## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of Future Data Group Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company and its subsidiaries (collectively refer to as the "Group"). ### 14. CONVERTIBLE NOTES

On 17 June 2024, the Company issued convertible notes with an aggregate principal amount of HK\$2,000,000, carrying interest at a rate of 8% per annum, payable in arrears on the maturity date of 17 June 2025 (the "Maturity Date"). The convertible notes entitled the noteholder to convert them into ordinary shares of the Company at any time after expiry of six calendar months from the date of issue of the convertible notes up to the business day immediately before the Maturity Date, at a conversion price of HK\$0.50 per conversion share, subject to clauses of adjustments to conversion price (the "Conversion Option").

The convertible notes may be early redeemed at 100% of the outstanding principal amount of the notes (in whole or in part) at any time and from time to time at the option of the Company prior to the Maturity Date. Any amount of the convertible notes that remains outstanding on the Maturity Date shall be redeemed at its then outstanding principal amount.

For the six months ended 30 June 2024

If, as a result of adjustments to the conversion price, additional ordinary shares of the Company are required to be issued upon the noteholders exercising their rights to the Conversion Option, and the total number of conversion shares would otherwise exceed the maximum number of the ordinary shares that the Company may issue at the time pursuant to the general mandate under which the conversion shares are to be allotted and issued (the "Exceeded Shares"), the Company will settle the Exceeded Shares in cash. This cash amount will be calculated by the market price of the ordinary shares on the relevant exercise date of the Conversion Option.

The convertible notes are regarded as combined instruments consisting of a liability and derivative liability components. At the date of issue, the fair values of the derivative components is determined using an option pricing model; this amount is carried as derivative liabilities that is subsequently measured at fair value through profit or loss until extinguished on conversion or redemption. The remainder of the proceeds is allocated to the liability component and is carried as a liability at amortised cost using the effective interest method until extinguished on conversion or redemption.

Transaction costs are apportioned between the liability and derivative components of the convertible notes based on the allocation of proceeds to the liability and derivative components on initial recognition. The portion related to the derivative components is expensed immediately.

The net proceeds received from the issue of the convertible notes has been split between the liability element and the derivative components, as follows:

	30 June 2024 HK\$'000
Nominal value of convertible notes issued	2,000
Transaction cost related to liability component	(82)
Derivative components	(37)
Liability component at date of issue	1,881
Interest charged	10
Liability component at 30 June 2024	1,891
Derivative components at date of issue and 30 June 2024	37

For the six months ended 30 June 2024

The interest charged for the period is calculated by applying an effective interest rate of 14.85% to the liability component since the notes were issued.

This fair value of liability component has been calculated by discounting the future cash flows at the market interest rate (level 2 fair value measurements).

The derivative components are measured at their fair values at the date of issue and at the end of each reporting period. The fair values are estimated using Binomial Option Pricing Model (level 3 fair value measurement). The key assumptions used are as follows:

	30 June 2024	Date of issue
Weighted average share price	0.490	0.500
Weighted average exercise price	0.500	0.500
Expected volatility	88.98%	88.98%

These fair values were calculated using the Binomial Option Pricing Model. The inputs into the model were as follows:

Date of grant	3 April 2023	16 May 2023	5 October 2023	15 January 2024
Weighted average share price	HK\$0.640	HK\$0.810	HK\$0.810	HK\$0.520

Expected dividend yield	0.00%	0.00%	0.00%	0.00%

Expected volatility was determined by calculating the historical volatility of the Company's share prices over the previous 2 years or since its initial public offering to the valuation date. The expected life used in the model has been adjusted, based on the Group's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

#### Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

Level 1 valuations:	Fair value measured using only Level 1 inputs, i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date;
Level 2 valuations:	Fair value measured using Level 2 inputs, i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available;
Level 3 valuations:	Fair value measured using significant unobservable inputs.

The following table presents the Group's assets and liabilities that are measured at fair value.

### **BUSINESS REVIEW**

The Group is principally engaged in the provision of (i) integration of systems with network connectivity, cloud computing and security elements; and (ii) maintenance services.

In recent years, the unstable worldwide economic atmosphere and the reduction of budget by public and private sectors for cyber security services, leading to a decline in the Group's revenue from cyber security services. Given that the performance of the businesses of Maximus Group Consulting Limited and its subsidiaries including Maximus Consulting (Hong Kong) Limited and MXC Security (Singapore) Pte Ltd. (collectively refer to as the "Maximus Group") have not been satisfactory and have been continuously operating at a loss, the Maximus Group has been disposed on 24 January 2024, for improving the overall financial position of the Group.

Meanwhile, the Group has actively developed and evaluated the trend of technologies, in relation to digital assets, such as non-fungible tokens ("NFT"), blockchain and metaverse etc., during the six months ended 30 June 2024. The Directors has reviewed the recent market trend and the assets management of the respective digital assets ("VA Assets Management") and are of the view that the sector of asset management and the relative businesses are expected to have great potential and can bring long-term benefits to the Group. On 17 April 2024, a direct wholly owned subsidiary of the Company entered into the acquisition agreement to acquire the entire issued share capital of a Hong Kong company (the "Target"), which is principally engaged in the provision of Type 9 (asset management) regulated activities under the Securities and Futures Ordinance (the "SFO", Cap. 571 of the Laws of Hong Kong) in Hong Kong (the "Acquisition"). The Group plans to use the Target as its initial platform for the start-up on the financial service sector. By tapping the VA Assets Management into the Group's existing business units such as blockchain and metaverse and through the integration of the existing technologies of the Group to the operation of the Target, it will solidify and empower the existing business sectors of the Group and thus enhance more profits and return in the future. Further details of the Acquisition set out in the Company's announcements dated 17 April 2024, 30 April 2024 and 6 May 2024, respectively. As at the date of this interim report, the Acquisition has not yet completed.

Set out below were the details of the movement of the number of projects for the six months ended 30 June 2024:

### **CURRENT LIABILITIES**

Current liabilities decreased by HK\$12.8 million from HK\$84.8 million as at 31 December 2023 to HK\$72.0 million as at 30 June 2024 mainly resulted from the repayment of trade and other payables.

The Group expresses its gearing ratio as a percentage of total debt over total equity. As at 30 June 2024, the gearing ratio was 7.1% (as at 31 December 2023: 6.4%), such increase was due to the issuance of convertible notes on 7 June 2024.

As at 30 June 2024, the liquidity ratio, represented by a ratio of current assets over current liabilities, was 2.6 times (as at 31 December 2023: 2.4 times), reflecting the adequacy of financial resources.

As at 30 June 2024, the Group recorded cash and cash equivalents of approximately HK\$71.5 million (as at 31 December 2023: approximately HK\$122.7 million), which included approximately KRW11,362 million, HK\$6.0 million and small amount of US dollars ("US\$"), Singapore dollars and Great Britian Pound.

# **Foreign Exchange Exposure**

The Group's business in Korea is exposed to currency risk that mainly arose from the currency difference between our revenue receipts (which are denominated in KRW) and some of our payments for purchases (which are in US\$). In preparing the costing of our system integration project in which procurement of components in US\$ is required, we would add on a margin to the relevant cost items of the project as a cushion to safeguard against any unfavourable foreign exchange movement between the costing date and the relevant settlement date.

Revenue and cost of our Hong Kong operation are both denominated in HK\$. Hence, there is no currency risk arising from it.

# **Charges on Group's assets**

As at 30 June 2024, the Group had no charges on Group's assets (as at 31 December 2023: Nil).

# **Material Investments and Capital Assets**

# MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES

# (a) Disposal of Maximus Group

In view of the continuous loss making operations of Maximus Group, on 24 January 2024, an indirect wholly-owned subsidiary of the Company, Future Data Limited, entered into a sale and purchase agreement with an independent third party, to dispose of its 64.86% equity interests in Maximus Group at a cash consideration of HK\$1,820,000 (the "Disposal").

As none of the applicable percentage ratios set out in Rule 19.07 of the GEM Listing Rules in respect of the Disposal is more than 5%, the Disposal does not constitute a discloseable transaction on the part of the Company and is not subject to the reporting and announcement requirements under the GEM Listing Rules.

# (b) Acquisition of a company which is principally engaged in the provision of Type 9 (asset management) regulated activities under the SFO

Reference is made to the Company's announcements dated 17 April 2024, 30 April 2024 and 6 May 2024 regarding a share transaction in relation to the Acquisition. On 17 April 2024, a direct wholly owned subsidiary of the Company entered into an acquisition agreement to acquire the Target which is principally engaged in the provision of Type 9 (asset management) regulated activities under the SFO in Hong Kong. Upon completion of the Acquisition, the Target will become an indirect wholly-owned subsidiary of the Company. The consideration of the Acquisition is HK\$3 million which shall be satisfied by the allotment and issue of the consideration shares by the Company. As at the date of this interim report, the Acquisition has not yet completed. The Group plans to use the Target as its initial platform for the start-up on the financial service sector. By tapping the VA Assets Management into the Group's existing business units such as blockchain and metaverse and through the integration of the existing technologies of the Group to the operation of the Target, it will solidify and empower the existing business sectors of the Group and thus enhance more profits and return in the future. The Board is of the view that the Acquisition will be beneficial to the Group as the VA Assets Management can often leverage advanced technologies, such as blockchain, smart contracts and artificial intelligence which can not only optimise the investment strategies, but also ensure the security and enhance the operational efficiency.

As all the applicable percentage ratio for the Acquisition are less than 5% and that the consideration will be satisfied by the issue of the consideration shares of the Company, the Acquisition constitutes a share transaction of the Company and is therefore subject to the reporting and announcement requirements under the GEM Listing Rules.

Save as disclosed above, the Group had no other material acquisitions or disposals during the six months ended 30 June 2024.
