Dear Shareholders,

On behalf of the Board, I present the interim results of the Group for the six months ended June 30, 2024 to our Shareholders. In the first half of 2024, the Group continued to uphold the customer-oriented service philosophy, improve the quality of services, put into practice the values of sincerity, warmth and thoughtfulness, and strive for the goal of becoming a caring, warmhearted, trustworthy and well-received quality life service provider with a far-sighted service philosophy and a coverage on the whole life cycle and the entire community service chain. For the six months ended June 30, 2024, the Group accomplished revenue of approximately RMB995.2 million, representing an increase of approximately 5.0% as compared to that for the six months ended June 30, 2023; gross profit of approximately RMB239.7 million, representing a period-over-period increase of approximately 8.2%. Net profit for the Period amounted to approximately RMB92.8 million, representing a decrease of approximately 9.5% as compared to that for the six months ended June 30, 2023. Gross profit margin for the Period was approximately 24.1%, representing an increase of approximately 0.7 percentage point period-on-period. Profit attributable to the owners of the Company for the Period amounted to approximately RMB91.1 million, representing a decrease of approximately 10.0% as compared to that for the six months ended June 30, 2023. Basic earnings per share amounted to approximately RMB0.24. The Board does not recommend the payment of an interim dividend for the six months ended June 30, 2024.

INDUSTRY STATUS

Over the past six months, China's economy continued the recovery trend and China adhered to high-quality development. The Chinese government insisted on expanding domestic demand and boosting investment and consumption, and new consumption scenarios and new business models were emerging. In the meantime, Chinese consumers' demand for better living conditions and high-quality property services has been increasing year by year, which has boosted the development of the property service industry, and led to the standards and connotations of property services to be redefined.

Propelled by the two drivers of the capital market and user demand, companies in the property services industry are no longer limited to the four traditional services of security, cleaning, greening and maintenance, but have been developed into comprehensive service providers with presence across multiple industries. Whether by way of consolidation or independent operation, companies in the property industry have currently been engaged in comprehensive competition with various industry verticals in various sectors including property brokerage, chain retail stores, decoration, advertising media, chain catering, housekeeping and cleaning, maintenance and installation, online shopping mall and community finance, imposing high requirements on the understanding of user needs, the insight of benchmarking industries, the operating capability to rapidly incubate new businesses, and the capacity to integrate ecological layout. In particular, the introduction and assimilation of talents from various industries pose the greatest challenges to us.

In addition, with the support of new technologies such as artificial intelligence, the Internet of Things, cloud computing, and big data, the competitors for property companies in the future are likely to come from Internet platform-based companies, a trend which requires us to equip ourselves with the capabilities for organizing, building and integrating business systems on top of basic property services, and requires our managers at all levels to possess the operational capability to respond to changes.

With the rapid progress of science and technology, industry development and evolving customer demand, higher requirements are put forward for the coordination of community software and hardware. The Chinese government promoted the innovative development of the digital economy in an all-round manner, and deepened the research and development of big data, artificial intelligence and other technologies. In this context, the property management service industry actively embraced intelligent and digital transformation. Higher requirements were raised for the capabilities of the managers in the property management service industry to predict and plan in advance in the face of diversified business patterns in the future, to integrate brand genes by virtue of capital strength, and to participate in government planning and industrial layout in advance. The property management service industry, riding on the intelligent property management service management platform, strove to achieve intelligent warning, intelligent research and judgment, intelligent dispatch and intelligent supervision, so as to enhance the level of intelligentization.

CHAIRMAN'S STATEMENT

As the property services industry is affected by the downward cycle of the upstream real estate industry, it is facing various pressure, such as slow growth of revenue and GFA under management as well as changes in the external environment. China's real estate market is undergoing a transformation from a "potential market" to a "developed market", and the property services industry will also be competitive in such a developed market. However, China implemented favourable policies to support the property services sector. For example, property service providers were encouraged to set up housekeeping service organizations, which are promoted to become an integral part of existing community public service facilities. The sector will become a major force in community building and play an important role in the construction of intelligent communities, community elderly care, and community transformation. The property services industry will also play an active role in responding to China's "comprehensive promotion of the construction of the quarter convenient living circles in cities", particularly in terms of community business layout and enriching consumption sectors. At present, the Chinese government and local governments at all levels have improved relevant policies and introduced relevant measures, so that there is a clear path forward and development direction for the property management service sector in the fields of urban renewal, community elderly care, and standardization of fees and charges, which will be conducive to the high-quality development of the entire industry and the enhancement of the service level.

CORPORATE STRATEGIES

Facing the rapid upgrading and transformation of the industry and the environment where opportunities and challenges coexist, the Company will adopt the following strategies:

Continue to enhance brand value

Our brand is our utmost important asset. Our brand represents our corporate mission of "the builder of ideal human settlements, the connector of space and behavior, the innovator of property service industry" and our corporate values of "sincerity, warmth and thoughtfulness". Customer recognition of our brand will bring more business opportunities and brand premium. We plan to continue enhancing our brand recognition through the following measures: (i) establishing a quality brand image with enhanced service quality. We will strive to improve the service quality for each of our managed property in order to enhance the customer satisfaction level and improve brand recognition; (ii) enriching the service chain and extending the service boundary, expanding the business to non-residential property management field through investment and open-market tender, covering property service scenarios such as city operations, hospitals, schools, businesses, public buildings, tourist attractions, industrial parks and industrial enterprises, in a bid to further offset the negative impact of the downturn in the real estate industry and the shrinking of the area of houses delivered, strengthen our own capabilities and enhance the profitability of the Company. We have improved our services and leveraged our internal potential to establish the service brand "YoHo to Home" (呦吼到家), offering property owners more thoughtful housekeeping and related services; (iii) launching wonderful brand service activities. At the "YoHo Family Festival" (呦吼家庭節), we gathered with over 100,000 property owners outdoors to revitalize the once-silent community, infusing it with renewed energy and engagement. By organizing community cultural activities and brand image campaigns such as the "Citizen Service Month" (便民服務月), we enhanced customer satisfaction and brand awareness; and (iv) enhancing our influence in property industry development, including participating in the formulation of industry standards and attending industry summits and conferences. We believe that a trustworthy brand will enable us to obtain more property management projects, as well as enhancing our bargaining power, which will further improve our financial performance and competitiveness.

Further expand our business scale and market share

Leveraging our leading market position in the Bohai Economic Rim, the national strategic service network covering the Bohai Economic Rim, the Yangtze River Delta, the Greater Bay Area and its surrounding areas, and the central and western regions, as well as brand recognition and awareness, we aim to further expand our business and market share and achieve organic growth. We plan to continue to improve our service quality by enhancing customer satisfaction and brand reputation through enhancing our quality service grading, constructing five-star projects and promoting the establishment of smart communities. Relying on basic property management services to meet the diversified needs of property owners, we have gradually expanded our services and upgraded them to lifestyle services. We expanded business scale and market share through brand value and quality services.

We plan to improve our capabilities in managing diversified types of properties. Strengthening third-party external expansion and enhancing multi-business formats and expanding our market share in cities we currently have operations in, we penetrate into new regions and new service areas. Up to now, our operations have covered property service scenarios, such as city operations, hospitals, schools, commercial properties, public buildings, tourist attractions, industrial parks and industrial enterprises. Meanwhile, leveraging our extensive property management service experience, we also plan to offer property management consultancy services to property developers and small-sized and medium-sized property management service companies. Since 2023, we have gradually expanded our business to non-residential property services and urban services. Against the backdrop of a decreasing area of newly delivered housing in the upstream real estate industry and a shrinking annual takeover area in the property industry, the Group's expansion into diversified business operations will further expand the scale and scope of the Group's business operations, increase the Group's non-residential market share and enhance its competitiveness. Additionally, the diversified business development will also strengthen the Group's ability to adapt to market changes and its anti-risk capability.

We attach importance to our collaboration with independent third-party property developers. Leveraging our strategic presence in the Bohai Economic Rim, the Yangtze River Delta Region, the Greater Bay Area and Central & Western China, we expect to further penetrate into target markets across China by focusing on the expansion of new business services. For properties with a GFA of over 1 million sq.m. or municipal service properties, we may form joint ventures with independent third-party property developers to manage those properties developed by such developers. The independent third-party property developer and the Company will enter into agreements to form the joint venture, which will be the entity to procure property management service mandates and provide property management services. We believe the relationship with the property developer, the knowledge of the specific service needs of such property developer coupled with our property management experience, would increase the chances for the joint venture to secure property management services contracts for the property projects developed by such property developer. According to the CIA, it is a common strategy for sizable property management companies, including many listed property management companies, to expand their market share and business scale rapidly through setting up joint ventures and developing business alliances with independent third-party property developers which do not have established property management businesses of their own. We believe these strategic collaborations will enable us to: (i) strengthen our business relationship with these business partners and increase our chances of securing property management service contracts for properties developed by them; (ii) share the risk and costs with them arising from venturing into new markets; and (iii) leverage the geographic coverage and customer base of our business partners to enlarge our market shares and diversify the sources and types of property projects under our management. The key factors we will consider in selecting targets for joint ventures include the credit worthiness of business partner, geographical location, legal compliance, target customer group, local population, project scale, construction standards and investment returns.

For new business expansion, we plan to further enrich our service to meet the current internal needs of the Company. Leveraging our sophisticated management model and extensive experience, we introduce urban services (smart services), hospitals, schools, municipal public construction and other new business services. We plan to expand our cooperation with independent third-party property developers to manage industry parks developed by them. We plan to seek cooperation with independent third-party property developers in cities where we have existing operations so as to expand our property management portfolio of logistics centers and other types of industry parks. Meanwhile, we focus on project acquisitions, mergers and acquisitions with high quality. We plan to engage in selective acquisitions to expand our business. Our selection criteria for potential target companies include but not limited to: (i) GFA under management of over 1.0 million sq.m.; (ii) operating revenue in the latest financial year of over RMB20.0 million; (iii) compliance of business operations with laws and regulations; and (iv) diversity in the portfolio of managed properties. We will prioritize in assessing potential acquisition or investment targets with a diversified portfolio of managed properties, such as public construction, urban services, commercial properties, industry parks, schools and hospitals. Through the investment in or acquisition of these companies, we expect to expand our geographic coverage, reinforce our competitive edge in economically developed regions, further diversify our portfolio of managed properties and enhance our brand awareness.

Continue to enrich our community value-added services

Through analyzing data on property owners and residents' behaviors collected during the provision of property management services, we continuously enhance our understanding of our customers' needs and preferences. Leveraging our big data analytics capabilities, we can make considered business decisions to effectively market our services and improve our service quality. In particular, we utilize our big data analytics capabilities to enrich the services and products offerings of our community value-added services in response to the highly demanded services from property owners and residents in their daily life. Our plan is to adopt a new model aimed at building a quarter convenient living circle within cities. This will be achieved by focusing on marketization, leveraging relevant national policies, enriching the entire service chain, and integrating value-added community services into the quarter convenient living circle within the community to integrate "business" and "services" to provide property owners with value-added services in various aspects, such as spatial operation, retail services, home improvement services, economic services and housekeeping services.

Our one-stop omni-channel service platform is centered around the community living scenarios, allowing users to submit online requests for repair and maintenance and complaints and feedback, and also connecting users with offline convenience stores, property brokerage services and other door-to-door services. With respect to community retail services, we plan to increase the coverage of our offline convenience stores and further improve customers' shopping experience by expanding product offerings and adopting intelligent operation systems. S2B2C community retail services offered create a service model of easy order with convenience. Through a robust intelligent mid-platform system, we establish a dual advantage in the last 500 meters of purchase scenarios and purchase efficiency. While improving service efficiency, we further highlight the advantages on the supply chain end. In addition, we possess the ability for supply chain output and single-product original equipment manufacturer. This enables us to provide property owners with more diverse, convenient, and cost-effective products. With respect to our property brokerage services, we plan to further expand our services to cover upstream and downstream services relating to real estate transactions, such as intermediary services relating to the sales and leasing of properties managed by us. In addition, we plan to establish an "all-in-one community card" (社區一卡通) system which will integrate online and offline resources and provide property owners and residents with access to high-quality home living services offered by vendors located in the one-kilometre radius surrounding the communities.

We plan to further expand our turnkey furnishing services to provide property owners with services covering the whole life cycle of their properties. According to the diverse needs of property owners across different levels, differentiated and segmented services are provided to new and existing property owners. In terms of new house services, we collaborate with merchants to fulfill the product and service designs, taking into consideration the core concerns of property owners. Through activities such as constructing sample rooms and organizing property owner meetings, the Group delivers valuable services, increasing the order completion rate and turnover for merchants, ultimately achieving a win-win situation. In terms of services for existing property owners, the Group optimizes its products according to the length of their residence and changes in family members. By providing free value-added services, such as regular inspections and troubleshooting, the Group identifies potential needs of property owner's and seizes business opportunities. In addition, we plan to offer renovation, cleaning and remodeling services for used properties. We plan to further diversify our community value-added service offerings to cover housekeeping services, community elderly care and healthcare services. We also plan to provide integrated professional services such as indoor air quality improvement, housekeeping and cleaning, appliance cleaning services, and tailor make these services to property owners and residents based on their needs. We may also acquire downstream companies with community services that are complementary to our community value-added services, including, among others, companies engaged in decoration and renovation, education and training and housekeeping services.

Further invest in technologies, develop and promote smart community management

As we continue to increase the area under management, expand the scale of our management, diversify the types of industries under management, and increase our customer size and customer base, we intend to enhance our digital operational capabilities and utilize standardized, modularized and platform-based digital operational tools to improve our management level. With use of advanced artificial intelligence technology, we make property management services smarter and more efficient. We will further invest in information technology and digital operation platforms to enhance our service quality and operational efficiency. We plan to further upgrade the resource management system and a remote data and video surveillance center and to upgrade our Carpark Entry and Exit Management System to achieve functions such as car park management and electronic payment through scanning QR code. We also plan to further improve intelligent management platforms, property management service platforms and value-added service platforms to enrich service scenarios and improve user experience. These new systems and functions are expected to integrate into our existing digital systems using devices connected by the Internet of Things technology and other information technologies, which enable us to collect real-time data from our equipment and facilities and to remotely monitor their operation status and receive alerts of malfunction incidents. It is planned to build a smart command system with integrated functions such as smart vehicle monitoring, smart pedestrian monitoring, smart security and smart facilities to improve the efficiency of project operation and management. We expect that digitalized management will enhance our ability to collect and analyze operational data and thus our manpower and other resources can be allocated and utilized more efficiently without compromising our service quality.

Meanwhile, we plan to continuously upgrade our one-stop omni-channel service platform to enrich service scenarios and improve user experience. We expect that our service quality and customer satisfaction will be enhanced by such initiatives. We also plan to roll out digitalized and automated management tools to the communities managed by us, such as patrol vehicles, auto street-sweeping cars and surveillance drones, which are expected to improve service quality and reduce our reliance on manual labor. We expect the increased coverage of information technology systems and community management tools will enhance our service quality and operational efficiency.

Continue to improve staff motivation mechanism to attract, cultivate and retain talents

We will continue to adhere to the “talent-oriented” management policy, respond quickly to the human resources demands and adopt measures to optimize the allocation of human resources. We plan to further strengthen the functionality of our human resource administration, and establish human resource development plans. We have developed a “one thirds by three” talent system. For our key operational roles and management positions, one third are from external leading companies, one third from internal promotion, and one third from management trainees hired through on-campus recruitment. Meanwhile, to continue with innovation and creation, we also plan to recruit top-tier talents with advanced information technology skills. In addition, to enhance talents retention and promotion, we expect to continue providing a comprehensive and competitive compensation incentive system. Also, we will build career advancement tracks centered on leadership, professional skills and corporate culture for employees working at different lines of business and in different fields, and provide promotion opportunities based on the employees’ skills. With these measures, we expect to continue to enhance our human resources management and to foster the continuous improvement and sustainable development of our employees and the Group as a whole.

Carry out innovative ESG practices for sustainable development

We plan to integrate the ESG concept into the Group's operations in all aspects. We aim to meet the needs of property owners, advocate green properties, pursue sustainable development, and actively shoulder social responsibilities, committed to creating a "warm community culture" with a "technological" and "modern" community and living space for customers and property owners. The Group will implement the concept of low-carbon and green office, actively seek and adopt innovative practices to reduce the consumption of resources in the office process and enhance its energy management. We plan to create green community projects and utilize digital technology for integrated management of energy consumption to enhance energy use efficiency and reduce emissions while ensuring the service quality for property owners and residents. The Group will keep a close watch on the introduction of national climate change policies and the dynamic development trends, actively identify the major risks to be brought about by climate change and take measures in advance to minimize the losses. The Group actively undertakes its own social responsibilities. Under the motto of "creating wealth, serving the society, cultivating talents and serving the country", it actively participates in public welfare undertakings and launches a public welfare brand and leads property owners, community residents and employees in actively participating in public welfare activities to give back to the society and the country.

Last but not least, on behalf of the Board, I would like to express my sincere gratitude to all employees and management team who have made contributions to the development of the Company over the past half year, and to all Shareholders and partners for their support and trust.

By Order of the Board

Geng Jianfu

Chairman and executive Director

August 30, 2024

BUSINESS REVIEW

OVERVIEW

The Group is a comprehensive property management service provider with a strategic service network across China. As of June 30, 2024, the Group had a total of 453 property management projects under management with an aggregate gross floor area (“GFA”) under management of approximately 86.6 million square metres (“sq.m.”), covering 68 cities across 19 provinces, municipalities and autonomous regions in China. As of June 30, 2024, the Group was contracted to manage 510 property management projects with an aggregate contracted GFA of 101.2 million sq.m., covering 70 cities across 19 provinces, municipalities and autonomous regions in China.

The Group provides diversified services principally through four business lines, namely property management services, value-added services to non-property owners, community value added services and urban services. Its portfolio of managed properties comprises (i) residential properties; and (ii) non-residential properties, including (a) commercial properties, such as shopping malls, office buildings and serviced apartments; and (b) public and other properties, such as industry parks, the Olympic Village, schools and hospitals.

BUSINESS MODEL

The Group principally owns four major business lines, namely (i) property management services, (ii) value-added services to non-property owners, (iii) community value-added services, and (iv) urban services, which constitute the comprehensive services that the Group provides to its customers, and cover the entire value chain of property management.

- **Property management services:** The Group provides property developers, property owners and residents, the government and other public construction departments with a wide range of property management services, primarily including security, cleaning, greening and gardening, and repair and maintenance services. Its portfolio of managed properties comprises (i) residential properties; and (ii) non-residential properties, including (a) commercial properties, such as shopping malls, office buildings and serviced apartments; and (b) public and other properties, such as industry parks, the Olympic Village, schools and hospitals. During the six months ended June 30, 2024, all of the Group’s property management fees were charged on a lump sum basis.
- **Value-added services to non-property owners:** The Group offers a comprehensive range of value-added services to non-property owners, primarily property developers. These services primarily comprise (i) property engineering services; (ii) on-site services; and (iii) other services which primarily include preliminary planning and design consultancy services, property delivery services and aftersales services.
- **Community value-added services:** The Group provides community value-added services to property owners and residents. It categorizes these services into two types: (i) home-living services which primarily include community retail, commercial procurement services, home repairs and maintenance, and housekeeping services; and (ii) property space management services which primarily include turnkey furnishing services and property brokerage services.
- **Urban services:** The Group provides integrated sanitation operation services in both urban and rural areas, which mainly include urban and rural sanitation services, such as cleaning and janitorial services, garbage removal and river cleaning, etc.

PROPERTY MANAGEMENT SERVICES

Continuous high-quality growth in GFA size

The Group has been continuously expanding its property management service portfolio by obtaining new property management service contracts. As of June 30, 2024, the Group has contracted GFA of approximately 101.2 million sq.m., representing an increase of 1.3% as compared with that as of June 30, 2023, and 510 contracted projects, representing an increase of 1.0% as compared with that as of June 30, 2023. As of June 30, 2024, the GFA under management was approximately 86.6 million sq.m. relating to 453 projects under management, representing an increase of approximately 6.6% and 7.9% as compared with those as of June 30, 2023, respectively.

In addition, as of June 30, 2024, the Group had entered into 26 formal cooperation agreements with independent third-party property developers during the Period. In such cooperation agreements, such property developers engaged the Group as the property management services provider, entrusted the Group with the management of relevant projects and shall pay the Group property management fees based on agreed scope of services. The agreements executed in the first half of 2024 covered various types of businesses, such as government buildings, industrial parks, public buildings, commercial and residential properties, landscaping, hospitals, urban sanitation projects, industries and scenic spots. As at June 30, 2024, the properties managed by the Group under these formal cooperation agreements had an aggregate GFA of approximately 1.47 million sq.m..

The table below sets out the respective movements of the Group's contracted GFA and GFA under management for the six months ended June 30, 2024 and 2023:

	Six months ended June 30,			
	2024		2023	
	Contracted GFA (^{'000} sq.m.)	GFA under management (^{'000} sq.m.)	Contracted GFA (^{'000} sq.m.)	GFA under management (^{'000} sq.m.)
As at the beginning of the Period	101,053	83,620	97,521	73,286
New engagements ⁽¹⁾	1,290	3,765	4,005	9,575
Terminations ⁽²⁾	(1,159)	(830)	(1,633)	(1,633)
As of the end of the Period	101,184	86,555	99,893	81,228

Notes:

- (1) In relation to the residential communities and non-residential communities being managed by the Group, new engagements primarily include preliminary property management service contracts for new properties developed by property developers and property management service contracts for residential communities replacing their previous property management service providers.
- (2) These terminations include certain property management service contracts that the Group did not renew on a voluntary basis, as the Group reallocated its resources to more profitable contracts, so as to optimize its property management portfolio.

Geographic presence

Since the establishment of the Group, its business footprint has extended across the country. As of June 30, 2024, the Group established business presence in 70 cities in 19 provinces, municipalities and autonomous regions in the PRC.

The following table sets out the breakdown of the total GFA under management by geographic region as of the dates indicated:

	As of June 30,			
	2024 ('000 sq.m.)	%	2023 ('000 sq.m.)	%
Bohai Economic Rim ⁽¹⁾	51,299	59.3	47,794	58.8
Yangtze River Delta region ⁽²⁾	17,137	19.8	16,235	20.0
Greater Bay Area and surrounding regions ⁽³⁾	2,924	3.4	2,842	3.5
Central and Western China ⁽⁴⁾	15,195	17.6	14,357	17.7
Total	86,555	100.0	81,228	100.0

Notes:

- (1) In this region, the Group provided property management services to projects located in Hebei, Liaoning, Inner Mongolia and Shandong.
- (2) In this region, the Group provided property management services to projects located in Jiangsu and Zhejiang.
- (3) In these regions, the Group provided property management services to projects located in Huizhou in the Greater Bay Area and other cities in Guangdong.
- (4) In this region, the Group provided property management services to projects located in Guizhou, Henan, Hunan, Sichuan, Anhui and Chongqing.

Diversified portfolio of property management services

The Group has a diversified portfolio of properties under management comprising (i) residential properties; and (ii) non-residential properties, including (a) commercial properties, such as shopping malls, office buildings and serviced apartments; and (b) public and other properties, such as industry parks, the Olympic Village, schools and hospitals.

The following table sets out the breakdown of the GFA under management and the number of projects under management under the Group's property management services by type of property as of the dates indicated:

	As of June 30,			
	2024 GFA under management ('000 sq.m.)	Number of projects under management	2023 GFA under management ('000 sq.m.)	Number of projects under management
Residential properties	79,208	385	73,632	356
Non-residential properties				
– Commercial properties	2,602	45	3,534	42
– Public and other properties	4,745	23	4,062	22
Subtotal	7,347	68	7,596	64
Total	86,555	453	81,228	420

VALUE-ADDED SERVICES TO NON-PROPERTY OWNERS

The Group provides a wide spectrum of value-added services to non-property owners, primarily property developers, through different phases of the property development and sales process, primarily including property engineering services, on-site services and other services. For the six months ended June 30, 2024, the revenue from value-added services to non-property owners decreased by approximately 38.3% from approximately RMB83.9 million for the corresponding period in 2023 to approximately RMB51.8 million.

The Group improved its independent operation capabilities by optimizing business structure of property engineering services, adjusting business models and establishing professional engineering management teams; relieved geographical restrictions, coordinated and deployed engineering resources, implemented a headquarters-branch linkage model, and standardized the engineering business management of property companies through the integration of personnel in various regions. However, as the non-owner value-added service customers are mainly property developers, due to the further decrease in the construction area and completed area of property developers in the first half of 2024 as a result of the downturn of the property market in the PRC, the property engineering services in the value-added services to non-property owners decreased significantly, and thus the revenue was significantly lower than the corresponding period of last year.

In order to cope with the overall downward economic situation of the upstream real estate industry, the Group has actively formulated plans to undertake new business. On the one hand, due to the overall downturn in the real estate industry, the Group's engineering business is expected to continue shrinking in 2024. As a result, the business will shift towards delivered houses and external projects. In 2024, the Group plans to further develop its community business for delivered houses, which includes engineering and maintenance services, home decoration, gardening and landscaping, and direct drinking water services. On the other hand, the Group conducted negotiations on renovation, maintenance and management of public buildings, municipal works, parks, urban sanitation projects, scenic spots and gardens, and deployed the whole construction business for the installation of charging piles for electric vehicles in residential communities, enterprises, public institutions and public parking facilities to make up for the performance gap and expand into diversified business.

COMMUNITY VALUE-ADDED SERVICES

In order to improve the community living experience of owners and residents in the properties under the Group's management and create more value for its services, the Group provides a wide variety of community value-added services to property owners and residents, primarily including property space management services and home-living services. The revenue from community value-added services for the six months ended June 30, 2024 was approximately RMB146.6 million, representing a decrease of approximately 16.6% from approximately RMB175.8 million for the corresponding period in 2023. This was mainly attributable to the decrease in revenue from real estate agency services and parking agency sales services under the property space management services as a result of the downturn in the real estate industry.

Property space management services

The Group provides property space management services for property owners and residents, and provides turnkey furnishing services that can improve property value, convenient property brokerage services and parking agent sales services by leveraging the active engagement and close relationships with the residents that it has nurtured through its property management operations. The revenue from property space management services for the six months ended June 30, 2024 fell by approximately 31.9% from approximately RMB61.4 million for the corresponding period in 2023 to approximately RMB41.8 million. This was mainly attributable to the economy downturn, which reduced customers' willingness to make purchases.

In terms of turnkey furnishing services, the Group places emphasis on addressing the diverse needs of property owners across different levels and has divided its business into two segments: (i) provision of interior decoration and design services to new property owners during their occupancy period; and (ii) provision of product replacement, environmental renovation and quality enhancement services to existing property owners. In terms of new house services, the Group collaborates with merchants to fulfill the product and service designs, taking into consideration the core concerns of property owners. Through activities such as constructing sample rooms and organizing property owner meetings, the Group delivers valuable services, increasing the order completion rate and turnover for merchants, ultimately achieving a win-win situation. In terms of services for existing property owners, the Group optimizes its products according to the length of their residence and changes in family members. By providing free value-added services, such as regular inspections and troubleshooting, the Group identifies potential needs of property owner's and seizes business opportunities.

For property brokerage business, the Group deploys a Sales and Lease Operation System which consists of a "property dictionary"(房源字典) system and a "resident-property matching" (房客匹配) system. The system ensures customer privacy and efficiently matches supply and demand information of properties, providing millions of property owners with convenient rental and sales channels and delivering a better service experience.

Home-living services

The Group offers home-living services to property owners and residents with a focus on their daily needs. The primary home-living services provided by the Group include: community retail and commercial procurement services, home repairs and maintenance as well as housekeeping services. The revenue from home-living services for the six months ended June 30, 2024 fell by approximately 8.5% from approximately RMB114.4 million for the corresponding period in 2023 to approximately RMB104.7 million.

In particular, regarding the new retail business, the Group has established a business model that combines "chain convenience stores + self-operated warehouses + community group purchases". The Group operates this new retail business in a comprehensive manner across different scenarios. Community new retail offline convenience store chain has been updated as Linlin Convenience (臨鄰便利), and online group purchase business has been refreshed as Linlin GO (臨鄰GO). The Group has launched the business model that combines "chain convenience stores + self-operated warehouses + community group purchases", to achieve S2B2C community retail services, creating a service model of easy order with convenience. Through a robust intelligent mid-platform system, the Group establishes a dual advantage in the last 500 meters of purchase scenarios and purchase efficiency. While improving service efficiency, the Group further highlights the advantages on the supply chain end. In addition, the Group possesses the ability for supply chain output and single-product OEM. This enables the Group to provide property owners with more diverse, convenient, and cost-effective products. As of June 30, 2024, the Group had a total of 62 offline convenience stores and community canteens which were located in the communities under its management, with over 52,000 stock keeping units ("SKUs") and approximately 1,150,000 registered users on Rice Mall (米飯公社).

URBAN SERVICES

Building on its existing business, the Group offered integrated sanitation operation services in urban and rural areas since 2023. The Group focuses on addressing the real market demands in these regions of China, supporting their high-quality development, addressing issues relating to sanitation and environmental governance, and delivering refined services for their better governance. As at June 30, 2024, the Group had signed 8 integrated sanitation operation projects in 5 cities, covering Hebei Province and Heilongjiang Province.

CONCLUSION

For the six months ended June 30, 2024, the Group's revenue was approximately RMB995.2 million, representing an increase of approximately 5.0% as compared to the corresponding period in 2023; gross profit was approximately RMB239.7 million, representing an increase of approximately 8.2% as compared to the corresponding period in 2023. Net profit in 2024 amounted to RMB92.8 million, representing a decrease of approximately 9.5% as compared to corresponding period in 2023. For the six months ended June 30, 2024, the net profit attributable to the owners of the parent company amounted to approximately RMB91.1 million, representing a decrease of approximately 10.0% as compared to the corresponding period in 2023. Basic earnings per share amounted to approximately RMB0.24.

OUTLOOK

Looking forward to the second half of 2024, the Group will (i) continue to uphold its principle of customer-centric services, ensure the quality of its property services, introduce targeted and differentiated property services to meet the diversified needs of various customers at various stages of properties in different regions, cities and communities, upgrade the property service brand, enhance the Group's brand influence and market competitiveness, and increase customers' sense of identification and brand reputation. It will continue to strengthen its market expansion efforts and further develop new projects through resources, channel development and cooperation to increase its market share; (ii) strategically invest in environment and sanitation, medical cosmetology, tourism and accommodation so as to expand its businesses and diversify its business portfolio. Through investments and mergers and acquisitions, the Company developed new businesses in governmental public construction, urban services and more, which enriched the Group's business categories, optimized its revenue structure and created synergies with its existing businesses, thereby enhancing the Group's consolidated operational capability and risk resistance. The Group will improve the non-property owner value-added system, intervene from the planning and design of projects, and undertake the role of a pre-intermediary from the perspectives of post-period customers and property services to facilitate the upgrade of the property brand. In response to the overall economic downturn in the upstream property sector, the Group will actively diversify its value-added business to non-property owners. This expansion includes areas such as aging retrofitting and targeted renovations, aiming to improve its business margin and seek new profit growth points in the changing industry situation; (iii) continuously improve the "whole life cycle and whole service chain" service system to continuously enrich the segment of community value-added services, further promote businesses such as car washing and beauty, kiosks, promote the property brokerage and other property space management services, and continue to promote the community health industry such as housekeeping service, community nursing service, healthy service and other services, to provide owners with a "convenient and reassuring" community health experience to enable owners to feel our "caring" property services. The Group will actively develop in-home businesses such as indoor cleaning, furniture maintenance, and air purification, to meet the demand for environmental services and repair and maintenance; (iv) establish a quarter convenient living circle, further develop the tourism business with short-haul tours as the main focus, pilot the community elderly care business, comprehensively launch value-added services such as 4:30 classes and reading rooms in the community, further expand the house improvement business, and integrate value-added services for property owners into the quarter convenient living circle in the community; (v) at the same time strengthen the construction of financial management and control and capital support system, adjust the revenue structure and profit structure, strengthen cash flow management, and improve the risk resistance capability of the enterprise; and (vi) cultivate and introduce professional talent, optimize the talent structure, promote the information technology construction of the Company, achieve technology empowerment, thereby improving the efficiency and quality of the Company's decision-making process.

FINANCIAL REVIEW

Revenue

During the Relevant Period, the Group derived its revenue principally from four business lines, namely (i) property management services; (ii) value-added services to non-property owners; (iii) community value-added services; and (iv) urban services.

The following table sets forth the details of the Group's revenue recognized by business line for the periods indicated:

	For the six months ended June 30,		
	2024 RMB'000	2023 RMB'000	Change (%)
Property management services	711,623	621,779	14.5
Value-added services to non-property owners	51,768	83,903	-38.3
Community value-added services	146,558	175,756	-16.6
Urban services	85,218	66,243	28.7
Total	995,168	947,681	5.0

The Group's revenue increased by approximately 5.0% from approximately RMB947.7 million for the six months ended June 30, 2023 to approximately RMB995.2 million for the six months ended June 30, 2024. The reason for the change of revenue by business line are listed as follows:

- (i) revenue from property management services increased by approximately 14.5% from approximately RMB621.8 million for the six months ended June 30, 2023 to approximately RMB711.6 million for the six months ended June 30, 2024, mainly due to the expansion of the Group's business. In particular, the GFA under management increased by approximately 6.6% from 81.2 million sq.m. as at June 30, 2023 to 86.6 million sq.m. as at June 30, 2024;
- (ii) revenue from value-added services to non-property owners fell by approximately 38.3% from approximately RMB83.9 million for the six months ended June 30, 2023 to approximately RMB51.8 million for the six months ended June 30, 2024, which was mainly due to a significant decrease in demand for property engineering services, on-site services and other services as a result of the sharp decrease in the overall completed GFA and construction GFA of the property developers in the first half of 2024. Meanwhile, the Group also took the initiative to reduce the provision of such services to real estate developers, reduce capital advances, and focus on projects with guaranteed collection of payment;
- (iii) revenue from community value-added services fell by approximately 16.6% from approximately RMB175.8 million for the six months ended June 30, 2023 to approximately RMB146.6 million for the six months ended June 30, 2024. This was mainly due to the impact of the real estate downturn cycle and the decrease in the sales and leasing of real estate, such as houses and parking spaces, which led to a decrease in sales and leasing intermediary income; and
- (iv) revenue from urban services increased by approximately 28.7% from approximately RMB66.2 million for the six months ended June 30, 2023 to approximately RMB85.2 million for the six months ended June 30, 2024, which was mainly due to our active business expansion in the first half of 2024.

Property management services

The following table sets forth a breakdown of the Group's revenue from property management services by type of property developers for the periods indicated:

	For the six months ended June 30,			
	2024		2023	
	RMB'000	%	RMB'000	%
Properties developed by RiseSun Group ⁽¹⁾	687,333	96.6	609,174	98.0
Properties developed by independent third-party property developers	24,290	3.4	12,605	2.0
Total	711,623	100.0	621,779	100.0

Note:

- (1) Representing the properties independently developed by RiseSun Group and the properties jointly developed by RiseSun Group and other property developers in which RiseSun Group holds a controlling interest.

Value-added services to non-property owners

The Group offers a comprehensive range of value-added services to non-property owners, primarily property developers, mainly including property engineering services, on-site services and other services. The following table sets out the components of the revenue from value-added services to non-property owners for the periods indicated:

	Six months ended June 30,			
	2024		2023	
	RMB'000	%	RMB'000	%
Property engineering services	16,558	32.0	42,440	50.6
On-site services	9,822	19.0	16,042	19.1
Other services ⁽¹⁾	25,388	49.0	25,421	30.3
Total	51,768	100.0	83,903	100.0

Note:

- (1) Including preliminary planning and design consultancy services, property delivery services and aftersales services.

Community value-added services

The Group provides two types of community value-added services, namely (i) home-living services which primarily include community retail and commercial procurement services and home repairs, maintenance and housekeeping services; and (ii) property space management services which primarily include turnkey furnishing services and property brokerage services. The community value-added services provided by the Group aim to provide property owners and residents with access to a wide range of products and services through a variety of channels, bringing more convenience to them and enhancing their living experience. The following table sets forth the components of the revenue from community value-added services for the periods indicated:

	Six months ended June 30,			
	2024		2023	
	RMB'000	%	RMB'000	%
Home-living services	104,725	71.5	114,365	65.1
Property space management services	41,833	28.5	61,391	34.9
Total	146,558	100.0	175,756	100.0

Urban services

The Group provides integrated sanitation operation services to both urban and rural areas, which mainly include urban and rural sanitation services, such as cleaning and janitorial services, garbage removal and river cleaning. The revenue from urban sanitation services increased by approximately 28.7% from RMB66.2 million for the six months ended June 30, 2023 to RMB85.2 million for the six months ended June 30, 2024.

Cost of sales

The Group's cost of sales mainly consists of (i) employee benefit expenses; (ii) maintenance costs; (iii) engineering costs; (iv) greening and cleaning expenses; (v) costs of goods sold; (vi) utilities; (vii) taxes and other levies; (viii) cost of consumables; (ix) office expenses; (x) travelling and entertainment expenses; (xi) depreciation and amortization charges; and (xii) others. The Group's cost of sales increased by approximately 4.0% from approximately RMB726.2 million for the six months ended June 30, 2023 to amortization RMB755.4 million for the six months ended June 30, 2024. The increase in the cost of sales was mainly due to the increase in revenue.

Gross profit and gross profit margin

Classification	Six months ended June 30,			
	2024		2023	
	Gross profit RMB'000	Gross profit margin %	Gross profit RMB'000	Gross profit margin %
Property management services	143,975	20.2	138,993	22.4
Value-added services to non-property owners	19,168	37.0	44,947	53.6
Community value-added services	60,162	41.0	26,629	15.2
Urban services	16,430	19.3	10,906	16.5
Total	239,735	24.1	221,475	23.4

Gross profit represents revenue less cost of sales. As a result of the foregoing, the Group's gross profit increased by approximately 8.2% from approximately RMB221.5 million for the six months ended June 30, 2023 to approximately RMB239.7 million for the six months ended June 30, 2024.

The gross profit margin of the Group increased from approximately 23.4% for the six months ended June 30, 2023 to approximately 24.1% for the six months ended June 30, 2024.

Selling expenses

The Group's selling expenses mainly consist of employee benefit expenses and office expenses for its sale and marketing staff. The Group's expenses decreased by approximately 22.27% from approximately RMB3.6 million for the six months ended June 30, 2023 to approximately RMB2.8 million for the six months ended June 30, 2024, primarily due to the slight decrease in expenses of the Group for market promotion and expansion.

Administrative expenses

The Group's administrative expenses mainly consist of (i) employee salaries; (ii) intermediary service fees; (iii) travelling and entertainment expenses; (iv) depreciation and amortization of assets; and (v) disabled security fund. The Group's administrative expenses decreased by approximately 4.4% from approximately RMB59.2 million for the six months ended June 30, 2023 to approximately RMB56.6 million for the six months ended June 30, 2024, mainly due to cost reduction and efficiency enhancement by streamlining functional workforce and reducing functional staff costs during the Relevant Period, resulting in lower expenses as compared with the corresponding period of last year.

Income tax expenses

The Group's income tax expenses comprise PRC corporate income tax. The Group's income tax increased by approximately 7.6% from approximately RMB25.0 million for the six months ended June 30, 2023 to approximately RMB26.9 million for the six months ended June 30, 2024.

The effective income tax rate of the Group was approximately 22.5% for the six months ended June 30, 2024. During the Relevant Period, more subsidiaries of the Group were qualified as "small low-profit enterprises" with taxable incomes below RMB3 million. As a result, more entities within the Group benefited from preferential income tax treatment at a rate of 5%, in contrast to the general income tax rate of 25%. This resulted in the effective tax rate lower than 25% for the Relevant Period.

Profit and adjusted profit for the Period

As a result of the aforementioned changes in the Group's financial conditions, the Group's profit for the Period decreased by approximately 9.5% from approximately RMB102.5 million for the six months ended June 30, 2023 to approximately RMB92.8 million for the six months ended June 30, 2024, which was mainly due to the increase in credit impairment loss for the Period of approximately RMB25.09 million as compared with that of corresponding period, resulting in the decrease in profit. After excluding the share-based payments (net of tax), the Group's adjusted profit for the Period decreased by approximately 11.0% from approximately RMB104.2 million for the six months ended June 30, 2023 to approximately RMB92.8 million for the six months ended June 30, 2024.

Non-generally accepted accounting principles (“non-GAAP”) financial measure

The adjusted profit is a non-GAAP measure used by the management of the Group to provide additional information on its operating performance and is not a standard measure under the Chinese Accounting Standards for Business Enterprises. The adjusted profit takes out the impact of share-based payments, which are non-recurring and not indicative for evaluating the actual performance of the Group’s business. The management of the Group believes that the non-GAAP measure provides investors with more clear view on the Group’s financial results, and with useful supplementary information to assess the performance of the Group’s strategic operations. The following table sets forth a reconciliation between the profit for the periods and adjusted profit for the periods:

	Six months ended June 30,	
	2024	2023
	RMB’000	RMB’000
Profit for the Period	92,767	102,475
Adjusted for:		
Share-based payments (net of tax)	0	1,707
Adjusted profit for the Period	92,767	104,182

Profit attributable to owners of the Company

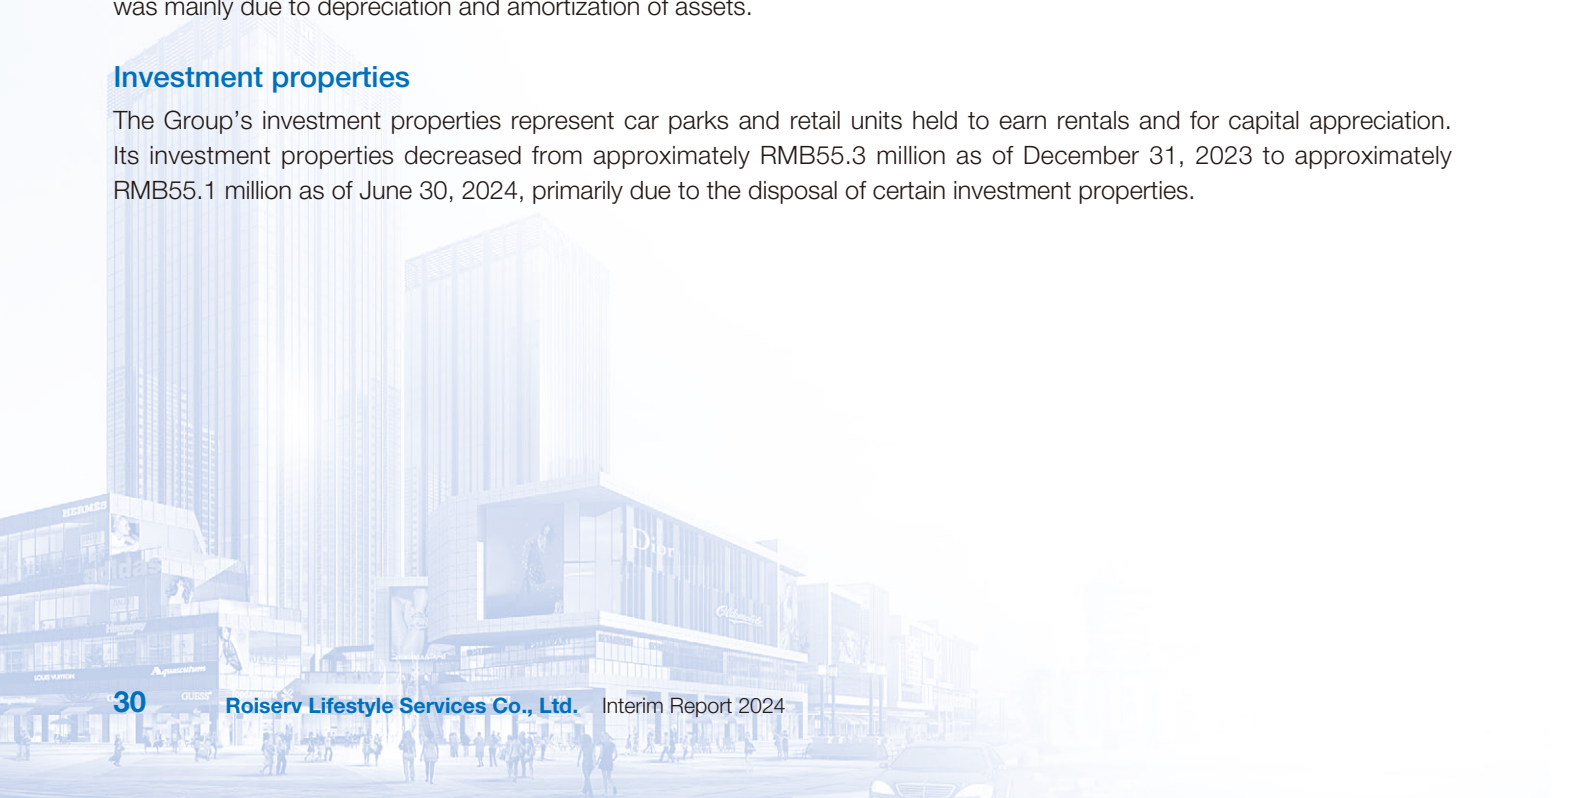

Profit attributable to owners of the Company amounted to approximately RMB91.1 million for the six months ended June 30, 2024, representing a decrease of approximately 10.0% from approximately RMB101.3 million for the corresponding period in 2023.

Fixed assets, right-of-use assets and long-term prepaid expenses

The Group’s fixed assets, right-of-use assets and long-term prepaid expenses comprise office equipment, machinery, vehicles, leasehold improvements and right-of-use assets. As of December 31, 2023 and June 30, 2024, the Group’s fixed assets, right-of-use assets and long-term prepaid expenses amounted to approximately RMB53.4 million and RMB51.1 million, respectively. The decrease in the Group’s property, plant and equipment for the six months ended June 30, 2024 was mainly due to depreciation and amortization of assets.

Investment properties

The Group’s investment properties represent car parks and retail units held to earn rentals and for capital appreciation. Its investment properties decreased from approximately RMB55.3 million as of December 31, 2023 to approximately RMB55.1 million as of June 30, 2024, primarily due to the disposal of certain investment properties.

Intangible assets

The Group's intangible assets mainly include computer software. The Group's intangible assets decreased from approximately RMB10.6 million as of December 31, 2023 to approximately RMB9.3 million as of June 30, 2024, primarily due to the amortization of intangible assets during the Period.

Inventories

The Group's inventories consist mainly of raw materials, convenience store merchandise, revolving materials, low-value consumables and parking spaces of mortgaged real estates. The Group's inventory increased from approximately RMB54.8 million as at December 31, 2023 to approximately RMB434.9 million as at June 30, 2024, which was mainly due to the increase in the number of parking spaces of mortgaged real estates during the Period. Details are disclosed in the section headed "SIGNIFICANT INVESTMENTS, MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES" in this report.

Trade and other receivables and prepayments

The Group's trade and other receivables comprise trade receivables, notes receivable, finance lease receivables, other receivables and prepayments to suppliers. As of June 30, 2024, the Group's trade and other receivables and prepayments amounted to approximately RMB2,755.2 million, representing a decrease of approximately 9.2% from approximately RMB3,035.3 million as of December 31, 2023.

The Group's trade receivables mainly arise from the services provided under the Group's property management services, value-added services to non-property owners and community value-added services. As of June 30, 2024, the Group's trade receivables amounted to approximately RMB1,983.3 million, representing a decrease of approximately 5.2% from approximately RMB2,092.3 million as of December 31, 2023, mainly due to the decrease in receivables from a related party, RiseSun Group, as a result of the settlement of certain receivables in the form of real estates and parking spaces, details of which are set out under the heading "SIGNIFICANT INVESTMENTS, MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES" of this report.

As of June 30, 2024, the Group recorded finance lease receivables in the amount of approximately RMB6.1 million, primarily resulting from the finance lease agreements it entered into for sub-leasing certain car parks and retail units.

The Group's other receivables primarily consist of interest receivables, provisional payments, payments made on behalf of property owners and residents related to utility fees, collaboration deposits, tender deposits and advances to employees. As at June 30, 2024, the Group's other receivables amounted to approximately RMB600.7 million, representing a decrease of approximately 23.6% as compared with that of approximately RMB786.0 million as at December 31, 2023, which was mainly attributable to the active recovery of receivables by the Group.

As of June 30, 2024, the Group's prepayments amounted to approximately RMB164.2 million, representing an increase of approximately 10.1% as compared with that of approximately RMB149.1 million as of December 31, 2023.

Trade and other payables

The Group's trade and other payables comprise trade payables, other payables, accrued payroll and taxes payables. As of June 30, 2024, the Group's trade and other payables amounted to approximately RMB1,400.5 million, representing a decrease of approximately 13.6% from approximately RMB1,620.7 million as of December 31, 2023.

The Group's trade payables primarily represent its obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers, including purchase of materials. As of June 30, 2024, the Group's trade payables amounted to approximately RMB742.4 million, representing a decrease of approximately 13.7% from approximately RMB860.0 million as of December 31, 2023.

The Group's other payables mainly represent deposits from property owners or residents and suppliers, maintenance funds for the properties under the Group's management, cash collected on behalf of property developers and owners, utility fees paid on behalf of property owners and residents and accrued listing expenses. As of June 30, 2024, the Group's other payables amounted to approximately RMB449.5 million, representing a decrease of approximately 20.6% from approximately RMB565.7 million as of December 31, 2023, which was mainly due to the decrease in dividend payable by RMB74.1 million during the Period.

As at June 30, 2024, the Group's accrued payroll was approximately RMB121.1 million, representing an increase of approximately 29.1% as compared with that of approximately RMB93.8 million as at December 31, 2023. The main reason was that the Group invested and acquired the relevant company during the Period, and upon completion of the acquisition, the relevant company was consolidated into the Group's consolidated financial statements, resulting in the increase in accrued payroll.

Working capital

The Group continues to meet the needs for its working capital, capital expenditure and other capital needs with cash generated from operations and proceeds from the Listing.

Net current assets

As of June 30, 2024, the Group's net current assets amounted to approximately RMB1,845.5 million (December 31, 2023: approximately RMB1,768.3 million). The Group's total current assets decreased by approximately 0.1% from approximately RMB3,811.3 million as of December 31, 2023 to approximately RMB3,807.4 million as of June 30, 2024. The Group's total current liabilities decreased by approximately 4.0% from approximately RMB2,043.0 million as of December 31, 2023 to approximately RMB1,961.9 million as of June 30, 2024.

Cash and cash equivalents

As at June 30, 2024, the Group's cash and cash equivalents (excluding restricted bank deposits) amounted to approximately RMB526.20 million, representing a decrease of approximately 20.2% from approximately RMB659.31 million as at December 31, 2023, which was mainly attributable to the increase in costs for purchasing materials and salaries for employees due to the expansion of the Company's scale and the investment in new business during the Relevant Period, resulting in a decrease in the overall net cash flow from operations.

Indebtedness

As at June 30, 2024, the Group had outstanding bank loans totaling RMB0.2 million (December 31, 2023: RMB3.11 million) which shall be repaid in November 2024.

Pledge of assets

As of June 30, 2024, the Group did not have any pledged assets (December 31, 2023: nil).

Financial risks

The Group's activities are exposed to a variety of financial risks: foreign exchange risk, credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Foreign exchange risk

The Group's businesses are principally conducted in RMB. As at June 30, 2024, the Group had bank balance of HK\$0.82 million, equivalent to RMB0.75 million. Fluctuation of the exchange rates of RMB against HK\$ have immaterial impact on the Group's results of operations.

Currently, the Group does not implement any foreign currency hedging policy, but the management of the Group will closely monitor the exposure to any exchange rates and consider the use of hedging instruments if necessary.

Credit risk

The Group is exposed to credit risk in relation to its trade and other receivables, contract assets, cash deposits at banks and financial assets at fair value through profit or loss. The carrying amounts of trade and other receivables, cash and cash equivalents and financial assets at FVPL represent the Group's maximum exposure to credit risk in relation to financial assets.

The Group expects that there is no significant credit risk associated with cash deposits at banks as they are substantially deposited at banks of high credit ratings. Management expects that there will be no significant losses from non-performance by these counterparties.

The Group expects that there is no significant credit risk associated with financial assets at fair value through profit or loss as the Group furnishes investment mandates to commercial banks, and these mandates require them to invest in wealth management products with high market credit rating, liquidity and stable return. Management expects that there will be no significant losses from non-performance by these counterparties.

The Group has assessed that given the current financial position and previous credit history of the related parties, the Group has fully considered bad debts and impairment provisions on the carrying value of trade and note receivables and contract assets from related parties. The Directors believe that the credit risk associated with trade and note receivables and contract assets from related parties has no material impact on the Group. Apart from trade receivables and contract assets due from related parties, the Group has a large number of customers and there was no concentration of credit risk. In the event that the Group is unable to collect the receivables from related parties, the Group will intend to take various measures including but not limited to realise assets to offset debts (including residences, shops, parking spaces, apartments).

The Group has fully considered bad debts provisions on the carrying value of other receivables from related parties. The Directors believe that the credit risk associated with other receivables from related parties has no material impact on the Group. The Group has assessed that the ECL rate for the amounts due from these entities are immaterial under the 12 months ECL method and considered them to have low credit risk, and thus the loss allowance is immaterial. Going forward, management will make periodic collective assessments as well as individual assessments on the recoverability of other receivables based on historical settlement records and past experience.

Liquidity risk

To manage the liquidity risk, the Group monitors and maintains an adequate level of cash and cash equivalents to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

CONTINGENT LIABILITIES

As of June 30, 2024, the Group did not have any material contingent liabilities (December 31, 2023: nil).

COMMITMENTS

As of June 30, 2024, the lease commitment of the Group as a lessee amounted to approximately RMB10.6 million (December 31, 2023: approximately RMB11.1 million).

KEY FINANCIAL RATIOS

As of June 30, 2024, the current ratio was 1.9 (December 31, 2023: approximately 1.9) and its liabilities to assets ratio or gearing ratio was approximately 47.5% (December 31, 2023: approximately 49.6%).

Current ratio is calculated based on the total current assets divided by the total current liabilities as of the respective dates and multiplied by 100%.

Liabilities to assets ratio or gearing ratio is calculated based on total liabilities, which represent the sum of current liabilities and non-current liabilities, divided by total assets, which represent the sum of current assets and non-current assets, as at the respective dates and multiplied by 100%.

SIGNIFICANT INVESTMENTS, MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

On November 16, 2023, in order to address the Group's receivables exposure, the Company entered into a debts settlement framework agreement with RiseSun Real Estate Development Co., Ltd.* (榮盛房地產發展股份有限公司) and its subsidiaries and associates (excluding the Group) (the "**RiseSun Development Group**"), pursuant to which the Company acquired (i) a total of 10,870 parking spaces; and (ii) a total of 332 residential, office and retail units (with a total GFA of approximately 26,341.01 square meters) of the RiseSun Development Group in the PRC at a consideration of RMB567,857,855.55. It was agreed by the Company and the RiseSun Development Group under the debts settlement framework agreement that the consideration for the acquisition of settlement properties payable by the Group shall be offset against the receivables on a dollar-for-dollar basis, and thus no separate cash payment will be made by the Group to the RiseSun Development Group.

On January 31, 2024, the acquisition was approved by the Company in an extraordinary general meeting, after which the Group proceeded with the acquisition of settlement properties.

For further details, please refer to the circular of the Company dated January 12, 2024.

Save as disclosed above, there were no other significant investments held, no material acquisitions or disposals of subsidiaries, associates and joint ventures, during the six months ended June 30, 2024.

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

The Company had not executed any agreement in respect of material investment or capital asset and did not have any other plans relating to material investment or capital asset as at the date of this report. Nonetheless, if any potential investment opportunity arises in the coming future, the Company will perform feasibility studies and prepare implementation plans to consider whether it is beneficial to the Company and the Shareholders as a whole. The potential investment opportunity will be funded by internal resources, including the net proceeds from the Listing.

PROCEEDS FROM LISTING

The H shares of the Company were listed on the Main Board of the Stock Exchange on January 15, 2021, with 94,000,000 new H Shares allotted and issued. The net proceeds from the Listing amounted to approximately HK\$1,168 million. Details of the intended usage of such proceeds at the relevant time were set out in the Properties. Having considered the change in the market conditions and the business needs of the Group since the Listing, on June 16, 2023, the Board resolved to change (the “**Change**”) the use of the net proceeds such that the unutilized net proceeds in the amounts of approximately HK\$385.4 million from “strategic acquisitions and investments in property management companies” under “business expansion” had been re-allocated to: (i) fund the strategic acquisitions and investments in target companies engaging in environmental sanitation, medical beauty and tourism and accommodation totalled of approximately HK\$151.8 million; (ii) allow a further allocation of approximately HK\$58.4 million to “further diversify the Group’s community value-added service offerings to cover housekeeping services, community elderly care and healthcare service” under “enrich community value-added service offerings” and expand the coverage to include also “agricultural and sideline products and breeding and decoration services”; and (iii) allow a further allocation of approximately HK\$175.2 million to be used for “working capital and other general corporate purposes”. For further details regarding the Change, please refer to the announcements of the Company dated on June 16, 2023 and August 29, 2023 respectively. Details of the utilization of the net proceeds as at June 30, 2024 are set forth below:

	Planned use of net proceeds after the Change		Unutilized net proceeds as of January 1, 2024	Actual use of net proceeds during the six months ended June 30, 2024	Unutilized net proceeds as of June 30, 2024	Expected timeline of the intended use of proceeds

(iv) Upgrade the Group's information management systems	29.20	2.50	29.20	0.00	29.20	2024
(d) Working capital and other general corporate purposes	292.00	25.00	33.59	33.59⁽²⁾	0.00	2024
Total	1,168.00	100.00	565.17⁽¹⁾	75.59	489.58	

Notes:

- (1) As the Company's net proceeds were denominated in HK\$ and part of the net proceeds utilised for expenditure were denominated in RMB, the RMB/HK\$ exchange rate adjustment for part of the funds utilised for expenditure was made in accordance with the requirements of the depository bank of the net proceeds, which resulted in an increase in the amount of unutilized net proceeds at the beginning of the Period due to the change in the exchange rate.
- (2) As a result of certain legal proceedings brought against the Group, during the six months ended June 30, 2024, a total of approximately HK\$24.93 million was deducted from the bank account where the net proceeds were placed, as directed by the courts, including but not limited to the Xinbei District People's Court in Changzhou City and the People's Court of Langfang Economic and Technological Development Zone. Of this amount, approximately HK\$18.59 million was deducted from "working capital and other general corporate purposes", and approximately HK\$6.34 million was deducted from "further development and expansion of the Group's property brokerage business to cover intermediary services relating to the sales and leasing of properties managed by the Group".

EMPLOYEES AND REMUNERATION POLICY

Human resource has always been the most valuable resource of the Group. As of June 30, 2024, the Group had a total of 7,466 full-time employees. For the six months ended June 30, 2024, the staff cost recognized as expenses of the Group amounted to approximately RMB384.59 million (six months ended June 30, 2023: approximately RMB313.7 million).

The Group has established a competitive incentives and performance assessment system, providing equity incentives and performance-based salaries and bonuses. The Group provides incentives based on evaluation of employees' performance in a number of areas, such as business development, value-added services, basic service quality and overall performance. The Group provides incentives and bonuses on a combination of monthly, quarterly, annual and mid-to-long-term basis, and on regular and matter-specific basis, to motivate the employees' contribution. According to the relevant PRC laws and regulations, the Group makes contributions to social insurance fund, including pension fund, medical insurance, unemployment insurance, work-related injury insurance, and maternity insurance, and housing provident fund for the benefit of the PRC employees.

The Group focuses on cultivating talents and providing different systematic training catering to individual needs. For example, the Group provides senior management with training on improvement of post-listing management and operational awareness, mid-level management with training on risk prevention and new business development empowerment, project managers with training on business professionalism and standardized operation, management trainees with training on improvement of basic-level management and professionalism etc., and continuously establishes and optimizes a hierarchical talent cultivation system to clear the development path for talents. During the Period, the Group organized approximately 863 training sessions, with nearly 43,237 participants.

SIGNIFICANT EVENTS AFTER THE RELEVANT PERIOD

There have not been any significant events taken place that have a material impact on the Group from June 30, 2024 and up to the date of this report.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The Group is committed to maintaining high standards of corporate governance to safeguard the interests of the Shareholders and to enhance corporate value and accountability system. The Company has adopted the code provisions of the Corporate Governance Code and other applicable legal and regulatory requirements so as to maintain a high standard of corporate governance of the Company.

To the best knowledge of the Directors, the Company complied with all applicable code provisions under the Corporate Governance Code during the Relevant Period.

COMPLIANCE WITH THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS AND SUPERVISORS

The Company has adopted the Model Code as the code of conduct regarding securities transactions by its Directors, Supervisors and employees (the "**Securities Dealing Code**"). The Company has made specific enquiries with all the Directors and Supervisors on whether they have complied with the required standard as set out in the Model Code for the Relevant Period and all the Directors and Supervisors confirmed that they have complied with the Model Code and the Securities Dealing Code during the six months ended June 30, 2024.

No incident of non-compliance was found by the Company during the Relevant Period. Relevant employees who are likely to be in possession of inside information of the Group are also subject to compliance with the Securities Dealing Code and written guidelines on no less exacting terms than the Model Code.

CORPORATE GOVERNANCE AND OTHER INFORMATION

DIRECTORS', SUPERVISORS' AND CHIEF EXECUTIVE'S INTERESTS AND/OR SHORT POSITIONS IN THE SHARES, UNDERLYING SHARES OR DEBENTURES OF THE COMPANY OR ANY OF ITS ASSOCIATED CORPORATIONS

As of June 30, 2024, the interests and short positions of each of our Directors, Supervisors and chief executive of the Company in the Shares, underlying Shares and debentures of the Company or any of our associated corporations (within the meaning of Part XV of the SFO) which is required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which they were taken or deemed to have under such provisions of the SFO) or which is required, pursuant to section 352 of the SFO, to be entered in the register referred to therein, or which is required, pursuant to the Model Code, to be notified to the Company and the Stock Exchange, were as follows:

(1) Interests in the Company

Name	Position	Nature of interest	Class of Shares	Shares held in the relevant class of Shares		Percentage of the total share capital of the Company ⁽¹⁾ (approx.)
				Number ⁽¹⁾	Percentage ⁽¹⁾ (approx.)	
Ms. Liu Hongxia	Director	Interest in controlled corporations ⁽²⁾	Domestic Shares	23,733,000 (L)	8.42%	6.31%

Notes:

- (1) The letter "L" denotes the person's long position in the Shares. As at June 30, 2024, the Company had 376,000,000 issued Shares, including 94,000,000 H Shares and 282,000,000 Domestic Shares.
- (2) Ms. Liu Hongxia was a general partner of and had full control over Shengyide Commercial. By virtue of the SFO, Ms. Liu Hongxia is deemed to be interested in the Shares held by Shengyide Commercial.

(2) Interest in associated corporations of the Company

Name	Name of associated corporation	Nature of interest	Interest in shares ⁽¹⁾	Shareholding percentage (approx.)
Mr. Geng Jianfu	RiseSun Real Estate Development	Beneficial owner	9,540,432 (L)	0.22%
	RiseSun Holdings	Beneficial owner	32,200,000 (L)	5.00%
	RiseSun Construction Engineering	Beneficial owner	9,180,000 (L)	2.78%
Mr. Jin Wenhui	RiseSun Holdings	Beneficial owner	2,860,000 (L)	0.44%

Note:

- (1) The letter "L" denotes the person's long position in the Shares.

Save as disclosed above, to the best knowledge of the Directors and as at June 30, 2024, none of the Directors, Supervisors and chief executive of the Company had or was deemed to have interests or short positions in the Shares, underlying Shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) which were required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including their interests and short positions deemed or taken under the relevant provisions of the SFO), or which were required to be entered in the register required to be kept by the Company under section 352 of the SFO, or which were required to be notified to the Company and the Stock Exchange pursuant to the Model Code.

SUBSTANTIAL SHAREHOLDERS' AND OTHER PERSONS' INTERESTS AND/OR SHORT POSITIONS IN THE SHARES AND UNDERLYING SHARES OF THE COMPANY

NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS

1. GENERAL INFORMATION ABOUT THE COMPANY

Roiserv Lifestyle Services Co., Ltd. (hereinafter referred to as “the Company”, collectively referred to as “the Group” when including subsidiaries), formerly known as Langfang RiseSun Property Service Co., Ltd., was incorporated on November 2, 2000, and was converted from a limited liability company to a stock company limited on April 23, 2020. The registered address of the Company is East Daxiang Line and North Heyuan Road (within Xianghe Xiandai Water Industry Co., Ltd), Jiangxintun Town, Xianghe County, Langfang, Hebei Province, PRC.

The Group is principally engaged in the provision of property management and related value-added services.

The parent company of the Company is RiseSun Real Estate Development Co., Ltd. (“RiseSun Development”, a company incorporated in the PRC and whose shares are listed on Shenzhen Stock Exchange). RiseSun Development and its affiliates (excluding the Group) are referred to as “RiseSun Group”. The ultimate holding company is RiseSun Holdings Co., Ltd. (the Ultimate Controlling Company, a limited liability investment holding company incorporated in the PRC). On January 15, 2021, The Company’s shares were listed on the main board of the Stock Exchange of Hong Kong Limited.

2. BASIS FOR PREPARATION OF THE FINANCIAL STATEMENTS

(1) Basis for preparation

The Group’s financial statements have been prepared on the basis of actual transactions and events, in accordance with the Accounting Standards for Business Enterprises and their application guides, interpretations and other relevant requirements issued by the Ministry of Finance (collectively, “ASBE”), as well as related disclosure requirements of the Hong Kong Companies Ordinance and the Listing Rules of the Stock Exchange.

(2) Going concern

The Group has a recent profitable operating history and is supported by financial resources. It is considered reasonable that the financial statements are prepared on a going concern basis. Therefore, such financial statements have been prepared based on the assumption of a going concern.

3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

The preparation of interim financial information requires management to make judgments, estimates and assumptions about the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In the preparation of the interim consolidated financial statements, the key sources of uncertainties about significant judgments and estimates management has made in the process of applying the Group’s accounting policies are consistent with those in the consolidated financial statements for the year ended December 31, 2023.

4. SEGMENT INFORMATION

Management has identified the operating segments based on reports reviewed by the chief operating decision maker (“**Chief Operating Decision Maker**”). The Chief Operating Decision Maker has been identified as the executive Director of the Company, who is responsible for allocating resources and assessing the performance of the operating segments.

During the six months ended June 30, 2023 and 2024, the Group is principally engaged in the provision of property management services, community value-added services, value-added services to non-property owners and urban services in the PRC. Management considers the operating results of the underlying business as a segment when making decisions about resource allocation. Accordingly, the Chief Operating Decision Maker of the Company believes that only one segment should be used in making strategic decisions.

The Group’s principal operating entities are located in the PRC and therefore its revenue is generated in the country.

As at June 30, 2024, cash and cash equivalents of HK\$24,602.73 (equivalent to RMB22,454.42) were temporarily held in the Group’s bank accounts in Hong Kong. Other than that, all the assets of the Group are located in Chinese Mainland.

5. CASH AT BANK AND ON HAND

Item	Balance as of June 30, 2024 (Unaudited)	Balance as of December 31, 2023 (Audited)
