### **POSITIVE PROFIT ALERT**

This announcement is made by Wah Sun Handbags International Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09(2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) and the Inside Information Provisions (as defined in the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board of directors of the Company (the “**Board**”) wishes to inform the shareholders (the “**Shareholders**”) and potential investors of the Company that, to the best knowledge and belief of the Board, and based on the information currently available to the Company and the preliminary assessment of the unaudited consolidated management accounts of the Group for the six months ended 30 September 2024 (the “**Reporting Period**”), it is anticipated that the Group will record net profit attributable to owners of the Company in the range of approximately HK\$25 million to HK\$29 million for the Reporting Period representing an increase ranging from 19% to 38%, as compared to the net profit attributable to owners of the Company of approximately HK\$21 million recorded for the six months ended 30 September 2023 (the “**Previous Period**”).

The increase in the net profit attributable to owners of the Company for the Reporting Period as compared to the Previous Period was mainly attributable to the following factors:

- (i) the increase in revenue by approximately HK\$18 million to approximately HK\$352 million for the Reporting Period from approximately HK\$334 million for the Previous Period, representing an increase of approximately 5%. This was mainly attributable to the ongoing orders placed by new customers and the sales from Europe, particularly from the Netherlands; and
- (ii) the increase in gross profit and gross profit margin led by the increase in revenue as a result of the increase in the quantity of goods sold by the Group and the continuing implementation of certain stringent cost control measures which successfully reduced the base production operating costs of the Group.

As a result of the foregoing, the gross profit for the Reporting Period increased as compared to the Previous Period. However, such increase had been partially alleviated by the following factors:

- (i) the increase in administrative expenses primarily due to the increase in employee benefit expenses, in line with the increase in the level of sales activity;
- (ii) the increase in provision for impairment on trade receivables in the Reporting Period reflected the increase in level of trade receivables which are subject to the expected credit loss model; and
- (iii) the increase in income tax expenses as a result of the increase in assessable profit in the Reporting Period.

As the Company is still in the process of finalising the unaudited interim results of the Group for the Reporting Period, the information contained in this announcement is only based on the preliminary assessment by the management of the Company with reference to the unaudited consolidated management accounts of the Group for the Reporting Period, which have not been confirmed, reviewed or audited by the Company's auditors or the audit committee of the Company and therefore may be different from the actual unaudited interim results of the Group for the Reporting Period. Detailed financial information of the Group will be disclosed in the interim results announcement of the Group for the Reporting Period which is expected to be issued in late November 2024 pursuant to the Listing Rules.

**The Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.**
