The board (the "Board") of directors (the "Directors" and each a "Director") of Wison Engineering Services Co. Ltd. (the "Company") is pleased to announce the management discussion and analysis on the unaudited condensed consolidated interim results of the Company and its subsidiaries (collectively, the "Group") for the six months ended 30 June 2024 (the "Period under Review"),

In this report, "we", "us", "our" and "Wison Engineering" refer to the Company and where the context otherwise requires, the Group.

#### **MARKET AND RESULTS OVERVIEW**

In the first half of 2024, Wison Engineering remained committed to its mission of "Technology Innovation for a Better Future" and strove to become a world-leading provider of environmentally friendly services. Upholding the values of integrity, innovation, progress, commitment, respect, and win-win results, the Company continued to drive both its own growth and that of society. During the Period under Review, the Company streamlined its organisational structure, strengthened delicacy management, tightened risk control, enhanced its digital and modular capabilities, and consolidated its core competitiveness. In the face of new challenges and opportunities, the Company deepened its presence in the field of energy and chemical engineering and accelerated its pace to tap into the fields of new energy and new materials, in a bid to seize opportunities to open up new markets. The Company continuously improved operation and management benefits and created value for customers.

During the Period under Review, despite a significant increase in the complexity and severity of external uncertainties — such as sluggish global economic growth, persistent inflation, geopolitical conflicts, and international trade tensions — China's economy showed strong resilience. Amidst this complex and volatile international environment, the Chinese economy remained generally stable, with progress achieved. In the first half of the year, China's GDP reached RMB61.7 trillion, marking a 5.0% year-on-year increase. This reflects medium-to-high-speed growth and indicates positive signs of continued economic recovery. The Chinese government implemented a series of policies and measures aimed at stabilising growth, promoting reform, adjusting the economic structure, improving people's well-being, and preventing risks. These initiatives provided strong support for the stable operation of the economy.

In the first half of 2024, the petrochemicals market operated robustly as a whole. International crude oil prices rose amid fluctuations, driven by geopolitical conflicts and OPEC+'s ongoing production cuts, which in turn contributed to higher chemical prices. However, due to various factors, the progress of some domestic chemical projects fell short of expectations, and the start of several new chemical projects was delayed. On the demand side, the market recovery is characterised by differentiation. The structural adjustment and upgrading of the domestic economy, as well as the gradual recovery of international economy, have brought more opportunities and challenges to the petrochemical industry. At the same time, the development of new energy, new materials, and other strategic emerging industries is also creating new growth drivers for the petrochemical sector.

During the Period under Review, the Group recorded revenue of approximately RMB1,837.9 million (for the six months ended 30 June 2023: approximately RMB1,893.6 million), representing a year-on-year decrease of 2.9%. Gross profit amounted to approximately RMB114.2 million (for the six months ended 30 June 2023: approximately RMB144.1 million), representing a year-on-year decrease of 20.8%. Loss attributable to owners of the parent company amounted to approximately RMB34.3 million (six months ended 30 June 2023: loss attributable to owners of the parent company of approximately RMB104.7 million). In the first half of 2024, the total value of new contracts secured by the Group amounted to approximately RMB2,744.0 million (net of estimated value added tax ("VAT")), representing a year-on-year increase of 991.9%. As at 30 June 2024, the total value of the Company's outstanding contracts was approximately RMB24,147.2 million (net of estimated VAT), representing an increase of 3.8% from the total value of outstanding contracts as at 31 December 2023.

#### Focusing on Principal Business to Attain Innovation-driven and Globalised Development

During the Period under Review, Wison Engineering continuously consolidated its core business market and maintained the leadership in terms of traditional competitive products, including ethylene, cracking furnace, propane dehydrogenation (PDH), coal gasification, methanol-to-olefins (MTO) and synthetic ammonia. Meanwhile, Wison Engineering further explored emerging fields and stepped up technological research and development in the new energy and new materials sectors to accelerate the development of new markets. Continuous breakthroughs were made in oxidative dehydrogenation of ethane ("**ODHE**") to ethylene, degradable plastics (PGA), methyl methacrylate (MMA), carbon emission reduction, green coal chemical industry, butadiene and other processes, and catalysts.

During the Period under Review, the smoothly implemented its various projects domestically and abroad. It made progress in the following major projects:

**EPC** project for cracking furnaces of Wanhua Chemical Group Co., Ltd.'s 1.2 million-tonnes-per-year ethylene plant: The design phase was finished, cracking furnaces were installed, and pipeline installation was 90% completed. Mid-term delivery is scheduled for 30 September 2024.

**Panjin Sanli's MMA project:** The design phase was completed, the steel structure, equipment and pipeline installations were finished, and pipeline pressure testing was 85% completed. Mid-term delivery is scheduled for late August 2024.

**Guangxi Huayi's MTO EPC project:** Model review in the design phase was 60% completed, long-term equipment ordering was finished, civil works were 70% completed, and underground pipeline works were 85% completed.

**Natural-gas-to-hydrogen project in Thailand:** The project successfully started up in a single run on 2 March 2024, and passed its performance test on 7 April 2024.

**Saudi Aramco's DPCU project:** The design phase was finished with all orders for equipment and materials placed. Civil works were 90% completed, compressors were in place, and pipe prefabrication was 45% completed. Six pipe corridor modules were transported to the site.

**Qatar's EPC4 sulphur-handling project:** The project was 47% completed. Model review in the design phase was 90% completed, long-term equipment manufacturing was 60% completed, and civil works were 75% completed.

**EPSS project of SIBUR's PDH2 & PP Units:** The project modelling was 60% completed, on-site civil works were 80% completed, long-term equipment was ready for shipment, and some piping materials arrived at the site.

**FARABI's Lab4 project in Saudi Arabia:** The design phase was finished, with all orders for equipment and materials placed. Civil works were 82% completed, tank and furnace installation started, and long-term equipment manufacturing was 85% completed. Some piping materials arrived at the site and prefabrication work began.

**Shanghai Waigaoqiao No.3 Power Generation Co., Ltd.'s flue gas-CO<sub>2</sub>-to-methanol pilot demonstration project:** The bidding project was awarded on 3 January 2024. 90% of the model review in the design phase was completed on 20 June 2024. Long-term equipment ordering was finished, and orders for other equipment and materials were 85% completed. On-site equipment foundations and underground piping works were 75% completed. Mid-term delivery is scheduled for 26 November 2024. The project serves as a demonstration for CO<sub>2</sub> emission reduction.

#### **Steady Enhancement in Project Management Competence**

During the Period under Review, Wison Engineering continued to pursue its strategic goal of "leading by innovation and establishing a global presence", focusing on standardised, internationalised, and digitalised in project execution. The Company launched the Dashboard, an integrated project management platform, and utilised the ECOSYS management platform to enhance the effective connection between cost and progress control, improving real-time data availability for enhancing project management capabilities and efficiency. In June 2024, a training camp for project managers was organised to provide better training, streamline the project management regime, and ensure that all project objectives are met. These efforts have strengthened Wison Engineering's core competitiveness, laying a solid foundation for long-term development.

#### **Extraordinary Achievement in QHSE Management**

In the first half of 2024, the Company continued to enhance the management of quality, health, safety, and environment ("QHSE"). It advanced the QHSE system and standardised health, safety, and environment ("HSE") management on projects. The English version of the QHSE system documents was revised to meet higher standards and better align with international needs. Overall, effective QHSE management played a key role in supporting the Company's strategic transformation towards international operations.

During the Period under Review, the key quality and HSE indicators for the Company's engineering, procurement and construction ("**EPC**") projects remained within the targets set at the beginning of the year. The natural gas to hydrogen project in Thailand successfully passed functional acceptance, and the Henan Shenma project received the Outstanding EPC General Contractor Award. Additionally, several management initiatives from Wanhua Chemical Group Co., Ltd.'s 1.2 million-tonnes-per-year ethylene cracker project were recognised by the project owner as a model for quality and safety management in project construction. These achievements underscore the Company's strong QHSE management capabilities in project design, procurement, and execution.

The Company has intensified HSE management. During the Period under Review, the Company delivered smooth and orderly HSE management. A total of 4,807,130 safe man-hours in domestic and overseas projects were delivered. Overseas, Saudi Aramco's DPCU project achieved 3.4 million safe man-hours, FARABI's Lab4 project in Saudi Arabia recorded 2 million safe man-hours, and Qatar's EPC4 sulphur-handling project reached 1.3 million safe man-hours. None of these projects experienced accidents that resulted in man-hour loss, environmental pollution, or occupational health incidents. During "Workplace Safety Month" and "World Environment Day" in June 2024, the Company organised a range of activities across its overseas projects. These initiatives received positive feedback and helped local employees better understand and embrace Wison's HSE philosophy.

In the implementation of the quality management regime, the Company further enhanced equipment supervision for projects by reorganising and expanding the supervision team. It revised supervision service contracts and updated the rules on managing inspections of engineering materials factories. Additionally, new documents were introduced, including the "Measures for Managing Performance Appraisal of Supervision Service Providers", the "Detailed Guidelines on Unannounced Inspections for Supervision Purposes", and the "Records of Undesirable Inspectors from Supervisory Service Providers (Blacklist)", all of which have been effectively implemented. The Wison Engineering Material Supply Chain Management System ("WEMS") supervision module was utilised in projects such as Guangxi Huayi's MTO EPC project, facilitating platform-based integrated management of the procurement process.

During the Period under Review, the Company maintained audits on the QHSE system across all types of projects. It conducted such audits on-site for two technological research and development projects, three engineering consulting projects, three engineering design projects, and three engineering projects. The Company expanded quality system audits to encompass all aspects of supervision efforts and performed the first second-party quality system audit on three foreign design subcontractors. Additionally, quality system audits and management assessments were conducted in advance for 18 potential suppliers in overseas project countries. Through management system audits, the Company continued to enhance its business capability and project management level.

#### Establishing Global Presence for Full Exploration of Domestic and International Markets

With the steady recovery of the international economy, the demand for energy gradually increased, the demand for oil and gas products and chemicals continuously went up, and global investment in energy and chemicals picked up, which brought new opportunities in the market. Wison Engineering adhered to the strategy of "establishing global presence" and effectively implemented the globalisation strategy covering both domestic and international markets. During the Period under Review, Wison Engineering signed a total of 31 design and general contracting contracts, since a contract was terminated through friendly negotiation with the owner at the beginning of the year, therefore a total of RMB2.74 billion in new contracts signed in the first half of 2024.

In the domestic market, Wison Engineering focused on principal operations by strengthening the core products, locking in key customer business opportunities, and improving the quality of orders. During the Period under Review, the Company fully leveraged its competitive advantages in core petrochemical and coal chemical products, securing MTO turnkey contracts for Wison's key offerings. It actively pursued opportunities in ethylene, MTO, and other projects, and supported project owners in accelerating project implementation. Simultaneously, Wison Engineering kept developing new flagship products, particularly in areas of new energy and new materials. It signed several EPC and pre-project service contracts and continued to explore a range of opportunities in these emerging sectors.

During the Period under Review, the Company signed several significant contracts, including an MTO EPC contract for the MTO and downstream deep processing integrated project of Guangxi Huayi Energy and Chemical Co., Ltd., a contract for technical licensing and services for process packages related to feedstock adaptation at Wanhua Chemical's Ethylene Plant, a contract for feedstock diversification design for Wanhua Chemical's 1,000,000-tonnes ethylene plant, and a technical consulting contract for the feasibility report on the high-end polyolefin localisation project of Wanrong New Materials (Fujian) Co., Ltd., a Sino-foreign joint venture. In the new energy and new materials sectors, the Company signed an EPC contract for methanol synthesis from CO<sub>3</sub> and hydrogen as well as public auxiliary equipment and facilities for Shanghai Waigaogiao No.3 Power Plant Co., Ltd., a subsidiary of Shenergy Group Co., Ltd., a technical consulting contract for the feasibility report on a 600,000KW photovoltaic power generation project for large-scale hydrogen and ammonia production in Qapgal County, Yili Prefecture by Xinjiang Zhizhen Green Hydrogen Energy Co., Ltd., a technical consulting contract for the feasibility report on a 50,000-tonnes-per-year ODHE to ethylene project for Yanchuan Green Energy Petrochemical Technology Co., Ltd., and several preliminary consultancy contracts for MMA-related new materials and new energy projects. Additionally, the Company continued to follow up on a number of domestic and foreign new energy projects. Moreover, with the successful start-up of PGA and MMA pilot test projects, more project opportunities are yet to come.

Wison Engineering has been working on overseas markets for many years and accumulated rich project experience. It has established good partnerships with many international engineering companies and suppliers, and has the experience and ability to provide high-quality and differentiated services to customers in different countries and regions by giving full play to its own modular design and manufacturing advantages.

The Middle East is a key market for Wison Engineering, where the Company has deep presence for more than a decade and has established a deep foundation for business development. The Company focused on its competitive projects like ethylene and PDH/PP projects, maintained its stable partnerships with SABIC and Saudi Aramco, and engaged itself in the pre-project exchanges of SABIC/Saudi Aramco's liquid to chemicals (LTC) project. Meanwhile, the Company followed up on Chinese-funded investment projects in Qatar and Saudi Arabia, which are currently in the quotation stage. In view of the emerging renewable energy market and business opportunities arising from green hydrogen and green ammonia in the Middle East, the Company established cooperation with a number of domestic partners and international patent dealers in order to seize market opportunities in new energy and carbon capture projects. A number of new energy projects currently under consideration are expected to be contracted in the second half of the year.

In addition to the Middle East and other traditional chemical markets, the Company actively made its presence in emerging markets by closely following up petrochemical, new coal chemical, new energy, new material and other projects in regions including Russia, Central Asia, Southeast Asia, North America, and Africa.

During the Period under Review, Wison Engineering secured Odum Energy Fze's FEED project for PDH/PP modularisation in Nigeria. The Company also landed a FEED project for a modularized ammonia synthesis plant at Oteko in Taman, Russia. Additionally, Wison Engineering was awarded a FEED contract for SIBUR Kstovo LLC's crackers. For all these projects, it is likely to enter into technical service or EPC contracts in the future. Furthermore, the Company participated in bids for alkylation and new energy projects in Indonesia and is expected to secure an EPC contract in the second half of the year, further expanding its market share.

Wison Engineering will continue to focus on renewable energy, methanol and modular construction opportunities in the Middle East, Russia, the United States and Southeast Asia. The Company will provide high-quality services to meet customer needs and lay the foundation for subsequent EPC projects.

## Excellent Research and Development Capabilities for New Material and New Process Leading to Accelerating Commercial Implementation

The development and utilization of new processes and technologies such as new materials and degradable plastics is the future development trend of the industry, and it is also one of the key technology development directions of Wison Engineering. With research and development investment and technology accumulation throughout the years, Wison Engineering made breakthroughs in several key technology transfers during the Period under Review.

The Company participated in the development and won the EPC contract of Panjin Sanli's MMA project, the first industrialised project of new green ethylene-based MMA technology. The project is expected to be mid-term delivered in late August 2024 and commissioned in October 2024. The project is China's first MMA industrialisation plant based on ethylene, which adopts leading olefin hydroformylation technology and new technology of one-step oxidative esterification of methacrolein with complete intellectual property rights. Through innovative, green and sustainable technical solutions, the project effectively solves the problems of high pollution and high energy consumption in domestic processes of producing MMA via acetone cyanohydrin. As the demonstration plants are to be completed soon, many domestic owners are negotiating technology licensing.

In terms of innovative technology development and industrialisation of degradable plastics, the information about the 1,000-ton pilot plant of PGA built by Wison Engineering together with Inner Mongolia Rongxin Chemical Co., Ltd. was prepared and submitted for acceptance check during the Period under Review. The Company is expected to receive the approval by the government in mid-August. The remaining tests will continue to be completed after the approval by the government. At present, 80% of the commercial-scale process package has been prepared. It is expected that the technological achievements will be ready for commercialisation and promotion this year.

During the Period under Review, certain projects using the technology of catalytic ODHE, jointly developed by the Company and the Dalian Institute of Chemical Physics, Chinese Academy of Sciences, have their feasibility study reports completed. The projects are expected to be carried out in the near future. The technology is applicable for ethylene production via various ethane materials with significantly lower investment, energy consumption and  $CO_2$  emissions than those of traditional processes. It's of ground-breaking significance to ethylene production, aligned with the global trend of using light olefin raw materials, and holding broad application prospects.

The Company proactively promoted the catalyst and complete set of technology for the oxidative dehydrogenation of butene to butadiene. The commercial plant that uses the catalyst and complete set of technology for the oxidative dehydrogenation of butene to butadiene shows outstanding operation effect. With the continuous recovery of the butadiene market in 2024, the corresponding domestic plant operates at full capacity. During the Period under Review, two plants have expressed their willingness to replace the catalyst to Wison Engineering. At the same time, the Company was committed to the optimisation and upgrading of butadiene technology. Compared with the existing oxidative dehydrogenation of butene to butadiene, the next-generation energy-saving butene oxidative dehydrogenation catalysts and reaction and separation techniques can significantly reduce steam consumption, further cut energy consumption by 30%, reduce wastewater by 40% and lower the cost of production of tons of butadiene by about RMB1,400, which marks a significant progress of the development of the energy-saving butadiene production technology. At present, the new

technology has entered the promotion stage. With complete process package for the transformation of the original plants, the original oxidative dehydrogenation plant is expected to be modified. The successful development of this new technology further maintained the Company's leading position and competitiveness in the field of butadiene technology.

The butadiene division of the Company has been innovating the  $C_4$  separation process by using a new solvent for  $C_4$  separation. As compared with traditional processes, the new process reduces energy consumption by more than 40% and wastewater by over 90%. Highly recognised by the business community, the Company has reached technical cooperation intention with three firms. It is expected to be another major technological highlight of Wison Engineering.

During the Period under Review, Wison Engineering was awarded 8 new patents, applied for 6 new patents, and continuously consolidated its intellectual property rights and technical reserves.

With a focus on green energy transformation and new quality productive forces, we stepped up our efforts in zero- and low-carbon, and green and intelligent reengineering, and sped up the process of new business development

It has become a general consensus and inevitable choice for the international community to adapt to climate change through green and low-carbon transformation. Against such backdrop, Wison Engineering capitalised on rising opportunities and accelerated the rapid transformation of its business structure towards customer and market needs-driven. As a new energy engineering company, Wison Engineering will strive to become a leading provider for engineering and technology solutions for domestic and global energy transformation.

During the Period under Review, Wison Engineering adjusted its organisational structure and set up a product technology center that focuses on the exploration of new business, technologies and products. The Company actively captured and gained insights into the global trend of energy and chemical transformation, and systematically analysed the needs of and technological difficulties in the transformation from the traditional chemical industry that is driven by resources, thermal energy and carbon to the new energy industry that is driven by technological innovation and electricity-hydrogen coupling. Moreover, the Company kept abreast of the development of cutting-edge technologies, deepened the international cooperation in production and research on process and technology roadmaps, focused on the recruitment of technical experts and core talents specialising in electricity-hydrogen coupling, green ammonia and methanol, carbon capture and utilisation, and biomass utilisation, set up a task force to coordinate the in-depth development of the technology roadmaps and solutions for deep decarbonisation of hydrogen, ammonia, methanol, and sustainable aviation fuel (SAF), etc., strove to be part of the strategic global energy transformation and national development of disruptive productive forces, and spared no efforts in creating new business and product lines dealing with services and delivery of renewable energy technology with Wison Engineering's core competitiveness.

During the Period under Review, Wison Engineering was awarded an EPC bid winning notice regarding a demonstration project of methanol synthesis from hydrogen and CO<sub>3</sub>. It won the bid and completed the engineering design of a small-scale wind and solar-based hydrogen production pilot project (including electrolysis, electrochemical energy storage and fuel cell); In terms of pre-project consulting, the Company secured pre-project consulting contracts on multiple projects of off-grid/grid-connected wind and solar-based hydrogen production coupled with coal chemical industry, flexible wind and solar-based ammonia production, and biomass/electricity-methanol production in the eastern and central parts of Inner Mongolia, Qinghai and other regions. We have also provided many technical solutions for domestic and international customers regarding their needs and scenarios of low-carbon and green development, such as low-carbon methanol synthesis from carbon capture coupled with exhaust gas-hydrogen in an active large-scale refining and chemical integration project, methanol synthesis from carbon capture and hydrogen in a large-scale coal chemical project, solar-based hydrogen production coupled with the product chain of a specialty gas company, hydrogen storage in organic liquids, on-shore carbon capture/liquefaction/shipping of offshore gas reinjection, offshore off-grid wind-based hydrogen and ammonia production, and offshore floating liquefied hydrogen production. In collaboration with Shanghai Wison Offshore & Marine Co., Ltd., we completed the technical reserve research on the concept design of floating green ammonia and floating green methanol products, further reinforcing our technical reserve and solution capabilities in various new energy technology roadmaps and application scenarios.

During the Period under Review, the Company developed a dynamic multi-steady state simulation system to address the renewable "raw material" and "non-steady state" in the new energy industry. Equipped with its independently developed simulation models and intelligent algorithms, the system can develop solutions for whole-plant system configuration and automated optimisation solutions for green hydrogen, ammonia and methanol projects based on the hourly wind/solar power output data and various boundary conditions, and supports quick generation of whole-plant investment budget and product costs. The system serves as an efficient and intelligent tool for quick response to needs of new energy project owners, higher accuracy of systematic solutions and flexibility in comparison and selection of multiple solutions. At the same time, the new energy business partnered with external companies and universities in the research and development of the energy management system (EMS).

Moreover, during the Period under Review, the Company carried out systematic analysis of EU's Fit for 55 package renewable energy directive (RED) II/III, such as international sustainability and carbon certification (ISCC) EU, renewable fuels of non-biological origin (RFNBO) and recycled carbon fuels (RCF), fully communicated with external third-party advisory agencies while providing pre-project consulting services, offered full-lifecycle carbon footprint calculation to customers in the project planning stage regarding biomass collection, pre-treatment, methanol production, transportation to port refueling, and assisted customers in optimising solutions to meet the requirements of EU green energy certification and increase added value of products by iteration and refining of technology roadmaps and whole-process consumption.

The Company continued to enhance its digital design and delivery, accelerated the building of the digitally integrated project management system, and raised delicacy management standards

During the Period under Review, the project management platform and the design management platform (phase 1) were developed and launched online. These platforms provide management with visualised and data-driven capabilities for tracking project progress and analysis, and enable them to make forecasts, issue early warnings, and control every aspect of project execution and management in real time.

During the Period under Review, the Company continued to advance its digital integrated design competence. SRU project in Abu Dhabi has completed integrated design center, incorporated piping and instrumentation diagram, instrument boards and electricity data integration. The smart plant 3D (SP3D) integration has been completed in July 2024, thus ensuring digital delivery up to high standards. SIBUR's and Huayi's MTO EPC projects were planned and executed in accordance with the international capital facilities information handover specification (CFIHOS) and domestic standard of digital delivery for oil refining and petrochemical project GB51296 respectively, proving that the Company's digital delivery has reached top domestic level and advanced level internationally.

In order to achieve international transformation, Wison Engineering prioritised the construction of an integrated working and control platform for project management by means of systems and electronic archiving tools. During the Period under Review, its investment in hardware and software continued to grow. During the Period under Review, The WEMS officially became operational in March 2024. Developed in conjunction with the MARIAN material management system as the underlying database, the system streamlines every aspect of the business and data flow, including procurement planning, purchase requisition, purchasing, delivery, supervision, logistics, and warehousing. Suppliers, subcontractors, third-party supervision personnel, and other related parties work on the same platform, making procurement a more visualised, data-driven, collaborative, and efficient process. The system has been fully applied in various projects such as SIBUR, Huayi, and Shanghai Waigaoqiao Power Plant. Additionally, the ECOSYS system serves as the core platform for managing project progress, cost, contracting, and change management. Its budget module has been developed and is currently in trial run, while the cost and cash flow timing module is being developed in practice. These continuously improved project applications have significantly enhanced the Company's project execution and control capabilities.

During the Period under Review, the ECOSYS system was applied in SIBUR, Shanghai Waigaoqiao Power Plant and Huayi projects. The system integrates the budget, cost and payment data flows, grants the budget for electronic archiving, and supports control and analysis of the cash flow, contract payment and cost to ensure precise cost measurement and reliable data traceability. The PW document control collaboration system was comprehensively applied and constantly improved in the Huayi project. The digital construction and installation management system was integrated with the MARIAN and WEMS systems to forecast the line formation rate. This integration has been promoted and applied across various domestic and international projects to enhance the forecasting, supervision, and control of the construction process. Additionally, the inspection and test plan (ITP) of the construction process has been enabled via cloud, ensuring that construction planning is aligned with quality planning, and that construction acceptance inspections are synchronised with data filing. The system handover software was deployed in the DPCU project, making the construction process of the DPCU project more manageable.

## Implementing a three-pronged business transformation strategy to continuously enhance organisational vitality and capability

In 2024, Wison Engineering adhered to a human resources strategy of "three-pronged business transformation". This approach focused on safeguarding business delivery capability through organisational and talent enhancements, stimulating organisational vitality through culture building and rule formulation, and motivating employees with long-term incentives and compensation schemes.

With a strategy focused on steady, accurate, and fast recruitment and internal training, Wison Engineering introduced more than 100 high-calibre professionals in design, project execution, and cost and contract management, significantly enhancing the Company's talent pool and continuously improving talent quality. Concurrently, the Company strengthened its strategy of recruiting local employees overseas, established strong personnel cooperation platforms in various countries and regions, and bolstered a transnational talent mobility system to attract talent from diverse nationalities. In addition to bringing in external talent, the Company also increased investment in internal employee training. Based on internal staff counting results, Wison Engineering implemented several programs, including the 90-Day Integration & Onboarding Program for New Employees, the Project Management Personnel Training Camp, the Training Camp for Design Managers and Professionals, and the Mid-level Leadership Model, all designed to accelerate the development of internal personnel across different levels.

The Company is now in a critical period of business transformation and internationalisation, which requires the participation of all staff in the Company. During the Period under Review, the Company has focused on creating communication platform that bridges all levels across the organisation. A semi-annual forum with the participation of all the staff from all the offices around the world were held to clearly convey the Company's strategic objectives to all the staff and to listen to employees' feedback. At the same time, the Company optimised its current compensation system to achieve a return that matches performance. Additionally, the Company launched the position sequence and ranking project which targets to create a clear career development blueprint and direction for every staff member.

#### **OUTLOOK**

In the second half of 2024, the global economy is expected to face pressures, with the overseas interest rate hike cycle gradually winding down and many countries adjusting their monetary policies. In China, the economy is anticipated to continue its stable and positive development trend, supported by ongoing policy implementations. Demand is projected to rise steadily, further enhancing market dynamics. The real estate sector is expected to stabilise and recover following policy adjustments. Although the recovery may be gradual, it is likely to positively impact the overall economy.

Looking ahead to the second half of the year, crude oil prices are expected to remain strong, providing evident support on the cost side. However, factors such as the timing of the Fed's rate cuts and OPEC+'s supply adjustments may cause volatility in oil prices. With the gradual recovery of the global economy, demand for petrochemical products is anticipated to pick up, particularly from downstream industries like automobiles, real estate, and home appliances, which will likely drive consumption. Refining and chemical enterprises are expected to accelerate their transformation and upgrading initiatives, optimise their product lineups by increasing the proportion of high-end products, and expand their presence in the higher segments of the industrial and value chains. Green, low-carbon, and eco-friendly operations will increasingly become key directions for industry development.

The Company is currently navigating a crucial period of business transformation and internationalisation. Capitalizing on the market opportunities presented by the rapidly growing global new energy industry, the Company is dedicated to building its core competitiveness, exploring new markets and sectors, and continuously enhancing its ability to develop standardised, digitised, and modularised products as it expands into the international new energy field. Faced with challenges and opportunities stemming from market fluctuations and policy adjustments, the Company will adopt proactive strategies and make flexible adjustments to attain sound and sustainable development.

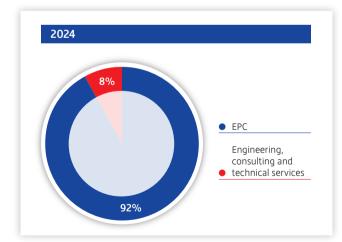

#### **FINANCIAL REVIEW**

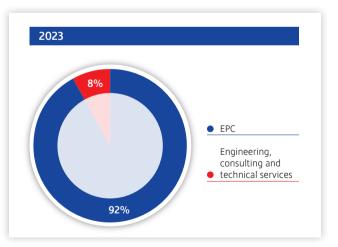

#### **Revenue and Gross Profit**

During the Period under Review, revenue of the Group amounted to approximately RMB1,837.9 million (for the six months ended 30 June 2023: approximately RMB1,893.6 million), representing a year-on-year decrease of 2.9%. Gross profit of the Group amounted to approximately RMB114.2 million (for the six months ended 30 June 2023: approximately RMB144.1 million), representing a decrease of approximately RMB29.9 million.

Details of comprehensive revenue and gross profit breakdown by business segments are set out below:

|   | Segment revenue Six months ended 30 June |         |                                    | ross profit<br>nded 30 June | Segment gross profit margin Six months ended 30 June |       |

| EPC Engineering, consulting and technical | 1,687.2                                  | 1,748.4 | 93.9                               | 98.8                        | 5.6%   | 5.7%  |
| services                                  | 150.7                                    | 145.2   | 20.3                               | 45.3                        | 13.5%  | 31.2% |
|   | 1,837.9                                  | 1,893.6 | 114.2                              | 144.1                       | 6.2%   | 7.6%  |

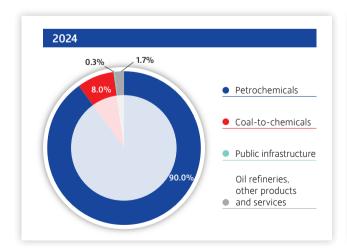

The revenue of EPC of the Group decreased by 3.5% from RMB1,748.4 million in the corresponding period last year to RMB1,687.2 million during the Period under Review. The main reason for the decrease in revenue of EPC was that the Group's EPC projects in the PRC and Southeast Asia in the last period under review have been substantially completed in 2023. As a result, their contribution to revenue decreased during the Period under Review. However, the Group's existing on-going projects are currently in the early to middle stage. Among these

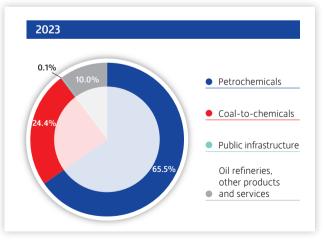

projects, certain projects involve the manufacturing of large-scale equipments, which are expected to be delivered in the second half of 2024 to 2026, and therefore their contribution to revenue was limited during the Period under Review. The EPC segment recorded gross profit margin of 5.6%, as compared to that of 5.7% in the corresponding period in 2023.

The revenue of engineering, consulting and technical services of the Group increased by 3.8% from RMB145.2 million in the corresponding period last year to RMB150.7 million during the Period under Review. The gross profit margin of engineering, consulting and technical services of the Group decreased from 31.2% in the corresponding period last year to 13.5% during the Period under Review. The decrease in gross profit and gross profit margin of engineering, consulting and technical services was mainly due to the increase in forecasted engineering cost for certain projects during the Period under Review.

Details of comprehensive revenue breakdown by industries in which our clients operate are set out below:

| Six months ended 30 June                    |             |             |             |          |  |  |
|---|-------------|-------------|-------------|----------|--|--|
|   | 2024        | 2023        | Change      | Change   |  |  |
|   | RMB million | RMB million | RMB million | %        |  |  |
|   | (Unaudited) | (Unaudited) |             |          |  |  |
|   |             |             |             |          |  |  |
| Petrochemicals                              | 1,654.1     | 1,241.0     | 413.1       | 33.3%    |  |  |
| Coal-to-chemicals                           | 147.2       | 461.7       | -314.5      | -68.1%   |  |  |
| Public infrastructure                       | 5.7         | 0.5         | 5.2         | 1,040.0% |  |  |
| Oil refineries, other products and services | 30.9        | 190.4       | -159.5      | -83.8%   |  |  |
|   |             |             |             |          |  |  |
|   | 1,837.9     | 1,893.6     | -55.7       | -2.9%    |  |  |

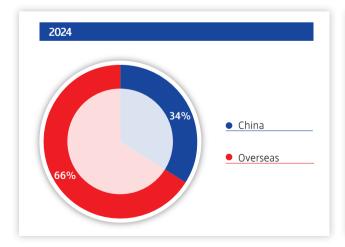

The revenue of petrochemical business segment increased by 33.3%, mainly because the Group's petrochemical projects located in the Middle East have entered into the middle construction phase, resulting in the increase in revenue contribution.

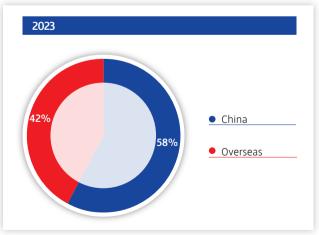

The revenue of coal-to-chemicals business segment decreased by 68.1%. This was mainly because the Group coal-to-chemicals project located in Henan, China was completed in 2023, and the coal-to-chemicals project located in Shandong, China, was still postponed during the first half of 2024. As a result, the revenue contribution from this business segment was limited.

The revenue of oil refineries, other products and services business segment decreased by 83.8%, mainly because the Group's new materials project located in Xinjiang, China has entered into the end of construction stage in 2023, resulting in a decrease in revenue contribution from this business segment.

Details of comprehensive revenue breakdown by geographic locations of our projects are set out below:

|                | Six months ended 30 June |               |             |               |  |

| Southeast Asia | 22.1                     | 1.2%          | 358.5       | 18.9%         |  |
| Europe         | 158.3                    | 8.6%          | 50.9        | 2.7%          |  |
| Others         | 7.9                      | 0.5%          | 8.1         | 0.5%          |  |
|                |                          |               |             |               |  |
|                | 1,837.9                  | 100.0%        | 1,893.6     | 100.0%        |  |

The revenue from overseas projects of the Group accounted for approximately 41.9% of the total revenue in the corresponding period last year, whereas during the Period under Review, revenue from overseas projects accounted for approximately 66.1% of the total revenue. The increase in percentage weighting of revenue from overseas projects during the Period under Review was mainly due to the fact that the Group's EPC projects located in the Middle East have entered into the principal construction phase.

#### Other Income and Gains

Other income and gains increased by 41.0% from RMB91.2 million in the corresponding period last year to RMB128.6 million during the Period under Review, mainly because the Group recognised a gain on change in fair value of the investment property in Shanghai during the Period under Review, as well as the compensation income as a result of successful claim against certain subcontractors.

#### **Selling and Distribution Expenses**

Selling and distribution expenses increased by 25.4% from RMB20.5 million in the corresponding period of last year to RMB25.7 million during the Period under Review, which was mainly due to the increase in the overseas marketing activities of the Group as well as the accruals of bonus for marketing staff.

#### **Administrative Expenses**

Administrative expenses decreased by 22.2% from RMB119.8 million in the corresponding period of last year to RMB93.2 million during the Period under Review, which was mainly due to the decrease in depreciation and amortization expenses of the Group's office building and land headquartered in Shanghai, China.

#### **Other Expenses**

Details of other expenses breakdown are set out below:

|  | Six months ended 30 June |             |
|--|--------------------------|-------------|
|  | 2024                     | 2023        |
|  | RMB million              | RMB million |
|  | (Unaudited)              | (Unaudited) |
|  |                          |             |
| Research and development costs                 | 58.5                     | 58.7        |
| Expenses in relation to operating lease income | 1.8                      | 9.3         |
| Consultancy expenses                           | _                        | 0.5         |
| Fines and estimated compensation losses        | 0.1                      | 9.2         |
| Others   | _                        | 0.5         |
|  |                          |             |
|  | 60.4                     | 78.2        |

Other expenses decreased by 22.8% from RMB78.2 million in the corresponding period last year to RMB60.4 million during the Period under Review, mainly because the Group recognized estimated compensation losses in the corresponding period last year, and the expenses in relation to operating lease income decreased during the Period under Review.

#### **Finance Costs**

Finance costs decreased by 29.0% from RMB51.3 million in the corresponding period last year to RMB36.4 million during the Period under Review, which was mainly due to the decrease in interest expenses relating to payables.

#### **Income Tax**

Income tax decreased by 47.9% from RMB11.9 million in the corresponding period last year to RMB6.2 million during the Period under Review, mainly because the Group's EPC project in Thailand was still in the principal construction phase in the corresponding period last year, and the provision for withholding tax was recognized in accordance with the progress payment.

#### **Loss for the Period**

As a result of the above, the loss for the period decreased by 62.0% from RMB108.0 million for the corresponding last year to RMB41.0 million for the Period under Review. The Group's net profit margin was -5.7% for the corresponding period last year, and increased to -2.2% during the Period under Review.

#### **Trade and Bills Receivables**

The Group's trading terms with its customers are mainly on credit where payment in advance is normally required. Trade receivables are non-interest-bearing and on credit terms of a period of 30 to 90 days or the respective contracts' retention period. As at 30 June 2024 and 31 December 2023, the Group's total trade and bills receivables amounted to RMB511.7 million and RMB568.1 million, respectively, representing a decrease of approximately 9.9%.

#### **Liquidity and Capital Structure**

As at 30 June 2024, the Group's cash and bank balances amounted to RMB1,248.9 million, representing approximately 19.5% of the Group's current assets (as at 31 December 2023: RMB901.8 million, representing approximately 16.5% of the Group's current assets).

The major items of interim condensed consolidated statement of cash flows of the Group during the Period under Review are set out below:

|  | Six months ended 30 June |             |
|--|--------------------------|-------------|
|  | 2024                     | 2023        |
|  | RMB million              | RMB million |
|  | (Unaudited)              | (Unaudited) |
|  |                          |             |
| Net cash flows from operating activities | 364.8                    | 411.1       |
| Net cash flows from investing activities | 16.4                     | 6.7         |
| Net cash flows from financing activities | -11.2                    | -39.8       |

The Group meets its working capital and other capital requirements principally with cash generated from its operations and borrowings.

As at 30 June 2024, the Group's pledged and unpledged cash and bank balances included the following amounts:

|                    | 30 June<br>2024<br>RMB million | 31 December<br>2023<br>RMB million |
|--------------------|--------------------------------|------------------------------------|

#### **Interim Dividend**

The Directors did not recommend paying an interim dividend for the Period under Review (for the six months ended 30 June 2023: nil).

#### **Capital Expenditure**

During the Period under Review, the capital expenditure of the Group amounted to RMB10.0 million (for the six months ended 30 June 2023: RMB16.9 million).

#### **Material Acquisitions and Disposals**

During the Period under Review, the Group had no material acquisitions and disposals.

#### **Contingent Liabilities**

During years 2023 to 2024, certain sub-contractors of the Group filed claims to the People's Courts in Chinese Mainland against the Group for additional payments of construction costs, interest and liquidation damages with an aggregate amount of approximately RMB53,850,000.

The Directors are of the opinion that additional provision for the lawsuits amounting to RMB15,110,000 has been made. For other lawsuits amounting to RMB38,740,000 which are without merit, the possibility for the Group being subject to additional payment claims is expected to be remote on the basis of the available evidences and legal advice obtained, the directors are of the opinion that no additional provision is required.

#### **Foreign Exchange Risk Control**

The business transactions of the Group are mainly settled in Renminbi and US dollars. The Group is exposed to currency risks in relation to the bank balances denominated in currency other than the functional currencies of the relevant entities. The Group has formulated and strictly adheres to a currency hedging policy against the foreign currency risk.

#### **Pledge of Assets**

As at 30 June 2024, equity investments of RMB206.0 million, certain buildings and leasehold land of RMB3,489.1 million, as well as rights to rental income of certain properties for the next few years, were pledged as security for bank facilities of the Group.

#### **Employee and Emolument Policy**

In response to market changes, the Group has continuously introduced new talents, improved its internal management level and continuously optimized its organizational structure. Each department has a clear division of labor and each has its own responsibilities.

As at 30 June 2024, the Group had 1,757 employees (31 December 2023: 1,608 employees). The Group's total employee costs (including remuneration, bonuses, pensions and benefits) amounted to RMB397.1 million, representing 21.6% of the Group's income during the Period (for the six months ended 30 June 2023: 15.5%). The Company has formulated a salary policy based on the principles of fairness, competition, incentive and legality, dynamically adjusting the salary according to the performance of the Company, employees' performance and working ability, etc.

The Group adopted the 2022 share option scheme on 20 December 2022 as encouragement and reward for the contributions of employees to the Company. No share option has been granted under the 2022 share option scheme since its adoption.

The Company makes training plans according to the Group's strategic plan, annual operation approach and plan. The Group provides orientation training and on-the-job education for employees' development. Orientation training covers corporate culture and policies, professional ethics and quality, major products and businesses, quality management, occupational safety and other aspects. On-the-job education includes mandatory training for applicable laws and regulations, such as environment, health and safety management systems, as well as specialized training covering all levels and categories of personnel. To meet the needs of the Company's strategic planning, the Group carries out in-service cadres training projects, reserve cadre training projects and key technical personnel training projects for all levels of management cadre, key business and technical personnel and talent with high potentials. The Group also taps into different kinds of education resources, such as mini class, mini study and live stream, via online channels, so as to further improve training and talent development system, provide a solid talent pool for the stable operation and transformation and upgrade of the Company, and promote the high-quality development of the Company.

#### **Events after Period under Review**

Subsequent to 30 June 2024, the Group has been granted a new banking facility of RMB80,000,000.

### **Disclosure of Interests**

## DIRECTORS' AND CHIEF EXECUTIVE'S INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES

As at 30 June 2024, the interests and short positions of the Directors or the chief executive of the Company in the shares, underlying shares or debentures of the Company and its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the "SFO")) as recorded in the register required to be kept by the Company pursuant to section 352 of the SFO or as notified to the Company and The Stock Exchange of Hong Kong Limited (the "Stock Exchange") pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix C3 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") were as follows:

#### (a) Long position in the ordinary shares of the Company (the "Shares")

| Name of Director | Company/Name<br>of Group Company | Capacity/<br>Nature of interest | Number of<br>Shares <sup>(1)</sup> | Approximate percentage of shareholding <sup>(2)</sup> |
|------------------|----------------------------------|---------------------------------|------------------------------------|---|
| Zhou Hongliang   | Company                          | Beneficial owner                | 3,250,000 (L)                      | 0.08%   |
| Zheng Shifeng    | Company                          | Beneficial owner                | 2,250,000 (L)                      | 0.06%   |
| Liu Hongjun      | Company                          | Beneficial owner                | 1,000,000 (L)                      | 0.02%   |

#### Notes:

<sup>(1)</sup> The letter "L" denotes the person's long position in such Shares.

<sup>(2)</sup> As at 30 June 2024, the Company had 4,073,767,800 ordinary shares in issue.

### **Disclosure of Interests**

Save as disclosed above, as at 30 June 2024, none of the Directors nor the chief executive of the Company had any interests or short positions in any of the shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) as recorded in the register required to be kept by the Company pursuant to section 352 of the SFO or as notified to the Company and the Stock Exchange pursuant to the Model Code.

#### **SHARE OPTION SCHEME**

On 20 December 2022, a share option scheme (the "2022 Share Option Scheme") of the Company was approved and adopted by the shareholders of the Company. The 2022 Share Option Scheme shall be valid and effective for a period of ten years commencing from its adoption date. As at the date of this report, the remaining life of the 2022 Share Option Scheme is approximately eight years and three months.

The purpose of the 2022 Share Option Scheme is to attract and retain the best available personnel, to provide additional incentive to employees and directors of the Group and to promote the success of the business of the Group. Pursuant to the 2022 Share Option Scheme, the Board may offer to grant an option to subscribe for such number of Shares as the Board may determine to an employee (whether full-time or part-time) or a director of the Company or any of its subsidiaries (the "Eligible Persons").

Further details of the principal terms of the 2022 Share Option Scheme are set out in the circular of the Company dated 5 December 2022.

As at 1 January 2024 and 30 June 2024, the total number of options available for grant under the scheme mandate of the 2022 Share Option Scheme was 407,376,780 and 407,376,780, respectively, each represents approximately 10% of the issued share capital of the Company as at the date of this report.

During the Period under Review, no option had been granted, exercised, cancelled or lapsed pursuant to the 2022 Share Option Scheme, and no Shares may be issued in respect of any options and awards granted under all schemes of the Company.

### **Disclosure of Interests**

## SUBSTANTIAL SHAREHOLDERS' AND OTHER PERSONS' INTERESTS AND SHORT POSITIONS IN SHARES AND UNDERLYING SHARES

As at 30 June 2024, the following persons (other than the Directors or the chief executive of the Company) has interests or short positions in the shares or underlying shares of the Company as recorded in the register required to be kept by the Company under section 336 of the SFO:

| Name  | Company/Name of<br>Group Company | Capacity/<br>Nature of interest    | Number of Shares<br>directly or<br>indirectly held <sup>(1)</sup> | Approximate percentage of shareholding <sup>(5)</sup> |
|---|----------------------------------|------------------------------------|---|---|
| Wison Engineering Investment Limited ("Wison Investment")             | Company                          | Beneficial owner                   | 3,088,782,146 (L)   | 75.82%  |
| Wison Group Holding Limited (" <b>Wison Holding</b> ") <sup>(2)</sup> | Company                          | Interest in controlled corporation | 3,088,782,146 (L)   | 75.82%  |
| Mr. Hua Bangsong <sup>(3)</sup>                                       | Company                          | Interest in controlled corporation | 3,088,782,146 (L)   | 75.82%  |
| Ms. Huang Xing <sup>(4)</sup>   | Company                          | Interest of spouse                 | 3,088,782,146 (L)   | 75.82%  |

#### Notes:

- (1) The letter "L" denotes the person's long position in such Shares.
- (2) Wison Holding, as the sole shareholder of Wison Investment, is deemed or taken to be interested in the Shares which are owned by Wison Investment.
- (3) Mr. Hua Bangsong, as the sole shareholder of Wison Holding, is deemed or taken to be interested in the Shares which are beneficially owned by Wison Holding.
- (4) Ms. Huang Xing is the spouse of Mr. Hua Bangsong. Under the SFO, Ms. Huang Xing is deemed to be interested in the same number of Shares in which Mr. Hua Bangsong is interested.
- (5) As at 30 June 2024, the Company had 4,073,767,800 ordinary shares in issue.

Save as disclosed above, as at 30 June 2024, no persons (other than the Directors or the chief executive of the Company) had any interests or short positions in the shares or underlying shares of the Company as recorded in the register required to be kept by the Company under section 336 of the SFO.

### **Corporate Governance and Other Information**

#### **CORPORATE GOVERNANCE PRACTICES**

During the six months ended 30 June 2024, the Company has complied with the applicable code provisions as set out in the Corporate Governance Code contained in Part 2 of Appendix C1 to the Listing Rules.

#### COMPLIANCE WITH THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code as set out in Appendix C3 to the Listing Rules as the code of conduct regarding securities transactions by Directors. Having made specific enquiry, all Directors confirmed that they have complied with the required standard set out in the Model Code during the Period under Review.

#### PURCHASE, SALE AND REDEMPTION OF LISTED SECURITIES OF THE COMPANY

The Company and its subsidiaries did not purchase, sell or redeem any of the listed securities of the Company during the Period under Review.

#### **INTERIM DIVIDEND**

The Directors did not recommend paying an interim dividend for the Period under Review (for the six months ended 30 June 2023: nil).

#### **AUDIT COMMITTEE REVIEW**

The Company has established an audit committee which is accountable to the Board and the primary duties of which include the review and supervision of the Group's financial reporting process and internal control measures. For the Period under Review, the audit committee comprised of three independent non-executive Directors, namely, Mr. Lawrence Lee, Mr. Tang Shisheng and Mr. Feng Guohua. Mr. Lawrence Lee serves as the chairman of the audit committee of the Company, who has the professional qualification and experience in financial matters in compliance with the requirements of the Listing Rules.

The audit committee has reviewed with management the accounting principles and practices adopted by the Group and discussed internal control and financial reporting matters including the review of the unaudited condensed consolidated interim financial statements of the Group for the Period under Review. They considered that the unaudited interim financial statements of the Group for the Period under Review are in compliance with the relevant accounting standards, rules and regulations and that appropriate disclosures have been made.

#### To the board of directors of Wison Engineering Services Co. Ltd.

(Incorporated in the Cayman Islands with limited liability)

#### Introduction

We have reviewed the interim financial information set out on pages 33 to 78, which comprises the condensed consolidated statement of financial position of Wison Engineering Services Co. Ltd. (the "Company") and its subsidiaries (collectively referred to as the "Group") as at 30 June 2024 and the related condensed consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the six-month period then ended, and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 Interim Financial Reporting ("IAS 34") issued by the International Accounting Standards Board. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with IAS 34. Our responsibility is to express a conclusion on this interim financial information based on our review. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

#### **Scope of review**

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the International Auditing and Assurance Standards Board. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Report on Review of Interim Financial Information

#### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with IAS 34.

30 June 2024

### 1. CORPORATE INFORMATION

The registered office of the Company is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1–1111, Cayman Islands.

Wison Engineering Investment Limited ("Wison Investment") is the immediate holding company of the Company. In the opinion of the directors, Wison Group Holding Limited ("Wison Holding") is the ultimate holding company of the Company. Wison Holding and Wison Investment are exempted companies with limited liability incorporated in the British Virgin Islands.

The Group is principally engaged in the provision of project solutions to petrochemical and coal-to-chemicals producers in terms of design, construction and commissioning of their production facilities through technology consultancy, engineering, procurement and construction management services in the People's Republic of China (the "PRC") and overseas.

#### 2.1 BASIS OF PREPARATION

The interim condensed consolidated financial information for the six months ended 30 June 2024 has been prepared in accordance with IAS 34 *Interim Financial Reporting*. The interim condensed consolidated financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2023.

### 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2023, except for the adoption of the following revised International Financial Reporting Standards ("IFRSs") for the first time for the current period's financial information.

Amendments to IFRS 16 Lease Liability in a Sale and Leaseback

Amendments to IAS 1 Classification of Liabilities as Current or Non-current

(the "2020 Amendments")

Amendments to IAS 1 Non-current Liabilities with Covenants (the "2022 Amendments")

Amendments to IAS 7 and IFRS 7 Supplier Finance Arrangements

30 June 2024

### 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

The nature and impact of the revised IFRSs are described below:

- (a) Amendments to IFRS 16 specify the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains. Since the Group has no sale and leaseback transactions with variable lease payments that do not depend on an index or a rate occurring from the date of initial application of IFRS 16, the amendments did not have any impact on the financial position or performance of the Group.
- (b) The 2020 Amendments clarify the requirements for classifying liabilities as current or non-current, including what is meant by a right to defer settlement and that a right to defer must exist at the end of the reporting period. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement. The amendments also clarify that a liability can be settled in its own equity instruments, and that only if a conversion option in a convertible liability is itself accounted for as an equity instrument would the terms of a liability not impact its classification. The 2022 Amendments further clarify that, among covenants of a liability arising from a loan arrangement, only those with which an entity must comply on or before the reporting date affect the classification of that liability as current or non-current. Additional disclosures are required for non-current liabilities that are subject to the entity complying with future covenants within 12 months after the reporting period.

The Group has reassessed the terms and conditions of its liabilities as at 1 January 2023 and 2024 and concluded that the classification of its liabilities as current or non-current remained unchanged upon initial application of the amendments. Accordingly, the amendments did not have any impact on the financial position or performance of the Group.

(c) Amendments to IAS 7 and IFRS 7 clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk. The disclosure of relevant information for supplier finance arrangements is not required for any interim reporting period during the first annual reporting period in which an entity applies the amendments. As the Group does not have supplier finance arrangements, the amendments did not have any impact on the interim condensed consolidated financial information.

<sup>\*</sup> Amounts of employee benefit expenses of RMB298,698,000 were included in the cost of services provided during the six months ended 30 June 2024 (six months ended 30 June 2023: RMB196,481,000).

30 June 2024

### 6. INCOME TAX

The Group is subject to income tax on an entity basis on profits arising in or derived from the tax jurisdictions in which members of the Group are domiciled and operate.

|                                 | For the six months ended 30 June |             |
|---------------------------------|----------------------------------|-------------|
|                                 | 2024                             | 2023        |
|                                 | RMB'000                          | RMB'000     |
|                                 | (Unaudited)                      | (Unaudited) |
|                                 |                                  |             |
| Current — Elsewhere             |                                  |             |
| Charge for the period           | 4,232                            | 17,653      |
| Underprovision in prior periods | _                                | 72          |
| Deferred                        | 1,957                            | (5,800)     |
|                                 |                                  |             |
| Total tax charge for the period | 6,189                            | 11,925      |

Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands, the Group was not subject to any income tax in the Cayman Islands and British Virgin Islands. The Group was not liable for income tax in Hong Kong as the Group did not have any assessable income arising in Hong Kong for the six months ended 30 June 2024 and 2023.

惠生工程 (中國) 有限公司 (Wison Engineering Limited, "Wison Engineering China") was qualified as a "High and New Technology Enterprise" and was entitled to a preferential corporate income tax ("CIT") rate of 15% from 2023 to 2025. Wison Engineering China was liable for withholding tax on revenue derived from Thailand, Saudi Arabia and Qatar. The applicable tax rate is 5% for the Group.

江蘇惠生建設科技有限公司 (Jiangsu Wison Construction Technology Co. Ltd., "Jiangsu Wison") is subject to corporate income tax at a rate of 25%.

Wison USA, LLC is subject to federal income tax at a rate of 21% and state income tax at a rate of 0.75%.

30 June 2024

### 7. DIVIDENDS

No interim dividends were paid, declared or proposed during the six months ended 30 June 2024 (six months ended 30 June 2023: Nil).

### 8. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic loss per share amount is based on the loss for the period attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 4,073,767,800 (2023: 4,073,767,800) in issue during the period.

The calculation of the diluted loss per share amount is based on the loss for the period attributable to ordinary equity holders of the parent. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the period, as used in the basic loss per share calculation.

The Group had no potentially dilutive ordinary shares in issue during six months ended 30 June 2024 and 2023, respectively.

The calculations of basic and diluted loss per share are based on:

|   | 2024<br>RMB'000<br>(Unaudited) | 2023<br>RMB'000<br>(Unaudited) |
|---|--------------------------------|--------------------------------|

|                                 |             |
| At 30 June 2024                 | 43,523      |

As at 31 December 2023, the Group's buildings and leasehold land situated in Chinese Mainland were revalued based on valuations performed by Shanghai Orient Appraisal Co., Ltd., an independent firm of professionally qualified valuers, at RMB3,499,692,000, based on their existing use. The land portion of RMB2,023,963,000 was measured as right-of-use assets.

As at 31 December 2023, certain of the Group's building and leasehold land with a net book value of approximately RMB3,475,716,000 were pledged to secure general banking facilities granted to the Group (note 14).

As at 1 January 2024 ("the date of transfer"), certain building and leasehold land of the Group were transferred from property, plant and equipment and right-of-use asset to investment property.

At 30 June 2024, the Group's other building in Chinese Mainland is held under medium-term leases with a book value of RMB23,394,000 (31 December 2023: RMB23,976,000). In the opinion of the directors, the fair value of the other building did not differ materially from its carrying amount at 30 June 2024.

Had the Group's building situated in Chinese Mainland been carried at cost less accumulated depreciation, the carrying amount would have been approximately RMB9,681,000 (31 December 2023: RMB9,927,000).

Except for the building situated in Chinese Mainland which is stated at valuation, all other property, plant and equipment are stated at cost less accumulated depreciation.

30 June 2024

### 9. PROPERTY, PLANT AND EQUIPMENT (continued)

Fair value hierarchy (continued)

Set out below is a summary of the valuation techniques used and the key inputs to the valuation of buildings and leasehold land:

|                   | Valuation         | Significant               |         |             |
|-------------------|-------------------|---------------------------|---------|-------------|
|                   | technique         | unobservable inputs       | Weighte | d average   |
|                   |                   |                           | 30 June | 31 December |
|                   |                   |                           | 2024    | 2023        |
|                   |                   |                           |         |             |
| Building and      | Income method     | Average market daily rent | NA      | 6.26        |
| leasehold land    |                   | (RMB/per square metre)    |         |             |
| (note a)          |                   | Long-term vacancy rate    | NA      | 9%          |
|                   |                   | Yield rate                | NA      | 7%          |
|                   |                   |                           |         |             |
| Building (note b) | Direct comparison | Market transaction price  | 10,000  | 10,000      |
|                   | method            | (RMB/square metre)        |         |             |
|                   |                   | Adjustment on quality of  | 5%      | 5%          |
|                   |                   | the building              |         |             |

### Notes:

(a) The valuation of the building and leasehold land was determined using the income method. The most significant inputs to this valuation approach are the market daily rental of comparable properties nearby, long-term vacancy rate of the building and yield rate of the rentals.

The fair value measurement is positively correlated to the market daily rental and yield rate, and negatively correlated to the long-term vacancy rate.

(b) The valuation of the building was determined using the direct comparison approach. The most significant inputs to this valuation approach are the market transaction prices of comparable properties nearby and the adjustment on quality of the building.

The fair value measurement is positively correlated to the market transaction prices and negatively correlated to the adjustment on quality of the building.

| Unpledged and unfrozen cash and cash equivalents   | 1,222,545                                 | 848,272                                     |

At 30 June 2024, bank balances and time deposits of RMB633,364,000 (31 December 2023: RMB590,827,000) were placed as guarantee deposits for the performance of certain construction contracts and for the tendering process.

At 30 June 2024, bank balances and time deposits of RMB2,400,000 (31 December 2023: RMB50,753,000) were pledged to a bank as security to obtain a letter of credit facility for the purchase of imported equipment.

At 30 June 2024, bank balances and time deposits of RMB10,992,000 (31 December 2023: RMB79,441,000) were pledged as security for bill facilities granted by the banks.

30 June 2024

### 12. CASH AND CASH EQUIVALENTS AND PLEDGED DEPOSITS (continued)

At 30 June 2024, bank balances of RMB1,000 (31 December 2023: RMB1,000) were pledged to a bank as security for forward foreign exchange contracts.

At 30 June 2024, bank balances of RMB83,804,000 (31 December 2023: RMB64,763,000) were pledged to a bank as security to obtain a banking facility (note 14).

At 30 June 2024, bank balances of RMB105,000 (31 December 2023: RMB105,000) were pledged for salary payments to workers according to relevant government regulation.

At 30 June 2024, certain bank accounts of the Group of RMB26,337,000 (31 December 2023: RMB27,356,000) were frozen by courts for certain claims in disputes for preservation.

At 30 June 2024, the cash and bank balances of the Group denominated in RMB amounted to RMB1,349,686,000 (31 December 2023: RMB1,103,087,000). The RMB is not freely convertible into other currencies, however, under Chinese Mainland's Foreign Exchange Control Regulations and Administration of Settlement, and Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short-term time deposits are made for varying periods of between one day and three months depending on the immediate cash requirements of the Group, and earn interest at the respective short-term time deposit rates. The carrying amounts of cash and cash equivalents and pledged bank balances and time deposits approximate to their fair values.

30 June 2024

### 13. TRADE AND BILLS PAYABLES

An ageing analysis of the trade and bills payables as at the end of the reporting period, based on the invoice date, is as follows:

|                          | 30 June<br>2024<br>RMB'000<br>(Unaudited) | 31 December<br>2023<br>RMB'000<br>(Audited) |
|--------------------------|---|---|
|                          |   |   |
| Less than 1 year         | 931,397                                   | 1,205,187                                   |
| 1 to 2 years             | 943,154                                   | 759,787                                     |
| 2 to 3 years             | 510,353                                   | 606,258                                     |
| Over 3 years             | 126,492                                   | 155,182                                     |
|                          |   |   |
| Subtotal                 | 2,511,396                                 | 2,726,414                                   |
| Less: Long-term payables | 392,793                                   | 543,259                                     |
|                          |   |   |
| Total                    | 2,118,603                                 | 2,183,155                                   |

The trade payables are non-interest-bearing and are normally settled on terms of 30 to 90 days other than those suppliers granting an extended credit period for more than one year.

30 June 2024

### 14. INTEREST-BEARING BANK AND OTHER BORROWINGS (continued)

Certain of the Group's bank loans and other borrowings are secured by the following assets:

|  | Note | 30 June<br>2024<br>RMB'000<br>(Unaudited) | 31 December<br>2023<br>RMB'000<br>(Audited) |
|--|------|---|---|
| Investment property (2023: building and leasehold land) Equity investments designated at fair value through other comprehensive income | 9,10 | 3,489,097<br>206,003                      | 3,475,716<br>191,590                        |
| Total  |      | 3,695,100                                 | 3,667,306                                   |

The carrying amounts of the interest-bearing bank borrowings approximate to their fair values.

Certain bank has granted credit facilities to the Group for which the right of receiving rental income from a property of the Group for future years and the related bank account with bank balances of RMB83,804,000 as at 30 June 2024 (31 December 2023: RMB64,763,000) have been pledged as security.

The Group's other loans are unsecured, bear interest at 3% above the Singapore Overnight Rate Average ("SORA") per annum which are denominated in Singapore dollars (31 December 2023: 5.8% denominated in United States dollars and 3% above the SORA per annum denominated in Singapore dollars). The other loan is repayable by the end of 2024.

As at 30 June 2024, the Group's entire equity interests in CSSC (Hong Kong) Shipping Company Limited with an aggregate net book value of approximately RMB206,003,000 (31 December 2023: RMB191,590,000) were pledged to secure other loan granted to the Group.

As at 30 June 2024, the Group's investment property with fair value of approximately RMB3,489,097,000 (31 December 2023: recognised as building and leasehold land with an aggregate net book value of RMB3,475,716,000) was pledged to secure general banking facilities granted to the Group.

#### Notes:

(a)(i) On 30 June 2020, the Group entered into a property leasing framework agreement with Wison Holding and its affiliates, pursuant to which the Group leases properties and provides property management services and utility services for the premises of the Group and/or rents the conference facilities at the properties to Wison Holding and its affiliates.

On 22 December 2022, the Group entered into a new property leasing framework agreement with Wison Holding and its affiliates to renew the aforesaid property leasing framework agreement. The new property leasing framework agreement shall be for a term of three years commencing from 1 January 2023 and expiring on 31 December 2025.

The aggregate income from the rentals, property management fees and conference facilities inclusive of value-added tax during the six months ended 30 June 2024 from Wison (China) Investment and Wison Offshore Marine Shanghai under the property leasing framework agreement was RMB24,680,000 (six months ended 30 June 2023: RMB16,645,000).

The Group entered into a vehicle rental agreement with Wison Offshore Marine Shanghai. The relevant rental income recognised by the Group during the six months ended 30 June 2024 was RMB374,000 (six months ended 30 June 2023: Nil).

The collection and payment of utility charges, catering services and employees' salaries with Wison (China) Investment, Wison Investment (HK), Wison Offshore Marine, Zhoushan Wison, Wison New Energies and Wison Offshore Marine Shanghai for the six months ended 30 June 2024 were RMB8,697,000 (six months ended 30 June 2023: RMB2,236,000).

(a)(ii) On 30 November 2012, Wison Holding and the Company entered into a domain name licence agreement (the "Domain Name Licence Agreement") in respect of the right to use the domain name "wison-engineering.com" registered under the name of Wison Holding (the "Domain Name"). Pursuant to the Domain Name Licence Agreement, Wison Holding has agreed to grant the Company, and the Company has accepted, a royalty-free licence to use the Domain Name on an exclusive basis at nil consideration. The Domain Name Licence Agreement is for a perpetual term and may be terminated in certain circumstances, such as Wison Holding ceasing to be a shareholder of the Company.

30 June 2024

### 16. RELATED PARTY TRANSACTIONS (continued)

Notes: (continued)

- (a)(iii) On 12 January 2018 and 28 February 2018, Wison Holding, as licensor, entered into trademark licensing agreements with the Group to grant the rights to use the trademarks by the Group in China and certain territories, such as Hong Kong, Russia, the United States of America, Australia, European Union, Singapore, Turkey, South Africa and Venezuela, respectively, on a perpetual and non-exclusive basis for nil consideration.
- (a)(iv) As at 30 June 2024, the Group had unused credit facilities of RMB200,000,000 granted by Wison (China) Investment with a period from 1 March 2021 to 30 September 2025.
- (a)(v) On 22 December 2022, the Company entered into a new service agreement with Wison Holding. Pursuant to the agreement, the Group shall provide to Wison Holding and its subsidiaries ("Wison Group") consulting, marketing and new business development services in oil and gas and petrochemical areas in relation to the current and proposed business operations of Wison Group, and Wison Group shall provide to the Group information technology services and legal and compliance services. The term of the service agreement commences on 1 January 2023 and expires on 31 December 2025. The fees payable to the Group by Wison Group and the fees payable by the Group to Wison Group under the service agreement are determined based on the amount of time incurred by the qualified personnel assigned to provide the relevant services at hourly rates determined with reference to market rates for the remuneration of such qualified personnel, plus out-of-pocket expenses and general and administrative expenses actually incurred.

The service fee revenue recognised by the Group during the six months ended 30 June 2024 from Wison Group was RMB14,000 (six months ended 30 June 2023: RMB4,990,000). There was no cost of the service fee incurred by the Group for services rendered by Wison Group during the six month ended 30 June 2024 (six months ended 30 June 2023: RMB2,216,000).

- (a)(vi) Wison Offshore Marine Shanghai, Wison New Energies, Wison Taizhou, Levima Wison, Wison (China) Investment and Taixing Tianma entered into construction service agreements with the Group, respectively. The relevant revenue recognised by the Group during the six months ended 30 June 2024 was RMB71,692,000 (six months ended 30 June 2023: RMB56,846,000). There was no cost of service fee incurred by the Group for services rendered during the six months ended 30 June 2024 (six months ended 30 June 2023: Nil). The trade receivables relating to Wison (Taizhou), Taixing Tianma, Wison Offshore Marine Shanghai and Wison (China) Investment are set out in note 11 and contract assets with Wison (Taizhou), Wison Offshore Marine Shanghai and Wison (China) Investment were RMB4,477,000, RMB32,457,000 and RMB3,127,000, respectively (31 December 2023: RMB4,477,000, RMB6,712,000 and RMB3,127,000, respectively). The trade payables relating to Wison New Energies were RMB2,546,000 (31 December 2023: RMB2,530,000).
- (a)(vii) The Group entered into a construction service agreement with Taixing Bohui. The relevant revenue recognised by the Group during the six months ended 30 June 2024 was RMB5,735,000 (six months ended 30 June 2023: Nil). The trade receivable relating to Taixing Bohui is set out in note 11 and contract assets with Taixing Bohui were RMB62,801,000 (31 December 2023: RMB65,586,000).
- (a)(viii) On 22 December 2022, the Group and Wison Holding entered into an entrustment guarantee agreement in relation to the guarantee provided by Wison Holding for the Group in favour of a customer, and the Group shall pay a guarantee fee to Wison Holding calculated based on 0.5% per annum of the total principal amount of the guarantee liability stated in the entrustment guarantee agreement. The maximum guarantee fee is RMB30,150,000 with the guarantee period from 1 January 2023 to 31 December 2028. The relevant guarantee fee incurred by the Group during the six months ended 30 June 2024 was RMB2,513,000 (six months ended 30 June 2023: RMB2,513,000). As at 30 June 2024, the prepaid amount to Wison Holding was RMB2,462,000 (31 December 2023: RMB4,975,000).

30 June 2024

### 16. RELATED PARTY TRANSACTIONS (continued)

Notes: (continued)

(a)(ix) During the six months ended 30 June 2023, the Group borrowed RMB500,000 from Wison Clean Energy which is unsecured, interest free and repayable on demand. The Group advanced RMB440,000 to Wison Offshore Marine (Russia) which is unsecured, bears interest at 7.2% per annum and repayable on demand, and the interest income recognised by the Group was RMB14,000. During the six months ended 30 June 2024, interest income recognised by the Group was RMB20,000.

In the opinion of the directors of the Company, the transactions between the Group and Wison New Energies, Wison (China) Investment, Wison Investment (HK), Zhoushan Wison, Wison Offshore Marine, Wison Offshore Marine Shanghai, Wison Offshore Marine (Russia), Wison Taizhou, Levima Wison, Taixing Tianma, Wison Clean Energy, Wison Holding and Taixing Bohui were conducted based on mutually agreed terms.

|   |                                  |             |
| Total compensation paid to key management personnel | 4,204                            | 3,760       |

### 17. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts and fair values of the Group's financial instruments, other than those with carrying amounts that reasonably approximate to fair values, are as follows:

|  | Carrying amounts |             | Fair v      | alues       |
|--|------------------|-------------|-------------|-------------|
|  | 30 June          | 31 December | 30 June     | 31 December |
|  | 2024             | 2023        | 2024        | 2023        |
|  | RMB'000          | RMB'000     | RMB'000     | RMB'000     |
|  | (Unaudited)      | (Audited)   | (Unaudited) | (Audited)   |
| Financial assets  Equity investments designated at fair value through other comprehensive income | 270,623          | 271,076     | 270,623     | 271,076     |
| P  | .,.              | ,           | .,.         | 7           |
| Financial liabilities Interest-bearing bank and other  | F24 000          | 561,000     | 525.020     | 560 570     |
| borrowings   | 531,000          | 561,000     | 525,030     | 569,579     |

Management has assessed that the fair values of cash and cash balances, pledged bank balances and time deposits, amounts due from fellow subsidiaries, trade and bills receivables, financial assets included in prepayments and other receivables, trade and bills payables, financial liabilities included in other payables and accruals, lease liabilities, amounts due to fellow subsidiaries and an amount due to an associate approximate to their carrying amounts largely due to the short-term maturities of these instruments.

30 June 2024

### 17. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation process and results are discussed with the board of directors twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values of those financial assets and liabilities measured at fair value:

The fair values of the non-current portion of trade payables have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities.

The fair values of listed equity investments are based on quoted market prices. The fair values of unlisted equity investments designated at fair value through other comprehensive income have been estimated using a market-based valuation technique based on assumptions that are not supported by observable market prices or rates. The valuation requires the directors to determine comparable public companies (peers) based on industry, size, leverage and strategy, and to calculate an appropriate price multiple, such as price to book ("P/B") multiple, price to earnings ("P/E") multiple and price to sales ("P/S") multiple, for each comparable company identified. The multiple is calculated by dividing the price per share of the comparable company by net assets value or earnings per share. The trading multiple is then discounted for considerations such as illiquidity and size differences between the comparable companies based on company-specific facts and circumstances. The discounted multiple is applied to the corresponding earnings measure of the unlisted equity investments to measure the fair value. The directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in other comprehensive income, are reasonable, and that they were the most appropriate values at the end of the reporting period.

For the fair value of the unlisted equity investments at fair value through other comprehensive income, management has estimated the potential effect of using reasonably possible alternatives as inputs to the valuation model.

30 June 2024

### 17. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

Set out below is a summary of significant unobservable inputs to the valuation of financial instruments together with a quantitative sensitivity analysis as at 30 June 2024 and 31 December 2023:

|                             | Valuation<br>technique | Significant<br>unobservable input     | Range/ratio   | Sensitivity of fair value to the input   |
|-----------------------------|------------------------|---------------------------------------|---|--|
| Unlisted equity investments | Valuation<br>multiples | Average P/B<br>multiple of peers      | 30 June 2024:<br>1.00 to 5.10<br>(31 December<br>2023: 0.77 to<br>4.69)     | 10% (31 December 2023: 10%) increase/decrease in multiple would result in increase/decrease in fair value by RMB3,585,000 (31 December 2023: RMB4,652,000) |
|                             |                        | Average P/E<br>multiple of peers      | 30 June 2024:<br>23.14 to 41.46<br>(31 December<br>2023: 13.71 to<br>50.24) | 10% (31 December 2023: 10%) increase/decrease in multiple would result in increase/decrease in fair value by RMB2,270,000 (31 December 2023: RMB2,063,000) |
|                             |                        | Average P/S<br>multiple of peers      | 30 June 2024:<br>2.15 to 5.80<br>(31 December<br>2023: 1.06 to<br>11.81)    | 10% (31 December 2023: 10%) increase/decrease in multiple would result in increase/decrease in fair value by RMB341,000 (31 December 2023: 912,000)        |
|                             |                        | Discount for lack of<br>marketability | 30 June 2024:<br>20% to 25%<br>(31 December<br>2023: 20% to<br>25%)         | 10% (31 December 2023: 10%) increase/decrease in discount would result in decrease/increase in fair value by RMB1,877,000 (31 December 2023: RMB2,371,000) |

30 June 2024

### 17. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

### Fair value hierarchy

The discount for lack of marketability represents the amounts of premiums and discounts determined by the Group that market participants would take into account when pricing the investments.

The following tables illustrate the fair value measurement hierarchy of the Group's financial instruments:

### Assets measured at fair value:

### As at 30 June 2024

|   | Fair value measurement using |                           |                             |                        |

| fair value through other         |                              |             |              |           |
| comprehensive income             | 191,590                      | _           | 79,486       | 271,076   |

30 June 2024

### 17. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

Fair value hierarchy (continued)

### Assets measured at fair value: (continued)

The movements in fair value measurements within Level 3 during the period are as follows:

|   | 2024<br>RMB'000<br>(Unaudited) | 2023<br>RMB'000<br>(Unaudited) |
|---|--------------------------------|--------------------------------|
| Equity investments at fair value through other comprehensive income |                                |                                |
| At 1 January  | 79,486                         | 80,197                         |
| Total losses recognised in other comprehensive income               | (14,866)                       | (1,117)                        |
| At 30 June  | 64,620                         | 79,080                         |

During the period, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 for both financial assets and financial liabilities (six months ended 30 June 2023: Nil).

### **Liabilities measured at fair value:**

The Group did not have any financial liabilities measured at fair value as at 30 June 2024 and 31 December 2023.

30 June 2024

### 18. CONTINGENT LIABILITIES

During years 2023 to 2024, certain sub-contractors of the Group filed claims to the People's Courts in Chinese Mainland against the Group for additional payments of construction costs, interest and liquidation damages with an aggregate amount of approximately RMB53,850,000.

The directors of the Company are of the opinion that additional provision for the lawsuits amounting to RMB15,110,000 has been made. For other lawsuits amounting to RMB38,740,000 which are without merit, the possibility for the Group being subject to additional payment claims is expected to be remote on the basis of the available evidence and legal advice obtained, the directors of the Company are of the opinion that no additional provision is required.

### 19. EVENTS AFTER THE REPORTING PERIOD

Subsequent to 30 June 2024, the Group has been granted a new banking facility of RMB80,000,000.

### 20. APPROVAL OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

The unaudited interim condensed consolidated financial information was approved and authorised for issue by the board of directors on 28 August 2024.
