REVIEW FOR THE YEAR

Reflecting on 2024, despite mounting external pressures and escalating internal challenges, China's economy maintained overall stability and continued to progress steadily. New quality productive forces steadily developed, bolstering the pursuit of high-quality development. The logistics industry was impacted by complex domestic and international landscape, coupled with geopolitical factors, resulting in structural overcapacity in both transportation and warehousing facilities that intensified competition. Logistics enterprises endeavored to enhance cost efficiency amid declining demand and service prices while maintaining stable operations. Affected by the above factors, the Group's performance in the automotive logistics and electronic component logistics sectors experienced a significant downturn, resulting in a marked decline in overall annual performance as compared to the previous year. Determined to drive high-quality development through high-quality Party-building, the Group leveraged its resource strengths and implemented a range of strategic measures to navigate market challenges, focusing on reform for growth.

Maintaining stability in core business with firm resolve

During the year, the warehousing and multimodal transport segment capitalised on its strengths, sustaining robust operational volumes in railway commodity vehicles business and achieving a notable enhancement in operating performance. The supply chain and logistics services for finished automobiles and components segment faced severe challenges, including declining customer output, business loss caused by cost reduction and service fee reduction in pillar main engine factory. In response, the segment strengthened cost control to retain existing business while actively expanding new opportunities. The material procurement services segment deepened cooperation with high-quality customers, optimised business models, and effectively enhanced profitability. To address the supply chain migration of previous key customers, the supply chain and logistics services for electronic components segment operated through the joint venture intensified efforts to acquire new customers, successfully launching in-vehicle component warehousing and transportation projects, ensuring overall business stability.

全年回顧

回顧2024年，面對外部壓力加大、內部困難增多的複雜嚴峻形勢，中國經濟保持運行總體平穩、穩中有進，新質生產力穩步發展，高質量發展扎實推進。物流行業受複雜的國內國際形勢及地緣政治影響，行業運力及倉儲設施結構性過剩，競爭進一步加劇，物流企業在需求量及服務價格雙降中降本增效，努力保持平穩經營。受上述因素影響，本集團汽車物流及電子零部件物流板塊業績大幅下滑，導致年度整體業績較上年度顯著下降。本集團致力於以高質量黨建引領高質量發展，立足自身資源稟賦，採取了一系列措施應對市場挑戰，聚焦改革謀發展。

穩定主業 保持定力

本年度內，倉儲及多式聯運板塊充分發揮自身優勢，保持鐵路商品車業務操作量高位運行，經營業績顯著改善；汽車整車及零部件供應鏈物流服務板塊面對支柱主機廠客戶產量下降、壓縮成本帶來的業務流失、服務費降低等嚴峻挑戰，加強成本管控以守住存量業務，同時積極拓展增量；物資採購服務板塊加強與優質客戶深度合作，優化業務模式，有效提升盈利空間；通過合營公司運營的電子零部件供應鏈物流服務板塊為應對原重點客戶供應鏈遷移，加大新客拓展力度，成功開發車載部件倉儲運輸項目，實現公司經營整體穩定。

Streamlining, strengthening, and revitalizing existing assets

In recent years, the frozen warehousing market in the Tianjin region has continuously exhibited a severe oversupply, with intense market competition and constantly shrinking profit margins. Against this background, in 2024, the Group, after careful deliberation, successfully completed the disposal of equity interest in its joint venture, Tedahang Cold Chain Logistics Co., Ltd. Although the Group has consequently withdrawn from the Tianjin regional frozen warehousing market, the Group will continue to monitor opportunities in the development of the cold chain logistics industry. In addition, progress has also been achieved in divestments of its associates, Tianjin Ferroalloy Exchange Co., Ltd. (天津鐵合金交易所有限公司) and Tianjin Port Gangwan International Automobile Logistics Co., Ltd. These actions are of great significance for optimising our Group's resource allocation, focusing on its core business, and enhancing overall competitiveness.

Deeply tapping resources to plan for growth

To counteract the competitive pressure on traditional major businesses and support the Company's future high-quality development, the Company has engaged external professional teams to drive transformation and development initiatives while identifying new business growth opportunities. In consideration of various factors, the Company has actively explored adjustments to the construction plan for the Teda Industrial Park of Green and Intelligent Logistics Supply Chain (泰達綠色智慧物流供應鏈產業園) project to promptly adapt to evolving market conditions.

Optimising governance and controlling risks

The Group has optimised its organizational structure by establishing a warehousing and multimodal transportation center, gathering talent and resources to enhance business expansion efforts. Management expenses have been continuously reduced, with a firm commitment to achieving annual cost reduction targets through strict budget planning and process management. Additionally, the Company has actively fulfilled its primary responsibilities for safety, fire prevention, and emergency response, ensuring that no major production safety incidents or unexpected events occurred throughout the year.

瘦身健體 盤活存量

近年來，天津地區冷凍倉庫市場持續呈現出嚴重過剩態勢，市場競爭激烈、盈利空間不斷壓縮。在此背景下，2024年本集團經過審慎權衡，順利完成合營公司泰達行(天津)冷鏈物流有限公司的股權對外轉讓。儘管本集團因此退出了天津區域冷凍倉儲市場的佈局，本集團仍將持續關注冷鏈物流產業的發展機會。此外，聯營公司天津鐵合金交易所有限公司及天津港港灣國際汽車物流有限公司清退工作取得進展。以上行動，對於優化本集團資源配置、聚焦核心業務、提升整體競爭力具有重要意義。

深挖資源 謀劃增量

為應對傳統主業競爭壓力，支撐公司未來高質量發展，公司依託外部專業團隊支持，謀劃推進轉型發展、尋找新增業務增長點。綜合考慮各種因素，積極研究泰達綠色智慧物流供應鏈產業園項目建設方案調整，及時適應市場變化。

優化治理 防控風險

本集團優化組織結構，組建倉儲及多式聯運中心，集中人才和資源，形成業務拓展合力。持續壓降管理費用，堅決錨定年度壓降目標，嚴格預算編製和過程管理。積極落實安全消防應急主體責任，全年無重大安全生產事故和突發事件。

PROSPECT AND VISION

Looking ahead to 2025, the international economic landscape is becoming increasingly complex and challenging, while the domestic economic development faces numerous uncertainties and shocks. However, the fundamental trend of long-term economic growth remains unchanged. The Group will remain confident, fully leverage its internal and external resources, seize opportunities, proactively respond to challenges, continuously enhance its independent operational capabilities and core competitiveness, and strive to achieve stable and sound overall operations.

Enhancing the quality and efficiency of traditional major businesses

The Group will focus on the core logistics business to improve the profitability of existing business. The warehouse and multimodal transport services segment will strengthen the marketing of core assets to continuously enhance the profitability of self-owned logistics assets. Aligning with the national “Belt and Road” initiative, the Group will proactively integrate into regional “Port-Industry-City” development strategies and enhance business operations and customer service levels. The supply chain and logistics services for finished automobiles and components segment will continue to drive operational improvements by closely tracking the transformation trends of main engine plants customers, streamlining operations, reducing costs, and maximising internal potential while expanding logistics services for other automotive brands. The materials procurement services segment will continue to strictly control risks, optimise customer structure and enhance profitability. The supply chain and logistics services for electronic components segment operated through the joint venture will continue to optimise management efforts and enhance investment returns.

Establishing new growth drivers

The Group will closely follow national policies to develop new-quality productive forces in logistics. By fully leveraging the resources of shareholders, industry associations, and external professional institutions, it will focus on the core business and upstream and downstream segments of the industry to identify new growth opportunities and drive the Company's transformation.

前景與展望

展望2025年，國際經濟形勢更趨複雜嚴峻，國內經濟發展面臨許多不確定性和衝擊，但經濟長期向好的基本趨勢沒有改變。本集團亦將堅定信心，充分利用內外資源稟賦，搶抓機遇，積極應對挑戰，持續強化自主經營能力以及核心競爭力，努力實現本集團整體穩健經營。

緊跟國家政策，佈局物流新質生產力。充分利用股東、行業協會和外部專業機構資源，聚焦主業及產業上下游新質生產力方向，謀劃新增長點，推動本公司轉型。

In 2025, the Group will forge ahead with determination, focusing on its core business operations, continuously strengthening its market core competitiveness, and advancing high-quality development!

MANAGEMENT DISCUSSION AND ANALYSIS

管理層討論與分析

BUSINESS HIGHLIGHTS

During the Year, the principal businesses of the Group include supply chain and logistics services for finished automobiles and components (provision of storage, transportation and import agency services for finished automobiles and components to customers), accounting for 30.4% of the operating income; material procurement services (purchases of raw materials from manufacturing enterprises and sales to customers), accounting for 68.2% of the operating income; warehousing and multimodal transport business (provision of warehouse, storage, supervision, agency and transportation and related services to customers), accounting for 1.1% of the operating income; and other services (provision of lease, management and other related services) accounting for 0.3% of the operating revenue.

In addition, the Group operates supply chain and logistics services for electronic components through the joint venture and derives investment income therefrom.

Supply Chain and Logistics Services for Finished Automobiles and Components

During the reporting period, the operating income of supply chain and logistics services for finished automobiles and components of the Group amounted to approximately RMB1,126,897,000, representing a decrease of RMB95,161,000 or 7.79% as compared with the corresponding period of last year, while the operating results amounted to approximately RMB618,000, representing a decrease of RMB17,812,000 or 96.65% as compared with the corresponding period of last year. The decrease in operating results was because under the intensified market competition, the operating income and operating results of Fengtian Logistics have decreased as its business has declined due to a reduction in the production by customers and a decrease in the service price for imported vehicles, coupled with the payment of economic compensation for optimization of personnel structure throughout the year.

Materials Procurement Services

During the reporting period, the operating income from the materials procurement services of the Group amounted to approximately RMB2,529,052,000, representing an increase of RMB179,173,000 or 7.62% as compared with the corresponding period of last year, while the operating results amounted to approximately RMB377,000, representing a decrease of RMB3,148,000 or 89.30% as compared with the corresponding period of last year. The decrease in operating results was mainly due to an increase in sales expenses as the Company sought to expand its customer base.

Warehouse and Multimodal Transport Business Services

During the reporting period, the Group's warehouse and multimodal transport business services recorded an operating income of approximately RMB41,718,000, representing a decrease of RMB21,267,000 or 33.77% as compared with the corresponding period of last year, while the operating results amounted to approximately RMB1,553,000, representing an increase of RMB875,000 or 129.06% as compared with the corresponding period of last year. The decrease in operating income was mainly attributable to the Company's downsizing of its low profit margin business as a result of intensified market competition. The increase in operating results was mainly due to an increase in the operational volumes and proportion of the railway commercial vehicle business with higher profit margins.

Other Services

During the reporting period, other businesses of the Group recorded an operating income of approximately RMB12,690,000, representing a decrease of RMB2,318,000 or 15.45% as compared with the corresponding period of last year, while the operating results were approximately RMB-7,003,000, representing losses increased by approximately RMB6,351,000 or 974.08% as compared with the corresponding period of last year. The decrease in operating income and operating results of other services is mainly attributable to the decline in income from the Group's operating rental properties.

其他服務

報告期內，本集團其他業務營業收入約人民幣12,690,000元，較上年同期減少人民幣2,318,000元，降幅15.45%；營業業績約為人民幣-7,003,000元，較上年同期增虧人民幣約6,351,000元，降幅為974.08%。其他業務營業收入及營業業績下降的主要因為本集團經營性出租物業收入下降。

Supply Chain and Logistics Services for Electronic Components (Operated Through Joint Ventures)

Reporting Boundary

Adopting the operational control approach and adhering to the Materiality Principle, the Group includes in the Report its major business contributing to the majority of its annual revenue or businesses of which the Group held more than 50% shareholding and operated throughout the year. Since the equity interest in Tedahang Cold Chain Logistics Co., Ltd., which mainly engages in cold chain logistics services, has been disposed of through public tender and has not been operated by the Group throughout the year, the cold chain logistics services business is not included in the Report. Believing that the following major operations will cause relatively material social and environmental impacts that concern its stakeholders, the Group decided to disclose the following operating businesses in the Report:

- Supply chain and logistics service for finished automobiles and components (provision of storage, transportation and import agency services for finished automobiles and components to customers).
- Materials procurement services (purchases of raw materials from manufacturing enterprises and sales to customers).
- Warehousing and multimodal transport business (provision of warehouse, storage, supervision, agency and transportation and related services to customers).
- Other services (provision of lease, management and other related services).
- 汽車整車及零部件供應鏈物流服務－即為客戶提供汽車整車及零部件的存儲、運輸及進口代理等服務。
- 物資採購服務－即向生產企業採購原材料並銷售給客戶。

The Working Group is required to hold a meeting at least once a year to assess the effectiveness of existing policies and procedures and develop appropriate solutions to improve the overall performance of ESG policies. It is also required to report its results, decisions and recommendations to the Board at least once a year.

Management Approach and Strategy

Risk management is an essential part in ESG issues, especially for those risks related to climate change and environmental regulations established by the government. Committed to integrating its ESG management approach into enterprise risk management system, the Group has carefully studied and implemented the measures and emergency plans built by local governments, aiming to better identify and address any potential, unknown or actual risks.

To identify and better understand the Group’s ESG-related risks, as well as the latest update on ESG laws and regulations that may have significant impact on the Group’s business, the Board maintains stable connection with the authorities, engages external experts and holds regular communication with internal advisory groups to ensure that important data is shared and passed around the organization. Meanwhile, when setting up and deciding the long-term development strategy for its business, the Group is particularly concerned and prioritized considerations including the government support, requirements and restrictions on the logistics industry, market environment for its main business segments, and most importantly, the environmental impacts caused during the logistics operations. In addition, the Group also integrates the concerns and interests of stakeholders reflected in the result of its materiality assessment, when creating, reviewing and modifying its strategy to ensure a comprehensive and balanced business plan that is inclusive of opinions from different perspectives.

本集團已成立環境、社會及管治工作小組(「工作小組」)負責執行具體環境、社會及管治事項。工作小組各個成員分工明確，負責各個業務單元的環境、社會及管治工作的執行、監督及控制。工作小組與獨立第三方合作，負責收集和分析環境、社會及管治數據、監測和評估各業務單元的環境、社會及管治表現、跟進及校對各業務單元環境、社會及管治相關目標的進度、確保遵守環境、社會及管治相關法律法規、協助開展重要性評估，以及協助編製本報告。工作小組需每年至少安排一次會議，評估現行政策和程序的有效性，並制定適當的解決方案，以提高環境、社會及管治政策的整體績效。工作小組亦需每年至少一次向董事會匯報其工作成果、決定及建議。

Goals and Targets

To steadily advance various tasks and stay in line with the overall planning of the regional and national units, the Group formulates long-term plans attentively in undertaking its corporate social responsibilities. Recognizing that energy consumption, including but not limited to the fossil fuels consumed for vehicle transportation and electricity consumed for warehouse storage, is one of the most significant environmental impacts of the logistics industry, the Group is dedicated to control its energy consumption per thousand square meter, while reducing the dependence of business operation on resources consumption.

The Group sets internal ESG KPIs to reduce its negative environmental impacts to the greatest extent. In particular, KPIs include the electricity consumption per thousand square meter and the fuel consumption per thousand square meter etc. These KPIs are reviewed and monitored by the Board through the supervision and the regular report of the Management, while they are also disclosed in the annual ESG report of the Group to let its stakeholders scrutinize the performance and progress of the Group.

Message from the Board

Dear valued stakeholders,

The Board has taken up an overall responsibility for all relevant ESG issues of the Group and has also delegated a working team to be responsible for implementing the ESG-related issues and works.

Building smart industries

The Group maintains its stable communication with suppliers by signing memorandums, using digital tools and other means. We will also endeavor to overcome all operational difficulties in order to cater and maintain our service reliability. In addition to the exploration of alternative logistics solutions including the sea-rail combined transportation, we have also been enhancing our support to the subsidiaries in developing new businesses and building new facilities and upgrading to intelligent transformation.

目的及目標

為穩步推進各項工作並與地區及國家總體規劃保持一致，本集團在履行企業社會責任方面認真制定了長遠規劃。意識到能源消耗(包括但不限於車輛運輸所消耗的化石燃料及倉儲所消耗的電力)乃物流業最重要的環境影響因素之一，本集團致力於控制其每千平方米的能源消耗，同時減少業務對資源消耗的依賴性。

本集團設定內部環境、社會及管治的關鍵績效指標，以最大程度減少對環境的負面影響。具體而言，關鍵績效指標包括每千平方米用電量及每千平方米燃料消耗等。該等關鍵績效指標由董事會通過監督及管理層定期報告進行審查和監控，彼等亦於本集團的年度環境、社會及管治報告中披露，以使其利益相關者審視本集團的表現及進展。

本集團通過簽訂備忘錄及利用數字工具等方式保持與供貨商穩定溝通。我們亦會努力克服所有營運方面的困難，務求達到並維持我們服務的可靠性。除於其他物流解決方案(海鐵聯運)的探索外，我們亦加大支持附屬公司新業務的開拓及新設施的建設，向智能化轉型升級。

Offering green services

We have closely linked our development targets in seeking sustainability with the ambitious national “30-60 Dual Carbon Target”. We are improving energy efficiency in the field of logistics by increasing the proportion of new energy operational vehicles. We keep exploring the opportunities to adopt renewable fuels in order to continuously improve the energy consumption rate and reduce the carbon emissions so as to minimize environmental impacts. For more efficient assessment of environmental performance and review of the effectiveness of policies, we have set quantitative environmental targets and regularly evaluate their progress to specify phased improvement measures.

Creating sustainable future

With the introduction of national policies aimed at reducing logistics costs and improving logistics efficiency, the transformation and upgrading of logistics services have accelerated, putting forward higher requirements for logistics development. The Group will prioritize high-quality development as its primary goal, with a focus on operational excellence. It will strengthen its core businesses, while driving cost reduction and efficiency improvement. The Group will guide the logistics services segment toward refined management and leverage its existing business experience to establish a strong presence in the Binhai New Area, serving the manufacturing industry and the industrial chain. Furthermore, we will actively cultivate smart warehousing logistics, park management, and smart supply chain management services. The Group will continue to move forward with confidence, strategically position itself, and advance high-quality and sustainable development.

Last but not least, I would like to take this opportunity to express sincere gratitude to all staff members, business partners and other stakeholders for their dedication and ongoing support to the Group in its ongoing transition towards sustainable development.

Air and GHG Emissions

The exhaust gas generated by the Group included SO_x, NO_x and PM, mainly from the fuel consumption of vehicles used for transportation purposes and the fuel consumption of forklifts in workplaces. In 2024, the Group's total air emissions decreased compared to 2023.

The Group's GHG emissions mainly came from the diesel and gasoline consumption of automobiles and forklifts, natural gas consumption for heating (Scope 1), purchased electricity and steam consumption (Scope 2), waste paper landfills and business air travel (Scope 3). The total GHG emissions of the Group decreased by about 54% as compared with 2023. In response to the national "30-60 Dual Carbon Target" and in order to achieve internal environmental targets, the Group is dedicated to monitoring and controlling its direct emissions from vehicle use for transportation through relevant approaches, including but not limited to avoid unnecessary transportation by utilizing appropriate logistical planning, arranging transportation time schedule, maximizing loading rates and transportation efficiency; adopt more environmentally smart transportation modes and develop new transportation combinations in support of the reformation of emission reduction standards and fuel efficiency standards; and improve and develop innovative technologies for transportation such as more efficient alternative energy sources and upgraded modern fleet.

Further, drivers are encouraged and required to maintain good driving habits, including turning off idling engines when stopping and not rushing to brake and accelerate, so as to reduce fuel loss, thereby lowering air emissions. Drivers are also required to ensure all vehicles are in good conditions in order to improve energy efficiency and reduce fuel consumption. Other measures to save electricity and heat energy will be further explained in the section headed "Use of Resources". In order to reduce GHG emissions from business travel, the Group advised its employees to reduce unnecessary business air travel and work together through online communication software as much as possible.

廢氣及溫室氣體排放

本集團產生的廢氣包括硫氧化物、氮氧化物及顆粒物，主要來自用於運輸目的之汽車燃料消耗及作業場所內叉車的燃料消耗。於2024年，本集團的廢氣排放總量較2023年有所下降。

本集團的溫室氣體排放主要來自汽車及叉車的柴油及汽油消耗以及用於供暖之天然氣消耗(範圍1)、外購電力及蒸汽消耗(範圍2)，以及廢紙填埋及商務航空旅行(範圍3)。本集團溫室氣體排放總量較2023年減少約54%。為響應國家30-60雙碳目標及實現內部環境目標，本集團致力透過相關方法以監測及控制其運輸車輛所產生的直接排放，包括但不限於合理規劃物流、安排運輸時間並儘量提高裝載率及運輸效益，以避免不必要的運輸；採用更加環保智能的運輸方式，開發新的運輸組合，支持減排標準及燃油效率標準的改革；以及改進及開發創新的運輸技術，例如更高效的替代能源和升級的現代化車隊。

此外，本集團鼓勵並要求駕駛員保持良好的駕駛習慣，包括在停車時關閉空轉引擎、不急剎車和急加速，以減少燃料損耗，從而降低空氣污染物排放量。駕駛員亦需要確保所有車輛處於良好狀態，以提高能源效益，並減少燃料消耗。其他有關節約電力與熱能的措施將於「資源使用」一節中進一步說明。為減少差旅產生的溫室氣體排放，本集團建議其員工減少不必要的商務航空差旅，儘量通過在線通訊軟件協同工作。

Wastewater and Solid Waste

The wastewater discharged by the Group mainly included household sewage generated from daily operations, and no large amount of hazardous wastewater was discharged. In 2024, the wastewater discharge of the Group decreased by approximately 44% compared with 2023.

To better manage its wastewater and prevent the contamination of natural water bodies from its potential leakage, the Group installs professional containers for grease separation and storage. Meanwhile, a professional agency that is approved by the local environmental protection bureau is appointed for examining and supporting sewage treatment on an annual basis, thus minimizing the Group's environmental impact. The Group has also taken effective measures to reduce water consumption in daily operations, the details are further explained in the section headed "Use of Resources".

The solid waste generated by the Group was mainly general household waste and a small amount of hazardous solid waste generated from daily operations. In 2024, the discharge of both non-hazardous and hazardous waste of the Group decreased as compared to 2023. The non-hazardous waste generated by the Group was collected and disposed of by a professional third party after classification. Meanwhile, the hazardous waste arose from operation was properly handled according to the Group's internal procedure, and qualified third parties were assigned for collection and disposal. In realizing its targets, the Group embraces the concept of "3R Principle – Reduce, Reuse and Recycle" and actively instills the recycling principle into its daily operations.

廢水及固體廢棄物

本集團排放的廢水主要包括日常營運產生的生活污水，並無排放大量危險廢水。於2024年，本集團的廢水排放量較2023年下降約44%。

為了更好地管理廢水並防止潛在滲漏導致自然水體受到污染，本集團安裝專業的油脂分離及儲存容器。同時，本集團每年委託經地方環保局認可的專業機構進行檢查及支持污水處理，從而將本集團對環境的影響降至最低。本集團亦已採取有效措施降低日常營運的用水量，具體內容於「資源使用」一節中進一步說明。

本集團產生的固體廢棄物主要為日常營運產生的一般生活垃圾及少量有害固體廢棄物。於2024年，本集團的無害廢棄物較2023年有所減少，且有害廢棄物排放量較2023年也有所減少。本集團產生的無害廢棄物經分類後由專業的第三方收集處理。同時，營運產生的有害廢棄物亦已按本集團內部程序進行妥善處理並指定合資格第三方進行收集及處置。在達致其目標過程中，本集團秉持「3R原則－減廢、再用及回收」，積極將循環利用原則融入其日常營運中。

Noise

In 2024, the noise of the business activities of the Group were mainly from the operations of machinery in the warehouse operating zone, vehicle transportation and loading and unloading practices, as well as other engineering construction sources. Geared toward lowering its noise impacts, the Group establishes internal policies and assigns dedicated personnel to carry out daily inspections of the equipment, in order to spot and repair any irregularities timely. Meanwhile, the Group also installs noise barriers and explosion-proof doors as well as windows between the refrigerating station and the control room in accordance with the “Law of the People’s Republic of China on Prevention and Control of Pollution from Environmental Noise” (《中華人民共和國環境噪聲污染防治法》) and other relevant national regulations.

Use of Resources

To effectively manage resource consumption, the Group has established and monitored reasonable KPIs to regulate procurement behavior and resource consumption, so as to continuously improve the efficiency of resource use.

In 2024, the primary resources consumed by the Group were diesel, gasoline, natural gas, electricity, steam, water, packaging materials and paper. The Group’s total use of resources by category is set out as follows:

噪音

於2024年，本集團業務活動的噪音主要來自倉庫作業區的機械設備、車輛運輸及裝卸作業以及其他工程施工源。為降低噪音影響，本集團制定內部政策並指派專人對設備進行日常檢查，以排查異常並及時進行維修。同時，本集團亦根據《中華人民共和國環境噪聲污染防治法》及國家其他相關法規在製冷站與控制室之間安裝隔音屏障及防爆門窗。

資源使用

為有效管理資源消耗，本集團通過制定及監測合理的關鍵績效指標，規範採購行為及資源消耗，從而不斷提高資源使用效率。

於2024年，本集團所消耗的主要資源為柴油、汽油、電力、蒸汽、水及紙張。本集團按類別劃分的資源總用量載列如下：

Notes:

6. Direct energy consumption data has been converted into MWh based on the “Energy Statistics Manual” (《能源統計手冊》) issued by the International Energy Agency. In 2024, the diesel consumption was approximately 682,754.9 L (2023: approximately 1,198,010.9 L), the gasoline consumption was approximately 46,456.4 L (2023: approximately 75,981.2 L), and the natural gas consumption was 0 m³ (2023: approximately 16,980.0 m³).
7. The data of steam consumption has been converted into MWh in accordance with the “General Guideline of the Greenhouse Gas Emissions Accounting and Reporting for Enterprises – Power Generating Equipment” (《企業溫室氣體排放核算方法與報告指南－發電設施》) and the “Energy Statistics Manual” (《能源統計手冊》) published by the International Energy Agency. In 2024, the steam consumption was approximately 1,214 tonnes (2023: approximately 1,577 tonnes).

Direct energy

The Group mainly uses gasoline and diesel for vehicle transportation and loading and unloading practices, while natural gas is used for heating in daily operations. Due to the decrease in operating sites and transportation services, the diesel, gasoline and natural gas consumption decreased in 2024 as compared to 2023. To better monitor and control its energy consumption performance, the Group will put more focus on the sustainable solutions by upgrading its vehicle fleet in terms of energy efficiency improvement and grasping any opportunities for the use of renewable energy sources and the wide application of electric vehicles.

附註：

6. 直接能源消耗數據乃按國際能源署發佈的《能源統計手冊》為依據換算為兆瓦時。於2024年，柴油的消耗量約為682,754.9公升(2023年：約為1,198,010.9公升)，汽油的消耗量約為46,456.4公升(2023年：約為75,981.2公升)，以及天然氣的消耗量為0立方米(2023年：約為16,980.0立方米)。
7. 蒸汽消耗數據乃按《企業溫室氣體排放核算方法與報告指南－發電設施》及國際能源署發佈的《能源統計手冊》為依據換算為兆瓦時。於2024年，蒸汽的消耗量約為1,214噸(2023年：約為1,577噸)。

直接能源

本集團主要使用汽油及柴油作車輛運輸及裝卸作業用途，而天然氣則用於日常營運供暖。由於運營點及運輸業務的減少，本集團於2024年的柴油、汽油及天然氣消耗量較2023年減少。為更好地監測及控制其能耗表現，本集團將提升其車隊車輛的能源效益，並抓住使用可再生能源及廣泛應用電動汽車的機遇，將更多精力放在可持續發展解決方案。

Electricity

The Group's consumption of electricity mainly comes from the daily operation of warehouses. In 2024, the electricity consumption of the Group decreased as compared to 2023, which was mainly due to the fact that the Company had disposed of Tedahang Cold Chain Logistics Co., Ltd., which consumed more electricity, and conducted refined management. Geared toward lowering the electricity consumption and bettering the performance in decarbonization, the Group improved the rules and regulations and formulated specific measures for energy saving and consumption reduction for equipment in office zone, including but not limited to fully utilize the natural light whenever applicable; switch off all idling electricity appliances including lights and air conditioners; maintain and replace the equipment regularly to improve the performance of equipment; replace power-intensive lightings by energy efficient LED lights; encourage employees to adopt natural ventilation or ventilation fans for areas instead of air-conditioning when applicable; and actively introduce new technology for energy saving, explore the feasibility on the use of renewable energy in operations. The Group requires all of its subsidiaries to stringently comply with the energy saving policy.

電力

本集團的用電量主要用於倉庫的日常營運。於2024年，本集團的用電量較2023年減少，主要因為公司出售了用電量較多的泰達行(天津)冷鏈物流有限公司，並實施精細化管理。為降低耗電量並改善低碳表現，本集團已完善規章制度並制定辦公區域設備節能降耗具體措施，包括但不限於在適用情況下充分利用自然光；關閉所有閒置電器設備(包括電燈及空調)對設備定期維護保養和校驗更換，提高設備效能，用節能的LED燈取代高功率照明，鼓勵員工在適用情況下以自然通風或換氣扇代替空調，以及積極引入節能新技術，探索在業務中使用可再生能源的可行性。本集團要求其所有附屬公司嚴格遵守節能政策。

Steam

The steam consumption of the Group is mainly used for indoor heating in winter. In 2024, the steam consumption of the Group has decreased as compared to 2023, which was due to less demand for heating. The Group has implemented relevant measures to reduce steam consumption, including but not limited to clean heating radiator to increase its heat efficiency and repair heating pipes to save energy and reduce consumption.

Water

The Group's main sources of water consumption are the daily operation and living. Based on the geographical location of the Group's operation scope, the Group's water is sourced from municipal water supply, and did not experience any difficulty in obtaining suitable water source in 2024. The consumption of water in 2024 decreased as compared to 2023. Following its internal policies, the Group provides water awareness training to its employees and accesses the conservation performance among employees regularly. The Group also posted signs in prominent places to disseminate water saving concept throughout the organization.

Packaging materials

In 2024, no packaging materials were used by the Group due to the disposal of equity interest in Tedahang Cold Chain Logistics Co., Ltd.. Although the Group did not consume packaging materials in 2024, it is possible to use packaging materials in the future, so the Group still has the responsibility to be conscious about the use of packaging materials. As such, the Group will continue to research and apply alternative packaging materials made of recyclable content, striving to minimize its environmental footprint to the largest extent.

蒸汽

本集團的蒸汽消耗主要用於冬季室內供暖。於2024年，本集團的蒸汽使用量較2023年減少，乃因為供暖需求減少。本集團已實施相關措施以減少蒸汽消耗，包括但不限於清洗暖氣片，加大暖氣片熱效率，以及維修暖氣管路，節能降耗。

水

本集團主要耗水來源為日常經營及生活。基於本集團作業範圍的地理位置，於2024年，本集團用水均來源於市政供水，就求取適用水源上沒有任何問題。於2024年，本集團的用水量較2023年有所下降。根據其內部政策，本集團為其員工提供用水意識培訓，並定期評估員工的節水表現。本集團亦在顯眼位置張貼標誌，以於整個組織宣傳節水理念。

包裝材料

於2024年，由於泰達行(天津)冷鏈物流有限公司的股權已被出售，本集團沒有使用包裝材料。儘管本集團於2024年並未消耗包裝材料，但在未來仍有可能使用包裝材料，所以本集團依然有責任重視包裝材料的環境危害。因此，本集團將繼續研究及應用由可回收材料製成的替代包裝材料，努力將環境足跡減至最低。

Paper

Paper was mostly used in the Group for its administrative work. In 2024, the amount of paper consumed by the Group decreased as compared to 2023. To keep up its effort in driving down the consumption of paper and other paper-made products, the Group rents more energy-efficient printing equipment, promotes a paperless office and continues to implement a series of effective internal measures to regulate its employees' practices and business operations, including but not limited to set double-side printing as the default mode of the printers, collect single-sided paper for reuse and recycling, and improve the utilization rate of platforms such as corporate mailboxes, and collaborative workspace applications, enhance employees' awareness of conservation and environmental protection.

The Environment and Natural Resources

As a leading logistics group that moves goods across countries and provides a wide range of logistics solutions and services, the Group deeply understands its impact on the environment. Throughout the organization, employees are encouraged to follow the Group's sustainability strategies and reminded to achieve its environmental targets. The Group believes that behavioural change starts with knowledge, and thus it equips its employees who play a key role in daily business actions with internal programmes to advance their environmental awareness and encourage them to make continuous changes. The Group is accredited with ISO 14001 Environmental Management System certification.

According to the analysis of its business practices, the relatively significant environmental impacts of the Group were mainly the air and GHG emissions arose from the consumption of fossil fuels and electricity during operations in 2024. In light of these, the Group is determined to control its procurement process of vehicles to ensure that the priority can be given to the products with better environmental performance. Meanwhile, the Group has also been active in exploring the possibility of tapping into the application of renewable energy and acquiring vehicles fuelled by cleaner new energy instead of fossil fuels.

紙張

紙張主要用於本集團的行政工作。於2024年，本集團的紙張消耗量較2023年下降。為持續致力於減少消耗紙張及其他紙製品，本集團租用更加高效節能的打印設備，提倡無紙化辦公，並繼續實施一系列有效的內部措施以規範僱員的工作方式及業務營運，包括但不限於將雙面打印設置為打印機的默認模式，收集單面紙以便重複使用和回收，以及提高企業郵箱、協同辦公應用程序等平台的利用率，增強僱員對節約環保的意識。

環境及天然資源

作為在全球各地運輸貨物並提供廣泛物流解決方案和服務的領先物流集團，本集團深知其對環境的影響。本集團鼓勵全體員工遵循其可持續發展戰略，並提醒彼等實現其環保目標。本集團相信行為改變始於知識，故透過內部計劃培訓其於日常業務營運中發揮關鍵作用的員工，以提升彼等的環保意識並鼓勵彼等不斷做出改變。本集團已通過ISO 14001環境管理體系認證。

根據業務實踐分析，本集團在2024年對環境較大的影響主要為營運期間消耗化石燃料及電力而產生的廢氣及溫室氣體排放。因此，本集團決定控制其車輛的採購過程，確保優先採購環保性能更好的產品。同時，本集團亦積極探索應用可再生能源的可能性，並購置以較潔淨的新能源替代化石燃料的車輛。

The Group resolutely puts an end to extravagance and waste, makes full use of the official website and other publicity media to disseminate public service advertisements, and vigorously advocates the concept of cherishing food. The Group has also established an implementation mechanism for anti-food waste and food conservation, using scientific and technological means to strengthen supervision and inspection, and makes prompt reminders when problems are found.

Climate Change

As the impact of climate change gradually emerges, it has become an urgent need and common expectation of all countries to reduce carbon emissions. In support of the national carbon goal and in response to the gradually increasing demand from investors and the wider society, the Group has formulated the “Climate Change Policy” (《氣候變化政策》), and also integrated climate change into its internal controls and enterprise risk management procedure. The Group made a view of different climate scenarios and transition pathways, and identified several physical and transition risks related to its business that may cause significant impact according to the international recommendations of the Task Force on Climate-related Financial Disclosures.

本集團堅決杜絕鋪張浪費，充分利用官方網站等宣傳媒體傳播公益廣告，大力提倡愛惜糧食的理念。本集團亦建立反食品浪費與糧食節約減損工作落實機制，利用科技手段加強監督檢查力度，發現問題及時提醒。

氣候變化

隨著氣候變化帶來的影響逐漸顯現，減少碳排放成為各個國家的迫切需求和共同期待。為支持國家碳排放目標，並響應投資者和廣大社會日益增長的需求，本集團已制定《氣候變化政策》，亦已把氣候變化融入其內部控制和企業風險管理程序。本集團根據氣候相關財務信息披露工作小組(Task Force on Climate-related Financial Disclosures)的國際建議，審視不同氣候情況及變化路徑，並確定可能產生重大影響且有關其業務的若干氣候實體風險與轉型風險。

Physical risks

The increase in frequency of extreme weather events such as typhoons, rainstorms and floods caused by heavy rainfall, may significantly affect the land transportation and other traffic conditions, and subsequently the Group's supply chain and operation safety. In response to the above risks, the Group has formulated the "Emergency Management Measures" (《應急管理辦法》), organized the formulation of emergency response plans, and provided its management and drivers comprehensive training regularly on how to cope with emergencies and protect its personal and property safety and also pay close attention to the early warning notices issued by government meteorological departments and emergency management departments for extreme weather events and make corresponding business adjustments in coordination with them. The Group has also purchased insurance for its staff and assets to minimize or avoid property damage in the event of extreme weather affecting the Group's premises. Meanwhile, the Group maintains close communications with customers to ensure flexible and resilient transport solutions when Group's supply chain is affected.

Transition risks

Regulations and laws on environmental protection are also becoming more stringent. The PRC government has made a commitment to achieve carbon emission peak by 2030 and carbon neutral by 2060. The Group may be subject to the mandatory disclosure of its full scope of carbon emissions. In addition, the enactment of carbon pricing or carbon tax may also lead to the rise in price of raw materials or the replacement of more expensive alternatives. As these transition risks are potentially going to cause increasing operating cost and lower revenue, the Group is aware of the significance and urgency to pay particular attention decarbonizing its operations and to grasp the opportunity to master some new low-carbon technologies which can greatly enhance its competitive advantage and industry leading position. The Group has set energy saving and emission reduction targets in accordance with relevant national programs and implemented corresponding measures to reduce greenhouse gas emissions, integrating the transformation targets into its ESG strategies.

實體風險

颱風、暴雨和強降雨引起的洪水等極端天氣事件發生頻率的增加可能極大影響陸運等交通狀況，進而影響本集團的供應鏈及營運安全。為應對以上風險，本集團已制定《應急管理辦法》，組織開展應急預案編製工作，定期為其管理層及司機提供全面培訓，讓彼等瞭解如何應對緊急情況，保護人身財產安全，並積極關注政府氣象部門及應急管理部門針對極端天氣事件的預警通知，並配合其做相應業務調整。本集團亦已為其員工及資產購置保險，以在極端天氣影響本集團經營場所時減少或避免財產損失。同時，本集團與客戶保持密切溝通，以確保在供應鏈受到影響時提供靈活彈性的運輸解決方案。

轉型風險

對環境保護的監管與法律也越來越嚴格。中國政府已經承諾於2030年碳達峰，2060年碳中和。本集團可能須遵守強制披露其全範圍碳排放的規定。此外，碳定價或碳稅行動亦可能導致原材料價格上升或以更昂貴的替代品代替。由於這些轉型風險可能導致營運成本增加和收入下降，本集團意識到低碳營運並抓住機會掌握一些新型低碳技術的重要性及緊迫性，此將大大提升其競爭優勢和行業領先地位。本集團根據國家相關的計劃制定了節能減排目標，並實施相應措施以減少溫室氣體排放量，將轉型目標融入其環境、社會及管制策略中。

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

關鍵審計事項

關鍵審計事項是根據我們的專業判斷，為我們對本期合併財務報表的審計最為重要的事項。我們於審計合併財務報表（作為整體）及就此達致意見時處理該等事項，而不會就該等事項單獨作出意見。

Key audit matter	How our audit addressed the key audit matter
<p>Impairment assessment of trade, bills and other receivables</p> <p>Refer to note 4.1(b) and note 18 to the consolidated financial statements</p> <p>As at 31 December 2024, the Group had net trade, bills and other receivables of RMB563,435,000 (2023: RMB482,087,000) and aggregated provision for impairment of approximately RMB295,702,000 (2023: RMB298,993,000).</p> <p>In general, the credit terms granted by the Group to the customers ranged between 30 to 180 days. Management applied judgement in assessing the expected credit losses (“ECL”). Receivables with known financial difficulties or significant doubt on collection are assessed individually for provision for impairment allowance. ECL are also estimated by grouping the remaining trade, bills and other receivables based on shared credit risk characteristics and collectively assessed for likelihood of recovery, taking into account the nature of the customer, its business and its ageing category, and applying expected credit loss rates to the respective gross carrying amounts of the trade, bills and other receivables. The ECL rates are determined based on historical credit losses experienced and are adjusted to reflect current and forward-looking information such as macroeconomic factors affecting the ability of the customers to settle the trade, bills and other receivables.</p> <p>We focused on this area due to the impairment assessment of trade, bills and other receivables under the expected credit losses model involved the use of significant management judgements and estimates.</p>	<p>Our procedures in relation to impairment assessment of trade, bills and other receivables included:</p> <ul style="list-style-type: none"> • Understanding the key controls that the Group has implemented to manage and monitor its credit risk; • Checking, on a sample basis, the ageing profile of the trade, bills and other receivables as at 31 December 2024 to the underlying financial records and post year-end settlements to bank receipts; • Inquiring of management for the status of each of the material trade, bills and other receivables past due as at year end and corroborating explanations from management, understanding on-going business relationship with the customers based on trade records, checking historical and subsequent settlement records of and other correspondence with the customers; and • Assessing the appropriateness of the ECL provisioning methodology, examining the key data inputs on a sample basis to assess their accuracy and completeness, and challenging the assumptions, including both historical and forward-looking information, used to determine the expected credit losses. <p>We found that the management judgments and estimates used to assess the recoverability of the trade, bills and other receivables and determine the impairment provision to be supportable by available evidence.</p>

Key audit matter**How our audit addressed the key audit matter****Valuation on the investment properties**

Refer to note 15 to the consolidated financial statements.

As at 31 December 2024, management has estimated the fair value of the Group's investment properties of approximately RMB407,000,000 (2023: approximately RMB412,200,000) with a net loss on fair value changes of approximately RMB5,200,000 (2023: approximately RMB2,183,000) was recognised in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2024.

The valuations are dependent on certain key assumptions that require significant management judgement, including reversionary yield and rental income from future reversion leases in light of current market condition.

Our procedures in relation to management's valuation on the investment properties included:

- assessing the competence, capability, experience, independence and objectivity of the external property valuer;
- evaluating the valuation methodology used by the external property valuer based on our knowledge of the property industry;
- checking, on a sample basis, the tenancy information included in the valuation models, which included committed rents and occupancy rates, with underlying contracts and related documentation; and
- discussing the valuations with the external property valuer and challenging key estimates adopted in the valuations, including those relating to market rents and reversionary yield, by comparing them with historical rates and available market data, taking into consideration comparability and other local market factors.

We found the valuation on the investment properties were supported by the available evidence.

關鍵審計事項

我們的審計如何處理關鍵審計事項

貿易應收款項、應收票據及其他應收款項減值評估

請參閱合併財務報表附註 4.1(b) 及附註 18。

於 2024 年 12 月 31 日，貴集團貿易應收款項、應收票據及其他應收款項淨值總額為人民幣 563,435,000 元 (2023 年：人民幣 482,087,000 元) 其中減值撥備總額約為人民幣 295,702,000 元 (2023 年：人民幣 298,993,000 元)。

一般而言，貴集團授予客戶的信貸期介乎 30 至 180 日。管理層在評估預期信貸虧損(「預期信貸虧損」)時應用判斷。對已知財務困難或對收款構成重大疑慮的應收款項之減值撥備予以個別評估。另外，預期信貸虧損乃透過根據共同信貸風險特徵對其餘貿易應收款項、應收票據及其他應收款項分組而予以估計，並共同評估收回的可能性，當中考慮客戶的性質、其業務及賬齡類別，並對貿易應收款項、應收票據及其他應收款項各自的總賬面值應用預期信貸虧損率。預期信貸虧損率乃根據歷史信貸虧損釐定，並經調整以反映當前及前瞻性資料，例如影響客戶清償貿易應收款項、應收票據及其他應收款項能力的宏觀經濟因素。

我們專注於此範疇乃因預期信貸虧損模式項下的貿易應收款項、應收票據及其他應收款項減值評估涉及運用重大管理層判斷和估計。

投資物業估值

請參閱合併財務報表附註 15。

於 2024 年 12 月 31 日，管理層已估計 貴集團投資物業之公允價值約人民幣 407,000,000 元 (2023 年：約人民幣 412,200,000 元)，公允價值變動虧損淨額約人民幣 5,200,000 元 (2023 年：約人民幣 2,183,000 元) 已於截至 2024 年 12 月 31 日止年度的合併損益及其他全面收益表中確認。

估值取決於需要重大管理層判斷之若干主要假設，包括根據當前市場狀況確定的複歸收益率及未來復歸租賃的租金收入。

我們對貿易應收款項、應收票據及其他應收款項進行減值評估的程序包括：

- 了解貴集團已實施的關鍵控制措施，以管理及監控其信貸風險；
- 抽樣檢查於 2024 年 12 月 31 日有關財務記錄內的貿易應收款項、應收票據及其他應收款項的賬齡情況及年底後的銀行賬戶結算收據；
- 詢問管理層於年底的每份重大貿易應收款項、應收票據及其他應收款項的狀況及佐證管理層提供的解釋，根據交易記錄了解與客戶的持續交易關係、檢查客戶及客戶其他通信往來的過往及其後的結算記錄；及
- 評估預期信貸虧損撥備方法的適當性、按抽樣方式檢視關鍵數據輸入以評估其準確性和完整性、及質疑用於釐定預期信貸虧損的過往及前瞻性資料的假設。

我們發現管理層用以評估貿易應收款項、應收票據及其他應收款項的可收回性及釐定減值撥備作出的判斷及估計有可得證據支持。

管理層對投資物業進行估值的程序包括：

- 評估外部物業估值師之能力、技能、經驗、獨立性及客觀性；
- 基於我們對房地產行業的了解評估外部物業估值師使用的估值方法；
- 將納入估值模型的租賃資料(包括承諾租金及入住率)與相關合約及相關文件進行抽樣核對；及
- 與外部物業估值師討論估值，並經考慮可比較性及其他當地市場因素後，透過將估值採納的主要估計(包括與市場租金及復歸收益率有關的估計)與歷史水平及可得市場數據比較來對該等估計提出挑戰。

我們發現，對投資物業進行的估值乃有據可依。

OTHER MATTER

The consolidated financial statements of the Group for the year ended 31 December 2023 were audited by another auditor who expressed an unmodified opinion on those statements on 18 March 2024.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon ("Other Information").

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

其他事宜

貴集團截至2023年12月31日止年度的合併財務報表已由其他核數師審核，該核數師已於2024年3月18日就該等報表發表無保留意見。

其他資料

董事須對其他資料承擔責任。其他資料包括載於年報的資料，惟不包括合併財務報表及我們的相關核數師報告（「其他資料」）。

我們對合併財務報表作出的意見並無涵蓋其他資料，且我們不會對其他資料發表任何形式的核證結論。

就我們對合併財務報表的審計而言，我們的責任為閱讀其他資料，從而考慮其他資料是否與合併財務報表或我們在審計過程中獲悉的資料存在重大不符，或看似存在重大錯誤陳述。基於我們已執行的工作，如果我們認為其他資料存在重大錯誤陳述，我們需要報告該事實。在這方面，我們沒有任何報告。

董事及審核委員會就合併財務報表須承擔的責任

本公司董事負責根據國際會計準則委員會頒佈的國際財務報告準則會計準則及香港《公司條例》披露規定編製及公平呈列合併財務報表，並負責管理層認為就使合併財務報表的編製不存在由於欺詐或錯誤而導致的重大錯誤陳述而言必要的有關內部控制。

在編製合併財務報表時，董事須負責評估貴集團持續經營的能力，並披露與持續經營有關的事項（如適用）。除非董事擬將貴集團清盤或停止營運，或除此之外並無其他實際可行的辦法，否則須採用以持續經營為基礎的會計法。

審核委員會負責監督貴集團的財務報告流程。

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

核數師就審計合併財務報表須承擔的責任

我們的目標，是對合併財務報表整體是否不存在由於欺詐或錯誤而導致的重大錯誤陳述取得合理保證，並根據我們獲委聘的協定條款出具包括我們意見的核數師報告。我們僅向全體股東報告我們的意見，除此之外本報告別無其他目的。我們概不就本報告的內容對任何其他人士負責或承擔任何責任。合理保證是高水平的保證，惟並不保證按照國際審計準則進行的審計，在某一重大錯誤陳述存在時總能發現。錯誤陳述可因欺詐或錯誤產生，如果合理預期他們單獨或匯總起來可能影響合併財務報表使用者，依賴該等合併財務報表作出的經濟決定時，則有關的錯誤陳述可被視為重大。

作為根據國際審計準則進行審計工作的一部分，我們運用專業判斷並在整個審計過程中保持專業懷疑態度。我們亦：

- 識別及評估由於欺詐或錯誤而導致合併財務報表存在重大錯誤陳述的風險、設計及執行審計程序以應對該等風險，以及獲取充足和適當的審核憑證，作為我們意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述或凌駕內部監控之上，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 了解與審計相關的內部監控，以設計在相關情況下適當的審計程序，惟並非旨在對貴集團內部監控的有效性發表意見。

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purpose of the group audit. We remain solely responsible for our audit opinion.
- 評估董事所採用會計政策的恰當性及所作出會計估計和相關披露的合理性。
- 對董事採用持續經營會計基礎的恰當性作出結論，並根據所獲得的審核憑證，確定是否存在與事項或情況有關的重大不確定性，從而可能導致對貴集團的持續經營能力產生重大疑慮。倘我們認為存在重大不確定性，則有必要在核數師報告中提請使用者注意合併財務報表中的相關披露。倘有關披露不足，則我們應當發表非無保留意見。我們的結論乃基於截至核數師報告日期所取得的審核憑證。然而，未來事項或情況可能導致貴集團無法持續經營。
- 評價合併財務報表的整體列報方式、結構及內容，包括披露資料，以及合併財務報表是否中肯反映相關交易和事項。
- 計劃及進行集團審計，以就集團內實體或業務單位的財務資料獲取充分及適當的審計證據，作為對貴集團的合併財務報表發表意見的基礎。我們須負責指引、監督及審閱就集團審計目的進行的審計工作。我們須為審計意見承擔全部責任。

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

我們與審核委員會就(其中包括)審計的計劃範圍、時間安排及重大審計發現等進行了溝通，包括我們在審計過程中所發現內部監控的任何重大缺陷。

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, action taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. 編製基準**(a) 遵例聲明**

合併財務報表已按照國際會計準則委員會（「國際會計準則委員會」）頒佈的國際財務報告準則會計準則編製。就編製合併財務報表資料而言，倘有關資料合理預期會影響主要用戶作出之決定，則有關資料被視為重大。此外，該等合併財務報表亦符合香港聯合交易所有限公司GEM證券上市規則（「GEM上市規則」）及香港公司條例的適用披露條文。

2. BASIS OF PREPARATION (Continued)

(b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for equity instruments at fair value through other comprehensive income and investment properties that are measured at fair values at the end of each reporting period, as explained in the material accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 Inventories or value in use in IAS 36 Impairment of Assets.

2. 編製基準(續)

(b) 計量基準

合併財務報表乃以歷史成本基準編製，惟透過其他全面收益按公允價值列賬的權益工具及投資物業則按各報告期末的公允價值計量(詳情見下文重大會計政策)。

歷史成本一般按就換取貨品及服務所給予代價的公允價值計算。

公允價值為市場參與者於計量日期在有序交易中出售資產將收取或轉讓負債將支付的價格，不論該價格是否直接觀察可得或使用另一種估值方法估計。估計資產或負債的公允價值時，本集團在計量日期會考慮資產或負債何時定價。在該等合併財務報表中用作計量及／或披露用途的公允價值均按此基準釐定，惟國際財務報告準則第2號範圍內的以股份為基礎付款交易、國際財務報告準則第16號範圍內的租賃交易及與公允價值類似但並非公允價值的計量(如國際會計準則第2號存貨中的可變現淨值或國際會計準則第36號資產減值中的使用價值)除外。

2. BASIS OF PREPARATION (Continued)**(b) Basis of measurement** (Continued)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(c) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The Group's principal operations are conducted in the PRC. The consolidated financial statements have been presented in RMB, which is the Company's functional and presentation currency.

2. 編製基準 (續)**(b) 計量基準** (續)

此外，就財務報告而言，公允價值計量根據公允價值計量輸入數據可觀察程度及輸入數據對公允價值計量的整體重要性分類為第一層、第二層及第三層，載述如下：

- 第一層輸入數據是實體於計量日期可取得的相同資產或負債於活躍市場的報價(未經調整)；
- 第二層輸入數據是就資產或負債直接或間接地可觀察的輸入數據(第一層內包括的報價除外)；及
- 第三層輸入數據是資產或負債的不可觀察輸入數據。

(c) 功能及列賬貨幣

本集團各實體的財務報表所包括的項目乃使用該實體營運所在主要經濟環境的貨幣(「功能貨幣」)計量。本集團的主要營運均在中國進行。合併財務報表以人民幣呈報，人民幣為本公司的功能貨幣及列賬貨幣。

3. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of consolidation

The accounting policies set out below have been applied consistently to all periods presented in the consolidated financial statements, and have been applied consistently by Group entities.

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;

3. 重大會計政策資料

編製該等合併財務報表所應用的重大會計政策載列如下。除非另有指明，此等政策已於全部呈報年度貫徹應用。

(a) 合併基準

下文所載會計政策已於合併財務報表所示全部期間貫徹應用，並獲全體集團實體貫徹應用。

- 可對投資對象行使權力；
- 承擔或享有參與投資對象的業務所得的可變回報的風險或權利；及
- 有能力藉行使其權力而影響該等回報。

倘有事實或情況顯示上述三項控制因素中有一項或以上出現變數，本集團會重新評估其是否控制投資對象。

倘本集團於投資對象的投票權未能佔大多數，但只要投票權足以賦予本集團實際能力可單方面掌控投資對象的相關業務時，本集團即對投資對象擁有權力。在評估本集團於投資對象的投票權是否足以賦予其權力時，本集團考慮所有相關事實及情況，其中包括：

- 本集團持有投票權的規模相對於其他投票權持有人持有投票權的規模及分散性；
- 本集團、其他投票權持有人或其他人士持有的潛在投票權；

3. MATERIAL ACCOUNTING POLICY INFORMATION 3. 重大會計政策資料(續)

(Continued)

(a) Basis of consolidation (Continued)

- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

(a) 合併基準(續)

- 其他合約安排產生的權利；及
- 於需要作出決定(包括先前股東大會上的投票模式)時表明本集團當前擁有或並無擁有指導相關活動的能力的任何額外事實及情況。

本集團於獲得附屬公司控制權時將附屬公司合併入賬，並於失去附屬公司控制權時終止合併入賬。具體而言，於本年度內收購或出售的附屬公司的收入及開支，自本集團獲得控制權當日起至本集團失去附屬公司控制權當日止，計入合併損益及其他全面收益表內。

自本集團獲得控制權當日起至本集團失去附屬公司控制權當日止的損益及其他全面收益。損益及其他全面收益的各組成部分均歸屬於本公司擁有人及非控制權益。附屬公司的全面收益總額歸屬於本公司擁有人及非控制權益，即使這會導致非控制權益出現虧絀結餘。

附屬公司的財務報表於必要情況下會作出調整，以使其會計政策與本集團會計政策一致。

所有集團內公司間資產及負債、權益、收入、支出及現金流(與本集團成員公司間的交易有關)均於合併入賬時予以全數對銷。

3. MATERIAL ACCOUNTING POLICY INFORMATION

(Continued)

(a) Basis of consolidation (Continued)

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

(b) Investment in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

3. 重大會計政策資料(續)

(a) 合併基準(續)

於附屬公司的非控股權益與本集團在其中的權益分開列示，有關權益指目前的所有權權益，使其持有人有權在清算時按比例分享相關附屬公司的淨資產。

(b) 投資聯營公司及合營公司

聯營公司乃本集團對其擁有重大影響力的實體。重大影響力指參與投資對象財務及經營政策決策的權力，而非控制或共同控制該等政策。

合營公司屬聯合安排，對安排擁有共同控制權的各方可據此享有聯合安排的淨資產。共同控制權指按照合約協議對安排所共有的控制權，其僅於相關業務的決策須獲共享控制權的各方一致同意時存在。

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(b) Investment in associates and joint ventures** *(Continued)*

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with IFRS 5. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

3. 重大會計政策資料(續)**(b) 投資聯營公司及合營公司(續)**

聯營公司或合營公司的業績及資產負債按權益會計法計入該等合併財務報表，惟倘投資或部分投資分類為持作出售，則根據國際財務報告準則第5號入賬。根據權益法，於聯營公司或合營公司的投資初步按成本於合併財務狀況表確認，隨後進行調整以確認本集團應佔聯營公司或合營公司損益及其他全面收益。倘本集團應佔聯營公司或合營公司虧損超過本集團於該聯營公司或合營公司的權益(包括實際上構成本集團於聯營公司或合營公司投資淨額一部分的任何長期權益)，本集團不再確認其應佔的進一步虧損。額外虧損僅於本集團承擔法定或推定責任或代表聯營公司或合營公司作出付款的情況下方予確認。

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(b) Investment in associates and joint ventures** *(Continued)*

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The Group assesses whether there is an objective evidence that the interest in an associate or joint venture may be impaired. When an objective evidence exists, the entire carrying amount of the investment is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(b) Investment in associates and joint ventures** *(Continued)*

When the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset within the scope of IFRS 9, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition. The difference between the carrying amount of the associate or joint venture and the fair value of any retained interest and any proceeds from disposing of the relevant interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal/partial disposal of the relevant associate or joint venture.

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(b) Investment in associates and joint ventures** *(Continued)*

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

(c) Segment reporting

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(d) Foreign currencies**

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur, which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on disposal or partial disposal of the Group's interests in associates/joint ventures.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. RMB) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity.

(e) Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes (other than construction in progress) are stated at in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. The depreciation rate per annum is as follows:

Buildings	樓宇	3.17% - 4.5%
Machinery	機器	9% - 18%
Furniture and office equipment	家具及辦公室設備	18% - 19%
Motor vehicles	汽車	9% - 19%

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(e) Property, plant and equipment (Continued)

Construction in progress represents the direct costs of construction incurred of property, plant and equipment less any impairment losses. No provision for depreciation is made on construction in progress until such time the relevant assets are completed and put into use. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

(f) Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation (including properties under construction for such purposes). Investment properties include land held for undetermined future use, which is regarded as held for capital appreciation purpose.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at fair value, adjusted to exclude any prepaid or accrued operating lease income.

Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

(e) 物業、廠房及設備(續)

在建工程指物業、廠房及設備產生的直接建築成本減任何減值虧損。在有關資產竣工並投入使用前，並無就在建工程計提折舊撥備。在建工程於竣工並可供使用時重新分類至物業、廠房及設備的適當類別。

(f) 投資物業

投資物業為持作賺取租金及／或資本增值之物業(包括作此用途的在建物業)。投資物業包括未決定未來用途之土地，該等土地被視為持作資本增值用途。

投資物業按成本(包括任何直接應佔費用)初步計量。於初步確認後，投資物業按公允價值計量，並經調整以排除任何預付或應計經營租賃收入。

投資物業公允價值變動所產生之收益或虧損乃計入產生期間之損益。

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(f) Investment property** *(Continued)*

Construction costs incurred for investment properties under construction are capitalised as part of the carrying amount of the investment properties under construction.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. A leased property which is recognised as a right-of-use asset is derecognised if the Group as intermediate lessor classifies the sublease as a finance lease. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

(g) Impairment on property, plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs.

(g) 物業、廠房及設備及使用權資產減值

於報告期末，本集團審閱其物業、廠房及設備及使用權資產之賬面值，以釐定是否有任何跡象顯示該等資產出現減值虧損。倘存在任何此類跡象，則會對相關資產的可收回金額作出估計，以確定減值虧損的程度(如有)。

物業、廠房及設備及使用權資產的可收回金額乃單獨估計，倘無法單獨估計可收回金額，本集團會估計該資產所屬現金產生單位(「現金產生單位」)的可收回金額。

(g) Impairment on property, plant and equipment and right-of-use assets (Continued)

In testing a CGU for impairment, corporate assets are allocated to the relevant CGU when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the CGU or group of CGUs to which the corporate asset belongs, and is compared with the carrying amount of the relevant CGU or group of CGUs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

(g) 物業、廠房及設備及使用權資產減值(續)

在測試一個現金產生單位是否發生減值時，如合理及一致的分配基準能夠成立，企業資產會被分配到相關的現金產生單位，或分配至具有合理及一致分配基準的最少群組現金產生單位。可收回金額透過現金產生單位或現金產生單位群組的所屬企業資產來釐定，其會與相關現金產生單位或現金產生單位群組的賬面值比較。

可收回金額為公允價值減出售成本與使用價值兩者中的較高者。在評估使用價值時，估計未來現金流量乃採用除稅前貼現率貼現至其現值，該貼現率反映目前市場對貨幣的時間價值及資產(或現金產生單位)的特有風險的估計，而估計未來現金流量並未就此作出調整。

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(g) Impairment on property, plant and equipment and right-of-use assets** *(Continued)*

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU or a group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or a group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

倘估計資產(或現金產生單位)之可收回金額低於其賬面值，則資產(或現金產生單位)之賬面值將調低至其可收回金額。就未能按合理一致的基準分配至現金產生單位的公司資產或部分公司資產而言，本集團將一組現金產生單位的賬面值(包括已分配至一組現金產生單位的公司資產或部分公司資產的賬面值)與該組現金產生單位的可收回金額進行比較。於分配減值虧損時，減值虧損將首先分配以減少商譽的賬面值(如適用)，然後根據單位或一組現金產生單位中各項資產的賬面值按比例分配至其他資產。資產的賬面值不得減至低於其公允價值減出售成本(如可計量)、使用價值(如可釐定)及零三者中之最高者。原應分配至資產的減值虧損金額按比例分配至該單位或一組現金產生單位的其他資產。減值虧損即時於損益中確認。

倘減值虧損於其後撥回，則資產(或現金產生單位或一組現金產生單位)之賬面值將調升至其經修訂的估計可收回金額，而增加後的賬面值不得超過倘若該資產(或現金產生單位或一組現金產生單位)在過往年度並無確認減值虧損時原應確認之賬面值。減值虧損之撥回即時於損益中確認。

(h) Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

實際利率法是一種在相關期間內用於計算金融資產或金融負債攤銷成本及分配利息收入及利息開支的方法。實際利率是將金融資產或金融負債於預計年期或(如適當)較短期間的估計未來現金收入及付款(包括所有構成實際利率整體部分的已付或已收費用及支出、交易成本及其他溢價或折讓)準確貼現至初步確認賬面淨額的利率。

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(h) Financial instruments** *(Continued)**Financial assets (Continued)***Classification and subsequent measurement of financial assets** *(Continued)**Amortised cost and interest income*

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

Equity instruments designated as at FVTOCI

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the other reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments.

Dividends from these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "other income, other gains and losses – net" line item in profit or loss.

金融資產減值

本集團根據國際財務報告準則第9號就減值評估下之金融資產(包括貿易應收款項、應收票據、其他應收款項、應收合營公司款項、已質押銀行存款及現金及現金等價物)確認預期信貸虧損的虧損準備。預期信貸虧損的金額於各報告期更新，以反映自初始確認後信貸風險的變化。

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting period. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting period as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting period with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

存續期預期信貸虧損指將相關工具的預期使用期內所有可能的違約事件產生之預期信貸虧損。相反，12個月預期信貸虧損(「12個月預期信貸虧損」)指預計於報告期後12個月內可能發生的違約事件導致之存續期預期信貸虧損部分。評估乃根據本集團的歷史信用虧損經驗進行，並根據債務人特有的因素、一般經濟狀況以及對報告期當前狀況的評估以及對未來狀況的預測作出調整。

本集團一如既往就應收貿易賬款確認全期預期信貸虧損。

就所有其他工具而言，本集團按相等於12個月預期信貸虧損之金額計量虧損撥備，除非自初始確認後信貸風險大幅增加，則本集團確認存續期預期信貸虧損。評估是否應確認存續期預期信貸虧損乃根據自初始確認以來所發生違約之可能性或風險之大幅增加。

信貸風險大幅增加

在評估自初始確認起信貸風險是否大幅增加時，本集團會比較於報告期金融工具發生違約之風險與於初始確認日期金融工具發生違約之風險。就該評估而言，本集團考慮合理及可靠之定量及定性之資料，包括過往經驗及無需付出過多成本或努力即可取得之前瞻性資料。

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;

尤其是，在評估信貸風險是否大幅增加時，將考慮以下資料：

- 外部市場信貸風險指標顯著惡化，如信貸利差、債務人信用違約掉期價格大幅增加；
- 業務、財務或經濟狀況出現或預期出現不利變動，預期導致債務人償還債務能力大幅下降；
- 債務人經營業績出現實際或預期出現顯著惡化；
- 債務人之監管、經濟或技術環境出現實際或預期出現重大不利變動，可能導致債務人償債能力大幅下降。

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 90 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full.

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 1 year past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

無論上述評估結果如何，本集團假設，於合約付款逾期超過90日時，信貸風險已自初始確認起大幅增加，除非本集團有合理及可靠資料證明相反情況則當別論。

本集團定期監控用以識別信貸風險有否顯著增加的標準之效益，且修訂標準(如適當)來確保標準能在金額逾期前識別信貸風險顯著增加。

違約定義

就內部信貸風險管理而言，本集團認為，違約事件在內部制訂或得自外界來源的資料顯示債務人不大可能悉數向債權人(包括本集團)還款時發生。

不論上文為何，本集團都認為，已於金融資產逾期超過1年後發生違約，惟本集團有合理及具理據資料來顯示更加滯後的違約標準更為恰當。

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(h) Financial instruments** *(Continued)**Financial assets (Continued)***Impairment of financial assets** *(Continued)**Write-off policy*

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience and forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

預期信貸虧損之計量及確認

預期信貸虧損之計量為違約概率、違約虧損(即違約時虧損大小)及違約時風險敞口之函數。違約概率及違約虧損之評估乃基於歷史數據按前瞻性資料作調整。預期信貸虧損的預估乃無偏概率加權平均金額，以各自發生違約的風險為權重確定。本集團經考慮過往信貸虧損經驗及按毋需花費不必要成本或精力可取得的前瞻性資料後，使用撥備矩陣並採用實際權益法估計貿易應收款項的預期信貸虧損。

一般而言，預期信貸虧損為根據合約應付本集團之所有合約現金流量與本集團預期收取之所有現金流量之間的差額(按初始確認時釐定之實際利率貼現)。

Measurement and recognition of ECL (Continued)

Lifetime ECL for certain trade receivables, other receivables and prepayments are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings (where available).

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(h) Financial instruments** *(Continued)**Financial assets (Continued)***Derecognition of financial assets**

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

A modification of a financial asset occurs if the contractual cash flows are renegotiated or otherwise modified.

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(h) Financial instruments** *(Continued)**Financial assets (Continued)***Derecognition of financial assets**

When the contractual terms of a financial asset are modified, the Group assesses whether the revised terms result in a substantial modification from original terms taking into account all relevant facts and circumstances including qualitative factors. If qualitative assessment is not conclusive, the Group considers the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received, and discounted using the original effective interest rate, is at least 10 percent different from the discounted present value of the remaining cash flows of the original financial asset, after reducing gross carrying amount that has been written off.

For non-substantial modifications of financial assets that do not result in derecognition, the carrying amount of the relevant financial assets will be calculated at the present value of the modified contractual cash flows discounted at the financial assets' original effective interest rate. Transaction costs or fees incurred are adjusted to the carrying amount of the modified financial assets and are amortised over the remaining term. Any adjustment to the carrying amount of the financial asset is recognised in profit or loss at the date of modification.

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(h) Financial instruments** *(Continued)**Financial liabilities and equity instruments***Classification as debt or equity**

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Perpetual instruments, which include no contractual obligation for the Group to deliver cash or other financial assets or the Group has the sole discretion to defer payment of distribution and redemption of principal amount indefinitely are classified as equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument. Financial guarantee contract liabilities are measured initially at their fair values. It is subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with IFRS 9; and
- the amount initially recognised less, where appropriate, cumulative amortisation recognised over the guarantee period.

Financial liabilities at amortised cost

Financial liabilities (including borrowings, lease liabilities, and trade and other payables) are subsequently measured at amortised cost, using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the profit or loss.

(i) Provision

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(i) 撥備

當本集團因過往事件承擔現有法定或推定責任，本集團可能須履行該責任，而該責任金額能可靠估計，則確認撥備。

已確認為撥備的金額為於報告期末因履行現有責任而須承擔代價的最佳估計，並已計及責任所附帶的風險及不明朗因素。倘撥備按履行現有責任估計所需的現金流量計量，則其賬面值為該等現金流量的現值。

(i) Provision (Continued)

Contingent liabilities

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Where the Group is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability and it is not recognised in the consolidated financial statements.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

(j) Inventories

Inventories which consist of cargos are stated at the lower of cost and net realisable value. Cost of inventories is determined using on a first-in-first-out method. Net realisable value is the estimated selling price in the ordinary course of business, less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Cash and cash equivalents presented on the consolidated statement of financial position include:

- (b) cash equivalents, which comprises of short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts which are repayable on demand and form an integral part of the Group's cash management. Such overdrafts are presented as short-term borrowings in the consolidated statement of financial position.

就合併現金流量表而言，現金及現金等價物包括上文定義的現金及現金等價物（已扣除應要求償還及構成本集團現金管理一個完整部分的未償還銀行透支）。相關透支於合併財務狀況表中列作短期借款。

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(i) Borrowings**

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the statement of profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

(o) Taxation

Income tax expense represents the sum of current and deferred income tax expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

(o) 稅項

所得稅開支指即期與遞延所得稅開支的總和。

即期應付稅項乃根據年內的應課稅溢利計算。應課稅溢利與除稅前溢利不同之處在於其他年度內應課稅或可抵免之收入或支出以及從來毋須課稅或從來不可抵免之項目。本集團的即期稅項負債乃採用於報告期末已生效或實際上已生效的稅率計算。

遞延稅項按合併財務報表內資產及負債的賬面值與計算應課稅溢利時採用的相應稅基之間的暫時差額確認。遞延稅項負債一般就所有應課稅暫時差額確認，而倘可能獲得可動用可扣減暫時差額抵消的應課稅溢利，則遞延稅項資產一般就可扣減暫時差額確認。若於一項交易中，因於業務合併中以外原因初步確認資產及負債產生之暫時性差額既不影響應課稅溢利亦不影響會計溢利，且交易發生時不產生相等的應課稅及可扣減暫時差額，則不會確認該等遞延稅項資產及負債。此外，若因初步確認商譽產生之暫時性差額，則不會確認遞延稅項負債。

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(o) Taxation** *(Continued)*

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3. 重大會計政策資料(續)**(o) 稅項(續)**

遞延稅項負債乃按因於附屬公司及聯營公司之投資及於合營公司的權益有關之應課稅暫時性差額而確認，惟若本集團能夠控制暫時性差額撥回及暫時性差額有可能未必於可見將來撥回之情況除外。可扣減暫時性差額產生的遞延稅項資產(與該等投資及權益有關)可確認，惟僅以可能將有足夠應課稅溢利可動用暫時性差額的利益，且彼等預期於可預見將來撥回為限。

遞延稅項資產之賬面值於各申報期間結算日審閱，並予以相應扣減，直至並無足夠應課稅以收回全部或部份資產為止。

遞延稅項資產及負債乃根據於申報期間結算日已頒佈或實質已頒佈的稅率(及稅法)按預期適用於負債清償或資產變現期間的稅率計量。

遞延稅項負債及資產的計量反映在申報期間結算日本集團預期將來能收回或支付其資產及負債賬面值的稅務影響。

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(o) Taxation** *(Continued)*

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale, except for freehold land, which is always presumed to be recovered entirely through sale.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 requirements to right-of-use assets and lease liabilities separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

就計量投資物業的遞延稅項而言，利用公允價值模式計量的投資物業之賬面值乃假設通過銷售全數收回，除非該假設被推翻則除外。當投資物業可予折舊及按業務模式(其業務目標是隨時間而非透過銷售消耗投資物業所包含的絕大部分經濟利益)持有時，有關假設會被推翻，惟永久業權土地除外，其一直假設可通過銷售全數收回。

就計量本集團確認使用權資產及相關租賃負債的租賃交易遞延稅項而言，本集團首先釐定稅項減免是否歸屬於使用權資產或租賃負債。

就因租賃負債而產生稅項扣減的租賃交易而言，本集團分別對使用權資產及租賃負債應用國際會計準則第12號規定。倘有應課稅溢利可用於抵銷可扣稅臨時性差額，則本集團按此金額確認遞延稅項資產，並就所有應課稅臨時性差額確認遞延稅項負債。

當存在可依法強制執行的權利以將即期稅項資產抵銷即期稅項負債以及當彼等與同一稅務機關向同一應課稅實體徵收的所得稅有關時，遞延稅項資產與負債予以抵銷。

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. (p) Employee benefits*Retirement benefit costs*

Payments to a state-managed retirement benefit scheme are dealt with as payment to defined contribution plan which are charged as an expense when employees have rendered service entitling them to contribution.

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants relating to property, plant and equipment are included in non-current liabilities as deferred income and are credited to the income statement on a straight-line basis over the expected lives of the related assets. Such grants are presented under other gain and loss - net.

(r) Revenue and other income*Revenue from contracts with customers*

Under IFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Revenue from contracts with customers (Continued)

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with IFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

(s) Leases

Definition of a lease

A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception of the contract. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components, including contract for acquisition of ownership interests of a property which includes both leasehold land and non-lease building components, unless such allocation cannot be made reliably.

The Group applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

(s) 租賃

租賃之定義

倘合約為換取代價而給予在一段時間內控制可識別資產使用的權利，則該合約屬於或包含租賃。

本集團根據國際財務報告準則第16號的定義於合約開始時評估該合約是否屬於或包含租賃。除非合約的條款及條件其後出現變動，否則有關合約將不予重新評估。

本集團作為承租人

Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets (Continued)

Except for those that are classified as investment properties and measured under fair value model, right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets in “property, plant and equipment”, the same line them within which the corresponding underlying asset would be presented if they were owned.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

Lease liabilities (continued)

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review/expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.
- a lease contract is modified and the lease modification is not accounted for as a separate lease (see below for the accounting policy for “lease modifications”).

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

本集團於以下情況會重新計量租賃負債(並對相關使用權資產作出相應調整)：

- 租賃期限發生變化或行使購買選擇權之評估發生變化，在此情況下，相關租賃負債乃透過使用於重新評估日期之經修訂貼現率來貼現經修訂租賃付款而重新計量。
- 租賃付款因進行市場租金調查後市場租金變動／保證剩餘價值下的預期付款而出現變動，在此情況下，相關租賃負債透過使用初始貼現率貼現經修訂租賃付款而重新計量。
- 租賃合約已經修改且租賃修改並無作為一項單獨租賃入賬(見下文有關「租賃修改」之會計政策)。

本集團在合併財務狀況表中將租賃負債作為單獨的項目呈列。

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the standalone price for the increase in scope and any appropriate adjustments to that standalone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities and lease incentives from lessor by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

租賃修改

本集團於以下情況會將租賃修改作為一項單獨租賃入賬：

- 該項修改通過增加使用一項或多項相關資產之權利來擴大租賃範圍；及
- 上調租賃之代價，增加之金額相當於範圍擴大對應之單獨價格，以及為反映特定合約之情況而對單獨價格作出之任何適當調整。

就並無作為一項單獨租賃入賬之租賃修改而言，本集團按經修改租賃之租賃期限，透過使用於修改生效日期之經修訂貼現率來貼現經修訂租賃付款，以重新計量租賃負債。

本集團通過對相關使用權資產進行相應調整，以對租賃負債及自出租人收取之租賃優惠進行重新計量。當經修改合約包含租賃成分以及一個或多個額外租賃或非租賃成分時，本集團根據租賃成分的相對獨立價格及非租賃成分的總獨立價格，將經修改合約中的代價分配至每個租賃成分。

Changes in the basis for determining the future lease payments as a result of interest rate benchmark reform

For changes in the basis for determining the future lease payments as a result of interest rate benchmark reform, the Group applies the practical expedient to remeasure the lease liabilities by discounting the revised lease payments using the unchanged discount rate and makes a corresponding adjustment to the related right-of-use assets. A lease modification is required by interest rate benchmark reform if, and only if, both of these conditions are met:

- the modification is necessary as a direct consequence of interest rate benchmark reform; and
- the new basis for determining the lease payments is economically equivalent to the previous basis.

- 因利率基準改革的直接後果而導致必須修改；及
- 釐定租賃付款的新基準在經濟上等同於過往基準。

3. MATERIAL ACCOUNTING POLICY INFORMATION*(Continued)***(s) Leases** *(Continued)**The Group as a lessor***Classification and measurement of leases**

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under finance leases are recognised as receivables at the commencement date at amounts equal to the Group's net investment in the leases, measured using the interest rate implicit in the respective lease. Initial direct costs (other than those incurred by manufacturer or dealer lessors) are included in the initial measurement of the net investments in the leases. Interest income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model. Variable lease payments that do not depend on an index or a rate are recognised as income when they arise.

本集團為出租人之租賃乃分類為融資或經營租賃。當租賃條款將擁有權的絕大部分風險及回報轉移至承租人時，該合約乃分類為融資租賃。所有其他租賃乃分類為經營租賃。

根據融資租賃應收承租人的款項於開始日期確認為應收款項，其金額等於本集團於租賃的淨投資，並使用各個租賃中隱含的利率計量。初始直接成本(製造商或經銷商出租人所產生者除外)包括在租賃淨投資的初始計量中。利息收入被分配至會計期間，以反映本集團有關租賃的未償還淨投資的固定定期收益率。

經營租賃的租金收入在相關租賃期限內按照直線法於損益確認。磋商及安排經營租賃時產生的初始直接成本計入租賃資產的賬面值，有關成本於租賃期內按直線法確認為開支，惟按公允價值模式計量的投資物業除外。並非根據指數或費率估算的可變租賃付款於產生時確認為收入。

Refundable rental deposits

Refundable rental deposits received are accounted for under IFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

The Group accounts for a modification to an operating lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease.

The Group as a seller — lessee

Sale and leaseback transactions

The Group applies the requirements of IFRS 15 to assess whether sale and leaseback transaction constitutes a sale by the Group.

For a transfer that satisfies the requirements as a sale, the Group as a seller-lessee measures the right-of-use asset arising from the leaseback at the proportion of the previous carrying amount of the asset and recognises any gain or loss that relates to the rights transferred to the buyer-lessor only.

Right-of-use asset and lease liability with fixed payments are subsequently measured in accordance with the general requirements under IFRS 16. In measuring the lease liability, the Group determines “lease payments” or “revised lease payments” (including both lease payments that are fixed or variable) in a way that the Group would not recognise any amount of the gain or loss that relates to the right-of-use assets retained by the Group.

If the fair value of the consideration for the sale does not equal the fair value of the asset, or if the payments for the lease are not at market rates, the Group makes the following adjustments to measure the sale proceeds at fair value:

- (a) any below-market terms is accounted for as a prepayment of lease payments; and
- (b) any above-market terms is accounted for as additional financing provided by the buyer-lessor to the seller-lessee.

售後回租交易

本集團應用國際財務報告準則第15號的規定評估售後回租交易是否構成本集團的銷售。

就符合作為銷售的要求的轉讓而言，本集團作為賣方—承租人按原資產賬面價值部分，計量售後回租所形成的使用權資產，並僅就轉讓至買方—出租人的權利確認任何相關利得或損失。

使用權資產及固定付款之租賃負債乃隨後根據國際財務報告準則第16號項下之一般規定計量。於計量租賃負債時，本集團在釐定「租賃付款」或「經修訂租賃付款」(包括固定或可變租賃付款)時不會確認與本集團保留的使用權資產有關之任何收益或虧損金額。

倘出售代價的公允價值並不等於資產的公允價值，或倘租賃付款並無按市價計算，則本集團將會作出以下調整以按公允價值計量出售所得款項：

- (a) 任何低於市場的條款入賬列作租賃付款之預付款項；及
- (b) 任何高於市場的條款入賬列作買方—出租人向賣方—承租人提供的額外融資。

4. FINANCIAL RISK MANAGEMENT

4.1 Financial risk factors

The Group's major financial assets and liabilities include trade, bills and other receivables, pledged bank deposits, cash and cash equivalents, trade and other payables, borrowings and lease liabilities. The risks associated with these financial assets and liabilities include market risk (interest rate risk and foreign currency risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(a) Market risks

(i) Foreign exchange risk

The Group mainly operates in the PRC and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to Japanese Yen ("Yen") and USD Dollars ("USD"). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations. The management do not expect the net foreign currency risk from these activities to be significant and hence, the Group do not presently hedge the foreign exchange risks. The Group periodically review liquid assets and liabilities held in currencies other than the functional currencies of the respective subsidiaries to evaluate its foreign exchange risk exposure and will consider hedging significant foreign currency exposure should the need arise.

4. 財務風險管理

4.1 財務風險因素

本集團的主要金融資產及負債包括貿易應收款項、應收票據及其他應收款項、已質押銀行存款、現金及現金等價物、貿易及其他應付款項、借款及租賃負債。與該等金融資產及負債有關的風險包括市場風險（利率風險及外匯風險）、信貸風險及流動資金風險。減輕該等風險的政策載列如下。本集團管理層管理及監控該等風險，以確保適時有效採取適當措施。

(a) 市場風險

(i) 外匯風險

本集團主要在中國營運，面臨來自多種貨幣的外匯風險，主要涉及日元（「日元」）及美元（「美元」）。外匯風險來自日後商業交易、已確認資產及負債及海外業務淨投資。管理層預期該等活動引致的外匯風險淨額並不重大，因此本集團目前並無對沖外匯風險。本集團定期檢討以相關附屬公司功能貨幣以外的貨幣持有的流動資產及負債，以評估其外匯風險，並會於必要時考慮對沖重大外匯風險。

Sensitivity analysis

At 31 December 2024, if RMB had weakened/strengthened by 10% against the USD with all other variables held constant, post-tax profit for the year would have been approximately RMB30,000 (2023: approximately RMB1,212,000) higher/lower.

(ii) Cash flow and fair value interest rate risk

The Group is exposed to cash flow interest rate risk through the impact of rate changes on interest bearing financial assets and liabilities, mainly bank balances and cash and bank borrowings. It is the Group's policy to keep its borrowings at fixed rate of interests so as to minimise the fair value interest rate risk. The Group currently does not use any derivative contracts to hedge its exposure to interest rate risk. However, management will consider hedging significant interest rate risk should the need arise.

(ii) 現金流量及公允價值利率風險

本集團因持有受利率變動影響之計息金融資產及負債（主要為銀行結餘及現金以及銀行借款）而承受現金流量利率風險。本集團的政策為保持借款以固定利率計息，以將公允價值利率風險減至最低。本集團現時並無運用任何衍生工具合約以對沖其承受的利率風險。然而，管理層將於有需要時考慮對沖重大利率風險。

The sensitivity analysis below has been prepared based on the exposure to interest rates for interest bearing bank balances and variable rate bank borrowings at the end of the reporting period and on the assumption that the amount of assets and liabilities outstanding at the end of the reporting period was outstanding for the whole year.

If interest rates on bank balances and variable-rate bank borrowings had been 100 basis points (2023: 100 basis points) higher/lower and all other variables were held constant, post-tax profit for the year will increase/decrease by approximately RMB859,000 (2023: approximately RMB1,821,000).

Majority of the Group's revenue is received from individual customers in relation to logistics and supply chain and logistics service for finished automobiles and components and materials procurement services and warehousing and multimodal transport business in cash or credit. The Group's trade receivables arise from logistics and supply chain and logistics service for finished automobiles and components and materials procurement services and warehousing and multimodal transport business. The Group has concentration of credit risk as 28% (2023: 18%) and 36% (2023: 43%) of the total trade receivables was due from the Group's largest customer and five largest customers, respectively. The management of the Group makes periodic assessment on the recoverability of the trade and other receivables based on historical payment records, the length of overdue period, the financial strength of the debtors and whether there are any disputes with the debtors.

本集團的大部分收益來自個別客戶有關汽車整車及零部件供應鏈物流服務以及物資採購及倉儲及多聯式服務，且以現金或信貸方式進行交易。本集團的貿易應收款項來自汽車整車及零部件供應鏈物流服務以及物資採購及倉儲及多聯式服務。本集團有集中的信貸風險，因為貿易應收款項總額的28%（2023年：18%）及36%（2023年：43%）分別來自本集團最大客戶及五大客戶。本集團管理層根據歷史支付記錄、逾期期限、債務人的財務實力以及與債務人是否有任何爭議，定期評估貿易及其他應收款項的可收回性。

4. FINANCIAL RISK MANAGEMENT (Continued)**4.1 Financial risk factors** (Continued)

(b) Credit risk (Continued)

Credit risk refer to the risk that the Group's counterparties default in their contractual obligations resulting in financial losses to the Group.

The Group's maximum exposure to credit risk in relation to financial assets is the carrying amounts of trade, bills and other receivables, pledged bank deposits and cash and cash equivalents.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In addition, the Group performs impairment assessment under ECL model upon application of IFRS 9 on trade balances individually or based on provision matrix. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

4. 財務風險管理 (續)**4.1 財務風險因素** (續)

(b) 信貸風險 (續)

信貸風險指本集團的交易方不履行其合約義務而導致本集團遭受財務虧損的風險。

本集團就金融資產所承受的最大信貸風險為貿易應收款項、應收票據及其他應收款項、已質押銀行存款及現金及現金等價物的賬面值。

為盡量減低信貸風險，本集團管理層已委派團隊負責釐定信貸限額及信貸審批。本集團實行其他監控程序，以確保採取跟進行動收回逾期債項。此外，本集團於應用國際財務報告準則第9號後根據預期信貸虧損模式個別對貿易結餘或根據撥備矩陣進行減值評估。就此而言，本公司董事認為本集團之信貸風險大幅減少。

本集團按照相當於全期預期信貸虧損(採用撥備矩陣計算)的金額計量貿易應收款項的虧損撥備。由於本集團的過往信貸虧損經驗顯示不同客戶分部的虧損模式差異不大，故在根據逾期狀況計算虧損撥備時並無對本集團不同客戶群體作進一步區分。

4. FINANCIAL RISK MANAGEMENT (Continued)

4.1 Financial risk factors (Continued)

(b) Credit risk (Continued)

The credit risk on bill receivables are limited because the counter parties have no historical default record and the ECL on these items are considered insignificant.

Besides, the Group monitors financial position of debtors of other receivables closely and follow-up action will be taken to recover overdue debts. In this regard, the directors of the Company consider the Group's credit risk is significantly reduced.

Deposit and other receivables as well as amount due from joint venture are measured as either 12-month ECL or lifetime expected credit loss, depending on whether there has been a significant increase in credit risk since initial recognition. The Group established ECL model based on historical settlement records, past experience and available forward-looking information which include GDP and other macro-economic factors affecting the ability of the customers to settle the receivables. The Group's other receivables are deposits or receivables arose from normal operations, which based on management's assessment, the credit risk is not significant. In this regard, the directors are satisfied that the risks of impairment are monitored and adequate provision, if any, has been made in the consolidated financial statements. On that basis, the expected loss rate as at 31 December 2024 was 2.76% (2023: 3.47%). Further quantitative disclosures in respect of trade, bills and other receivables are set out in Note 18.

(b) 信貸風險(續)

應收票據的信貸風險有限，因為對手方無歷史違約記錄，該等項目的預期信貸虧損微不足道。

另外，本集團密切監察其他應收款項債務人的財務狀況，並採取跟進行動收回逾期債項。就此而言，本公司董事認為本集團之信貸風險大幅減少。

存款、其他應收款項及應收合營公司款項按12個月預期信貸虧損或存續期預期信貸虧損計量，取決於自首次確認以來信貸風險是否大幅增加。本集團根據過往結算記錄、過往經驗及可得的前瞻性資料(包括國內生產總值及其他影響客戶結算應收款項能力的宏觀經濟因素)建立預期信貸虧損模型。本集團的其他應收款項為正常業務產生的按金或應收款項，根據管理層的評估，其信貸風險並不重大。就此而言，董事信納已監察減值風險及於合併財務報表內作出足夠撥備(如有)。在此基礎上，於2024年12月31日的預期虧損率為2.76%(2023年：3.47%)。有關貿易應收款項、應收票據及其他應收款項的進一步量化披露載於附註18。

During the year ended 31 December 2024, the Group provided RMB4,263,000 (2023: RMB6,163,000) impairment allowance for trade receivables based on the provision matrix within lifetime ECL (not credit-impaired).

The Group performed individual ECL assessment on those receivables with known financial difficulties with are significant and overdue for a long period. During the year, the Group mainly considered the rapid deterioration of credit status of several debtors, which is expected to render the Company not being able to collect some of its trade receivables as scheduled. Therefore, debtors with credit-impaired with gross carrying amounts of RMB197,207,000 (2023: RMB197,170,000) were assessed individually, and the impairment allowance of RMB197,207,000 (2023: RMB197,170,000) were provided against those gross amounts of trade receivables. (i) 貿易應收款項撥備 (續)

截至2024年12月31日止年度，本集團根據撥備矩陣於全期預期信貸虧損內就貿易應收款項計提減值撥備人民幣4,263,000元(2023年：人民幣6,163,000元)(未信貸減值)。

截至2024年12月31日止年度，本集團對貿易應收款項進行全面評估，對債務人的過往還款情況、賬齡及財務狀況作出全面的考慮。本集團對逾期時間較長、已知重大財務困難的應收款項進行單獨的預期信貸虧損評估。年內，本集團主要考慮若干債務人信貸狀況的迅速惡化，預計將導致本公司無法按期收回部分貿易應收款項。因此，已單獨評估賬面總值人民幣197,207,000元(2023年：人民幣197,170,000元)的信貸減值債務人，並對貿易應收款項總額計提減值撥備人民幣197,207,000元(2023年：人民幣197,170,000元)。本集團已對該等信貸減值債務人採取追討行動。

4.2 Capital risk management

The Group manages its capital to ensure that the entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The directors of the Company review the capital structure regularly. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends, new share issues as well as bank borrowings.

The Group monitors its capital structure on the basis of gearing ratio. The Group's gearing ratio (ratio of borrowings (including borrowings and lease liabilities) to total equity) is approximately 31% (2023: 39%). There were no changes in the Group's approach to capital management during the year.

4.2 資本風險管理

本集團管理其資本，以確保本集團各實體能繼續按持續經營基準營運，同時透過令債務及股本更趨平衡，盡量提高股東回報。本集團整體策略自上年度以來維持不變。

本公司董事定期檢討資本結構。作為檢討其中一環，董事考慮資本成本及與各類別資本有關之風險。根據董事之推薦意見，本集團將透過派付股息、發行新股以及籌措銀行借款的方式，平衡其整體資本結構。

本集團基於資本負債比率監控其資本結構。本集團的資本負債比率(借款(包括借款及租賃負債)與權益總數的比率)為約31%(2023年:39%)。年內，本集團的資本管理策略維持不變。

4.3 Fair value measurements of financial instruments

(a) Fair value of financial instrument

The fair values of financial assets and financial liabilities are determined as follows:

- (i) the fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices; and
- (ii) the fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The carrying amount of other financial assets and liabilities carried at amortised cost, approximate their respective fair values due to the relatively short-term nature of these financial instruments.

Some of the Group's financial instruments are measured at fair value for financial reporting purposes. In estimating the fair value, the Group uses market-observable data to the extent it is available. For instruments with significant unobservable inputs under Level 3, the Group engages independent professional valuer to perform the valuation.

4.3 金融工具的公允價值計量

(a) 金融工具公允價值

金融資產及金融負債之公允價值釐定如下：

- (i) 具有標準條款及條件並於高度流通市場買賣之金融資產及金融負債，乃分別參考所報市價釐定公允價值；及
- (ii) 其他金融資產及金融負債之公允價值乃根據使用貼現現金流量分析之普遍採納定價模式釐定。

按攤銷成本列賬之其他金融資產及負債之賬面值與其各自之公允價值相若，原因為該等金融工具屬相對短期性質。

就財務報告而言，本集團的若干金融工具以公允價值計量。於估計公允價值時，本集團採用現有可觀察市場數據。就第三層中有大量不可觀察輸入數據的工具而言，本集團聘請獨立專業估價師進行估值。

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the assets or liability that are not based on observable market data (unobservable inputs). Fair value of the Group's financial assets that are measured at fair value on a recurring basis.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3 to the consolidated financial statements, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The followings are the critical judgements, apart from those involving estimations, that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Provision of ECL for trade, bills and other receivables

Trade and other receivables with significant balances and credit-impaired are assessed for ECL individually.

5. 重要會計判斷及估計不明朗因素主要來源

應用載列於合併財務報表附註3之本集團會計政策時，董事須就未於其他來源明確顯示之資產及負債賬面值作出判斷、估計及假設。有關估計及相關假設乃根據過往經驗及其他視為相關之因素作出。實際情況可能有別於該等估計。

此等估計及相關假設會持續予以審閱。如會計估計的修訂僅對作出修訂的期間產生影響，則有關修訂只會該期間內確認；如會計估計的修訂對現時及未來期間均產生影響，則會在作出該修訂期間和未來期間內確認。

應用會計政策時所作出的重大判斷

以下為本公司董事於應用本集團會計政策時所作出對於合併財務報表確認的金額構成最重大影響之重大判斷，涉及估計除外。

估計不明朗因素主要來源

於報告期末，就有關日後及其他估計不明朗因素主要來源，可能存在重大風險，而導致下一財政年度內資產和負債賬面值出現重大調整的主要假設如下。

(a) 貿易應收款項、應收票據及其他應收款項的預期信貸虧損撥備

本集團就具有重大結餘及信貸減值的貿易及其他應收款項單獨評估預期信貸虧損。

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

(a) Provision of ECL for trade, bills and other receivables (Continued)

The Group uses provision matrix to calculate ECL for the trade receivables. The provision rates are based on internal credit ratings as groupings of various debtors that have similar loss patterns. The provision matrix is based on the Group's historical default rates taking into consideration forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered. In addition, trade and bills receivables with significant balances and credit impaired are assessed for ECL individually.

(b) Investment in joint ventures *(Continued)*

note:

During the year ended 31 December 2024, the investment income of Dalian Alps was enlarged and the Group's effective equity interest in Dalian Alps was diluted to 49% as a result of new capital contribution being injected in form of reinvestment of profits by other joint venturer (the "Deemed Disposal"). Before the Deemed Disposal, the Group owned 50% interest in Dalian Alps and the investment was previously accounted for as an investment in a joint venture using the equity method of accounting. Upon the completion of the Deemed Disposal, the Dalian Alps continued to be classified a joint venture. This transaction has resulted in the Group recognising a gain of deemed disposal of approximately RMB243,000 in profit or loss.

The Group holds 49% of the registered capital of Tianjin Alps. However, under the articles of association, the major financing and operational decision of Tianjin Alps should be unanimously approved by the Group and other venture. Therefore, Tianjin Alps is regarded as joint venture of the Group.

On 5 November 2024, the Group disposed of 60% of the equity interest in Tedahang, a joint venture of the Group, through a public listing, and obtained a gain of \$24,124,000. Prior to the disposal, the Group owned 60% of the equity interest in Tedahang, which had previously been invested in the joint venture using the equity accounting method.

(b) 於合營公司的投資 *(續)*

附註：

截至2024年12月31日止年度，經其他合營公司以利潤再投資的方式進行新一輪注資（「視作出售事項」），已增加大連阿爾卑斯的投資收益，本集團於大連阿爾卑斯的實際股權被攤薄至49%。於視作出售事項前，本集團擁有大連阿爾卑斯50%的權益，且先前乃採用權益核算法將投資入賬列作於合營公司的投資。於視作出售事項完成後，大連阿爾卑斯仍歸類為合營公司。該項交易導致本集團於損益中確認視作出售事項的收益約人民幣243,000元。

In addition, the Group reassesses whether it is reasonably certain to exercise an extension option, or not to exercise a termination option, upon the occurrence of either a significant event or a significant change in circumstances that is within the control of the lessee. During the year, there is no such triggering event (2023: Nil). Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

15. INVESTMENT PROPERTIES (Continued)

Fair value (Continued)

In estimating the fair values of the properties, their current use equates to the highest and best use of the properties.

At each financial year end, the management of the Group will (i) verify all major inputs to the independent valuation report; (ii) assess property valuations movements when compared to the prior year valuation report; and (iii) holds discussion with the independent valuer.

The Group's policy is to recognise transfers into and transfer out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

For the years ended 31 December 2024 and 2023, the investment properties were classified as level 3 under the fair value hierarchy (2023: level 3).
