**PROFIT WARNING
FOR THE YEAR ENDING 31 DECEMBER 2024**

Based on the currently available information, the Board wishes to inform the shareholders and prospective investors of the Company that the Group is expected to record a significant decrease in operating profit, or even an operating loss, for YEAR 2024, as compared to the operating profit of approximately HK\$74.5million for YEAR 2023.

The information contained in this announcement is only based on the unaudited management accounts of the Group for the eleven months ended 30 November 2024 which has not been audited or reviewed by the auditors of the Company and other information currently available to the Group. The Board expects that the announcement of the consolidated results of the Group for YEAR 2024 will be published in March 2025.

Shareholders and prospective investors of the Company are advised to exercise caution when dealing in the shares of the Company.

This announcement is made by Hi Sun Technology (China) Limited (the “**Company**” and together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Chapter 571, Laws of Hong Kong).

** for identification purpose only*

The board of directors (the “**Board**”) of the Company wishes to inform the shareholders and prospective investors of the Company that following preliminary review of the information which includes, but without limitation to, the unaudited management accounts of the Group for the eleven months ended 30 November 2024, which have not been audited or reviewed by the auditors of the Company and other information currently available to the Group, the operating profit for the eleven months ended 30 November 2024 has significantly decreased by approximately 86% as compared with that for the eleven months ended 30 November 2023. The Group is expected to record a significant decrease in operating profit, or even an operating loss, for the year ending 31 December 2024 (“**YEAR 2024**”) as compared to the operating profit of approximately HK\$74.5million for the year ended 31 December 2023 (“**YEAR 2023**”). The significant decrease in operating profit or even an operating loss is primarily attributable to (1) the reduced interest income and operating profit under the fintech services segment due to a decline in volume of loans granted given the recent economic conditions and expected rise in default rates; (2) while the digital services business is still in the expansion stage, the handling fee rate of digital payment is lower than that of traditional payment. Further replacement of the traditional payment market by digital payments has resulted in a decrease in revenue and operating profit under the payment and digital services segment; and (3) resources allocated to the overseas and cross-border businesses continued to increase under the payment and digital services segment. Despite the expected short-term pressure during the phase of digital transformation, the Group firmly believes that this strategic adjustment will lay the cornerstone for more stable development in the future.

The information contained in this announcement is based on the preliminary assessment by the Board of the information currently available to the Board and is not based on the financial information audited or reviewed by the auditors of the Company. There may be changes or adjustments following further review of the unaudited management accounts for YEAR 2024 by the Board. The Board expects that the announcement of the consolidated results of the Group for YEAR 2024 will be published in March 2025.

Shareholders and prospective investors of the Company are advised to exercise caution when dealing in the shares of the Company.
