectively serve the Company's high-quality clients in real enterprises. Meanwhile, it has revitalized and upgraded the "Common Benefit" (同有益) asset pool to provide one-stop integrated services to financial institution clients, with cumulative transaction volume exceeding RMB750.0 billion on the platform. The client base of interbank liabilities continues to expand, and the cost has been reduced. In the first half of 2024, the interest payment rate for RMB interbank liabilities decreased by 4 basis points as compared to last year.

Promote the financial bond issuance. During the reporting period, the Bank successfully issued RMB40.0 billion of small and micro finance bonds and RMB10.0 billion of tier 2 capital bonds, and actively explored the use of low-cost, long-term capital to better serve the real economy.

Contribute to the expansion of the capacity and volume of assets with low sensitivity to economic cycle. The Bank pushed forward to continue to expand the standardized ABS investment and accelerated the promotion of the interactivity of "investment, custodian, sales and collection" (投、託、銷、撮), with all-product sales service during the reporting period amounting to RMB260.368 billion, representing a 16.6% growth year-on-year.

#### (4) Bill business

The Company proactively responded to the changes in the market resulted from the new capital regulations, insisted on its original aspiration of serving the real economy, adhered to financial services for good, and strengthened the intelligent operation of the bill business.

**Intensify key businesses to achieve remarkable results.** During the reporting period, the Company's discount volume amounted to RMB259.4 billion, representing a year-on-year increase of 94%; the commercial paper discounting volume was RMB154.1 billion, representing a year-on-year increase of 96%, ranking second in the whole market and first among the joint-stock banks, with a market share of 13.25%, reaching the leading level in the industry.

Focus on scenario-based finance and serve real enterprises. The Company continued to explore the scenario-based and digital application of bills to improve the quality and efficiency of bills serving real economy. During the reporting period, the Company created distinctive advantages by focusing on key scenarios and broke through "Double Hundred" (雙百) in the "1+N" commercial bill model by accumulating 110 core enterprises and a discount amount of RMB14.3 billion. The Company launched online "Intelligent Bill Steward" (票據智管家) for corporate customers to create an online one-stop integrated service platform, thus comprehensively improving user experience by redesigning a minimalist operation interface to greatly simplify customer operation processes; new visual report analysis, commercial bill maturity management and other personalized functions were added to help enterprises "manage bills well and use them well" (管好票、用好票). During the reporting period, the Company served 18.7 thousand corporate customers through acceptance, discounting, bill guarantee and guarantee services, representing a year-on-year increase of 50%.

Strengthen investment research capability and deepen brand building. The Company solidly promoted theoretical research in the areas of trading strategies, risk management and products designing to empower operational decisions; proactively strengthened communication with regulatory authorities, the Shanghai Commercial Paper Exchange and industry associations, further strengthened regulatory communication and enhanced support recognition; conducted in-depth visits and research between corporate customers and banks, promoted two-way customer development between enterprises and banks, and strengthened the brand of "Zheyin Bill" (浙銀票據). According to the evaluation results of Shanghai Commercial Paper Exchange in 2023, the Company received five major awards including the "Outstanding Specialized Business Organization – Outstanding Discounting Organization" (優秀專項業務機構 – 優秀貼現機構), "Outstanding Discounting Participating Organization" (優秀點 現通參與機構), "Outstanding Supply Chain Bill Participating Organization" (優秀新一代系統企業推廣機構) and "Outstanding Commercial Bill Information Disclosure Service Organization" (優秀商票信息披露服務機構).

#### (5) Asset custodian business

The Company focused on intelligent revenue generation and digital empowerment, conducted in-depth collaboration, marketing and customer engagement, and optimized processes, thereby making every effort to promote the high-quality development of asset custodian business. During the reporting period, the Company's asset custodian business performed well, with key indicators continuing to outperform the general trend. The Company ranked first among major state-owned banks and joint-stock banks in terms of the year-on-year growth rate of custodian income during the reporting period.

During the reporting period, the Company actively explored new business growth modes, constantly enriched and improved the custodian product line, focused on customer bases such as funds, banks, securities, insurance and trusts, established asset custodian business cooperation relationships with nearly 350 licensed financial institutions, and continued to strengthen the comprehensive and coordinated development of the "five business segments", thereby significantly enhancing the market influence of the asset custodian business. As at the end of the reporting period, the Company's assets under custody grew steadily, with a balance of RMB2.4 trillion, representing an increase of 6.85% from the beginning of the year; in the first half of 2024, the Company realized asset custodian income of RMB348 million, representing a year-on-year increase of 15.61%.

During the reporting period, the public funds under the custody of the Company kept a good growth. As at the end of the reporting period, there were 264 public funds under the custody of the Company. Size of public funds under the custody amounted to RMB482.594 billion, representing an increase of 11.15% from the beginning of the year.

In the meantime, the Company accelerated the iteration of various custodian system functions and the application of RPA technology, continuously improved the functions of CZBank's "intelligent custodian" (智託管) service platform to establish a one-stop operation service platform. It achieved remarkable results in digital construction, significantly increased the overall business capacity, and improved the quality and efficiency of customer service, thus providing safe, professional and efficient custodian services to custodian customers.

#### 4. Great Asset Management Segment

The Company has continuously strengthened its investment research capabilities, enriched netvalue product system, improved its risk management capabilities and strengthened financial technology support, striving to build a brand of asset management business featuring "professional management, customer-first approach, differentiated competition and giving priority to efficiency". During the reporting period, the Company proactively carried out the preparatory work for the establishment of CZB Wealth Management Co. Ltd. (浙銀理財有限責任公司).

The Company has launched series of wealth management products such as "Shengxin Win" (升 鑫赢), "Juxin Win" (聚鑫赢), "Yongxin" (涌薪), "Yongying" (涌盈), "Xinze" (昕澤), "Mingquan" (鳴 $\Re$ ), "Yongyi" (涌益) covering cash management, fixed income, "Fixed Income Plus" and hybrid products. As at the end of the reporting period, the balance of the Company's wealth management products amounted to RMB147.248 billion, with net-value wealth management products accounting for 100% of wealth management products, of which 92.36% and 7.64% were funds of individual and institutional clients respectively. During the reporting period, the Company issued a total of RMB123.638 billion of wealth management products and realized income from asset management services fee of RMB271 million.

#### 5. Great Cross-border Segment

The Company has consistently responded to "The Belt and Road Initiative" and continuously intensified cross-border financial diversified products innovation. Relying on the two platforms, namely the sub-accounting unit in free trade zone and Hong Kong Branch, the Company has been able to provide foreign trade enterprises with high-quality cross-border comprehensive financial service integrating local and foreign currencies, domestic and foreign trade, and offshore and onshore, aiming to fully support the development of the real economy of foreign-funded or foreign trade industries.

The Company has taken various measures, such as promoting a high level of financial openingup, focusing on new sectors and new models of foreign trade, centering on subsectors including cross-border e-commerce, new payment mode and market procurement, as well as continuously facilitating cross-border financial services tailored to local conditions, in order to contribute to maintaining the stability and improving the quality of foreign trade, and continuously increase the scale of international business services. During the reporting period, the Company provided international clearing services amounting to US\$260.6 billion, representing an increase of 35% as compared to the same period of last year; and customer foreign exchange trading services amounting to US\$97.4 billion, representing an increase of 48% as compared to the same period of last year, of which, the transaction volume of "Zheshang Trading Treasure" (浙商交易寶) amounted to US\$26.0 billion.

The Company also increased its credit allocation to foreign trade enterprises and boosted the quality and efficiency of cross-border financial service. During the reporting period, the balance of assets investment under the international business amounted to RMB171.6 billion, representing an increase of 40% as compared to the same period of last year, among which, the balance of cross-border investment and financing amounted to RMB104.7 billion, representing an increase of 35% as compared to the same period of last year, and the balance of liquidity released amounted to RMB66.8 billion, representing an increase of 48% as compared to the same period of last year.

### (VII) FINANCIAL TECHNOLOGY

During the reporting period, focusing on key strategies, highlighting the strategy of "propelling the Bank with technology", guided by the vision of a being "a first-class commercial bank" and centered on the development of scenario-based finance, the Company promoted in-depth digitalization reform, strengthened the driving force of technological innovation and research, steadily consolidated our technological foundation, earnestly carried out safe production and safe operation, comprehensively improved the effectiveness of technological service, as well ceaselessly enhancing the brand reputation of "Digital Intelligence CZBank", thereby providing digital intelligence support for high-quality development of the entire industry.

### 1. Gather force to make a breakthrough in digital transformation, creating a characteristic ecosystem featured scenario-based finance

The Company has thoroughly implemented the spirit of the Central Financial Work Conference. Specifically, based on the bank-wide positioning of "a year to deepen implementation" and being in the new stage of digital transformation, we move firmly towards our goals and development direction, deeply push forward the breakthrough on system foundation, deliver characteristic service featured scenario-based finance and facilitate the formation of new sectors and new quality productive forces driven by the development of new technology, so as to earnestly advance the development of real economy. In addition, the Company strengthens top-level design and strategic planning by establishing working groups to advance "five finances", with the technology department making coordinated efforts to boost digital finance. The Company also optimizes and improves the "185N" digital system structure, deepens the implementation of the ITBP working mechanism, and collaboratively promote the awareness enhancement and capability improvement of entire-process digitalization from operation, management to risk control. Furthermore, the Company continuously develops the characteristic ecosystem featured scenario-based finance by working together with the three parties, namely "G, B, C", actively integrating into digital platform at government level, launching featured business scenario tailored to local condition, and serving the fields of livelihood such as public administration, commerce and trade, and health care, thus providing efficient and contactless digital financial service for government, business and the public, thereby achieving a win-win scenario-based finance ecosystem.

## 2. The fruitful results generated by technological innovation are gradually emerging, contributing to the enhancement of intelligent operation in terms of both quantity and quality

Focusing on "digital operation and digital value", the Company explores development path driven by digital innovation, so as to promote all-around enhancement of the scale, quality and effectiveness of intelligent operation. Firstly, the Company builds a product system featured digital finance. Specifically, it fully exploits the value of internal and external data in terms of industry and commerce, taxation and other aspects, creates and markets digital products such as scene certificate, digital technology loan, Zheshang Trading Treasure (浙商交易寶) and sci-tech innovation bonus point loan, consolidates and expands its advantages in supply chain finance, inclusive finance and cross-border finance, as well as facilitating steady development of technology finance, green finance and pension finance. Secondly, the Company intensifies the construction of key systems, iterates and upgrades treasury system, large digital and intelligent supervisory platform, digital and intelligent anti-fraud platform and CZBank Office (浙銀辦公), so as to continuously strengthen the supporting capability of risk control, intelligent decision making and precision management. Thirdly, by building diversified and integrated service channel and rebuilding intelligent and efficient service process, as well as iterating and upgrading comprehensive digital and intelligent operation system, digital and intelligent operation and management platform, mobile banking, remote banking and other platforms, the Company aims to provide customers with allfield, three-dimensional, convenient and professional intelligent operation service. Fourthly, the Company steadily advances the research projects combining financial technology with scenariobased finance such as the large AIGC model, graph processing, digital RMB, industrial park finance, plans the implementation of the MaaS computing power management platform, IP construction project for digital human, Al-aided analysis platform and intelligent wealth investment research assistants, aiming to accelerate the implementation and application of artificial intelligence.

#### 3. Basic technological capabilities continuously enhanced, consolidating the foundation of highquality development

The Company spares no efforts to push forward the breakthrough on system foundation, and gives play to the function of "data + technology" serving as two-wheel drivers, so as to boost the supporting and empowerment functions of technology. Firstly, the Company comprehensively kicks off the project of "replacing core system to consolidate our foundation". In this regard, the Company makes an overall plan for the construction of the next generation of core system with intensified efforts on system structure, route design, etc., to develop clear and matched roadmap and operating plan, striving to construct a new core system that is more efficient, agile, synergic as well as autonomous and controllable. Secondly, the Company continuously optimizes and upgrades technology and structure. In this connection, it makes a forward-looking deployment in distributed database, micro-service and cloud native, makes an overall plan to improve the enterpriselevel basic capability framework, intensifies virtualization and cloudification construction of infrastructure, as well as developing a public service competence system with more than 80 service capabilities under 4 major categories including business service and technology components. Thirdly, the Company constantly perfects the data governance system and mechanism with intensified efforts on data governance, unifies and improves data standard throughout the Bank, as well as comprehensively enhancing its capabilities in the management and control of data quality. Furthermore, the Company enriches and improves its data asset system, enabling itself to provide stable data support for more than 200 application system throughout the Bank, and to thoroughly explore and make use of the value of data. For example, the pilot project of "One Statement Connect" (一表通) was repeatedly and highly recognized by the regulatory authorities and the Company was designated as the leading bank nationwide to adopt HIVE version.

## 4. Safety production gradually improved, reinforcing a safety shield for steady business operation

The Company continuously enhances its capabilities in lean, automatic, intelligent operation and maintenance, devotes all-out efforts to reinforce the shield against safety risk, and further improves production and operation safety. On one hand, we build a "1+5" network security protection system based on one foundation and five platforms, and construct a "continuously running, automatic and comprehensive" operation mechanism for network security protection, enabling whole-chain, allasset-covered, fully perceptive and whole-process network security protection featured fast alert, fast response and fast disposal. We also step up our efforts in safety construction by establishing a "three-in-one" data security protection system that integrates management, operation with technology, thus our data safety protection work is normalized and under safe operation. On the other hand, the Company further enhances its capability in lean operation and maintenance, accelerates the structure construction of integrated and intelligent operation and maintenance system with a focus on improving emergency response capability, constantly normalizes and improves its emergency plan and emergency response process and mechanism, highlights the establishment of disaster recovery system, as well as promoting normalized operation of dual active. In this regard, we continued to carry out drills for intra-city disaster recovery switchover covering our important information systems including the core system. In the future, we will steadily improve our takeover capability to secure the long-cycle, independent and reliable running of important intra-city disaster recovery system.

### 5. System and mechanism continuously improved, comprehensively enhancing the efficiency of technology management

We iteratively improve the mechanism of technology management, gear up our efforts in system development and implementation and strengthen the building of talent team, so as to comprehensively enhance the efficiency of technology management. Firstly, we continuously reinforce the overall management of technology sector. Under the guidance of the information technology management committee, the Technology Management Department takes charge of the overall management of information technology works such as establishment of information system, application research, system operation and maintenance, information security and risk management throughout the Bank, so as to empower innovation in business model and operation management in an all-round manner. Meanwhile, a data management department was established to make overall arrangements for data management work throughout the Bank. We also gradually improved the data governance system and intensify data asset construction. Secondly, we edge up our efforts in the development of the technology management system. For that purpose, we carry out various campaigns to improve the technology management system. Specifically, we thoroughly sort the systems on seven aspects including production and operation, project management, structure management and quality assurance testing, regularly evaluate and upgrade relevant systems, organize system-related training on a regular basis, intensify inspection on the implementation of system and strengthen system guarantee, thereby effectively enhancing management quality and efficiency. Thirdly, under the requirements of Zhejiang Provincial Committee on the establishment of "Three Teams" (三支隊伍), the Company implements the "123 Talent Plan" (123 人才計劃), which emphasizes whole-process and systematic management on the "selection, employment, cultivation, retention and dismissal" of digital talents. According to the plan, we regularly and sustainably organize professional trainings and on-job trainings, in order to boost the professional competence and professional knowledge reserve of technological talents, further implement the interdepartmental two-way exchange mechanism of technological talents from head office to branches, as well as offering more paths for the development of digital talents, thus establishing a top-notch team comprised of innovative talents.

### (XI)OUTLOOK

Looking forward to the second half of 2024, though facing numerous challenges such as insufficient effective demand, slow recovery of real estate market and rising trade protectionism at a global scale, Chinese economy will continue to retain its upward trend in the long run. To this end, China is accelerating the cultivation of new quality productive forces, with steady growth seen in the contribution of manufacturing industry to economic growth, especially the high-tech manufacturing such as high-end equipment manufacturing. Subsequently, the growth momentum of Chinese economy will be gradually switched. It is expected that, in the second half of the year, fiscal policy and monetary policy will play a key role, and that China will strike a balance between economic growth and risk prevention.

In the second half of 2024, the Company will thoroughly study and implement the spirit of the Third Plenary Session of the 20th Central Committee of the Communist Party of China, while earnestly implementing the decisions and deployments of the Central Committee of the Communist Party of China, the State Council and the Zhejiang Provincial Party Committee and Provincial Government. Based on the new starting point and the new stage, the Company will comprehensively implement its philosophies of financial services for good and intelligent operation, conduct customer-oriented, comprehensive and coordinated reform, carry out the "321" operation strategy, strengthen digital reform with a focus on scenario-based finance, and create its distinctive advantages on five segments. Additionally, the Company will implement the "123" talent plan, optimize the composition of its talent team, and intensify internal management and risk prevention and control. Taking the opportunity of the celebration for the 20th anniversary of the Bank, the Company will promote cultural construction throughout the Bank, and make efforts to establish two cultural identities of "being a bank popular among young people" and "being the advocate and practitioner of happy life". What's more, it will stimulate further momentum for high-quality development underpinned by new concept, new model, novel technology and fresh talents.

### I. OVERVIEW OF CORPORATE GOVERNANCE

Improving corporate governance is the first and foremost task of the Company to achieve high-quality development. The Company always makes unremitted efforts to pursue standardized business operation and extraordinary corporate governance. The Company continuously improves corporate governance structure consisting of the general meeting, the Board, the Supervisory Committee and the Senior Management according to the relevant laws, regulations and regulatory requirements. Each corporate governance body operates independently, with effective checks and balances, cooperating with each other and functioning in a coordinated manner.

### **V. BOARD DIVERSITY POLICY**

The Company considers the diversity of the members of the Board as an important impetus to support the Company in enhancing the corporate governance level and achieving sustainable development. The Company has formulated the Board Diversity Policy of China Zheshang Bank Co., Ltd. according to the relevant provisions of the Hong Kong Listing Rules. It is expressly provided in the Policy that the Board shall consider various aspects and diversified factors when determining the composition of the Board, including but not limited to gender, age, cultural and educational background, professional experience, skills, knowledge and/or service period, thus ensuring the Board have diversified viewpoints and angles in performing their duties, and forming into a composition model of the Board matched with the Company's development model.

The Board Diversity Policy of the Company comprises of chapters such as purpose, philosophy, policy statement, expected objective, supervision and reporting, with the main purpose of recognizing and accepting the philosophy of building a diversified Board to strengthen the execution of the Board, and affirming the importance of diversity of the Board to achieve strategic objectives. During the reporting period, the geographical distribution, educational background and professional experience of members of the Board are relatively diversified. Among the current 12 Directors of the Company, one is female, and 10 are with post graduate diploma or master's degree or above, including 4 with doctoral diploma. The diversified composition of the Board brings a broad vision and a high level of professional experience to the Board and maintains an independent element within the Board to ensure that the Board is able to effectively make independent judgments and scientific decisions when studying and considering material issues.

### **VI. IMPLEMENTATION OF INFORMATION DISCLOSURE**

During the reporting period, the Company faithfully performed the obligation of information disclosure, constantly improved regular reporting disclosures, and disclosed temporary announcements in a more active and timely manner. With continuous improvement of the effectiveness and transparency of information disclosure, the Company has received the highest rating of Class A in respect of annual information disclosure from the Shanghai Stock Exchange for three consecutive years since the listing of its A Shares.

The Company prohibits its staff from trading or recommending others to trade by making use of inside information. The Company established information disclosure management system, which has identified the department responsible for inside information disclosures, to disclose information in a timely and compliant manner according to the requirements and provisions of Rules Governing the Listing of Stocks on Shanghai Stock Exchange and the Hong Kong Listing Rules.

The Company truly, accurately and completely carried out information disclosure work in a timely manner, strictly in accordance with the requirements of relevant information disclosure laws and regulations. During the reporting period, the Company disclosed a total of 51 various announcements for A Shares on the newspapers designated by the CSRC, including China Securities Journal, Shanghai Securities News, Securities Times and Securities Daily, the websites of the Shanghai Stock Exchange and the Company, and disclosed a total of 70 various announcements for H Shares on the websites of the Hong Kong Stock Exchange and the Company, which ensured that all shareholders had equal opportunity to get relevant information of the Company.

### **VII. INVESTOR RELATIONS MANAGEMENT**

During the reporting period, the Company adhered to its investor-oriented approach and continued to focus on investor relations management by working hard toward its established annual priorities and objectives, keeping up with market trends, enhancing the depth and breadth of its communication and exchanges with various types of investors, and updating them with the latest information on its operation and development in an accurate and objective manner to improve market recognition. At the end of June 2024, the Company won the 15th "Tianma Award" (天馬獎) for investor relations management of Chinese listed companies.

During the reporting period, the Company held two annual results conferences in Hong Kong and Shenzhen addressing concerns raised by domestic and overseas investors and the media in a timely manner, and the on-site exchanges were recorded as minutes for public inspection. Nearly 40 foreign investment institutions and media companies were invited to attend the Hong Kong results conference; nearly 60 domestic investment institutions and media companies were invited to attend the Shenzhen results conference, and other investors attended the conference via webcast. At the annual results conferences, the senior management provided comprehensive and in-depth answers to market concerns such as the Company's philosophy and practice of finance for good, the effectiveness of the intelligent operation strategy, and the specific measures taken to implement the "five finances".

During the reporting period, the Company intensified its communication with the market by organizing a number of roadshows, online and offline surveys and investor open days after the results conferences, covering all types of capital market participants, which earned increased market attention for the Company. In the first half of the year, after the release of the annual report and first quarterly report of the Company, the leading securities companies in the market gave positive comments on the Company in the first instance, and at the end of May 2024, the Company was included in the SSE 180 Index, another significant milestone of the Company following its inclusion in the CSI 300 Index at the end of November 2023.

In order to improve the satisfaction of small and medium investors, during the reporting period, the Company made full use of digital methods and means, including enriching the content of its Tongshun Hao (同順號) account "CZBank", answering questions of investors on SSE E-interactive on a regular basis, and providing interpretations on key strategies with living streaming. Meanwhile, the Company launched various activities, including implementing the spirit of the "National Nine Articles" (國九條) and protecting the legitimate rights and interests of investors by placing posters on its official webpage, "Tongshun Hao" and other platforms.

### **VIII. SECURITIES TRANSACTIONS BY DIRECTORS AND SUPERVISORS**

The Company has adopted a code of conduct for securities transactions by Directors and Supervisors, which is not less rigorous than the Model Code set out in Appendix C3 of the Hong Kong Listing Rules. The Company has confirmed with all Directors and Supervisors and hereby acknowledged that they had complied with the aforesaid code during the period from January 1, 2024 to June 30, 2024.

### IX. STATEMENT OF COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE UNDER THE HONG KONG LISTING RULES

The Company agrees to the principles set out in the Corporate Governance Code in Appendix C1 to the Hong Kong Listing Rules. From January 1, 2024, to June 30, 2024, the Company has been in full compliance with the code provisions under the Code, except for the following:

In accordance with provision C.1.6 of the Corporate Governance Code, independent non-executive Directors as well as other non-executive Directors should attend general meetings. During the reporting period, four Directors of the Bank were unable to attend the 2023 Annual General Meeting held by the Bank on June 12, 2024 due to other business arrangements. However, there were sufficient Directors (including executive Directors, non-executive Directors and independent non-executive Directors), present at the 2023 Annual General Meeting to enable the Board to gain a thorough and balanced understanding of the views of the shareholders of the Company, and any Directors who were absent from the 2023 Annual General Meeting were able to obtain an understanding of views expressed by the shareholders of the Company (if any) at the 2023 Annual General Meeting from the attending Directors.

## **VIII. ISSUANCE AND LISTING OF SECURITIES**

During the reporting period, the Company did not issue any new ordinary shares nor sell any treasury shares (as defined in the Hong Kong Listing Rules) for cash.

## **IX. INFORMATION ABOUT PREFERENCE SHARES**

As of the end of the reporting period, the Company had no existing preference shares.

## X. INFORMATION ABOUT UNDATED CAPITAL BOND

As considered and approved at the sixth extraordinary meeting of the fifth session of the Board of the Company in 2020 and the Company's 2021 first extraordinary general meeting and with the approval from the former CBIRC and the People's Bank of China, the Company successfully issued undated capital bonds with a total issue amount of RMB25.0 billion on November 25, 2021 in China's national inter-bank bond market. The coupon rate is 3.85% during the first five years and will be adjusted every five years. The Company shall be entitled to redeem the bonds, in total or in partial, on every distribution payment date since the fifth distribution payment date (inclusive). All the proceeds will be used to replenish the Company's additional tier 1 capital.

## I. BASIC INFORMATION ON DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

As of the disclosure date of this report, the Board of the Company comprised 12 Directors, including 3 executive Directors, namely Mr. Lu Jianqiang, Ms. Ma Hong and Mr. Chen Haiqiang; 4 non-executive Directors, namely Mr. Hou Xingchuan, Mr. Ren Zhixiang, Mr. Hu Tiangao and Mr. Ying Yuxiang; and 5 independent non-executive Directors, namely Mr. Zhou Zhifang, Mr. Wang Guocai, Mr. Wang Wei, Mr. Xu Yongbin and Mr. Fu Tingmei.

As of the disclosure date of this report, the Supervisory Committee of the Company comprised 11 Supervisors, including 2 shareholder Supervisors, namely Mr. Ma Xiaofeng and Mr. Wang Junbo; 5 employee representative Supervisors, namely Mr. Guo Dingfang, Mr. Wu Fanghua, Mr. Peng Zhiyuan, Mr. Du Quan and Ms. Chen Zhong, and 4 external Supervisors, namely Mr. Gao Qiang, Mr. Zhang Fanquan, Mr. Chen Sanlian and Mr. Wang Congcong.

As of the disclosure date of this report, the Senior Management of the Company comprised 8 members, namely Mr. Chen Haiqiang, Mr. Jing Feng, Mr. Luo Feng, Mr. Lin Jingran, Mr. Zhou Weixin, Mr. Pan Huafeng, Mr. Wang Chaoming and Mr. Hou Bo.

## II. INFORMATION ON THE APPOINTMENT AND RESIGNATION OF DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

#### DIRECTORS

On May 14, 2024, Mr. Ying Yuxiang was appointed as a non-executive Director of the Company upon approval of his qualification by the National Financial Regulatory Administration (the "NFRA").

On June 12, 2024, the Company convened the 2023 Annual General Meeting, and elected Mr. Wu Zhijun as a non-executive Director and Mr. Shi Hao as an independent non-executive Director of the Sixth Session of the Board. The qualification of each to serve as a director is subject to the approval of the NFRA.

On August 9, 2024, the Company convened the first extraordinary general meeting of 2024 and elected the seventh session of the Board, comprising Mr. Lu Jianqiang, Mr. Zhang Rongsen, Ms. Ma Hong and Mr. Chen Haiqiang as executive Directors; Mr. Hou Xingchuan, Mr. Ren Zhixiang, Mr. Ni Defeng, Mr. Hu Tiangao, Ms. Jin Guorui, Mr. Ying Yuxiang and Mr. Wu Zhijun as non-executive Directors; and Mr. Zhou Zhifang, Mr. Wang Guocai, Mr. Wang Wei, Mr. Xu Yongbin, Mr. Fu Tingmei, Mr. Lou Weizhong and Mr. Shi Hao as independent non-executive Directors. Ms. Gao Qinhong and Mr. Zhu Weiming ceased to act as non-executive Directors. Among the members of the seventh session of the Board, the qualifications of Mr. Ni Defeng, Ms. Jin Guorui, Mr. Wu Zhijun, Mr. Lou Weizhong and Mr. Shi Hao are subject to the approval of the NFRA. On the same day, the Company convened the first meeting of the seventh session of the Board and elected Mr. Lu Jianqiang as the Chairman of the Board of the Company.

#### **SUPERVISORS**

On February 27, 2024, Mr. Chen Zhongwei resigned as an employee Supervisor and member of the Supervision Committee under the Supervisory Committee of the Company due to internal job transfer.

On June 12, 2024, the Company convened the 2023 Annual General Meeting and elected Mr. Wang Junbo as a shareholder Supervisor of the sixth session of the Supervisory Committee of the Company.

On June 21, 2024, Mr. Du Quan and Ms. Chen Zhong were elected as employee Supervisors of the sixth session of the Supervisory Committee of the Company at the fourth meeting of the third session of the staff council of the Company.

On August 9, 2024, the Company convened the first extraordinary general meeting of 2024, and elected Mr. Ma Xiaofeng and Mr. Wang Junbo as the shareholder Supervisors of the seventh session of the Supervisory Committee; Mr. Gao Qiang, Mr. Zhang Fanquan, Mr. Chen Sanlian and Mr. Wang Congcong as the external Supervisors of the seventh session of the Supervisory Committee; and Mr. Song Qinghua ceased to act as an external Supervisor of the Company. On August 2, 2024, the Company convened the fifth meeting of the third session of the staff council and elected Mr. Guo Dingfang, Mr. Wu Fanghua, Mr. Peng Zhiyuan, Mr. Du Quan and Ms. Chen Zhong as the employee Supervisors of the seventh session of the Supervisory committee. The term of office of the employee Supervisors of the seventh session of the Supervisory Committee was the same as that of the seventh session of the Supervisory Committee of the Company.

#### SENIOR MANAGEMENT

On January 19, 2024, Mr. Jing Feng resigned as the Chief Financial Officer of the Company as a result of a change in the division of responsibilities.

On January 31, 2024, at the first extraordinary meeting of the sixth session of the Board of the Company in 2024, it was agreed to appoint Mr. Hou Bo as the President Assistant of the Company, and a letter of appointment will be issued after his qualification to serve as senior management is approved by the NFRA.

On March 7, 2024, Mr. Pan Huafeng's qualification to serve as the President Assistant and Chief Risk Officer of the Company was approved by the NFRA.

On June 7, 2024, Mr. Luo Feng's qualification to serve as the Secretary to the Board of the Company was approved by the NFRA.

On August 9, 2024, the Company convened the first meeting of the seventh session of the Board, and considered and approved the appointment of Mr. Zhang Rongsen as the President, Mr. Chen Haiqiang, Mr. Jing Feng, Mr. Luo Feng and Mr. Lin Jingran as the Vice Presidents, Mr. Zhou Weixin, Mr. Pan Huafeng, Mr. Wang Chaoming and Mr. Hou Bo as the President Assistants, Mr. Luo Feng as the Secretary to the Board, Mr. Pan Huafeng as the Chief Risk Officer, and Mr. Wang Chaoming as the Chief Information Officer of the Company. On August 16, 2024, Mr. Wang Chaoming's qualification to serve as the President Assistant and Chief Information Officer, and Mr. Hou Bo's qualification to serve as the President Assistant were approved by the NFRA.

On August 18, 2024, Mr. Zhang Rongsen resigned from his positions as an executive Director and the President of the Company due to personal reasons. On the same date, the Company convened the 2024 first extraordinary meeting of the seventh session of the Board, and the Board agreed that before the appointment of a new President by the Board and the qualification of such position is approved by the NFRA, Mr. Lu Jianqiang, the Chairman of the Board, will act as the acting President.

## **III. CHANGE OF DIRECTORS AND SUPERVISORS**

On May 7, 2024, Mr. Ma Xiaofeng was appointed as a director of Zhejiang China Light & Textile Industrial City Group Co., Ltd.

## IV. CHANGE IN SHAREHOLDING OF INCUMBENT DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT AND THOSE RESIGNED DURING THE REPORTING PERIOD

## **V. EMPLOYEES**

As of the end of the reporting period, the Group had 23,324 employees (including dispatched employees, outsourced personnel and employees of the subsidiary of the Company), representing an increase of 429 as compared with that at the end of last year. Divided by the position types, 10,333 employees of the Group were categorized as marketing personnel, 1,766 employees as counter personnel, and 11,225 employees as mid-office and back-office personnel; divided by the educational levels, 5,884 obtained post-graduate degree or above (including 100 with doctorate degree), 16,357 obtained bachelor degree, and 1,083 obtained college degree or below. All of our employees participate in basic social pension insurance, and as of the end of the reporting period, 346 employees had retired from the Company.

## **VI. EMPLOYEE REMUNERATION POLICY**

The Company's remuneration policy is guided by its growth strategy and the people-oriented concept with unified and classified management by adhering to the principle of marketization and in accordance with the single-level legal person system. The Company continues to improve the linkage mechanism of remuneration level with performance capabilities of individual positions and personal operational performance, and strives to set up a remuneration management system that reflects internal fairness and external competitiveness, promotes the co-growth of employees and the Company, focuses equally on incentives and restraints, gives attention to both position value, contribution and long-term incentives, and matches the change in remuneration with the market rate and economic benefits.

The Company's remuneration policy coordinates well with the risk management system, and is matched with its size as well as the nature and complexity degree of its business. Specifically, the total amount of remuneration allocated by the Company to its branches is linked with the realization status of overall benefits by such branches and the Company takes into account various kinds of risk factors so that the branch outlets would strive for risk-adjusted value creation and that long-term performance would be improved. Furthermore, the remuneration paid to employees is linked with the responsibilities and risk degree associated with the employee's post and different kinds of appraisal and performance allocation methods are applied to different types of employees, which appropriately tilted to the front-office marketing position, and the deferment payment of the performance-based remuneration is implemented in accordance with the internal control principles of prudent operations and strengthened constraints with the payment time basically in line with the risk persistency period of the corresponding business. For employees in the risk and compliance departments, their remuneration is determined by taking into account their position value, abilities to perform duties and other factors, and such remuneration is not directly related to the matters under their regulation and remains independent of other business segments.

## **VII.EMPLOYEES TRAINING**

The Company continuously improves the training systems with a focus on our operation and development strategy. On the basis of conducting all-staff training, the Company attaches high importance to the training of key talents, so as to comprehensively improve management abilities and professional capabilities of our employees, and provide knowledge and talents support for the implementation of our strategy. During the reporting period, the Bank held 995 training programmes in total with 411,714 attendances.

During the reporting period, at the twelfth meeting of the sixth session of the Board, the Company considered and passed the Proposal on the Pre-approval Limit of Deposit-type Related Party Transactions of China Zheshang Bank Co., Ltd. for 2024 (《關於浙商銀行股份有限公司 2024 年度存 款類關聯交易預審批額度的議案》), approving the pre-approval limit of non-demand deposits of the related parties for 2024 formulated by the Company. For details, please refer to the Announcement on the Pre-approval Limit of Deposit-type Related Party Transactions of China Zheshang Bank Co., Ltd. for 2024 (Number: 2024-013) published by the Company on the Shanghai Stock Exchange (www.sse.com.cn).

During the reporting period, the Company provided commercial banking services and products in our ordinary and usual course of business to the public in the PRC, including our connected persons. These transactions were entered into on normal commercial terms (or on better terms to the Company) in the ordinary and usual course of our business, and thus are fully exempted from all disclosure, annual review and Shareholders' approval requirements under Chapter 14A of the Hong Kong Listing Rules.

The Company also enters into certain non-banking transactions (such as leasing arrangements) with our connected persons and/or their respective associates from time to time in our ordinary and usual course of business on normal commercial terms (or on better terms to us) which have constituted de minimis transactions under Chapter 14A of the Hong Kong Listing Rules and are fully exempted from all disclosure, annual review and Shareholders' approval requirements under Chapter 14A of the Hong Kong Listing Rules.

Details of related party transactions entered into by the Company as of June 30, 2024 are set out in "Notes to Consolidated Financial Statements – Related Party Relationship and Transactions".

Saved as disclosed above, no related party transactions set out in "Notes to Consolidated Financial Statements – Related Party Relationship and Transactions" comply with the definition of "connected transactions" or "continuing connected transaction" in Chapter 14A of the Hong Kong Listing Rules and the Company confirms that it has complied with the disclosure requirements under Chapter 14A of the Hong Kong Listing Rules.

#### (II) Connected Transactions in Acquisition and Disposal of Assets or Equity

During the reporting period, the Company has not conducted connected transactions involving the acquisition and disposal of assets or equity.

#### (III) Connected Transactions in relation to Joint External Investment

During the reporting period, the Company has not conducted connected transactions in relation to joint external investment.

#### (IV) Connected Creditor's Rights and Liabilities

During the reporting period, the Company has not had any non-operational connected creditor's rights and liabilities.

## V. MATERIAL CONTRACTS AND THEIR PERFORMANCE

#### (I) Material custody, contracting and leasing

During the reporting period, the Company did not have any material custody, contracting or leasing of assets of other companies that shall be disclosed, nor did there exist any custody, contracting or leasing of assets of the Company by other companies that shall be disclosed.

#### (II) Significant guarantees

Guarantee business is an ordinary business of the Company. During the reporting period, save for the financial guarantee business carried out by the Company within the business scope approved by regulatory authorities, there were no other significant guarantees that shall be disclosed.

## VI. MATERIAL PURCHASE, SALE OR DISPOSAL OF ASSETS AND CORPORATE MERGERS

During the reporting period, there were no material purchase, sale or disposal of assets and corporate merger by the Company.

### **VII. STOCK INCENTIVE PLAN**

The Company did not implement any stock incentive plan during the reporting period.

## VIII. EMPLOYEE STOCK OWNERSHIP SCHEME

The Company did not implement an employee stock ownership scheme during the reporting period.

## IX. INTERESTS OWNED BY THE DIRECTORS, CHIEF EXECUTIVE AND SUPERVISORS IN THE COMPANY

As at June 30, 2024, the interests and short positions of the Directors, Supervisors and chief executives of the Company in the shares, underlying shares and debentures of the Company or its associated corporations (as defined in the SFO), which are required to be notified to the Company and Hong Kong Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO, including the interests or short positions which the Directors, Supervisors and chief executives of the Company are taken or deemed to have under such provisions of the SFO, or which are required to be and are recorded in the register required to be kept by the Company pursuant to Section 352 of the SFO or as otherwise required to be notified to the Company and Hong Kong Stock Exchange pursuant to the Model Code set out in Appendix C3 to the Hong Kong Listing Rules, were as follows:

## X. DISCIPLINARY ACTIONS IMPOSED ON THE COMPANY OR ITS DIRECTORS, SUPERVISORS, SENIOR MANAGEMENT AND SHAREHOLDERS HOLDING 5% OR MORE SHARES IN THE COMPANY

No significant administrative penalty was imposed and no notice of criticism was circulated by any regulatory authority upon the Company or the Board of Directors and the Directors, the Supervisory Committee, the Supervisors and Senior Management of the Company and Shareholders holding 5% or more shares during the reporting period.

## XI. DISCLOSURE OF UNDERTAKINGS ON THE DESIGNATED NEWSPAPERS OR WEBSITES BY THE COMPANY OR SHAREHOLDERS HOLDING 5% OR MORE SHARES

Nil.

## XII. ENVIRONMENTAL AND SOCIAL RESPONSIBILITY

#### (I) Performance and Policies in relation to Environment

During the reporting period, the Bank implemented the major decisions and deployments of the Central Committee of the Communist Party of China and the State Council on green finance, insisted on promoting green finance on a strategic basis, formulated the Implementation Plan for the High-quality Development of Green Finance of China Zheshang Bank 《浙商銀行綠色金融高質 量發展實施方案》, continued to deepen the construction of green finance system, and proactively implemented carbon peak and carbon neutrality, so as to promote the green and low-carbon development of the economy and society.

In terms of green finance, the Bank strengthened credit policy guidance, intensified the tracking and research efforts on the segmented industries in key areas such as green, low-carbon and recycling economy based on industrial research institute, further improved the "1+N" policy framework system, and clarified the credit policy for key green and low-carbon industries and fields; improved the assessment and incentive mechanism, linked the development of green finance with comprehensive performance evaluation, increased the support of business resources, enhanced the preferential policies and special rewards of green credit business, and prioritized the demand for green credit; enriched green finance products and services, continued to promote green credit, encouraged resources to flow into key areas of green industries such as clean energy, green manufacturing and ecological environment, and supported the low-carbon transformation of industries with high energy consumption and high emissions. As of the end of June 2024, the balance of green loans was RMB226.764 billion, representing an increase of RMB23.327 billion or 11.47% from the beginning of the year, which was higher than the growth rate of all loans.

In terms of green operation, the Bank strengthened its own carbon footprint management, strived to reduce resource and energy consumption in daily office and operation processes, and promoted green and intelligent development of financial services by upgrading personal mobile banking, optimizing corporate service platforms and accelerating the construction of green outlets; actively carried out digital office and paperless quick reimbursement, encouraged green commuting of employees, and continued to improve the eco-efficiency of operations. During the reporting period, the Bank did not violate any environmental regulation.

## (II) Consolidation and Expansion of Poverty Alleviation Achievements and Support for Rural Revitalization

During the reporting period, the Bank continued to increase the allocation of financial resources and investment in rural areas and poverty-stricken areas, formulated financial service plans by focusing on island counties in the mountainous areas of Zhejiang Province, and continued to explore effective rural revitalization financial service patterns with CZBank characteristics. As of the end of June 2024, the balance of large agricultural loans was RMB228.605 billion, representing an increase of RMB7.822 billion from the beginning of the year, and the balance of inclusive agriculture-related loans was RMB45.894 billion, representing an increase of RMB3.140 billion from the beginning of the year. We have solidly promoted the East-West collaboration and the "1,000 enterprises for 1,000 villages" (千企結千村) partner assistance program, selected outstanding cadres and employees to reside in the village and hold temporary positions, focused on industrial projects such as photovoltaic power generation and grain and oil processing to help 5 villages of Longyou County in Quzhou and Luogu Village in Dazhou, Sichuan Province achieve doubled growth of collective operating income, resulting in significant economic and social benefits; further promoted the education assistance of "one bank for one school" (一行一校) by pairing 32 rural primary schools with total investment of more than RMB37 million, organized special activities such as eye care actions and employee teaching support, and provided comprehensive support for the schools' infrastructure, living environment, teaching quality and quality education, benefiting about 10,000 students; strengthened the coordinated management of charitable donations and established Zhejiang CZBank Foundation (浙江浙銀公益基金會).

#### (III) Protection of Consumer Rights

During the reporting period, the Bank attached great importance to the protection of consumer rights. By always adhering to a "customer-oriented" approach, the Bank improved the customer complaint management and information protection system to create efficient, convenient, warm and quality service experience; intensified consumer protection review by conducting more than 700 reviews, identified risks in product and service design and development, pricing management, agreement formulation, marketing promotion and other aspects, and gave full play to the role of source prevention and control; continued to optimize the digital intelligent consumer protection system with demand guidance and technology empowerment, so as to further improve the quality and efficiency of consumer protection; continued to improve the complaint management mechanism, strengthen the construction of the complaint management team, handle complaints in a timely and appropriate manner, and effectively protect the legitimate rights and interests of consumers, and received 64,232 complaints, with a 100% customer complaint handling rate; carried out financial knowledge publicity and education activities, and organized 4,048 online and offline publicity and education activities, involving 53.6993 million consumers.

For more information about social responsibility and ESG of the Bank, please refer to the 2023 Corporate Social Responsibility Report of China Zheshang Bank and the Company Overview – Social Responsibility section on the official website of the Company (www.czbank.com).

## XIII. REVIEW OF THE INTERIM RESULTS

The 2024 interim report of the Company prepared under the China Accounting Standards and the International Financial Reporting Standards has reviewed by KPMG Huazhen LLP and KPMG in accordance with China Standards on Review Engagements and International Standard on Review Engagements, respectively.

The Board of Directors and the audit Committee of the Board of Directors of the Company have reviewed and approved the results and financial report of the Company for the period ended June 30, 2024.

## XIV. PUBLISHING THE INTERIM REPORT

The English and Chinese version of the interim report prepared by the Company in accordance with the International Financial Reporting Standards and Hong Kong Listing Rules will be available on the website of Hong Kong Stock Exchange and the Company's website. For any inconsistency between the two versions, the Chinese version shall prevail.

The Chinese version of the semi-annual report prepared by the Company in accordance with the China Accounting Standards and the Rules of the CSRC for the Preparation of Semi-annual Reports will be available on the website of the Shanghai Stock Exchange and the Company's website.

## XV. MAJOR EVENTS OCCURRED AFTER THE REPORTING PERIOD

On August 9, 2024, the Company held the first extraordinary general meeting in 2024, and completed the election of the seventh session of the Board and the Supervisory Committee. On August 18, 2024, Mr. Zhang Rongsen resigned from his positions as an executive Director and the President of the Company due to personal reasons. For details, please refer to the "INFORMATION ON DIRECTORS, SUPERVISORS, SENIOR MANAGEMENT, EMPLOYEES AND INSTITUTIONS" in this report and the relevant announcements disclosed by the Company on the websites of the Shanghai Stock Exchange and the Company.

China Zheshang Bank Co., Ltd.

Interim Financial Report for the six months ended 30 June 2024 (Prepared under International Financial Reporting Standards)

#### **Review Report**

To the board of directors of China Zheshang Bank Co., Ltd. (Incorporated in the People's Republic of China with limited liability)

#### Introduction

We have reviewed the interim financial report of China Zheshang Bank Co., Ltd. ("the Bank") and its subsidiary ("the Group"), which comprise the condensed consolidated statement of financial position at 30 June 2024, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated cash flow statement for the six-month period then ended, and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited requires the preparation of an interim financial report to be in accordance with the relevant provisions thereof and the International Accounting Standard 34, *Interim Financial Reporting*, issued by the International Accounting Standards Board. The directors are responsible for the preparation and presentation of the interim financial report in accordance with International Accounting Standard 34, *Interim Financial Reporting*.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

#### Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*, issued by the International Auditing and Assurance Standards Board. A review of the interim financial report consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2024 is not prepared, in all material respects, in accordance with International Accounting Standard 34, *Interim Financial Reporting*.

### NOTES TO THE INTERIM FINANCIAL REPORT

(In RMB millions, unless otherwise stated)

#### General Information

L

China Zheshang Bank Co., Ltd. (the "Bank") is a national joint-stock commercial bank established on the basis of the original Zhejiang Commercial Bank with the approval from the original China Banking Regulatory Commission (hereinafter referred to as "the original CBRC") and the original Zhejiang Commission of China Banking Regulatory Commission (Zhe Yin Jian Fu [2004] No. 48). The Bank obtained the Finance License (No. B0010H133010001) with the approval from the original CBRC. On 26 July 2004, the Bank completed the change of registration in Zhejiang Administration for Industry and Commerce and obtained the Business License (No. 33000000013295) in Zhejiang Province, the People's Republic of China (the "PRC"). On 7 November 2016, the Bank obtained the Uniform Social Credit Code (No.91330000761336668H). The registered address is 1788 Hongning Road, Xiaoshan District, Hangzhou, Zhejiang Province.

The Bank was listed on the Hong Kong Stock Exchange on 30 March 2016 with stock code of 2016, the Bank was listed on the Shanghai Stock Exchange on 26 November 2019 with stock code of 601916. At 30 June 2024, the Bank's registered capital is RMB27,464,635,963.

At 30 June 2024, the Bank has established 350 branches in 22 provinces (autonomous regions or municipalities) and Hong Kong in China, including 72 branches (30 of them are tier-one branches), 2 branch-level specialized institution and 276 sub-branches. The principal activities of the Bank include corporate and retail banking, treasury business, and other banking service.

Zhejiang Zheyin Financial Leasing Co., Ltd. ("Zheyin Financial Leasing") was established on 18 January 2017. At 30 June 2024, the registered capital of Zheyin Financial Leasing is RMB4 billion. Since the Bank has control over Zheyin Financial Leasing, the Bank has included it in the scope of the consolidated financial statements. The Bank and its subsidiary, Zheyin Financial Leasing, are collectively referred to as "the Group".

### II Basis of Preparation and Principal Accounting Policies

The interim financial report has been prepared on a going concern basis.

The interim financial report has been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, and disclosure requirements of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited and do not include all information and diclosures disclosed in the annual financial statements. The interim financial report should be read in conjunction with the Group's last annual consolidated financial statements at and for the year ended 31 December 2023.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2023 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with IFRSs.

The preparation of an interim financial report in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates. The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied in the preparation of the consolidated financial statements for the year ended 31 December 2023.

The following amendments to IFRSs issued by the International Accounting Standards Board (IASB) take effect for the current accounting period beginning on or after 1 January 2024:

- Amendments to IAS 1, Presentation of financial statements: Classification of liabilities as current or non-current
- Amendments to IAS 1, Presentation of financial statements: Non-current liabilities with covenants
- · Amendments to IFRS 16, Leases: Lease liability in a sale and leaseback
- Amendments to IAS 7, Statement of cash flows and IFRS 7, Financial instruments: Disclosures Supplier finance arrangements

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period. These amendments do not have a material impact on the consolidated financial statements.

## III Notes to the Consolidated Financial Statements

## 1 Net Interest Income

|  | For the six months en 2024 | <u>ded 30 June</u><br>2023 |
|--|----------------------------|----------------------------|
|  |                            |                            |
| Interest income:   |                            |                            |
| Loans and advances to customers - Corporate loans and advances | 26,444                     | 24,900                     |
| - Personal loans and advances                                  | 13,224                     | 13,212                     |
| - Discounted bills   | 1,286                      | 1,408                      |

|                            | <u>2024</u>            | <u>2023</u>                      |  |
| Current income tax expense | 1,512                  | 2,914                            |  |
| Deferred tax expense       | (14)                   | (1,501)                          |  |
| Total                      | 1,498                  | 1,413                            |  |

Current income tax is calculated based on the statutory rate of 25% of the taxable income of the Group in accordance with PRC income tax regulations.

The difference between the actual income tax charged in the profit or loss and the amounts which would result from applying the statutory tax rate to profit before taxation can be reconciled as follows:

|                                      | Notes | For the six months ended 30 June |             |

|                                      |       | <u>2024</u>                      | <u>2023</u> |
| Profit before taxation               |       | 9,741                            | 9,378       |
| Tax calculated at statutory tax rate |       | 2,435                            | 2,345       |
| Effects of non-taxable income        | (1)   | (1,507)                          | (1,381)     |
| Effects of non-deductible expenses   | (2)   | 570                              | 449         |
| Income tax expense                   |       | 1,498                            | 1,413       |

- (1) The non-taxable income mainly represents interest income arising from treasury bonds and municipal government bonds, and dividend income arising from fund investments, which are income tax free in accordance with the PRC tax regulations.
- (2) The non-deductible expenses mainly include the non-deductible write-off losses assessed and confirmed item by item, and certain expenses, which are not deductible before taxation according to PRC tax regulations.

#### 9 Basic and Diluted Earnings Per Share

Basic earnings per share are calculated by dividing the net profit attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding. At 30 June 2024, the Group possesses no share with potential dilution effect hence there's no difference between basic and diluted earnings per share.

|   | For the six months 2024 | <u>s ended 30 June</u><br>2023 |
|---|-------------------------|--------------------------------|

| - Surplus deposit reserves       | (2)   | 17,470                 | 34,483                     |
| - Foreign exchange risk reserves | (3)   | 4,419                  | 4,104                      |
| - Fiscal deposits                | (4)   | 52                     | 23                         |
| Subtotal                         |       | 137,143                | 163,793                    |
| Interest accrued                 |       | 53                     | 65                         |
| Total                            | -     | 138,183                | 164,723                    |

(1) The Group is required to place statutory deposit reserves with the People's Bank of China (the "PBOC"), these deposit reserves cannot be used for the daily business operation of the Group. At the balance sheet date, rates for statutory deposit reserves were as follows:

|   | 30 June<br><u>2024</u> | 31 December<br><u>2023</u> |
|---|------------------------|----------------------------|
| Statutory deposit reserves rate for deposits denominated in RMB                   | 6.50%                  | 7.00%                      |
| Statutory deposit reserves rate for deposits<br>denominated in foreign currencies | 4.00%                  | 4.00%                      |

The statutory deposit reserves ratios of the subsidiary of the Bank complied with the requirement of the PBOC.

- (2) Surplus deposit reserves includes the funds deposited in the People's Bank of China for the purpose of capital settlement and other non restrictive funds.
- (3) At 30 June 2024, the foreign exchange risk reserve ratio for forward foreign exchange sales of the Bank is 20% (31 December 2023: 20%).
- (4) Financial deposits refer to the funds originated from financial institutions and deposited in the People's Bank of China according to regulations, which cannot be used for the daily business operation of the Group.

| In Chinese Mainland  |      |             |             |
| - Banks  |      | 61,172      | 50,340      |
| - Other financial institutions   |      | 2,445       | 2,000       |
| Outside Chinese Mainland   |      |             |             |
| - Banks  |      | 11,880      | 7,003       |
| Interest accrued   | _    | 895         | 618         |
| Subtotal   | _    | 76,392      | 59,961      |
| Designated as at fair value through profit or loss:<br>In Chinese Mainland | (1)  |             |             |
| - Banks  |      | 33,020      | 26,208      |
| - Other financial institutions   | _    | -           | 1,512       |
| Subtotal   | -    | 33,020      | 27,720      |
| Total  | -    | 109,412     | 87,681      |

(1) There were no significant changes in the credit spread of the Group and therefore the amounts of changes in fair value of the financial liabilities designated as at fair value through profit or loss arising from changes in credit risk were not considered significant. The changes in fair value of the financial liabilities were mainly attributable to changes in other market factors.

#### 27 Financial Liabilities at Fair Value through Profit or Loss

|  | Notes | 30 June<br><u>2024</u> | 31 December<br><u>2023</u> |
|--|-------|------------------------|----------------------------|
| Financial liabilities designated as at fair value          |       |                        |                            |

| - Financial liabilities related to precious metals         |       | 540                    | 120                        |
| - Others   | (2)   | 17,349                 | 13,312                     |
| Financial liabilities at fair value through profit or loss |       |                        |                            |
| - Short positions of trading bonds                         |       | 266                    | -                          |
| Total  | _     | 18,155                 | 13,432                     |

(1) The Group manages and evaluates the financial liability portfolio on the basis of fair value according to the enterprise risk management or investment strategy stated in the official written documents, and reports to key management personnel within the enterprise on this basis. There were no significant changes in the credit spread of the Group and therefore the amounts of changes in fair value of the financial liabilities designated as at fair value through profit or loss arising from changes in credit risk were not considered significant. The changes in fair value of the financial liabilities were mainly attributable to changes in other market factors. (2) Others mainly represent shares held by other parties rather than the Group and liabilities of consolidated structured entities.

# (b) Main terms of perpetual bonds

The duration of the perpetual bonds is the same as the continuing operation of the Bank. The perpetual bonds issuance sets conditional redemption rights for the issuer. The Bank shall have the right to redeem all or part of the perpetual bonds on each annual interest payment date (including the fifth interest payment date since the date of issuance) five years after the date of issuance. If, after the issuance of the perpetual bonds, unpredictable changes in regulations result in that the perpetual bonds is no longer classified in other tier-one capital, the Bank shall have the right to redeem all , but not part, of the perpetual bonds.

The Bank shall exercise the right of redemption subject to the approval of the original CBIRC and on the condition that the following conditions are satisfied: (1) replacing the redeemed instrument with a capital instrument of equal or higher quality, and such replacement shall only be carried out at conditions which are sustainable for the income capacity; (2) or the capital position of the Bank after the redemption right is exercised will remain significantly higher than the regulatory capital requirements stipulated by the original CBIRC.

The claims in respect of the perpetual bonds will be subordinated to the claims of depositors, general creditors, and subordinated debts that rank senior to the perpetual bonds, and will rank in priority to all classes of shares held by the Bank's shareholders and rank pari passu with the claims in respect of any other additional tier-one capital instruments of the Bank that rank pari passu with the bonds. If subsequent amendments to the *PRC Enterprise Bankruptcy Law* or relevant regulations are applicable, such relevant laws and regulations shall prevail.

Upon the occurrence of a Non-Viability Trigger Event, the Bank has the right to write-down/write-off part or all of the principal of the perpetual bonds without the consent of the bondholders. The amount of the write-down/write-off shall be determined by the ratio of the outstanding principal amount of the Bonds to the aggregate principal amount of all additional tier 1 capital instruments with the identical Trigger Event. A Non-Viability Trigger Event refers to the earlier occurrence under the following circumstances: (1) the original CBIRC deems that the Bank would become non-viable without a write-down/write-off; (2) the relevant authorities deem that the Bank would become non-viable without a public sector injection of capital or equivalent support. The write-down/write-off will not be restored.

The coupon rate of the perpetual bonds will be adjusted at defined intervals with a coupon rate adjustment period which is every 5 years since the payment settlement date. In any coupon rate adjusted period, the interest payments on the perpetual bonds will be made at a prescribed fixed coupon rate. The coupon rate at the time of issuance will be determined by book running and centralised allocation.

The coupon rate is determined by a benchmark rate plus a fixed spread. The benchmark rate is the arithmetic average of the yields to maturity of the 5-year bond yield curve published on www.ChinaBond.com.cn (or other websites recognized by the China Central Depository & Clearing Co., Ltd.) 5 trading days prior to the Announcement Date of the Subscription Agreement or the adjustment date of the benchmark interest rate (excluding the current day) (rounded up to 0.01%). The fixed spread is the difference between the coupon rate and the benchmark rate as determined at the time of issuance. The fixed spread will not be adjusted once determined.

The Bank shall have the right to cancel all or part of the interest distribution of the perpetual bonds and any such cancellation shall not constitute an event of default. When exercising such right, the Bank will take into full consideration the interest of the bondholders. The Bank may, at its sole discretion, use the proceeds from the cancelled distribution to meet other obligations as they fall due. The cancellation of all or part of interest distribution on the perpetual bonds will not impose any other restriction on the Bank, except in relation to dividend distributions to ordinary shareholders. Any cancellation of any all or part or interest distribution on the perpetual bonds will require the deliberation and approval of the general shareholders meeting. The Bank shall give notice to the investors on such cancellation in a timely manner.

In the case of cancelling all or part of interest distributions on the perpetual bonds, the Bank shall not make any distribution to the ordinary shareholders from the next day following the resolution being approved by the general shareholders meeting, until its decision to resume the interest distribution in whole to the holders of the perpetual bonds. The Dividend Stopper on ordinary shares will not compromise the Bank's discretion to cancel distributions, and will not impede the Bank from replenishing its capital.

The interest distributions on the perpetual bonds must come from distributable items, and will not be affected by the rating of the Bank, nor will be reset based on any change to such rating. The interest distribution on the perpetual bonds are non-cumulative, namely, upon cancellation, any amount of distribution unpaid to the bondholders in the applicable period will not accumulate or compound to the subsequent distribution period thereafter. The perpetual bonds do not have any step-up mechanism or any other incentive to redeem. Investors are not allowed to sell the perpetual bonds.

(c) Changes in perpetual bonds outstanding at the end of the period / year

There was no change in the perpetual bonds outstanding at the end of the period / year during the period / year.

#### 39 Surplus Reserve

|                             | Statutory       |
|-----------------------------|-----------------|
|                             | surplus reserve |
| Balance at 1 January 2023   | 11,075          |
| Appropriation (Note III.41) | 1,471           |
| Balance at 31 December 2023 | 12,546          |
| Appropriation (Note III.41) | -               |
| Balance at 30 June 2024     | 12,546          |

Pursuant to the Company Law of the PRC and the Articles, the Bank is required to appropriate 10% of its net profit to the statutory surplus reserve.

# 40 Statutory General Reserve

|                             | Statutory<br><u>general reserve</u> |
|-----------------------------|-------------------------------------|
| Balance at 1 January 2023   | 26,457                              |
| Appropriation (Note III.41) | 3,347                               |
| Balance at 31 December 2023 | 29,804                              |
| Appropriation (Note III.41) | 5,279                               |
| Balance at 30 June 2024     | 35,083                              |

Pursuant to *the Administrative Measures on Accrual of Provisions by Financial Enterprises* (Caijin [2012] No. 20), the Bank establishes a statutory general reserve within equity through the appropriation of profit to address unidentified potential impairment risks, which should not be less than 1.5% of the year-end balance of its risk assets.

# 43 Transfer of Financial Assets

The Group enters into transactions in the normal course of business by which it transfers recognized financial assets to third parties or to special purpose vehicles. In some cases where these transfers may give rise to full or partial derecognition of the financial assets concerned, the Group fully or partially derecognize the transferred financial assets. In other cases where these transferred assets do not qualify for derecognition as the Group has retained substantially all the risks and rewards of these financial assets, the Group continued to recognize the transferred financial assets.

(1) Securitization transactions

In the process of securitization of credit assets, the Group transfers credit assets to structured entities and issues asset-backed securities as issuers. The Group would determine whether or not to derecognize the associated credit assets by evaluating the extent to which it retains the risks and rewards of the assets.

With respect to the credit assets that were securitised and qualified for derecognition, the Group derecognised the transferred credit assets in their entirety. For the six months ended 30 June 2024, the Group has transferred the ownership of the loans amounted to RMB2,696 million (For the six months ended 30 June 2023: RMB9,442 million), as well as substantially all the risks and rewards of the loans have been transferred, the full amount of such securitised loans were derecognised.

For those in which the Group has neither transferred nor retained substantially all the risks and rewards of the transferred credit assets, and retained control of the credit assets, the Group recognised the assets on the statement of financial position in accordance with the Group's continuing involvement and the rest is derecognised. The extent of the Group's continuing involvement is the extent of risks and rewards undertaken by the Group with value changes of the transferred financial assets. For the six months ended 30 June 2024, there is no Group's continuing involvement (For the six months ended 30 June 2024, the carrying amount of the assets and liabilities that the Group continues to recognise on the statement of financial position was RMB1,212 million (31 December 2023: RMB1,212 million). The Group also recognised other assets and other liabilities of the same amount arising from such continuing involvement.

(2) Non-performing assets transfer

For the six months ended 30 June 2024, the Group transferred non-performing loans principal amounting to RMB12,341 million (for the six months ended 30 June 2023: RMB1,425 million) and no non-performing financial investments (for the six months ended 30 June 2023: RMB350 million) to the asset management companies. For the six months ended 30 June 2024, the Group has transferred the ownership of non-performing loans, the principal of which amounted to RMB2,696 million (for the six months ended 30 June 2023: RMB3,831 million) through securitization transactions. As the Group transferred substantially all the risks and rewards of these non-performing loans and financial investments, the Group derecognized these non-performing loans and financial investments.

(3) Repurchase and securities lending transactions

Transferred financial assets that do not qualify for derecognition mainly include securities delivered as collateral in a repurchase transaction to a counterparty and debt securities lent to counterparties under securities lending agreements. The counterparties are allowed to sell or repledge those securities lent under agreements to repurchase in the absence of default by the Group, but have obligations to return the securities at the maturity of the contracts. In some cases, if the value of the relevant securities rises or falls, the Group may require the counterparty to pay additional cash as collateral or need to return part of the cash collateral to the counterparty. The Group determined that it retained substantially all the risks and rewards of these securities and therefore had not derecognized them. At 30 June 2024, the Group lent no debt securities to counterparties (31 December 2023: RMB26,550 million).

# IV Interests in Other Entities

# 1 Interests in subsidiary

# (1) Composition of the Group

At the balance sheet date, details of the subsidiary included in the consolidated financial statements are as follows:

| <u>Name</u>              | Place of<br>incorporation | Registered<br><u>address</u> | Business<br><u>nature</u> | Registered<br><u>capita</u> l | Proportion<br>of equity /<br><u>voting rights</u> |
|--------------------------|---------------------------|------------------------------|---------------------------|-------------------------------|---|
| Zheyin Financial Leasing | Zhejiang<br>Province      | Zhoushan                     | Financial institution     | RMB4 billion                  | 51%   |

# (2) Important non wholly-owned subsidiaries and main financial information

An important non wholly-owned subsidiary of the Group is Zheyin Financial Leasing. The following table lists the main financial information of Zheyin Financial Leasing. The main financial information of these subsidiaries is the amount before the Group's internal transactions are offset, but it has been adjusted by the unified accounting policy:

|  | 30 June     | 31 December |
|--|-------------|-------------|
|  | <u>2024</u> | <u>2023</u> |
| Total assets                                 | 72,878      | 68,381      |
| Total liabilities                            | 65,580      | 61,580      |
| Operating income                             | 1,037       | 2,181       |
| Net profit                                   | 496         | 909         |
| Total comprehensive income                   | 497         | 911         |
| Net cash generated from operating activities | 1,264       | 478         |

#### 2 Interests in the structured entities

The Group manages or invests in multiple structured entities, which include fund investments, trust schemes and asset management plans, asset-backed securities and wealth management products. To determine whether the Group controls such structured entities, the Group assesses the overall interests (including direct income and expected management fees) in the structured entities through its participation in the decisions on the establishment of the structured entities, the extent of its participation and related contractual arrangements, as well as its decision-making power over the structured entities.

## (1) Consolidated structured entities directly held by the Group

If the Group has power over structured entities through investment contracts and other arrangements, has variable interests through its involvement in the structured entities and has the ability to affect those interests through its power over the structured entities, the Group considers that it controls the structured entities and then consolidates them in the consolidated financial statements.

#### (2) Unconsolidated structured entities directly held by the Group

If the Group does not have substantive rights to the primary activities of the structured entities, or the Group only has insignificant proportion of the overall interests in the structured entities over which the Group has power, the Group does not consolidate the structured entities in the consolidated financial statements.

The unconsolidated structured entities directly held by the Group include investment funds, trust schemes and asset management plans, asset-backed securities and wealth management products initiated and established by third-party institutions.

Considering the relevant agreements and the Group's investments in the structured entities, the Group does not consolidate the above structured entities in the consolidated financial statements.

On the balance sheet date, the relevant balance sheet items, book value and maximum loss exposure of the Group's equity in the structured entity initiated and established by a third party institution through direct holding of investment in the Group's consolidated statement of financial position are listed as follows:

| asset management plans     | 3,289            | 77,646      | -           | 80,935       |  |  |  |
| Asset-backed securities    | 14,696           | 5,831       | 34,124      | 54,651       |  |  |  |
| Wealth management products | 68               | -           | -           | 68           |  |  |  |
| Total                      | 104,521          | 83,477      | 34,124      | 222,122      |  |  |  |

The maximum exposures to loss in the above unconsolidated structured entities directly held by the Group are the fair value or amortised cost of the assets held by the Group in the consolidated statement of financial position.

(3) Structured entities which the Group is the sponsor, but which are not included in the consolidated financial statements

The types of unconsolidated structured entities sponsored by the Group include non-principal-guarantee wealth management products. The nature and purpose of these structured entities are to generate fees from managing assets on behalf of investors. These structured entities are financed through the issue of wealth management products to investors. Interest held by the Group are fees charged by providing management services.

At 30 June 2024, the amount of assets held by the unconsolidated non-principal-guaranteed wealth management products which are sponsored by the Group was RMB147,248 million (31 December 2023: RMB149,182 million). For the six months ended 30 June 2024, the commission income recognised by the Group for providing asset management services for such financial products was RMB271 million (For the six months ended 30 June 2023: RMB217 million). At the balance sheet date, the balance of service charges receivable for asset management services of the Group was not material.

### V Segment Reporting

#### 1 Business segment

For management purposes, the Group is organized into different operating segments, namely corporate banking, retail banking and treasury operations, based on internal organizational structure, management requirement and internal reporting system.

#### Corporate banking

The corporate banking segment covers the provision of financial products and services to corporations, government agencies and other institutions. The products and services include corporate loans and advances, trade financing, corporate deposits, credit commitments and financial guarantee, underwriting of debt instruments and various types of corporate intermediary services, etc.

#### Retail banking

The retail banking segment covers the provision of financial products and services to individual customers. The products and services include personal loans and advances, personal deposits, wealth management businesses, card businesses and various types of retail banking services, etc.

## Treasury operations

The treasury operations segment covers the Group's treasury operations which include money market transactions, repurchase transactions, debt instruments investments, equity instruments investments, financial derivatives businesses for proprietary trading or on behalf of customers, as well as financial products and services provided to other financial institutions. The division also manages the liquidity level of the Group, including the issuance of debt securities.

#### Other business

Other business segments refer to other businesses not included in the above reporting segments and related businesses of the subsidiary.

The accounting policies adopted in the preparation of segment reports are consistent with those adopted in the preparation of the Group's consolidated financial statements.

Transactions between segments mainly represent the provision of funding to and from individual segments. These transactions are conducted on terms determined with reference to the average cost of funding and have been reflected in the performance of each segment. Net interest income and expense arising on internal fund transfer are referred to as internal net interest income / expense. Net interest income and expense relating to third parties are referred to as external net interest income / expense.

Segment revenues, expenses, profits, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment capital expenditure refers to the total cash outflow of purchasing fixed assets, intangible assets and other long-term assets in the accounting period.

## VI Commitments and Contingencies

## 1 Credit commitments and financial guarantee

Bank acceptances refer to the Group's commitment to honor bills issued by customers. Letter of credit and financial guarantee refer to guarantee of customers' performance the Group provides to third parties. Irrevocable loan commitments and finance lease commitments and undrawn credit card limit refer to the Group's credit commitments. Receivables confirmation refer to the Group's commitment to receivables confirmation issued by customers.

The amount of bank acceptances, letter of credit, letter of guarantee, receivables confirmation and other financial guarantee contracts disclosed is the maximum potential loss amount that the Group will recognize at the balance sheet date if the counterparties fail to oblige. The amount of irrevocable loan commitments and finance lease commitment and undrawn credit line of credit card are the maximum cash flow assuming fully issued. The Group expects that bank acceptances, letter of credit, letter of guarantee and receivables confirmation will be settled at the same time as the payment of customers. Irrevocable loan commitments and finance lease commitments and undrawn credit card facility may not be used before maturity. Therefore, the contract amount mentioned below does not represent the expected cash outflow in the future.

| Total  | 890,667     | 824,601     |

### 2 Capital Expenditure Commitments

At the balance sheet date, the Group's capital expenditure commitments are as follows:

|  | 30 June<br><u>2024</u> | 31 December<br><u>2023</u> |
|--|------------------------|----------------------------|
| Contracted but not yet incurred<br>Authorized but not contracted | 3,223<br>2,311         | 3,274<br>2,292             |
| Total  | 5,534                  | 5,566                      |

## 3 Bond underwriting and redemption commitments

- (1) At 30 June 2024, the Group has outstanding bond underwriting commitments with an amount of RMB140 million (31 December 2023: RMB2,507 million).
- (2) As a member of the saving bonds underwriting syndicate of the Central Government, the Group is obliged to redeem these bonds at the discretion of the holders at any time prior to maturity. The redemption price for the bonds is based on the nominal value of the bonds deducting commissions for early redeemed, plus any interest accrued up to the redemption date. The interest accrued shall be calculated in accordance with the relevant rules of the Ministry of Finance (the "MOF") and the PBOC.

At 30 June 2024, the Group had underwritten bonds with an accumulated amount of RMB1,039 million (31 December 2023: RMB1,096 million) to the general public, and these government bonds have not yet matured nor been redeemed. The Group expects that the amount of redemption of these government bonds through the Group prior to maturity will not be material.

#### 4 Outstanding litigations and arbitrations

At the balance sheet date, the Group was involved in certain legal proceedings in the ordinary course of business. Management expects that such pending litigations will not materially affect the Group's financial position.

#### VII Fiduciary Business

## 1 Entrusted loan business

Entrusted loan business means that under the entrusted loan arrangement, the Group acts as an intermediary to provide loans to borrowers based on the instructions of the principal. The Group is responsible for assisting in supervising the use and the recovery of the loan, and charging commissions for the services provided. As the Group does not assume the economic risks and rewards arising from the entrusted loans, the entrusted loans will not be recognized as assets and liabilities of the Group.

At the balance sheet dates, the entrusted business assets and liabilities of the Group are as follows:

|                      | 30 June<br><u>2024</u> | 31 December<br><u>2023</u> |
|----------------------|------------------------|----------------------------|
| Entrusted loans      | 20,388                 | 21,495                     |
| Entrusted loan funds | 20,388                 | 21,495                     |
|                      |                        |                            |

## 2 Entrusted investments business

Entrusted investment refers to the fact that the Group accepts the entrustment of a single or multiple clients based on the principal-agent relationship to engage in investment services such as asset operation, investment management, investment consultancy and so on. The investment risk of entrusted investment shall be borne by the client.

At the balance sheet dates, the entrusted business assets of the Group are as follows:

|                       | 30 June<br><u>2024</u> | 31 December<br><u>2023</u> |
|-----------------------|------------------------|----------------------------|
| Entrusted investments | 7                      | 7                          |

## 3 Wealth management services

The Group acts as a custodian, trustee and in other fiduciary capacities to safeguard assets for customers in accordance with agreements. The Group receives fee incomes, such as custodian fees, sale fees and investment management fees, in return for its services provided under the agreements and does not have any interest in the economic risks and rewards related to assets under custody. Therefore, assets under custody are not recognized in the Group's balance sheet.

At balance sheet date, please refer to Note IV.2 (3) for information about wealth management services.

# VIII Collateral Information

## 1 Assets pledged as security

The book value of the Group's secured liabilities related to the assets as collateral on the balance sheet dates are presented as due to the central bank, placements from banks and other financial institutions, financial assets sold under repurchase agreements and customer deposits. At the balance sheet date, the secured liabilities (interest accrued excluded) of the Group were as follows:

|  | 30 June<br><u>2024</u> | 31 December<br><u>2023</u> |
|--|------------------------|----------------------------|
| Due to the central bank                                | 69,150                 | 119,449                    |
| Placements from banks and other financial institutions | 206                    | 109                        |
| Financial assets sold under repurchase agreements      | 38,778                 | 62,042                     |
| Customer deposits                                      | 77,621                 | 42,356                     |
| Total  | 185,755                | 223,956                    |

The secured liabilities analyzed by collateral type were as follows:

|                           | 30 June<br><u>2024</u> | 31 December<br><u>2023</u> |
|---------------------------|------------------------|----------------------------|
|                           |                        |                            |
| Bond investments          | 173,938                | 213,566                    |
| Bills                     | 20,609                 | 18,723                     |
| Finance lease receivables | 320                    | 164                        |
| Bank deposit certificate  | 156                    | 156                        |
| Total                     | 195,023                | 232,609                    |

In addition, the Group provides collateral for the securities borrowed through the security lending and swap business. At 30 June 2024, the assets as collateral under the security lending and swap business of the Group were RMB193 million (31 December 2023: RMB102 million).

# 2 Assets received as collateral

At 30 June 2024, the Group received securities amounting to RMB1,598 million (31 December 2023: RMB2,043 million) as collateral for financial assets purchased under resale agreements, the Group could sell or repledge the collateral in the absence of default by the owner of the collateral. The Group has an obligation to return the collateral to the owner on the date of resale, at the balance sheet date, none of the collateral is re-sold or re-pledged. Details of collateral related information in loans and advances to customers and financial investments that are credit-impaired could be referred to in Note X.1(10).

# IX Related Parties and Related Party Transactions

The Bank disclosed related party transactions in accordance with *Measures for the Administration of Affiliated Transactions of Banking and Insurance Institutions*. For major related party transactions, please refer to the Bank's announcement on the Shanghai Stock Exchange, and for general related party transactions, please refer to the Bank's website.

## 3 Key management personnel

Key management personnel are those persons who have the authority and responsibility to plan, direct and control the activities of the Group. The Group enters into banking transactions with key management personnel in the normal course of business. For the reporting period, the Group had no material banking transactions and balances with key management personnel.

The remuneration of directors and other members of key management during the period were as follows:

|                                      | For the six months ended 30 June |             |  |
|--------------------------------------|----------------------------------|-------------|--|
|                                      | <u>2024</u>                      | <u>2023</u> |  |
| Fees                                 | 1                                | 1           |  |
| Salaries and allowances and benefits | 4                                | 3           |  |

| Contribution to pension              | 1                                | 1           |  |
| Total                                | 7                                | 7           |  |

The total compensation packages (before tax) for directors and key management personnel have not been finalised. The total compensation packages will be further disclosed when determined.

## 4 Transactions between the Bank and the subsidiary

The transactions between the Bank and its subsidiary are mainly subject to general business terms and carried out in accordance with normal business procedures or in accordance with the contractual agreements of the Bank, and shall be approved by the corresponding decision-making authority depending on the nature and the amount of the transaction. The amount of major transactions between the Bank and its subsidiary (consolidated structured entities directly held by the Group excluded) and the balance of major current accounts at the balance sheet date are as follows:

|  | For the six months ended 30 June |             |  |
|--|----------------------------------|-------------|--|
|  | <u>2024</u>                      | <u>2023</u> |  |

| Other liabilities                                      | (8)                              | (14)        |  |

### 5 Plan and transaction of annuity

Except for normal contributions, there were no other related party transactions in the annuity funds established by the Group and the Bank during the reporting period.

## X Financial Risk Management

The Group is exposed to a variety of financial risks arising from its operating activities. The Group analyzes, evaluates, accepts and manages those risks or risk portfolios of a certain degree. Managing those risks is critical to the financial industry, and risks are an inevitable consequence of being in business operation. The Group's aim is therefore to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Group's financial performance.

The Group's risk management policies are designed to identify and analyze these risks, to set appropriate risk limits and control programs, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems.

The board of directors takes the ultimate responsibility for comprehensive risk management, the board of supervisors is responsible for supervising comprehensive risk management, and the senior management is responsible for implementing comprehensive risk management. The position of chief risk officer has been established in place, the senior management has established special committees including risk management and internal control committee, asset and liability management committee, credit extension committee, asset risk classification review committee and business continuity management committee.

The risk management department at the head office is the coordination department for comprehensive risk management and the leading executive department for management of credit risk, market risk (excluding interest rate risk of banking book), country risk and information technology risk. The asset and liability management department at the head office is the leading executive department for management of the interest rate risk of banking book and liquidity risk. The internal control, compliance and legal department at the head office is the leading executive department for operational risk and compliance risk management. The party committee publicity department is the leading executive department at the head office is the leading executive department at the head office is the leading executive department at the head office is the leading executive department for operational risk and compliance risk management. The party committee publicity department is the leading executive department for reputational risk management. The development and planning department at the head office is the leading executive department at the head office is the leading executive department at the head office is the leading executive department.

The primary financial risks to which the Group is exposed to when using financial instruments are credit risk, market risk (including interest rate risk, foreign exchange risk) and liquidity risk.

## 1 Credit Risk

The Group is exposed to credit risk, which is the risk of loss arising from a client or counterparty's failure to discharge its contractual obligations. Exposure to credit risk mainly arises from interbank transactions, corporate and retail loans, as well as loan commitments from lending activities. It can also be derived from credit enhancement provided by the Group, such as credit derivatives (credit default swaps), letters of credit, financial guarantees and acceptances. Management carefully manages its exposure to credit risks. The daily credit risk management and control are centralized in the risk management department at the head office and reported to the Bank's senior management in a timely manner.

## (1) Credit risk measurement

## Loans and advances to customers, credit commitments and financial guarantee

Based on changes in external business environment, internal business conditions and risk profile, the Group has formulated basic credit policies, and specified the policy orientation in respect of customer structure, industry structure, regional structure and key business areas of the Group's credit business. In addition, the Group regularly adjusts its credit policy on the basis of continuous tracking of macro and industry economic development trends. The Group shall continue to improve the credit system construction, the unified credit extension management system for corporate and institutional customers, group customer identification and unified credit extension management, the overall management and unified control of the total credits of corporate and institutional customers, and the standardized credit approval process, group customer management. The Bank shall also establish a differentiated authorization system, and timely adjust the credit policy and take effective measures to guard against credit risks.

The Group has established the credit risk limit framework system, credit risk limit management plans and methods, and specified management mechanisms in respect of setting, adjusting, monitoring and processing quota indicators to effectively transmit risk preferences. Financial assets are written off when the Group is unable to recover the whole or a part of them even after taking necessary measures and implementing necessary procedures, and when the write-off conditions set by the Ministry of Finance and the Group are met.

#### Bond investment

The Group manages investment in bonds and other instruments based on the internal credit rating and credit rating of external rating agencies. Except for immediate approval to government bonds, local government debts, central bank bills and policy bank financial bonds, all other bonds are subject to credit approval processes and credit rating requirements. At the same time, the Group continues to focus on the credit rating, business development and industry changes, to perform continuous evaluation and management of credit risk.

#### Non-bond debt investment

Non-bond debt investment includes trust schemes and asset management plans and debt financing plans. The Group implements rating assessment system for cooperative trust companies and securities companies, and sets credit lines for the ultimate financing party of the trust income and targeted asset management plans and debt financing plans, and conducts follow-up review of risk management on a regular basis.

#### Interbank business

Credit risk of financial institutions is reviewed and managed on a regularly basis. Credit lines are set for banks or other financial institutions that engage in financial transactions with the Group.

(2) Risk limits and mitigation measures

The Group has established policies and procedures for credit risk limits management. Credit risk limits are set based on specific customers, industries and the quality of assets, and a working mechanism is established regarding credit risk limits management, including limits setting, adjustment, monitoring, reporting and processing.

The Group transfers or mitigates its credit risk exposure by way of guarantee, collateral (pledge), net settlement and credit derivatives. Other specific management and mitigation measures include:

## Collaterals and pledged assets

The Group has formulated a series of policies to mitigate credit risks through various measures. The acquisition of collateral and margins and obtaining corporate or individual guarantees is an important means for the Group to control credit risk. The Group implements guidelines on the acceptability of specific classes of collateral. The principal types of collateral are as follows:

- Residential properties
- Business assets such as commercial properties, inventories and accounts receivables
- Financial instruments such as debt securities and stocks

The fair value of collaterals and pledges are assessed by professional valuation firms appointed by the Group. To reduce credit risk, the Group has set maximum loan-to-value ratio (ratio of loan amount to fair value of collateral and pledge) for different collaterals and pledges. The principal types of collateral and pledge and the maximum loan-to-value ratio for corporate and retail loans are as follows:

| Type of collaterals and pledged assets           | Maximum<br><u>loan to value ratio</u> |
|--|---------------------------------------|
| Time deposits and PRC treasury bonds             | 100%                                  |
| Financial bonds                                  | 80%                                   |
| Residential properties and commercial properties | 70%                                   |
| Land use rights                                  | 70%                                   |
| Vehicles   | 60%                                   |
| General equipment                                | 50%                                   |

For loans guaranteed by a third-party, the Group will assess the guarantor's financial condition, credit history and ability to meet obligations.

#### Derivative financial instruments

The Group imposes strict restrictions on the trading of derivative financial instruments. The Group controls the credit risks associated with derivative financial instruments by collecting margins or grant credits from / to counterparties.

#### Deposits of credit commitments and financial guarantee

The main purpose of credit commitments and financial guarantee is to ensure that customers can receive the funds needed. The letter of guarantee and the letter of credit represent the Group's irrevocable undertaking, that is, the Group will perform the payment obligations on behalf of its customers who fail to meet their payment obligations to third parties, and the Group bears the same credit risk as the case of loans. In the event that the amount of credit commitments and financial guarantee requested by the customer exceeds its original credit limit, the Group will collect deposit to reduce the credit risk involved in providing the service.

#### (3) Measurement of ECLs

The ECL model is used for the measurement of the allowance for ECLs for financial assets measured at AC, financial assets measured at FVOCI and credit commitments and financial guarantee.

The ECL model is developed in accordance with the accounting standards. Based on credit risk characteristics such as product type, customer type, customer industry, the Group has conducted a risk subgroup on financial assets and established different models for non-retail business, retail business, credit card business, etc. The Group has established a regression model of risk parameters and macroeconomic indicators such as GDP, etc. The Group applies the ECL model to calculate credit losses under multiple scenarios to regularly predict three macro scenarios, including optimistic, neutral and pessimistic. The Group uses judgements, assumptions and estimates in measuring the ECLs in accordance with the accounting standards, including:

- Grouping of risks
- Classification of stages
- Models and parameters
- Forward-looking information, other adjustments and sensitivity analysis

## Grouping of risks

Credit exposures are grouped based on credit risk characteristics including type of product, type of customer, industry where the client operates and markets. The non-retail business exposure risk group covers manufacturing loans, real estate loans and wholesale and retail loans, etc. The retail business exposure risk group covers business loans, consumer loans, mortgage loans and credit card, etc.

#### Classification of stages

The Group classifies financial instruments into three stages and makes provisions for ECLs accordingly, depending on whether the credit risk of a financial instrument has increased significantly or whether the financial instrument is credit-impaired since initial recognition. The three risk stages are defined as follows:

Stage 1: Credit risk has not increased significantly since initial recognition. A 12-month ECL is recognized.

Stage 2: Credit risk has increased significantly since initial recognition but there is no objective evidence of impairment of the financial instrument. A lifetime ECL is recognized.

Stage 3: When there is objective evidence of impairment of the financial assets at the balance sheet date. A lifetime ECL is recognized.

The Group's staging criteria has taken into consideration the internal credit rating, probability of default, overdue days, credit risk rating, etc.

# Definition of significant increase in credit risk

At each balance sheet date, the Group assesses whether the credit risk of the relevant financial instruments has increased significantly since initial recognition. The Group fully considers all reasonable information with solid evidence, including forward-looking information that reflects significant changes in its credit risk. The main considerations are regulatory and operating environment, internal and external credit rating, solvency, operating capacity, loan contract terms, and repayment behavior. The Group determines the changes in credit risk over the expected lifetime of the financial instruments by comparing the credit risk of the financial instruments at the balance sheet date with that at the date of initial recognition.

The Group determines whether the credit risk of financial instruments has changed significantly since initial recognition by setting quantitative and qualitative criteria. The judgement criteria mainly include more than 30 days overdue, special mention for five-category classification, changes in probability of default and other cases that indicate a significant change in credit risk.

# Definition of credit-impaired financial assets

Generally, financial assets are considered to be credit-impaired if:

- The borrower is experiencing significant financial difficulties;
- The borrower is more than 90 days overdue after the contractual payment date;
- For economic or contractual reasons related to the financial difficulties of the borrower, concessions which normally are not available are being made to the borrower;
- The borrower is likely to enter bankruptcy or other financial restructuring; and
- The active market for the financial assets disappears as a result of the financial difficulties of the issuer or debtor.

An impairment of financial assets may be caused by the combined effect of multiple events, and may not be the result of a separately identifiable events.

The above criteria apply to all financial assets and credit commitments and financial guarantee of the Group. The definition of credit-impaired financial assets is consistently applied to the calculation of ECLs of the Group and when considering about historical statistics and forward-looking information.

#### Models and parameters

Except for the credit-impaired financial instruments, depending on whether there is a significant increase in credit risk and whether the assets are credit-impaired, the Group recognizes allowance for different financial instruments with expected credit losses over 12 months or the lifetime of the instrument, respectively. Allowance for ECLs is the result of multiplication of probability of default (PD), loss given default (LGD) and exposure at default (EAD) and discount factor. Related definitions are as follows:

- Probability of default (PD) refers to the possibility that the debtor will not be able to fulfil its obligations in the next 12 months or throughout the life of the asset. The Group's PD is calculated based on the results of the Internal Rating-Based Approach. The PD of the entire duration is calculated based on the 12-month probability of default;
- Loss given default (LGD) is the percentage of risk exposure loss at the time of default. The default loss rate varies depending on the type of counterparty, the way of recourse and priority and the availability of collateral or other credit support. The LGD varies by financial assets; and
- Exposure at default (EAD) refers to the amount that the Group should pay when the default occurs in the next 12 months or throughout the life of the asset. The Group's exposure at default is determined by the expected repayment arrangements, and it varies depending on the types of products. For installments payment and lump sum repayment, the Group determines the exposure at default according to the repayment plan stipulated in the contract.

The Group determines the ECLs by forecasting the probability of default, loss given default and exposure at default of future individual debt. The Group multiplies the three parameters to calculate the ECLs for future periods, and then discount the results of each period to the report date in lump sum. The discount rate used in the calculation of expected credit loss is the initial effective interest rate or its approximate value.

The measurement of ECLs for credit-impaired corporate loans and advances to customers and investments applied cash flow discount method, if there is objective evidence that an financial asset is credit-impaired, the amount of the ECLs is measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. In determining ECLs on an individual basis, the following factors are considered:

- The sustainability of the borrower's business plan;
- The ability to improve performance once a financial difficulty has arisen;
- The estimated recoverable cash flows from disposal of assets and liquidation;
- The availability of other financial support and the realizable value of collaterals; and
- The timing of the expected cash flows.

#### Forward-looking information, other adjustments and sensitivity analysis

The Group has established a forward-looking model and developed regression models for different macro-economic indicators such as Gross Domestic Product growth rate year-on-year (GDP). The Group uses forecasting results of macro-indicators to achieve "forward-looking" calculation of ECLs.

The Group forecasts multiple macro indicators under three domestic macro scenarios: optimistic, neutral and pessimistic. The Group uses the weight scorecard model to determine the weight of the macroeconomic multi scenario indicator forecast value through quantitative analysis of the macroeconomic multi scenario forecast value. Neutral scenario is defined as the most probable situation, which will become benchmark for other scenarios. Optimistic and pessimistic scenarios are possible scenarios which are better and worse than neutral scenario respectively. It can also be used as one of the sources of sensitivity analysis.

At 30 June 2024, the key macro-indicators the Group has applied include the GDP growth rate on yearon-year basis, the CPI growth rate on year-on-year basis, M2 money supply growth rate on year-onyear basis, etc. Among all, the forecasts of hight weights macro-indicators are listed as follows:

# IndicatorsPredictive rangeGDP growth rate on year-on-year basisFrom 3.78% to 6.35%CPI growth rate on year-on-year basisFrom 0.21% to 1.02%M2 money supply growth rate on year-on-year basisFrom 7.20% to 8.96%

Through sensitivity analysis, when the weight of optimistic scenario increases by 10% and the weight of neutral scenario decreases by 10%, the allowance for ECLs will decrease by no more than 1.10%. When the weight of pessimistic scenario increases by 10% and the weight of neutral scenario decreases by 10%, the allowance for ECLs will increase by 10% and the weight of neutral scenario decreases by 10%, the allowance for ECLs will increase by no more than 1.47%.

When managing ECL model, the Bank fully considered the impact of the potential factors of local government debt on credit risk exposure and makes allowance for ECLs prudently, thereby enhancing the Group's risk compensation capability.

(4) Maximum exposure to credit risk

The following table provides an analysis of the exposure to credit risk of financial instruments applicable to the measurement of ECLs. The carrying amount of the following financial assets is the maximum exposure to credit risk of the Group:

|  | 30 June     | 31 December |
|--|-------------|-------------|
|  | <u>2024</u> | <u>2023</u> |
| Cash and halances with the control hank                | 100 100     | 464 700     |
| Cash and balances with the central bank                | 138,183     | 164,723     |
| Deposits with banks and other financial institutions   | 65,094      | 70,856      |
| Placements with banks and other financial institutions | 9,105       | 8,574       |
| Financial assets purchased under resale agreements     | 67,403      | 74,595      |

#### (5) Risk concentration

The credit risk usually increases if the counterparties are concentrated in a certain industry, region or based on certain economic characteristics. Meanwhile, the economic development is differentiated by the unique characteristics of industries and regions, so the credit risk varies from industry to industry and region to region.

#### Geographical segments

The gross amount of loans and advances to customers granted by the Group are listed as follows by region (fair value changes and interest accrued excluded):

|                            | 30 June       | e 2024            | 31 Decembe    | r 2023     |

| Less: Allowance for ECLs            | (b)   | (2,166)                | (4,328)                    |
| Subtotal                            | -     | 740,881                | 725,827                    |
| Total                               | -     | 772,704                | 756,344                    |

- (a) At 30 June 2024, the total allowance for ECLs of the debt investments measured at FVOCI which were credit-impaired, were RMB224million (31 December 2023: RMB187 million). The ECL allowance are recognized in other comprehensive income, without offsetting the carrying amount of these financial assets in the balance sheet.
- (b) At 30 June 2024, the total allowance for ECLs of the debt investments measured at FVOCI which were neither overdue nor credit-impaired, were RMB313 million (31 December 2023: RMB330 million). The ECL allowance are recognized in other comprehensive income, without offsetting the carrying amount of these financial assets in the balance sheet.

# (9) Restructured loans

Pursuant to the *Measures for the Risk Classification of Financial Assets of Commercial Banks*, restructured loans refer to financial assets where, due to the debtor's financial difficulties, a commercial bank modifies the contract terms in favor of the debtor or provides refinancing for the debtor's existing debts, with the objective of facilitating debt repayment. This encompasses scenarios such as replacing existing loans with new ones and raising additional debt financing. Additionally, if the existing contract grants the debtor the discretionary right to modify terms or refinance, and the debtor exercises this right due to financial distress, the associated assets are also classified as restructured assets. At 30 June 2024, the Group's exposure (before deducting ECL allowance) to restructured loans under the ambit of the *Measures for the Risk Classification of Financial Assets of Commercial Banks* amounted to RMB9.945 billion (31 December 2023: RMB6.973 billion).

#### (10) Collaterals and other credit enhancement

The Group closely monitors the collaterals corresponding to credit-impaired financial assets, as compared with other collaterals, the Group is more likely to confiscate these collaterals to reduce potential credit losses. At the balance sheet date, the Group's credit-impaired loans and advances to customers and financial investments (fair value changes and interest accrued excluded) and the corresponding exposures covered by collateral are listed as follows:

#### 2 Market Risk

Market risk refers to the risk of losses of on-balance sheet and off-balance sheet business arising from unfavorable changes in market prices including interest rates, exchange rates, stock prices and commodity prices. The Group's exposures to market risk arise from the trading and non-trading businesses.

The Group's market risk management system consists of the board of directors, the board of supervisors, senior management, risk management and internal control committee, risk management department, capital operation center, FinTech department, audit department, other departments, as well as branches, subbranches and the subsidiary. Senior management is responsible for implementing and organizing the market risk management, overseeing the implementation of market risk appetite, as well as formulating and carrying out relevant systems and policies for market risk management and establishing market risk management information system, so as to ensure the Group can effectively identify, measure, monitor and control a series of market risks assumed by various businesses.

The market risk measurement methods adopted by the Group include duration analysis, foreign exchange exposure analysis, scenario analysis, sensitivity analysis, Value at Risk (VaR) measurement etc., and the measures taken by the Group to control market risks include, among others, limit management, hedging, reducing risk exposures etc. The Group has established a market risk management system pursuant to the relevant measures and guidelines of the original CBIRC. The Group has formulated market risk management policies and procedures applicable to the nature, scale, complexity and risk features of its business and aligned such policies and procedures with its overall business development strategy, management capabilities, capital strength and overall risk level that can be assumed by the Group.

The Group updates its market risk appetite and limit management system on a regular basis, further improves the market risk management systems and market risk measurement systems. The Group conducts market risk measurement, monitoring and routine management by using the independent market risk management system. The Group performs daily valuation of trading book positions, continuously monitors non-stop-loss limits and stop-loss limits, and regularly evaluates market risks through stress testing and other methods.

#### (1) Interest rate risk

Interest rate risk in the banking book refers to the risk of losses in the economic value and overall gains of the banking book arising from adverse changes in interest rate levels and term structure, mainly including gap risk, benchmark risk and optional risk.

The objective of the Group's interest rate risk management is to control the interest rate risk of banking book within an acceptable and reasonable range and reduce the fluctuation of net interest income of banking book as well as economic value thereby maximizing the comprehensive income bank-wide.

The Group's interest rate risk management system of banking book consists of the board of directors, the board of supervisors, senior management, risk management and internal control committee, asset and liability management committee, risk management department, planning and asset and liability management department, capital operation center, audit department and other operation and management departments at the head office, as well as branches, sub-branches and subsidiaries. Senior management is responsible for implementing the interest rate risk management of banking book, establishing the framework for interest rate risk management and the system for measurement of interest rate risk of banking book, and promoting the effective implementation of relevant systems and policies for interest rate risk management of banking book.

The Group measures and evaluates the interest rate risk of banking book mainly through price reseting gap analysis, sensitivity analysis, scenario simulation analysis, stress test etc.. During the reporting period, the Group paid close attention to macroeconomic environment and monetary policy adjustment, dynamically adjusts its repricing gap in line with the Group's strategic orientation and business development needs, in order to optimize the asset and liability structure. At the balance sheet date, the interest rate risk of banking book of the Group is within the target limit and the risk is under control as a whole.

Due to fluctuations in market interest rates, the Group's interest margin may increase, or may decrease or even incur losses due to unexpected changes. The Group operates its business in accordance with the deposit and loan interest rate policies of the PBOC.

The following tables indicate the financial assets and financial liabilities of the Group at the balance sheet date by the expected next repricing date or by maturity date, whichever is earlier.

The Group measures the potential effect of change in interest rates on the Group's net interest income and other comprehensive income by the sensitivity analysis method. The following table sets forth the effect on the Group's net interest income and other comprehensive income from possible and reasonable interest rate fluctuations with all other variables held constant. The effect on net interest income refers to the effect of certain interest rate changes on the net interest income generated by financial assets and liabilities that are held at the end of the year and whose interest rate are expected to be repriced within one year. The effect on other comprehensive income refers to the effect of certain interest rate changes on the fair value change generated by debt investments measured at FVOCI that are held at the end of the year. The following table sets forth the effect on the Group's net interest income and other comprehensive income from interest rate fluctuations with other variables held constant (income tax expense included):

For the purpose of the sensitivity analysis, the Group adopts the following assumptions in determining commercial conditions and financial parameters:

- (i) the analysis is based on the static gap at the balance sheet date, regardless of subsequent changes;
- (ii) all assets and liabilities that are repriced or due within one year are assumed to be repriced or due at the beginning of the respective periods;
- (iii) same fluctuations in interest rates of different interest-bearing assets and interest-bearing liabilities are the same;
- (iv) yield curves move in parallel with change in interest rates;
- (v) there are no other changes in the assets or liabilities portfolio;
- (vi) no consideration of impact on customer behavior, market price and off-balance sheet business resulting from interest rate changes; and
- (vii) no consideration of actions taken by the Group in response to interest rate changes.

Therefore, the actual results on net interest income and other comprehensive income due to the increase or decrease in interest rates may differ from the analysis based on such assumptions.

(2) Foreign exchange risk

The Group's business mainly operates in China and settles in RMB. The tables below show the Group's exposure to currency risk at the balance sheet date with the book values of various financial assets and liabilities converted into RMB.

| -                                  |             | -                              | ·                              |                                       | -                                       |

The Group measures the potential effect of changes in foreign exchange rates on the Group's net profit and equity by the sensitivity analysis method. The following table sets forth the effect on the Group's net profit and equity from possible foreign exchange rate fluctuations with other variables held constant (income tax expense included):

|                                     | Sensitivity of net profi    | t and equity      |
|-------------------------------------|-----------------------------|-------------------|
|                                     | 30 June                     | 31 December       |
|                                     | <u>2024</u>                 | <u>2023</u>       |
|                                     | Increase / (Decrease) Incre | ease / (Decrease) |
| Change in USD exchange rate         |                             |                   |
| Appreciation against RMB by 100 bps | (53)                        | (1)               |
| Depreciation against RMB by 100 bps | 53                          | 1                 |
| Change in HKD exchange rate         |                             |                   |
| Appreciation against RMB by 100 bps | 33                          | 42                |
| Depreciation against RMB by 100 bps | (33)                        | (42)              |

The sensitivity analysis is based on the following assumptions:

- (i) the analysis is based on the static gap at the balance sheet date, regardless of subsequent changes;
- the foreign exchange rate sensitivity is the gains or losses recognized as a result of a 100-basis point fluctuation in the absolute value of foreign exchange rates against the closing price (middle price) of RMB at the balance sheet date;
- (iii) the fluctuation of exchange rates by 100 basis points at the balance sheet date is based on the assumption of exchange rates movement over the next 12 months;
- (iv) when calculating the foreign exchange exposure, spot and forward from foreign exchange exposure and swaps are included;
- (v) other variables (including interest rates) remain unchanged;
- (vi) no consideration of impact on customers' behavior and market price resulting from exchange rate changes; and
- (vii) the assets and liabilities have a static exchange rate risk structure and no consideration is given to the measures that the Group may take to eliminate the adverse impact of foreign exchange exposure on net profit and equity.

Therefore, the actual results of net profit and equity due to changes in foreign currency exchange rates may differ from the analysis based on such assumptions.

#### 3 Liquidity Risk

Liquidity risk refers to the risk of failure to obtain adequate funds in time at reasonable costs to repay debts when they are due, perform other payment obligations and meet other capital needs in the ordinary course of business. Factors affecting liquidity risks are divided into external factors and internal factors. External factors include domestic and foreign financial situation, macroeconomic regulation policies, depth and width of developments of financial markets and the competition status of the banking industry. Internal factors include maturities of assets and liabilities, business structures, stability of deposits, and market financing capacity and various unexpected events, etc.

The objective of the Group's liquidity management is to ensure that the Group's liquidity needs can be met in a timely manner and at a reasonable cost thereby controlling the liquidity risk within an acceptable and reasonable range.

The Group's liquidity risk management system consists of the board of directors, the board of supervisors, senior management, risk management and internal control committee, asset and liability management committee, risk management department, planning and asset and liability management department, capital operation center, audit department, other operation and management departments of the head office, as well as branches, subbranches and subsidiaries. Senior management is responsible for implementing and organizing the liquidity risk management as well as the formulation and implementation of relevant systems and policies for liquidity risk management.

The Group manages the liquidity risk in a centralized manner. By establishing a scientific and completed liquidity risk management system, the Group can effectively identify, measure, monitor, control and report its liquidity risk. The Group strengthens its liquidity risk management ability by continuously improving the perspectiveness and initiative of liquidity risk management. Specific measures for liquidity risk management include: paying close attention to both domestic and foreign macroeconomic situations and market liquidity changes, as well as adjusting the asset and liability management strategies in a timely manner; strengthening debt management, making flexible use of active debt instruments, broadening long-term sources of fund, and continuously increasing the proportion of stable liabilities; promoting the construction of diversified of financing channels and actively expanding financing channels while maintaining good relationships with major financing counterparties; strengthening the management of high-quality liquid assets, ensuring the fitness of the retention scale of high-quality liquid assets and the potential financing needs to enhance the liquidity risk mitigation capability; strengthening the early-warning monitoring and management of liquidity, optimizing the emergency response program for liquidity risk and conducting emergency drills on a regular basis; conducting stress tests for liquidity risk on a guarterly basis, identifying weak points in respect of the Group's liquidity risk management based on results of such tests, adjusting liquidity risk management strategies if necessary, and modifying the liquidity risk management measures in a timely manner to improve liquidity risk management mechanism.

# (1) Analysis of contractual undiscounted cash flows of non derivative financial assets and financial liabilities

The tables below present the contractual undiscounted cash flows of non-derivative financial assets and financial liabilities by remaining contractual maturities from the balance sheet date to the contractual maturity date. The amounts disclosed in the table are contractual undiscounted cash flows:

|                |   |  | 30 June  | 2024  |  |   |   |
|----------------|---|--|--|---|--|---|---|

#### XI Capital Management

The core of the Group's capital management is capital adequacy ratio and return on capital. The objective of capital management is to meet external regulatory requirements and shareholders' return, protect the interests of creditors to the best effort, stimulate expansion of assets and improve risk management. The Group prudently determines the objective of capital adequacy ratio which meets the regulatory requirements and coincides with its own risk exposure. By taking a variety of actions such as limit management, the Group ensures the realization of the management objectives.

The Group's business has maintained stable growth in recent years and the assets have become increasingly capital intensive. In order to ensure that the capital adequacy ratio meets the regulatory requirements and to maximize the returns to shareholders with the risks under control, the Group has actively expanded the capital replenishment channels from external sources, while continuing to improve the self-generating function in operations, so as to replenish capital from internal sources.

On 30 June 2024, the Group has calculated and disclosed capital adequacy ratio in accordance with *the Administrative Measures for Capital of Commercial Banks* (Decree No.4 of the National Financial Regulatory Administration), with credit risk-weighted assets measured using the risk-weighted approach, market risk-weighted assets and operational risk-weighted assets measured using the standardized approach. On 31 December 2023, the Group has calculated and disclosed capital adequacy ratio in accordance with *the Administrative Measures on the Capital of Commercial Banks (Trial Implementation)*(Decree 2012 No.1 of the China Banking Regulatory Commission), with credit risk-weighted assets measured using the standardized approach, market risk-weighted assets measured using the standardized approach.

On the balance sheet date, the core tier 1 capital adequacy ratio, the tier 1 capital adequacy ratio, and the capital adequacy ratio calculated in accordance relevant requirements are listed as below:

|                                    | 30 June     | 31 December |
|------------------------------------|-------------|-------------|
|                                    | <u>2024</u> | <u>2023</u> |

|                                    |             |             |

#### XII Fair Value of Financial Instruments

# 1 Fair values of financial assets and liabilities

#### (1) Fair value hierarchy

The following table presents the fair value information and the fair value hierarchy of the Group's assets and liabilities which are measured at fair value at the balance sheet date on a recurring basis. The level in which fair value measurement is categorized is determined by the level of the fair value hierarchy of the lowest level input that is significant to the entire fair value measurement. The levels are defined as follows:

Level 1 inputs: unadjusted quoted prices in active markets that are observable at the measurement date for identical assets or liabilities;

Level 2 inputs: inputs other than Level 1 inputs that are either directly or indirectly observable for underlying assets or liabilities; and

Level 3 inputs: inputs that are unobservable for underlying assets or liabilities.

The tables below analyzes financial instruments, measured at fair value at the balance sheet date, by the level in the fair value hierarchy into which the fair value measurement is categorized:

|   | <u>30 June 2024</u> |             |                    |              |

| Total liabilities measured at fair value on a recurring basis                                    | (413)              | (61,773)           |                    | (62,186)     |

#### (2) Level 1 fair value measurement

For financial instruments with unadjusted quoted prices in active markets that are observable for identical assets or liabilities, the Group takes the unadjusted quoted price as the best evidence of fair value when determining the fair value of financial instruments. So as to determine its fair value, and divide it into the first level measured by fair value. The financial instruments defined as level 1 by the Group mainly include open-end funds, open-end wealth management products and unrestricted equity investments in listed companies.

#### (3) Level 2 fair value measurement

If the main parameters used in the valuation are observable and available from the active open market, the relevant financial instruments are defined as level 2 fair value measurement. The Group's level 2 financial instruments mainly include bond and ABS investments, term-ended funds, discounted bills, trade finance, restricted equity investments in listed companies, lease-in of precious metals in account caption of placements from banks and other financial institutions, interest rate derivatives, foreign exchange derivatives, precious metal and other derivatives.

For the fair value of RMB bond and ABS investments, the Group adopts the valuation results issued by China Central Depository & Clearing Co., Ltd. or China Securities Depository and Clearing Co., Ltd. according to the bond market. For the fair value of foreign currency bonds, the Group adopts Bloomberg results. For discounted bills and trade finance, the Group adopts discounted cash flow model for valuation which based on SHIBOR and yield curves issued by Shanghai Commercial Paper Exchange Co., and China Central Depository & Clearing Co., the Group constructs the interest rate curve by five-category loan classification and product type. For restricted equity investments in listed companies, liquidity discounts is considered based on the closing price.

For non-derivative financial instruments and some derivative financial instruments including forwards and swaps of precious metal and foreign exchange and interest rate swaps, etc. that could not be quoted from the active market, the Group adopts discounted cash flow analysis. The main parameters used include the recent transaction price, relevant yield curve, exchange rate and counterparty risk. For the valuation of option derivatives, the Group adopts Black-Scholes model with main parameters of relevant yield curve, exchange rate, volatility, and counterparty risk.

The fair value of shares held by other parties rather than the Group and liabilities of consolidated structured entities is measured based on the net asset values of the funds, determined with reference to observable (quoted) prices of underlying investment portfolio and adjustments of related expenses.

#### (4) Level 3 fair value measurement

The Group has developed relevant procedures to determine the appropriate valuation techniques and inputs for level 3 fair value measurement on a recurring basis, and regularly reviews the appropriateness of the relevant procedures and determination of the fair value. Quantitative information of level 3 fair value measurement is as follows:

|   | Fair value at |                   |                    |

| Financial investments measured at FVOCI |   |                               |                               |
|   |   | Net assets                    | Net assets,                   |
| - Equity investments                    | 1,344                                       | analysis                      | Liquidity discount            |
|   |   | Discounted cash               | Risk-adjusted                 |
| Loans and advances to customers         | 17,924                                      | flow method                   | discount rate                 |

At the balance sheet date, replacing the original unobservable assumptions with other reasonable unobservable assumptions has no significant impact on the measurement results of fair value. The above assumptions and methods provide a unified basis for the calculation of the fair value of the Group's assets and liabilities. However, due to the different methods and assumptions that may be used by other institutions, the fair values disclosed by different financial institutions may not be completely comparable.

Reconciliation of the opening and closing balance for financial assets of level 3 fair value on a recurring basis is as follows:

|  | Financial<br>investments<br>measured at<br><u>FVTPL</u> | Financial<br>investments<br>measured at<br><u>FVOCI</u> | Loans and advances to <u>customers</u> | <u>Total</u> |

#### 2 Transfers between items measured at different levels of fair value

During the reporting period, there were no significant transfers, between Level 1, Level 2 and Level 3, of the Group's above assets and liabilities which are measured at fair value.

#### 3 Change in valuation techniques and the rationale

During the reporting period, there were no changes in the valuation techniques adopted by the Group for fair value measurement.

# 4 Financial assets and liabilities not measured at fair value

All financial instruments of the Group are carried at amounts not materially different from their fair value at the balance sheet date except as follows:

|   | 30 June 2024 |         |         |            |                           |
|---|--------------|---------|---------|------------|---------------------------|
|   | Level 1      | Level 2 | Level 3 | Fair Value | Carrying<br><u>amount</u> |
| Financial assets<br>Financial investments<br>measured at AC | -            | 408,026 | 84,786  | 492,812    | 484,591                   |
| Financial liabilities<br>Debt securities issued             |              | 474,359 |         | 474,359    | 471,112                   |

|   | 31 December 2023 |         |         |                   |                           |  |
|---|------------------|---------|---------|-------------------|---------------------------|--|
|   | Level 1          | Level 2 | Level 3 | <u>Fair Value</u> | Carrying<br><u>amount</u> |  |
| Financial assets<br>Financial investments<br>measured at AC | <u> </u>         | 372,022 | 93,839  | 465,861           | 463,311                   |  |
| Financial liabilities<br>Debt securities issued             | -                | 396,796 | -       | 396,796           | 395,938                   |  |

For the above financial assets and liabilities not measured at fair value, the Group used the following methods to determine their fair value:

The fair value of financial investments measured at AC and debt securities issued are quoted in the valuation system of relevant registration and settlement institutions that employs observable inputs that reflect the market in the formation of quotations. For those quotations not available in relevant institutions, the fair value shall be estimated by discounted cash flow method.

# XIII Comparative Figures

For the purpose of the presentation of these financial statements, the Group reclassified certain comparative figures.

#### CHINA ZHESHANG BANK CO., LTD. UNREVIEWED SUPPLEMENTARY FINANCIAL INFORMATION (In RMB millions, unless otherwise stated)

# I Illustration of Differences between the Financial Statements Prepared Under IFRSs and Those Prepared in accordance with PRC GAAP

There are no differences between the profit attributable to shareholders of the Bank under IFRSs and PRC GAAP for the six months ended 30 June 2024 (for the six months ended 30 June 2023: no differences). There are no differences between the equity attributable to shareholders of the Bank under IFRSs and PRC GAAP at 30 June 2024 (31 December 2023: no differences).

#### II Liquidity Coverage Ratio

|                          | 30 June<br><u>2024</u> | 31 December<br><u>2023</u> |
|--------------------------|------------------------|----------------------------|
| Liquidity Coverage Ratio | 165.78%                | 166.61%                    |

The liquidity coverage ratio is calculated in accordance with the relevant requirements of the National Financial Regulatory Administration.

#### III International Claims

The Group is principally engaged in business operations within Chinese Mainland. International claims are local claims in foreign currencies and cross-border claims.

International claims include balances with the central bank, due from banks and other financial institutions, placements with banks and other financial institutions, loans and advances to customers, financial assets at fair value through profit or loss, financial assets measured at amortised cost and financial assets at fair value through other comprehensive income.

International claims are disclosed based on different countries or regions. A country or region is reported where it constitutes 10% or more of the aggregate amount of international claims, after taking into account any risk transfers. Risk transfer is only made if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a bank whose head office is located in another country.
