#### 3. OPERATING SEGMENT INFORMATION

The Group is principally engaged in the design and retail of trendy apparel, bags and fashion accessories.

For management purpose and in a manner consistent with the way in which information is reported internally to the Group's chief operating decision maker for the purpose of resource allocation and performance assessment, the Group's reportable segments are as follows:

- 1. **Offline**: management and operation of physical point-of-sale, including but not limited to retail stores, outlets, pop-up shops and seasonal bargain sales activities, etc. in different regions (at the end of the reporting periods, mainly in Hong Kong and Macau); and
- 2. **Online**: management and operation of cyber distribution channels to capture boundless online consumption.

Segment performance is evaluated based on reportable segment profit, which is a measure of adjusted profit before tax. The adjusted profit before tax is measured consistently with the Group's profit before tax except for that interest income, non-lease-related finance costs, gain on disposal of properties (other than from leasehold improvements and equipment) and unallocated expenses, net are excluded from this measurement.

Segment assets exclude equity investments at fair value through other comprehensive income, deferred tax assets, tax recoverable and other unallocated corporate assets as these assets are managed on a group basis. Segment liabilities exclude deferred tax liabilities, tax payable and other unallocated corporate liabilities as these liabilities are managed on a group basis. Segment non-current assets exclude equity investments at fair value through other comprehensive income, deferred tax assets and other unallocated corporate non-current assets as these assets are managed on a group basis.

Intersegment sales are transacted with reference to the selling prices used for sales made to third parties at the prevailing market prices.

#### Information about major customers

Since there was no customer to whom the Group's sales amounted to 10% or more of the Group's revenue during the periods under review, no major customer information is presented.

### **BUSINESS REVIEW**

The Group is principally engaged in the design and retail of trendy apparel, bags and fashion accessories for more than twenty years. The Group's turnover is mostly contributed by its major in-house labels like "SALAD", "TOUGH", some trendy design brands and certain international labels.

As at 30 September 2024, the Group had a total of 35 self-managed offline shops in operation (31 March 2024: 33).

	As at 30 September 2024	As at 31 March 2024	Changes
Hong Kong	29	27	2
Macau	6	6	
TOTAL	35	33	2

During the reporting period, the Hong Kong retail market remained under pressure, with overall sentiment persistently subdued. The anticipated recovery following the reopening of borders and the easing of travel restrictions in Hong Kong and Macau since early 2023 has fallen short of expectations, with signs of stagnation emerging. Additionally, the surge in outbound "revenge travel" by local residents, coupled with the ongoing trend of northbound consumption, has further dampened foot traffic. This decline was particularly pronounced on weekends and public holidays, periods that are critical to the performance of the retail sector.

Despite the challenging situation, in recent years, the Group has refined its retail operations, restructured its cost hierarchy and becomes more competitive under difficult business conditions, especially on the core offline retail business. Even the recovering process might be a bit slower than expected, the Group remains confident in the future development attributed to the solid foundation and the continued support from our beloved customers.

The Group recorded a net loss of approximately HK\$2.5 million (2023: net profit of approximately HK\$3.5 million) for the six months ended 30 September 2024. The decline of the financial performance was due to the combined effect of the slight decrease in retail sales revenue by approximately 4.9% (2024: approximately HK\$82.5 million; 2023: approximately HK\$86.8 million) and the slight decrease in gross margin to approximately 73.4% (2023: approximately 74.4%) during the period under review. The slowdown of the recovery of the local retail markets in Hong Kong and Macau led to the Group's sales performance fell short of expectation. As such, the Group has implemented more promotional activities with price discounts to attract customers, thus a slight decrease in gross margin resulted.

# Offline

The offline retail operations are the key operating segment of the Group accounting for almost all of the Group's turnover. As at 30 September 2024, the Group had 35 (30 September 2023: 33) physical stores in operation across Hong Kong and Macau.

In Hong Kong, despite the challenges facing the local retail market due to the slower-thanexpected economic recovery and the surge in outbound "revenge travel," the Group has made every effort to optimize its operations. These efforts have yielded positive results, with operating performance gradually improving. For the three months ended 30 September 2024 (the "**2Q 2024**"), the Group achieved an approximately 1% growth in same-store sales as compare with the same three-month period as the prior year, by which a notable rebound from the approximately 9% decline recorded for the three months ended 30 June 2024 (the "**1Q2024**"). Such positive momentum is expected to continue for a stronger operational performance in the second half of the year considered the seasonality that usually most of the operating profits are derived in the second half of the financial year based on the track records shows.

The Group's offline retail business in Macau has performed relatively stable during the six months ended 30 September 2024. The Macau's same-store-sales recorded an approximately 1% growth for the period under review. Macau is a travel and entertainment city, where economic performance is highly correlated to tourism. With the Macau government implementing various policies to fully boost the local tourism industry, coupled with the refreshing renovation of certain stores, the Group is optimistic about achieving promising operation performance in the second half of the year.

The Group remains its strategic focus on running qualitative and profitable retail platforms instead of driven only by sales achievement. Consistent with prior years, the Group continued to manage its operating costs effectively and successfully adjusted high expenses, including rentals and staff costs, to align more flexibly with sales performance. The Group also responded promptly with appropriate contingency plans to address unfavorable incidents.

# Online

The online business is considered having immense potentials while the competition in the online market is also increasingly fierce. The Group has a designated team to foster the development of the Group's e-commerce business. Although still in the exploratory phase, the Group firmly believes that precise and continuous investment in e-commerce will unlock the significant growth potential. By fostering seamless interactions between online and offline channels, we are expecting to generate synergies that enhance both market impact and operational efficiency, delivering greater value to our shareholders.

The segment incurred a loss of approximately HK\$0.5 million (2023: approximately HK\$0.1 million) and sales declined by approximately 19% to approximately HK\$1.3 million during the six months ended 30 September 2024 (2023: approximately HK\$1.6 million).

# FINANCIAL REVIEW

# **Turnover and Segment Information**

Turnover of the Group decreased by approximately 4.9% to approximately HK\$82.5 million (2023: approximately HK\$86.8 million) for the six months ended 30 September 2024. The Group's same-store-sales remained relatively stable with a slight decrease of approximately 3% (2023: approximately +17%) for the period under review. The decline in sales was mainly attributable to the sluggish retail sentiment in Hong Kong and Macau during the period under review. Details of the Group's segmental turnover and results are shown in Note 3 to the consolidated financial statements.

# **Gross Profit and Gross Margin**

The Group's gross profit decreased by approximately 6.2% to approximately HK\$60.6 million (2023: approximately HK\$64.6 million) for the six months ended 30 September 2024 and the gross margin was slightly decreased to approximately 73.4% (2023: approximately 74.4%). Given the sluggish retail sentiment in Hong Kong and Macau during the period under review, more promotion activities with price discounts offered have been implemented during the period under review to boost the sales and thus a slightly decrease in gross margin was noted.

### **Operating Expenses**

Contributed to the strict cost control to operations, the Group's operating expenses remained stable during the six months ended 30 September 2024 with a slight increase of approximately 0.2% to approximately HK\$64.5 million (2023: approximately HK\$64.4 million) despite the increase in number of physical shops in operation during the period (30 September 2024: 35; 30 September 2023: 33).

Rental is one of the key operating expenses of the Group. Lease expenses (including depreciation of right-of-use assets, lease payment for short term leases and interest on lease liabilities) for the six months ended 30 September 2024 decreased by approximately 9.1% to approximately HK\$22.9 million (2023: approximately HK\$25.2 million). The Group cautiously managed lease negotiation processes and always leveraged the sales potentials and leasing costs in each tenancy renewal. To maintain competitive, the Group adopts an on-going practice of strategically relocating, consolidating and converting its retail portfolio. If necessary, upon tenancies renewal, the Group may turn down renewal offers with unacceptably high rental increment and may relocate offline shops to less costly locations with appropriate sales exposure.

The staff cost slightly increased by approximately 2.2% to approximately HK\$23.1 million (2023: approximately HK\$22.6 million) during the six months ended 30 September 2024. The total number of staff increased to 174 at the end of the reporting period (31 March 2024: 165) mainly due to the increase in number of physical shops in operation (30 September 2024: 35; 30 September 2023: 33).

The above two major expenditures have already accounted for approximately 71.3% (2023: approximately 74.2%) of the Group's core operating expenses.

Depreciation of property, plant and equipment increased to approximately HK\$2.8 million (2023: approximately HK\$1.6 million) for the period under review as a result of the increase in number of physical shops in operation to 35 shops (30 September 2023: 33 shops). The Group's finance costs, mainly representing interest on lease liabilities, slightly increased to approximately HK\$1.8 million (2023: approximately HK\$1.7 million) as more tenancies being contracted and renewed during the period under review.

The Group used to manage operating expenses strictly. Efforts to control costs are in place. Regular review on work procedures is essential to enhance efficiency and in turn, to better moderate the cost increment.

# Net (Loss)/Profit

The Group recorded a net loss for the six months ended 30 September 2024 of approximately HK\$2.5 million (2023: net profit of approximately HK\$3.5 million). The decline of operating performance was primarily due to the sluggish retail sentiment in Hong Kong and Macau.

# SEASONALITY

Seasonality has heavy bearing on the sales and results of the Group as its track record shows. The first-half of each financial year has historically been less important than the second-half. In general, more than 50% of the Group's annual sales and most of its operating profit are derived in the second-half of the financial year, within which the holiday seasons of Christmas, New Year and the Lunar New Year fall.

# **CAPITAL STRUCTURE**

As at 30 September 2024, the Group had net assets of approximately HK\$161.4 million (31 March 2024: approximately HK\$164.0 million), comprising non-current assets of approximately HK\$90.1 million (31 March 2024: approximately HK\$90.6 million), net current assets of approximately HK\$102.3 million (31 March 2024: approximately HK\$94.6 million) and non-current liabilities of approximately HK\$31.0 million (31 March 2024: approximately HK\$91.2 million).

# LIQUIDITY AND FINANCIAL RESOURCES

As at 30 September 2024, the Group had cash and cash equivalents and time deposits of approximately HK\$26.4 million (31 March 2024: approximately HK\$57.7 million) and HK\$67.1 million (31 March 2024: approximately HK\$29.4 million), respectively. At the end of the reporting period, the Group had aggregate banking facilities of approximately HK\$30.2 million (31 March 2024: approximately HK\$30.0 million) comprising interest-bearing bank overdraft, revolving loans, rental and utility guarantees as well as import facilities, of which approximately HK\$27.3 million had not been utilised (31 March 2024: approximately HK\$27.1 million). The Group had no bank borrowings as at 30 September 2024 (31 March 2024: Nil). The Group's gearing ratio at the end of the reporting period, representing a percentage of total interest-bearing bank borrowings to total assets, was zero (31 March 2024: zero).

# **CASH FLOWS**

During the period under review, net cash flows from operating activities increased to approximately HK\$36.0 million (2023: approximately HK\$6.3 million), which was mainly attributable to the decrease in inventories level (30 September 2024: approximately HK\$32.5 million; 31 March 2024: approximately HK\$41.1 million). The net cash flows used in investing activities increased to approximately HK\$44.7 million (2023: approximately HK\$23.4 million), which was mainly attributed to the increase in time deposits with original maturity more than three months. Net cash flows used in financing activities increased to approximately HK\$22.6 million (2023: approximately HK\$22.6 million (2023: approximately HK\$22.6 million (2023: approximately HK\$22.6 million (2023: approximately HK\$16.9 million) was mainly due to the increase in lease payments due to the increase in number of physical stores in operation during the period (30 September 2024: 35; 30 September 2023: 33).

# SECURITY

As at 30 September 2024, the Group's general banking facilities were secured by the Group's property, plant and equipment and right-of-use assets situated in Hong Kong, which had aggregate carrying values at the end of the reporting period of approximately HK\$4.8 million and HK\$12.3 million, respectively (31 March 2024: approximately HK\$4.9 million and HK\$12.5 million).

### COMMITMENTS

The Group had no material capital commitment contracted but not provided for as at 30 September 2024 (31 March 2024: Nil).

### **CONTINGENT LIABILITIES**

As at 30 September 2024, the Group had contingent liabilities in respect of bank guarantees given in lieu of utility and property rental deposits amounting to approximately HK\$2.8 million (31 March 2024: approximately HK\$2.9 million).

### HUMAN RESOURCES

Including the Directors, the Group had 174 (31 March 2024: 165) employees as at 30 September 2024. To attract and retain high quality staff, the Group provided competitive remuneration packages with performance bonuses, mandatory provident fund and insurance coverage as well as entitlements to share options to be granted under a share option scheme based on employees' performance, experience and the prevailing market rate. Remuneration packages were reviewed regularly. Regarding staff development, the Group provided regular in-house training to staff and subsidised external training programmes for their professional development.

# FOREIGN EXCHANGE RISK MANAGEMENT

The Group's sales and purchases during the period under review have been mostly denominated in Hong Kong dollars and United States dollars. The Group has been exposed to certain foreign currency exchange risks but it does not anticipate future currency fluctuations to cause material operational difficulties or liquidity problems. However, the Group continuously monitors its foreign exchange position and, when necessary, will hedge foreign exchange exposure arising from contractual commitments in sourcing apparel from overseas suppliers.

# PROSPECTS

Despite the slow pace of economic recovery in Hong Kong during the first half of the year, we are pleased to report that our interim half-year revenue remained stable period-on-period with a slight decrease in retail sales revenue by approximately 4.9% (2024: approximately HK\$82.5 million; 2023: approximately HK\$86.8 million). This reflects the solid foundation of our brand and the continued support from our loyal customers who have long favored our products.

Looking ahead to the second half of the year, we remain cautiously optimistic despite ongoing challenges such as geopolitical uncertainties, inflationary pressures, and fluctuations in global monetary policies. As central banks worldwide make progress in curbing inflation and approach the end of the interest rate hike cycle, market uncertainties are expected to ease, providing a stable foundation for both global and Hong Kong economies.

In Hong Kong, the gradual recovery of the tourism sector and government's series of initiatives to boost the tourism and the retailer sector have energized the retail market. We anticipate that consumer spending will increase during the year-end holidays and major shopping seasons. To capture this momentum, we plan to optimize our store layout and enhance in-store experiences to attract more foot traffic. With the gradual resumption of cross-border travel, we will also strengthen our engagement with the global travelers, leveraging Hong Kong's unique position as a shopping hub.

On the digital front, we will continue to expand our e-commerce platform and foster greater synergy between online and offline (O2O) sales channels. Our goal is to offer a more seamless shopping experience and diversify our customer base, thereby driving sustainable growth.

Amid an evolving market landscape, we will remain agile and prudent in our management. By optimizing inventory, improving operational efficiency, and driving product innovation, we are confident in our ability to seize opportunities in the second half of the year and further solidify our market position.

Looking beyond, we will stay committed to our customer-first philosophy, delivering highquality fashion products and services. We believe that with improving market conditions and the successful execution of our strategies, we will continue to create value and generate sustainable returns for our shareholders.

We sincerely thank our customers, shareholders, and partners for their unwavering support and look forward to achieving even greater success together.
