2024 INTERIM REPORT

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 September 2024

1. GENERAL INFORMATION AND BASIS OF PREPARATION

Oriental Payment Group Holdings Limited (the “**Company**”) was incorporated in the Cayman Islands on 19 January 2018 as an exempted company with limited liability. The Company’s shares were listed on GEM of the Stock Exchange on 16 October 2018. The Company’s registered office is located at Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111 Cayman Islands. The Company’s principal place of business in Hong Kong is situated at Room 5, 17/F, 80 Gloucester Road, Wan Chai, Hong Kong.

The principal activity of the Company is investment holding. The Group is principally engaged in merchant acquiring business in Thailand and the Philippines.

The unaudited condensed consolidated financial statements (the “**Interim Financial Statements**”) have been prepared in accordance with the Hong Kong Accounting Standards 34 “Interim Financial Reporting” (“**HKAS 34**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) and the applicable disclosure provisions of the GEM Listing Rules.

The preparation of the Interim Financial Statements in conformity with HKAS 34 requires the management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, incomes and expenses on a year to date basis. Actual results may differ from these estimates.

The Interim Financial Statements include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since 31 March 2024, and therefore, do not include all of the information required for full set of financial statements prepared in accordance with the Hong Kong Financial Reporting Standards (“**HKFRSs**”) which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standard (“**HKAS**”) and Interpretations issued by the HKICPA. They shall be read in conjunction with the audited consolidated financial statements of the Group for the year ended 31 March 2024 (the “**2024 Audited Consolidated Financial Statements**”).

The accounting policies and methods of computation applied in the preparation of the Interim Financial Statements are consistent with those applied in the preparation of the 2024 Audited Consolidated Financial Statements.

The Interim Financial Statements have been prepared on the historical costs basis and presented in Hong Kong dollars (“**HK\$**”), which is the same as the functional currency of the Company and all values are rounded to the nearest thousand (HK\$’000) except otherwise indicated.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

For the six months ended 30 September 2024

1. GENERAL INFORMATION AND BASIS OF PREPARATION *(Continued)*

The adoption of the new/revised HKFRSs that are relevant to the Group and effective from the current period had no significant effects on the results and financial position of the Group for both periods.

At the date of authorisation of the Interim Financial Statements, the Group has not early adopted any new/revised HKFRSs that have been issued but are not yet effective.

The Interim Financial Statements have been reviewed by the audit committee of the Board but have not been reviewed or audited by the Company's auditor.

Going Concern

In preparing the Interim Financial Statements, the Directors have given careful consideration to the future liquidity of the Group in light of the fact that the Group's current liabilities exceeded its current assets by approximately HK\$30,103,000 at 30 September 2024. In addition, the Group incurred a loss of approximately HK\$15,920,000 for the period ended 30 September 2024. There is a material uncertainty related to these matters that may cast significant doubt on the Group's ability to continue as a going concern and, therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business.

The Directors are of the opinion that the Group will have sufficient working capital to finance its operations and to meet its financial obligations for at least the next twelve months from the date of approval of the Interim Financial Statements, after taking into consideration of the followings:

- (i) the Group is actively negotiating and discussing with major creditors and convertible bondholders to consider future settlement/schedule plan and actively identifying any other possible financing options and debt restructuring exercises as and when appropriate;
- (ii) the Company is expected to contemplate other fund-raising activities, including both equity and debt financing, and apply the net proceeds from such fund-raising exercise for general working capital of the Group; and
- (iii) the Group continues to improve the operating efficiency by implementing measures to tighten cost controls over various operating expenses in order to enhance its profitability and to improve the cash flow from its operation in future.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

For the six months ended 30 September 2024

1. GENERAL INFORMATION AND BASIS OF PREPARATION *(Continued)*

Going Concern *(Continued)*

The Directors are of the opinion that, in light of the measures taken to date, together with the expected results of the other measures in progress, the Group will have sufficient funding resources to satisfy its future working capital and other financing requirements. The Directors believe that the aforementioned measures will be effective, with the continuous efforts of the management of the Group. Accordingly, the Directors consider that it is appropriate to prepare the Interim Financial Statements on a going concern basis.

2. SEGMENT INFORMATION

The Group's operating activities are attributable to a single operating segment focusing on merchant acquiring business in Thailand and the Philippines during the Reporting Period. This operating segment has been identified on the basis of internal management reports prepared in accordance with accounting policies conforming to HKFRSs that are regularly reviewed by the executive Directors, the chief operating decision makers of the Group. They review the results of the Group as a whole in order to assess financial performance and allocation of resources. Accordingly, the operation of the Group constitutes only one single operating segment and no further analysis of this single segment is presented.

Geographical information

The Group's operation is mainly located in Thailand and the Philippines.

The following table sets out information about the geographical location of (i) the Group's revenue from external customers and (ii) the Group's property, plant and equipment, right-of-use assets and intangible assets ("**Specified Non-current Assets**"). MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS OVERVIEW AND OUTLOOK

The Group is an established merchant acquirer engaging in the provision of a suite of comprehensive payment processing and related services to merchants of all sizes frequently visited by Chinese tourists in Thailand and merchants in the Philippines.

The Group has three main income streams derived from the merchant acquiring business, including (i) the MDR income; (ii) the foreign exchange rate discount income; and (iii) the marketing and distribution service income. For each successful transaction processed by the Group via its point-of-sale terminals, the MDR income is generated from its merchants based on certain percentage of the transaction value. The Group's foreign exchange rate discount income is derived from its daily settlement with UnionPay International ("UPI") whereby a favourable spot exchange rate of Baht to United States dollars ("US\$") is offered by UPI for translating the nominated transaction value in Baht. The marketing and distribution service income represents the income derived from developing marketing channels for expanding the use of payment service system through its merchant network.

During the Reporting Period, the Group has benefited from the relief of coronavirus disease 2019 ("Covid-19") pandemic policies and the reopening of the border of the People's Republic of China (the "PRC"). In addition, after Thailand has waived its visa requirements in relation to visitors from the PRC for 30 days from 25 September 2023 to 29 February 2024. The PRC and Thailand have further implemented a reciprocal visa-free scheme from March 2024 to promote tourism and boost trade and economic development. The Group's revenue significantly increased for the Reporting Period as a result of increase in the number of Chinese tourists travelling to Thailand.

Looking forward, with further improvement of the Covid-19 pandemic situation, the Group believes that we are on the right track of bringing the business back to normal. Though there are still challenges in the PRC's economic recovery which may adversely affect tourism and accordingly the Group's business, the Group will proactively strengthen its competitiveness and diligently respond to the rapidly changing global business environment. The Group will continue to explore new business opportunities, closely monitor our financial position, and manage profit margin and cost control of the existing business. Regarding business expansion, the Group has been looking for and negotiating with potential business partners and distributors. With the enormous Southeast Asia market and new era technology, the Group is able to widen its range of services and geographical coverage of the Group's revenue base in the Group's existing business. In the upcoming future, the Group is optimistic that we will continue to devote our efforts to enhance our business operations and financial position and achieve the maximum returns to our valuable shareholders and clients in the medium to long term with the support of our stakeholders.

Furthermore, with the completion of the acquisition of the bCode scanners which took place on 30 March 2023, the Group will be able to extend its service offerings by providing advanced app-based payment services to merchants to easily and conveniently accept payments from e-wallets, thereby allowing the Group to tap into broader markets with wider geographical coverage. The Group has commenced the process of installing the bCode scanners at the POS of its major retailer customers in the Philippines. This is expected to promote the business growth of the Group, which is in line with the Group's key objective to be a leading payment-based technology platform provider.

Some Chinese tourists have resumed travelling to Thailand and the spending of Chinese tourists and the transaction volume via UnionPay processed by the Group have gradually increased since January 2023. The increase in marketing and distribution service income by approximately HK\$0.3 million as compared with that in the Corresponding Period was mainly due to the reopening of the mainland-Hong Kong border in January 2023 as mentioned above, and also the commencement of the bCode business and operation in the Philippines since April 2023. The decrease in the foreign exchange rate discount income by approximately HK\$0.2 million was noted during the Reporting Period. There was no ESG Consultancy Services income during the Reporting Period (2023: approximately HK\$30,000) due to the completion of disposal of subsidiaries (one of which engaged in the ESG consultancy and reporting business) on 18 April 2023.

Cost of services rendered

Cost of services rendered of the Group mainly includes the IT network service fee and franchise license fee for the merchant acquiring business. The total cost of services rendered for the Reporting Period amounted to approximately HK\$14.8 million (2023: approximately HK\$8.0 million). The increase in cost of services rendered of approximately 84.7% was mainly in line with the increase in revenue for the Reporting Period.

Gross profit and gross profit margin

The gross profit for the Reporting Period amounted to approximately HK\$4.7 million, representing an increase of approximately HK\$2.2 million or approximately 85.3% as compared with that of approximately HK\$2.5 million for the Corresponding Period, as a result of the increase in revenue for the Reporting Period. No material fluctuation in the Group's gross profit margin, which amounted to approximately 24.1% for the Reporting Period (2023: approximately 24.0%), was noted.

Other income

The other income of the Group for the Reporting Period amounted to approximately HK\$0.1 million (2023: approximately HK\$4.7 million). General administrative expenses

The general administrative expenses of the Group for the Reporting Period amounted to approximately HK\$8.8 million (2023: approximately HK\$14.9 million). Selling and distribution costs

The Group recorded selling and distribution costs of approximately HK\$9.5 million for the Reporting Period (2023: approximately HK\$8.8 million). The slight increase in selling and distribution costs was mainly due to the increase in business development, and sales and marketing activities during the Reporting Period.

Finance costs

The finance costs amounted to approximately HK\$1.8 million for the Reporting Period (2023: approximately HK\$1.6 million). The amount represented (i) the effective interest expenses on convertible bonds, (ii) the finance costs on lease liabilities, (iii) the finance costs on financial liabilities at amortised cost, and (iv) the finance costs of bond issued. Details of the finance costs are set out in Note 5 to the Interim Financial Statements.

Loss for the period

The Group recorded a net loss attributable to owners of the Company of approximately HK\$15.9 million for the Reporting Period (2023: approximately HK\$18.1 million). The gearing ratio, which was calculated by dividing other long-term liabilities and convertible bonds by total equity, was approximately 331.3% as at 30 September 2024 (31 March 2024: approximately 88.3%). Other long-term liabilities represent preference shares issued by OCG Thailand, a wholly-owned subsidiary of the Company. For details of these liabilities and other borrowings (e.g., dividend/interest rate, maturity date) as at 30 September 2024, which were denominated in HK\$, Baht and US\$, please refer to Notes 15 and 16 of the Interim Financial Statements. The increase in the gearing ratio was mainly due to the impact of the Covid-19 pandemic aftershocks facing the Group which caused a net loss attributable to owners of the Company of approximately HK\$15.9 million for the Reporting Period, thereby decreasing the total equity as at 30 September 2024.

The Group's operations are financed principally by revenue generated from its business operation, public fund raising and other borrowings. The decrease in total equity attributable to equity holders of the Company was mainly due to the impact of the Covid-19 pandemic aftershocks to the Group which caused a net loss attributable to owners of the Company of approximately HK\$15.9 million for the Reporting Period.

Dividend policy

The Group currently does not have a pre-determined dividend payout ratio. Dividends may be paid out by cash or other means that the Group considers appropriate. The declaration and payment of any interim dividends would require the recommendation of the Board and will be at their discretion. In addition, any final dividend for a financial year will be subject to the approval of the Company's shareholders (the "**Shareholders**"). A decision to declare or to pay any dividend in the future, and the amount of any dividends, depends on a number of factors, including the operation performance, financial condition, the payment by the subsidiaries of cash dividends to the Group, and other factors the Board may deem relevant. There is no assurance that the Group will declare or distribute any dividend in the amount set out in any plan of the Board or at all.

The dividend distribution record in the past may not be used as a reference or basis to determine the level of dividends that may be declared or paid by the Board in the future.

Details of the dividend are set out in Note 8 to the Interim Financial Statements.

Treasury policy

The Group has adopted a prudent financial management approach towards its treasury policies and had maintained a healthy liquidity position throughout the Reporting Period. The shares of the Company were listed on GEM of the Stock Exchange on 16 October 2018 with a total of 250,000,000 ordinary shares issued at HK\$0.22 each by way of share offer (the “**Share Offer**”). The Directors intended to apply the net proceeds from the Share Offer in accordance with the proposed applications as set out in the prospectus of the Company dated 27 September 2018 (the “**Prospectus**”), the supplemental announcement (the “**Supplemental Announcement**”) of the Company dated 29 September 2021 in relation to the annual results announcement and the annual report of the Company for the year ended 31 March 2020, the announcement (the “**Change in Use of Proceeds Announcement**”) of the Company dated 29 September 2022 in relation to change in use of proceeds, and the announcement (the “**Second Change in Use of Proceeds Announcement**”) of the Company dated 28 March 2024 in relation to second change in use of proceeds. The net proceeds received by the Company from the Share Offer, after deducting underwriting commission and other listing expenses, amounted to approximately HK\$51.1 million. The amount of unutilised net proceeds brought forward to the six months ended 30 September 2024 from the year ended 31 March 2024 was approximately HK\$4.0 million. Up to 30 September 2024, the net proceeds from the Share Offer had been applied as follows:

	Intended use of net proceeds	Amount unutilised as at 31 March 2022	Revised allocation of the unutilised net proceeds	Amount utilised during the year ended 31 March 2023	Amount unutilised as at 31 March 2023	Amount utilised from 1 April 2023 to 28 March 2024	Amount unutilised as at 28 March 2024	Revised allocation of the unutilised net proceeds	Amount unutilised as at 31 March 2024	Amount utilised from 1 April 2024 to 30 September 2024	Amount unutilised as at 30 September 2024

The business strategies as set out in the Prospectus were based on the best estimation of the future market conditions made by the Group at the time of preparing the Prospectus. The use of proceeds was applied in accordance with the actual development of the market.

During the six months ending 30 September 2022, notwithstanding that the international flights to Thailand had resumed gradually, Chinese tourists' spending in Thailand as reflected by the transaction volume via UnionPay processed by the Group for the relevant year had not bounced back to the level before the Covid-19 quarantine measures were initially imposed by the Thailand government throughout the past few years. This slowing economic growth had also curtailed the expansion of the Group's business scale. Meanwhile, the Group required more working capital to maintain the stability and sustainability of its existing business under the current adverse business environment and the slackening spending of Chinese tourists in Thailand.

Under such circumstances, the Board considered that it was not an optimal timing to expand its existing merchant acquiring business in Thailand. In order to optimise the use of the unutilised net proceeds, instead of allocating a total of approximately HK\$9.8 million and HK\$7.1 million for continuously improving the availability and enhancing function of the Group's stock of smart POS terminals and extending the Group's payment processing services to cover other payment network associations in Thailand, respectively, on 29 September 2022, the Board resolved to reallocate the unutilised net proceeds by applying approximately HK\$5.0 million out of each of the foregoing uses as initially intended towards the working capital of the Group, thereby allowing the Group to better cope with its operation needs and safeguarding the financial position of the Group against any economic uncertainty in the future. The Board believed that the reallocation of the unutilised net proceeds would provide more flexibility for the Group to manage its asset and liability against the current unstable business environment and enable the Group to capture other business opportunities for the Group's revenue growth. The Board would continue to assess the impact of the market conditions in Thailand and Philippines on the operations of the Group. Details of the change in use of proceeds from the Share Offer are set out in the Change in Use of Proceeds Announcement.

On 28 March 2024, the Board resolved to further change the intended use of the unutilised net proceeds towards the working capital of the Group, thereby providing higher level of flexibility for the Group to manage its asset and liability against the current unstable business environment and enabling the Group to capture other business opportunities for the Group's revenue growth. The Board considered that the further change of use of proceeds would allow the Company to deploy its financial resources more effectively and is in the interests of the Company and its Shareholders as a whole and would not have any material adverse effect on the existing business and operations of the Group. Details of the further change in use of proceeds from the Listing are set out in the Second Change in Use of Proceeds Announcement.

As at the date of this report, all the net proceeds from the Share Offer had been utilised as previously intended and disclosed in the Prospectus, the Supplemental Announcement, the Change in Use of Proceeds Announcement, and the Second Change in Use of Proceeds Announcement.

The subscription (i) extended the maturity date of the debt owed to one of the Subscribers and will allow the Group to raise and reserve enough cash to fulfill its upcoming cash flow needs in a timely manner, and (ii) will help maintain a positive relationship with the Subscribers, enabling the Group to continue receiving support for its bCode operation. No rights in the March 2024 Convertible Bonds were exercised during the Reporting Period.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

None of the Company or any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities during the Reporting Period.

CORPORATE GOVERNANCE

The Company is committed to achieving high standard of corporate governance. The Directors believe that sound and reasonable corporate governance practices are essential in providing a framework for the Company to safeguard the interests of its shareholders, enhance corporate value, formulate its business strategies and policies, and enhance its transparency and accountability.

The Company has adopted the principles and the code provisions in the Corporate Governance Code (the “**CG Code**”) as set out in Appendix C1 to the GEM Listing Rules as the basis of the Company’s corporate governance practices throughout the Reporting Period and up to the date of this report.

The Board is of the view that during the Reporting Period and up to the date of this report, the Company has complied with all applicable code provisions as set out in the CG Code, save for the deviation from code provision C.2.1.

Pursuant to C.2.1 of the CG Code, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Following the retirement of the then executive Director and chief executive officer of the Company (“**CEO**”), Mr. Lin Xiaofeng, on 30 September 2022, and the retirement of the then executive Director and chairman of the Board (the “**Chairman**”), Dr. Ng Kit Chong, on 10 November 2022, Mr. Tsang Chi Kit, the executive Director and the Managing Director of the Company (the “**Managing Director**”), has continued the duties of (i) the CEO since 1 October 2022, and (ii) the Chairman since 11 November 2022, respectively. In the opinion of the Board, the roles of the Managing Director and the CEO are the same. The Board believes that the present arrangement enables the Company to make and implement decisions promptly, and effectively respond to the changing environment. The Board also believes that the Company already has a strong corporate governance structure in place to ensure effective oversight of management. Therefore, the Board considers that the deviation from code provision C.2.1 of the CG Code to be appropriate in such circumstance.

In order to maintain good corporate governance and to fully comply with code provision C.2.1 of the CG Code, the Board comprises other experienced and high-calibre individuals including one non-executive Director and three independent non-executive Directors who would be able to offer advice from various perspectives. In addition, for major decisions of the Group, the Company will consult appropriate Board committees and senior management. Considering the present size and the scope of business of the Group, the Company believes that it is not in the best interest of the Company and the shareholders as a whole to separate the roles of the Chairman and the CEO/the Managing Director, because the separation would render the decision-making process of the Company less efficient than the current structure. Therefore, the Directors consider that the present arrangement is beneficial to and in the interest of the Company and the shareholders as a whole and the deviation from code provision C.2.1 of the CG Code is appropriate in such circumstance.

To maintain a high standard of corporate governance practices of the Company, the Board will review the effectiveness of the structure and composition of the Board from time to time in light of prevailing circumstances, and will continue to review and consider splitting the roles of Chairman and the CEO at a time when it is appropriate by taking into account the circumstances of the Group as a whole.

NON-COMPLIANCE WITH RULES 5.05(1) AND 17.104 OF THE GEM LISTING RULES

At the annual general meeting of the Company held on 26 July 2024, Ms. Liao Pui Yee Bonnie (“**Ms. Liao**”), the then independent non-executive Director, did not offer herself for re-election as she would like to devote more time to her other personal and business commitments, and accordingly, has retired as an independent non-executive Director upon the conclusion of the meeting. Since the conclusion of the meeting and up to the end of the Reporting Period, no independent non-executive Director had been appointed in place of Ms. Liao, and therefore as at the end of the Reporting Period:

- (i) the number of independent non-executive Directors fell below the minimum number as required under Rule 5.05(1) of the GEM Listing Rules; and
- (ii) the composition of the Board consisted of a single gender, consequently failing to comply with Rule 17.104 of the GEM Listing Rules.

The Company had since taken remedial steps to identify suitable candidates with appropriate expertise for appointment as an independent non-executive Director. The Company has sought recommendations and referrals from its Directors, senior management, financial adviser and other professional parties, and reached out to certain candidates for further discussions. In October 2024, the Company has identified one female independent non-executive Director candidate, Ms. Tam Yuen Lam Angela (“**Ms. Tam**”), whom the Company considers suitable after considering her experience and qualifications. Several discussions have been held with Ms. Tam throughout October 2024 and Ms. Tam has verbally indicated her acceptance as the new independent non-executive Director in mid-October 2024. Ms. Tam was eventually appointed as an independent non-executive Director on 1 November 2024.

Upon the appointment of Ms. Tam as an independent non-executive Director on 1 November 2024, (i) the Board comprises five members, including one executive Director, one non-executive Director and three independent non-executive Directors, and (ii) the Board has at least one Director of a different gender. Accordingly, the Company fulfils the minimum number of independent non-executive Directors required under Rule 5.05(1) of the GEM Listing Rules, and the requirement of gender diversity of the Board as set out in Rule 17.104 of the GEM Listing Rules. For details, please refer to the announcement of the Company dated 1 November 2024.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the required standard of dealings set out in Rules 5.46 to 5.67 of the GEM Listing Rules (the "**Standard of Dealings**"), as the code of conduct regarding Directors' securities transactions in the securities of the Company. Having made specific enquiries with all Directors, each of the Directors has confirmed that he/she has complied with the Standard of Dealings during the Reporting Period.

SHARE OPTION SCHEME

The Company conditionally adopted a share option scheme (the "**Share Option Scheme**") on 18 September 2018. The purpose of the Share Option Scheme is to grant options (the "**Option(s)**") to subscribe for the shares of the Company to eligible persons as defined in the Share Option Scheme as incentives or rewards for the service rendered to the Group and any entity in which any member of the Group holds any equity interest.

Unless otherwise cancelled or amended, the Share Option Scheme will remain in force for a period of 10 years from the date of its adoption on 18 September 2018. Since the date of adoption of the Share Option Scheme and up to 30 September 2024, no option has been granted by the Company. As at the beginning and the end of the Reporting Period and the date of this report, the Company has 100,000,000 shares available for issue under the Share Option Scheme (representing (i) 10% of the total issued shares of the Company as at the listing date of the Company (i.e., 16 October 2018); and (ii) approximately 5.3% of the total number of the existing issued shares of the Company as at the date of this report) pursuant to the provisions of the Share Option Scheme. Details of the Share Option Scheme are set out in the Prospectus.

DIVIDEND

The Board does not recommend the payment of interim dividend for the six months ended 30 September 2024.

Save as disclosed in Note 22 to the Interim Financial Statements, no significant events have taken place since the end of the interim period for the six months ended 30 September 2024.
